On November 6, 2020, the Company resolved to merge the Mobile Instrument Retirement Plan into the Plan, effective December 17, 2020.

Eligibility: Qualified employees, as defined, are immediately eligible to participate in the Plan on their employment start date, as defined by the Plan.

Contributions: The Plan's participants may contribute annually up to a total of 60% of their base compensation before taxes, subject to Internal Revenue Service (IRS) limitations. The participants may also contribute up to 100% of after-tax compensation. Eligible participants are automatically enrolled, on their employment start date, and 3% of eligible participant compensation is automatically deducted as a pretax salary deferral contribution to the Plan, unless otherwise directed by the participant. The Plan also provides for employer matching contributions, which are made at the discretion of the Company's Board of Directors. The Company currently provides an employer matching contribution of 50% of the first 6% of participant deferral contributions. Additional employer contributions may be made at the discretion of the Board of Directors. There were no additional employer contributions made to the Plan during the year ended December 31, 2020.

Participant accounts: Participants, at their discretion, may direct contributions in whole percentage increments in any of the Plan's various investment options, as more fully described in the Plan's literature. Contributions may be allocated entirely to one fund or a combination of funds and may be changed at any time. Company contributions are allocated among the investment funds in the same manner as participant contributions. Each participant's account is credited with the participant's and the Company's contributions, if any, and an allocation of Plan investment results and administrative expenses. Investment results and administrative expenses are allocated to participant accounts in the proportion that each participant's account balance bears to the total of all participant accounts by fund, or specific participant transactions, as defined. The benefit to which a participant is entitled is equal to the vested balance in the participant's accounts.

Vesting: Participants are fully vested in their own contributions at all times. Company contributions, plus actual earnings therein, vest at a ratio of 33% per year beginning after one year of service until fully vested after three years of service. Participants also become fully vested in Company contributions, plus actual earnings thereon, upon death, permanent disability, the attainment of age 65 or Plan termination.

Forfeited accounts: Forfeited nonvested accounts are used to fund future Company contributions. For the year ended December 31, 2020, Company contributions were partially funded by approximately \$237,000 from forfeited nonvested accounts. There were no forfeited nonvested accounts at December 31, 2020 or 2019.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their accounts up to a maximum of the lesser of 50% of their vested account balance or \$50,000, with a \$1,000 minimum. Note terms are up to five years or up to 10 years for the purchase of a principal residence. The notes are collateralized by the participant's account and bear interest at a fixed rate of one percentage point above the prime rate at the time of note origination. These notes were established in the predecessor plan at an interest rate significantly below current note terms. Notes receivable from participants are due in biweekly installments of principal and interest, generally through payroll deductions. Notes receivable from participants at December 31, 2020, have interest rates ranging from 4.25% to 8.25% and mature at various dates through October 2030.

Benefits paid to participants: The Plan provides for distributions upon retirement, death, disability or other termination of employment. If the vested account balance is greater than \$5,000, the participant or beneficiary may elect to receive a lump-sum account, have the balance paid directly to an eligible retirement plan, receive benefits in the form of installments over time, or defer the payment of benefits. Distribution of benefits upon termination become automatic if the participant's account balance is \$5,000 or less. Participants with an account balance less than \$5,000 but greater than \$1,000 are automatically rolled over to an individual retirement account or annuity (IRA), unless otherwise elected. Those balances less than \$1,000 receive a lump-sum payment. Participants may also withdraw funds derived from their own contributions to the Plan in the event of hardship, as defined by the Plan, or upon attainment of age 59½.

CARES Act: On March 27, 2020, the Coronavirus Aid, Relief, and Economics Security Act (CARES Act) was enacted in response to the 2019 novel coronavirus (COVID-19) pandemic. During 2020, the Plan implemented certain CARES Act provisions to allow for special coronavirus-related distributions, which allows eligible participants who are impacted by COVID-19 to withdraw up to \$100,000 from their account without penalty regardless of their age, an increase in Plan loan amounts, and deferral of loan payments. Additionally, the CARES Act suspended required minimum distributions for 2020.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: The Plan's investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrative Committee determines the Plan's valuation policies utilizing information provided by its investment advisors and the Plan's trustee. See Note 5 for a discussion of fair value measurements.

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized gains and losses related to sales of investments are recorded on a trade-date basis, and unrealized gains and losses are recorded based on the fair values as of the reporting dates.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, line 4i—schedule of assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Administrative expenses: Substantially all administrative expenses are paid by the Plan. In addition, certain investment-related expenses are included as an offset to net appreciation in fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2020 statement of net assets available for benefits.

Subsequent events: The Plan Administrator has evaluated subsequent events through January 9, 2023, the date the financial statements were available to be issued. Subsequent to December 31, 2020, the Plan merged in the Northfield Medical, Inc. Retirement Savings Plan and Sizewise Rentals, LLC 401(k) Plan effective February 1, 2022, and January 1, 2023, respectively.

Note 3. Restatement for Plan Merger

The Plan's financial statements as of and for the year ended December 31, 2020, contained an error in the reporting of a Plan merger.

The Plan was amended effective December 15, 2020, to merge in the Mobile Instrument Retirement Plan. As such, on December 17, 2020, control of the assets transferred from the Mobile Instrument Retirement Plan, totaling approximately \$7.5 million, and have been reported as Plan assets for the year ended December 31, 2020, and included in the transfers from merged plans on the statement of changes in net assets available for benefits for the year ended December 31, 2020.

A summary of the changes in the statement of net assets available for benefits and transfers from merged plans as of and for the year ended December 31, 2020, as originally reported and as restated, is below.

	As Originally Reported	Restatement Effect	As Restated
Interest-bearing cash	\$ -	\$ 7,533,201	\$ 7,533,201

Note 3. Restatement for Plan Merger (Continued)

There was no impact on the net increase prior to transfers on the statement of changes in net assets available for benefits for the years ended December 31, 2020 and 2019, as a result of the restatement. There was no impact to the statements of net assets available for benefits as of December 31, 2019, as a result of the restatement.

Note 4. Information Certified or Provided by Fidelity Management Trust Company

The following is a summary of the Plan's asset information as of December 31, 2020 and 2019, and for the year ended December 31, 2020, included throughout the Plan's financial statements and supplemental schedule, that was prepared or derived from information provided by Fidelity Management Trust Company (the trustee) and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that the information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2020	
	(Restated)	2019
Investments, at fair value:		
Registered investment companies	\$ 138,630,770	\$ 107,922,692
Collective trust fund	6,539,792	4,342,112
Interest-bearing cash (as restated)	7,533,201	-
Notes receivable from participants	3,606,393	3,433,467

Fidelity Management Trust Company also certified to the completeness and accuracy of \$18,863,317 of net appreciation in fair value of investments, \$4,240,471 of interest and dividends related to the aforementioned investments, and \$200,826 of interest income on notes receivable from participants for the year ended December 31, 2020.

Note 5. Fair Value Measurements

Accounting standards established the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets

Agiliti 401(k)

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Registered investment companies: Shares in registered investment companies (mutual funds) are valued at the quoted market price of shares held by the Plan at year-end in the active market on which the individual securities are traded.

Collective trust fund: The collective trust fund is valued based on the net asset value (NAV) of underlying assets that are composed of investment contracts and security-backed contracts. The NAV, as provided by the trustee, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investment comprising the targets less their liabilities.

Interest-bearing cash: The interest-bearing cash account is valued at cost plus accrued income, which approximates fair value measured by similar assets in active markets.

The methods described above may produce fair values that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020 and 2019:

	Investments at Fair Value as of December 31, 2020 (Restated)			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 138,630,770	\$ -	\$ -	\$ 138,630,770
Interest-bearing cash (as restated)	7,533,201	-	-	7,533,201
Investments measured at NAV (a)				6,539,792
Total assets at fair value (as restated)				<u>\$ 152,703,763</u>

Agiliti 401(k)

Notes to Financial Statements

Note 5. Fair Value Measurements (Continued)

	Investments at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 107,922,692	\$ -	\$ -	\$ 107,922,692
Investments measured at NAV (a)				4,342,112
Total assets at fair value				<u>\$ 112,264,804</u>

- (a) In accordance with Subtopic 820-10, certain investments that were measured at NAV or its equivalent have not been classified in the fair value hierarchy. The fair value amounts in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

Net asset value: The Plan follows guidance on how entities should estimate the fair value of certain alternative investments. The fair value of investments within the scope of the guidance can be determined using NAV per share as a practical expedient, when fair value is not readily determinable, unless it is probable the investment will be sold at something other than NAV. The following table includes categories of investments where NAV is available as a practical expedient:

Investment	Fair Value at December 31		Redemption Frequency and Notice Period
	2020	2019	
Fidelity Managed Income Portfolio	\$ 6,539,792	\$ 4,342,112	Redemption must be made within 1 year of notice by Plan

There are no unfunded commitments related to this investment. The redemption notice period disclosed in the table above reflects the notice period required if the Plan withdraws from the investment. There is no redemption notice period required for individual participants who choose to withdraw from the investment.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, all participants will become 100% vested in their accounts.

Note 7. Related-Party and Party-in-Interest Transactions

Certain Plan investments are shares of registered investment companies and a collective trust fund managed by affiliates of Fidelity Management Trust Company, the trustee, as defined by the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services were included as a reduction of the return of each fund.

Note 8. Tax Status

Effective January 4, 2016, the Plan adopted a volume submitter defined contribution plan sponsored by Fidelity Management & Research Company. The volume submitter plan has received an opinion letter dated March 31, 2014, from the IRS as to the volume submitter plan's qualified status. The volume submitter plan opinion letter has been relied upon by this Plan. The Plan has been amended subsequent to the version covered by the volume submitter plan's determination letter. However, the Plan Administrator believes the Plan is designed and being operated in compliance with the applicable provisions of the Code.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9. Reconciliation of Financial Statements to Form 5500
