INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan and its Participants:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of March 31, 2022 and December 31, 2021, and the related statement of changes in net assets available for benefits for the period from January 1, 2022 through March 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of March 31, 2022 and December 31, 2021, and for the period from January 1, 2022 through March 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of delinquent participant contributions for the period from January 1, 2022 through March 31, 2022 is presented for the purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was a defined contribution plan, which was established on October 1, 1995 by Advanced Technologies and Laboratories (ATL) International, Inc. (the Company). The Plan covered substantially all eligible employees of the Company excluding employees covered by a collective bargaining agreement unless the agreement requires of the employees to be included under the Plan. The employees could enter the Plan on the first day of the month subsequent to their hire date. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator oversaw governance of the Plan, determined the appropriateness of the Plan's investment offerings, and monitored investment performance.

The Plan was most recently amended effective April 1, 2022 to merge the Plan into the Planned Systems International, Inc. 401(k) Plan (Note 5).

Participant Contributions

Participants could contribute up to 60% of their gross compensation on a pre-tax basis, as defined by the Plan, not to exceed the maximum allowable contribution limit under the Internal Revenue Code (the Code), which totaled \$20,500 for the calendar year ended December 31, 2022. Participants who attained age 50 before the end of the Plan year could make additional catch-up contributions up to \$6,500, subject to limitations imposed by the Code. Participants were permitted to make rollover contributions to the Plan.

Company Contributions

The Plan allowed for the Company to make a discretionary matching contribution to the Plan each year. A participant must have completed at least 501 hours of service during the Plan year to be eligible to receive the discretionary Company matching contribution. As the Plan was frozen on December 31, 2021 (Note 5), the Company did not make any discretionary matching contributions during the period from January 1, 2022 through March 31, 2022.

1. DESCRIPTION OF THE PLAN - cont'd.

Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's discretionary matching contributions, if any, and an allocation of Plan earnings and administrative expenses. Allocations were based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the vested portion of the participant's account.

Vesting

Participants were immediately vested in their contributions, plus actual earnings thereon. Effective July 2, 2021, the Plan was amended to make all participants 100% vested in Company matching contributions. For Company discretionary matching contributions made prior to July 2, 2021, vesting was based on years of continuous service, as defined by the Plan, according to the following graduated vesting schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4 or more	100%

In addition, prior to July 2, 2021, upon reaching normal retirement age (age 65), death, or disability during employment at the Company, a participant became 100% vested in his or her Company discretionary matching contributions.

Payment of Benefits

Upon termination of service due to death, disability, normal retirement age, or attainment of age 65 or early retirement at age 55 with three years of service, a participant or his or her beneficiary, in the event of death, was entitled to a distribution of their vested account balance. Distributions from the Plan were payable in the form of a lump sum or installment payments equal to the value of the participant's vested interest in his or her account. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed could be withdrawn for a hardship purpose. In all cases, certain income tax penalties could apply to withdrawals or distributions prior to age 59½. Distributions were subject to the applicable provisions of the Plan agreement. As of March 31, 2022 and December 31, 2021, there were no net assets of the Plan allocated to participants who had elected to withdraw from the Plan but had not received such distributions prior to March 31, 2022 and December 31, 2021, respectively.

1. DESCRIPTION OF THE PLAN - cont'd.

Forfeitures

Forfeitures resulting from unvested Company contributions were used to reduce future Company contributions. As of March 31, 2022 and December 31, 2021, the Plan did not have any forfeitures available to reduce future Company contributions. There were no forfeitures used to offset Company contributions during the period from January 1, 2022 through March 31, 2022.

Notes Receivable from Participants

Participants could borrow up to 50% of their vested account balance not to exceed \$50,000. The minimum note amount was \$1,000. The notes were collateralized by the participant's vested account balance. The period of repayment could not exceed five years or ten years for the purchase of a primary residence. All notes bore interest at rates comparable to those offered by financial institutions at the time of note origination, as determined by the Plan Sponsor. Principal and interest were paid ratably through payroll deductions.

Plan Expenses

Expenses incurred in the administration of the Plan were required to be paid by the Trustee with net assets of the Plan unless paid by the Company, at its discretion. A portion of the Plan's direct expenses were paid by the Company during the period from January 1, 2022 through March 31, 2022. Administrative expenses totaling \$1,311 were paid directly from the Plan during the period from January 1, 2022 through March 31, 2022.

Loan and distribution fees were paid by the Plan and its participants. Investment related expenses are included in net depreciation in fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein at the date of the financial statements and reported amounts of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Risks and Uncertainties

The Plan provided for investments in assets that were exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities could have occurred that materially affected participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan's gains and losses on investments bought and sold as well as held during the period.

Fair Value Measurement

Accounting Standards Codification, *Fair Value Measurement* (ASC 820), defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont’d.

Fair Value Measurement – cont’d.

The assets’ or liabilities’ fair value measurement level within the fair value hierarchy are based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Interest-bearing cash: Valued at amortized cost, which approximates fair value.

Interests in registered investment companies: Valued at the closing price reported on the active market on which the funds are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of March 31, 2022 and December 31, 2021.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Interest-bearing cash	\$ 196,713	\$ -	\$ -	\$ 196,713
Interests in registered investment companies	11,659,786	-	-	11,659,786
Total Investments, at fair value	\$ 11,856,499	\$ -	\$ -	\$ 11,856,499

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Notes became due immediately upon termination of a participant’s employment. Delinquent notes were treated as distributions based on the terms of the Plan agreement.

Payment of Benefits

Benefit payments were recorded when paid.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through January 5, 2023, the date the financial statements were available to be issued, and determined that there were no material subsequent events that required disclosure.

3. INVESTMENTS

All investment information contained in the accompany financial statements as of March 31, 2022 and December 31, 2021, and interest and dividend income and net realized and unrealized depreciation in the fair value of investments for the period from January 1, 2022 through March 31, 2022, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the Trustee of the Plan.

4. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by an affiliate of the Trustee of the Plan. The Plan allowed for participants to take loans against their vested account balances. The Company provided the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualified as party-in-interest transactions, which were exempt from the prohibited transaction rules.

5. PLAN MERGER

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would have become 100% vested in their accounts. While not a Plan termination, as further described below, the Plan did merge into the Planned Systems International, Inc. 401(k) Plan (the PSI Plan) effective April 1, 2022.

Effective January 31, 2019, the Company was acquired by and became a wholly-owned subsidiary of Planned Systems International, Inc. (PSI). As part of the acquisition, PSI also acquired and maintained the Plan.

On December 31, 2021, the Plan was amended to freeze the Plan. On January 1, 2022, all participants in the Plan became eligible to participate in the PSI Plan. In conjunction with this transaction, the balance of the notes receivable from participants of \$76,139 were transferred from the Plan to the PSI Plan.

5. PLAN MERGER – cont’d.

Effective April 1, 2022, the Plan merged with the PSI Plan and, on March 31, 2022, investments totaling \$8,624,366 held by Fidelity Management Trust Company as the Trustee were transferred to the PSI Plan, held by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the Custodian and Trustee of the PSI Plan, respectively. Additionally, the 2021 Company matching contribution receivable of \$175,167 was transferred to the PSI Plan and was contributed to participants’ PSI Plan accounts subsequent to the merger. As a result of this change, a blackout period was in effect from March 23, 2022 through April 22, 2022, for loans, distributions, and investment allocation changes. During this time, participants were unable to direct or diversify their investments in the PSI Plan. Participants were, however, able to make contributions to the PSI Plan during the blackout period.

6. INCOME TAX STATUS

The pre-approved plan document, upon which the Plan was designed, received a favorable opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the Plan is qualified under Section 401(a) of the Code and therefore is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan was amended and restated subsequent to receiving the opinion letter; however, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. As the Plan was tax exempt and had no unrelated business income, these provisions of ASC 740 did not have an impact on the Plan’s financial statements. The Plan recognized interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of March 31, 2022 and December 31, 2021.

The Plan was subject to routine audits by the IRS and Department of Labor; however, there are currently no audits in progress for any open periods.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan and its Participants:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of March 31, 2022 and December 31, 2021, and the related statement of changes in net assets available for benefits for the period from January 1, 2022 through March 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of March 31, 2022 and December 31, 2021, and for the period from January 1, 2022 through March 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of delinquent participant contributions for the period from January 1, 2022 through March 31, 2022 is presented for the purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was a defined contribution plan, which was established on October 1, 1995 by Advanced Technologies and Laboratories (ATL) International, Inc. (the Company). The Plan covered substantially all eligible employees of the Company excluding employees covered by a collective bargaining agreement unless the agreement requires of the employees to be included under the Plan. The employees could enter the Plan on the first day of the month subsequent to their hire date. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator oversaw governance of the Plan, determined the appropriateness of the Plan's investment offerings, and monitored investment performance.

The Plan was most recently amended effective April 1, 2022 to merge the Plan into the Planned Systems International, Inc. 401(k) Plan (Note 5).

Participant Contributions

Participants could contribute up to 60% of their gross compensation on a pre-tax basis, as defined by the Plan, not to exceed the maximum allowable contribution limit under the Internal Revenue Code (the Code), which totaled \$20,500 for the calendar year ended December 31, 2022. Participants who attained age 50 before the end of the Plan year could make additional catch-up contributions up to \$6,500, subject to limitations imposed by the Code. Participants were permitted to make rollover contributions to the Plan.

Company Contributions

The Plan allowed for the Company to make a discretionary matching contribution to the Plan each year. A participant must have completed at least 501 hours of service during the Plan year to be eligible to receive the discretionary Company matching contribution. As the Plan was frozen on December 31, 2021 (Note 5), the Company did not make any discretionary matching contributions during the period from January 1, 2022 through March 31, 2022.

1. DESCRIPTION OF THE PLAN - cont'd.

Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's discretionary matching contributions, if any, and an allocation of Plan earnings and administrative expenses. Allocations were based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the vested portion of the participant's account.

Vesting

Participants were immediately vested in their contributions, plus actual earnings thereon. Effective July 2, 2021, the Plan was amended to make all participants 100% vested in Company matching contributions. For Company discretionary matching contributions made prior to July 2, 2021, vesting was based on years of continuous service, as defined by the Plan, according to the following graduated vesting schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4 or more	100%

In addition, prior to July 2, 2021, upon reaching normal retirement age (age 65), death, or disability during employment at the Company, a participant became 100% vested in his or her Company discretionary matching contributions.

Payment of Benefits

Upon termination of service due to death, disability, normal retirement age, or attainment of age 65 or early retirement at age 55 with three years of service, a participant or his or her beneficiary, in the event of death, was entitled to a distribution of their vested account balance. Distributions from the Plan were payable in the form of a lump sum or installment payments equal to the value of the participant's vested interest in his or her account. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed could be withdrawn for a hardship purpose. In all cases, certain income tax penalties could apply to withdrawals or distributions prior to age 59½. Distributions were subject to the applicable provisions of the Plan agreement. As of March 31, 2022 and December 31, 2021, there were no net assets of the Plan allocated to participants who had elected to withdraw from the Plan but had not received such distributions prior to March 31, 2022 and December 31, 2021, respectively.

1. DESCRIPTION OF THE PLAN - cont'd.

Forfeitures

Forfeitures resulting from unvested Company contributions were used to reduce future Company contributions. As of March 31, 2022 and December 31, 2021, the Plan did not have any forfeitures available to reduce future Company contributions. There were no forfeitures used to offset Company contributions during the period from January 1, 2022 through March 31, 2022.

Notes Receivable from Participants

Participants could borrow up to 50% of their vested account balance not to exceed \$50,000. The minimum note amount was \$1,000. The notes were collateralized by the participant's vested account balance. The period of repayment could not exceed five years or ten years for the purchase of a primary residence. All notes bore interest at rates comparable to those offered by financial institutions at the time of note origination, as determined by the Plan Sponsor. Principal and interest were paid ratably through payroll deductions.

Plan Expenses

Expenses incurred in the administration of the Plan were required to be paid by the Trustee with net assets of the Plan unless paid by the Company, at its discretion. A portion of the Plan's direct expenses were paid by the Company during the period from January 1, 2022 through March 31, 2022. Administrative expenses totaling \$1,311 were paid directly from the Plan during the period from January 1, 2022 through March 31, 2022.

Loan and distribution fees were paid by the Plan and its participants. Investment related expenses are included in net depreciation in fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein at the date of the financial statements and reported amounts of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont’d.

Risks and Uncertainties

The Plan provided for investments in assets that were exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities could have occurred that materially affected participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan’s gains and losses on investments bought and sold as well as held during the period.

Fair Value Measurement

Accounting Standards Codification, *Fair Value Measurement* (ASC 820), defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont’d.

Fair Value Measurement – cont’d.

The assets’ or liabilities’ fair value measurement level within the fair value hierarchy are based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Interest-bearing cash: Valued at amortized cost, which approximates fair value.

Interests in registered investment companies: Valued at the closing price reported on the active market on which the funds are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of March 31, 2022 and December 31, 2021.

The following table sets forth by level, within the fair value hierarchy, the Plan’s investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Interest-bearing cash	\$ 196,713	\$ -	\$ -	\$ 196,713
Interests in registered investment companies	11,659,786	-	-	11,659,786
Total Investments, at fair value	\$ 11,856,499	\$ -	\$ -	\$ 11,856,499

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Notes became due immediately upon termination of a participant’s employment. Delinquent notes were treated as distributions based on the terms of the Plan agreement.

Payment of Benefits

Benefit payments were recorded when paid.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through January 5, 2023, the date the financial statements were available to be issued, and determined that there were no material subsequent events that required disclosure.

3. INVESTMENTS

All investment information contained in the accompany financial statements as of March 31, 2022 and December 31, 2021, and interest and dividend income and net realized and unrealized depreciation in the fair value of investments for the period from January 1, 2022 through March 31, 2022, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the Trustee of the Plan.

4. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by an affiliate of the Trustee of the Plan. The Plan allowed for participants to take loans against their vested account balances. The Company provided the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualified as party-in-interest transactions, which were exempt from the prohibited transaction rules.

5. PLAN MERGER

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would have become 100% vested in their accounts. While not a Plan termination, as further described below, the Plan did merge into the Planned Systems International, Inc. 401(k) Plan (the PSI Plan) effective April 1, 2022.

Effective January 31, 2019, the Company was acquired by and became a wholly-owned subsidiary of Planned Systems International, Inc. (PSI). As part of the acquisition, PSI also acquired and maintained the Plan.

On December 31, 2021, the Plan was amended to freeze the Plan. On January 1, 2022, all participants in the Plan became eligible to participate in the PSI Plan. In conjunction with this transaction, the balance of the notes receivable from participants of \$76,139 were transferred from the Plan to the PSI Plan.

5. PLAN MERGER – cont’d.

Effective April 1, 2022, the Plan merged with the PSI Plan and, on March 31, 2022, investments totaling \$8,624,366 held by Fidelity Management Trust Company as the Trustee were transferred to the PSI Plan, held by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the Custodian and Trustee of the PSI Plan, respectively. Additionally, the 2021 Company matching contribution receivable of \$175,167 was transferred to the PSI Plan and was contributed to participants’ PSI Plan accounts subsequent to the merger. As a result of this change, a blackout period was in effect from March 23, 2022 through April 22, 2022, for loans, distributions, and investment allocation changes. During this time, participants were unable to direct or diversify their investments in the PSI Plan. Participants were, however, able to make contributions to the PSI Plan during the blackout period.

6. INCOME TAX STATUS

The pre-approved plan document, upon which the Plan was designed, received a favorable opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the Plan is qualified under Section 401(a) of the Code and therefore is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan was amended and restated subsequent to receiving the opinion letter; however, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. As the Plan was tax exempt and had no unrelated business income, these provisions of ASC 740 did not have an impact on the Plan’s financial statements. The Plan recognized interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of March 31, 2022 and December 31, 2021.

The Plan was subject to routine audits by the IRS and Department of Labor; however, there are currently no audits in progress for any open periods.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the
Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan and its Participants:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audits

We have performed audits of the accompanying financial statements of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of March 31, 2022 and December 31, 2021, and the related statement of changes in net assets available for benefits for the period from January 1, 2022 through March 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of March 31, 2022 and December 31, 2021, and for the period from January 1, 2022 through March 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audits, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedule Required by ERISA

The supplemental schedule of delinquent participant contributions for the period from January 1, 2022 through March 31, 2022 is presented for the purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2022 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. DESCRIPTION OF THE PLAN

The following description of the Advanced Technologies and Laboratories (ATL) International, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan was a defined contribution plan, which was established on October 1, 1995 by Advanced Technologies and Laboratories (ATL) International, Inc. (the Company). The Plan covered substantially all eligible employees of the Company excluding employees covered by a collective bargaining agreement unless the agreement requires of the employees to be included under the Plan. The employees could enter the Plan on the first day of the month subsequent to their hire date. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan administrator oversaw governance of the Plan, determined the appropriateness of the Plan's investment offerings, and monitored investment performance.

The Plan was most recently amended effective April 1, 2022 to merge the Plan into the Planned Systems International, Inc. 401(k) Plan (Note 5).

Participant Contributions

Participants could contribute up to 60% of their gross compensation on a pre-tax basis, as defined by the Plan, not to exceed the maximum allowable contribution limit under the Internal Revenue Code (the Code), which totaled \$20,500 for the calendar year ended December 31, 2022. Participants who attained age 50 before the end of the Plan year could make additional catch-up contributions up to \$6,500, subject to limitations imposed by the Code. Participants were permitted to make rollover contributions to the Plan.

Company Contributions

The Plan allowed for the Company to make a discretionary matching contribution to the Plan each year. A participant must have completed at least 501 hours of service during the Plan year to be eligible to receive the discretionary Company matching contribution. As the Plan was frozen on December 31, 2021 (Note 5), the Company did not make any discretionary matching contributions during the period from January 1, 2022 through March 31, 2022.

1. DESCRIPTION OF THE PLAN - cont'd.

Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's discretionary matching contributions, if any, and an allocation of Plan earnings and administrative expenses. Allocations were based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant was entitled was the benefit that could be provided from the vested portion of the participant's account.

Vesting

Participants were immediately vested in their contributions, plus actual earnings thereon. Effective July 2, 2021, the Plan was amended to make all participants 100% vested in Company matching contributions. For Company discretionary matching contributions made prior to July 2, 2021, vesting was based on years of continuous service, as defined by the Plan, according to the following graduated vesting schedule:

<u>Years of Service</u>	<u>Vested Percentage</u>
Less than 2	0%
2	20%
3	40%
4 or more	100%

In addition, prior to July 2, 2021, upon reaching normal retirement age (age 65), death, or disability during employment at the Company, a participant became 100% vested in his or her Company discretionary matching contributions.

Payment of Benefits

Upon termination of service due to death, disability, normal retirement age, or attainment of age 65 or early retirement at age 55 with three years of service, a participant or his or her beneficiary, in the event of death, was entitled to a distribution of their vested account balance. Distributions from the Plan were payable in the form of a lump sum or installment payments equal to the value of the participant's vested interest in his or her account. Upon proof, to the satisfaction of the Plan administrator, of an immediate and heavy financial need, amounts contributed could be withdrawn for a hardship purpose. In all cases, certain income tax penalties could apply to withdrawals or distributions prior to age 59½. Distributions were subject to the applicable provisions of the Plan agreement. As of March 31, 2022 and December 31, 2021, there were no net assets of the Plan allocated to participants who had elected to withdraw from the Plan but had not received such distributions prior to March 31, 2022 and December 31, 2021, respectively.

1. DESCRIPTION OF THE PLAN - cont'd.

Forfeitures

Forfeitures resulting from unvested Company contributions were used to reduce future Company contributions. As of March 31, 2022 and December 31, 2021, the Plan did not have any forfeitures available to reduce future Company contributions. There were no forfeitures used to offset Company contributions during the period from January 1, 2022 through March 31, 2022.

Notes Receivable from Participants

Participants could borrow up to 50% of their vested account balance not to exceed \$50,000. The minimum note amount was \$1,000. The notes were collateralized by the participant's vested account balance. The period of repayment could not exceed five years or ten years for the purchase of a primary residence. All notes bore interest at rates comparable to those offered by financial institutions at the time of note origination, as determined by the Plan Sponsor. Principal and interest were paid ratably through payroll deductions.

Plan Expenses

Expenses incurred in the administration of the Plan were required to be paid by the Trustee with net assets of the Plan unless paid by the Company, at its discretion. A portion of the Plan's direct expenses were paid by the Company during the period from January 1, 2022 through March 31, 2022. Administrative expenses totaling \$1,311 were paid directly from the Plan during the period from January 1, 2022 through March 31, 2022.

Loan and distribution fees were paid by the Plan and its participants. Investment related expenses are included in net depreciation in fair value of investments.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and disclosure of contingent assets and liabilities and changes therein at the date of the financial statements and reported amounts of additions to net assets available for benefits and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Risks and Uncertainties

The Plan provided for investments in assets that were exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it was reasonably possible that changes in the values of investment securities could have occurred that materially affected participant account balances and the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments were reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities were recorded on a trade-date basis. Interest income was recorded on the accrual basis. Dividends were recorded on the ex-dividend date. Net depreciation included the Plan's gains and losses on investments bought and sold as well as held during the period.

Fair Value Measurement

Accounting Standards Codification, *Fair Value Measurement* (ASC 820), defines fair value and establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Fair Value Measurement – cont'd.

The assets' or liabilities' fair value measurement level within the fair value hierarchy are based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Interest-bearing cash: Valued at amortized cost, which approximates fair value.

Interests in registered investment companies: Valued at the closing price reported on the active market on which the funds are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used as of March 31, 2022 and December 31, 2021.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Interest-bearing cash	\$ 196,713	\$ -	\$ -	\$ 196,713
Interests in registered investment companies	11,659,786	-	-	11,659,786
Total Investments, at fair value	\$ 11,856,499	\$ -	\$ -	\$ 11,856,499

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Notes became due immediately upon termination of a participant's employment. Delinquent notes were treated as distributions based on the terms of the Plan agreement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – cont'd.

Payment of Benefits

Benefit payments were recorded when paid.

Subsequent Events

The Plan evaluated for disclosure any subsequent events through January 5, 2023, the date the financial statements were available to be issued, and determined that there were no material subsequent events that required disclosure.

3. INVESTMENTS

All investment information contained in the accompany financial statements as of March 31, 2022 and December 31, 2021, and interest and dividend income and net realized and unrealized depreciation in the fair value of investments for the period from January 1, 2022 through March 31, 2022, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity Management Trust Company, the Trustee of the Plan.

4. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were managed by an affiliate of the Trustee of the Plan. The Plan allowed for participants to take loans against their vested account balances. The Company provided the Plan with certain accounting and administrative services for which no fees are charged. All such transactions qualified as party-in-interest transactions, which were exempt from the prohibited transaction rules.

5. PLAN MERGER

The Company had the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would have become 100% vested in their accounts. While not a Plan termination, as further described below, the Plan did merge into the Planned Systems International, Inc. 401(k) Plan (the PSI Plan) effective April 1, 2022.

Effective January 31, 2019, the Company was acquired by and became a wholly-owned subsidiary of Planned Systems International, Inc. (PSI). As part of the acquisition, PSI also acquired and maintained the Plan.

On December 31, 2021, the Plan was amended to freeze the Plan. On January 1, 2022, all participants in the Plan became eligible to participate in the PSI Plan. In conjunction with this transaction, the balance of the notes receivable from participants of \$76,139 were transferred from the Plan to the PSI Plan.

5. PLAN MERGER – cont’d.

Effective April 1, 2022, the Plan merged with the PSI Plan and, on March 31, 2022, investments totaling \$8,624,366 held by Fidelity Management Trust Company as the Trustee were transferred to the PSI Plan, held by Great-West Life & Annuity Insurance Company and Great-West Trust Company, LLC, the Custodian and Trustee of the PSI Plan, respectively. Additionally, the 2021 Company matching contribution receivable of \$175,167 was transferred to the PSI Plan and was contributed to participants’ PSI Plan accounts subsequent to the merger. As a result of this change, a blackout period was in effect from March 23, 2022 through April 22, 2022, for loans, distributions, and investment allocation changes. During this time, participants were unable to direct or diversify their investments in the PSI Plan. Participants were, however, able to make contributions to the PSI Plan during the blackout period.

6. INCOME TAX STATUS

The pre-approved plan document, upon which the Plan was designed, received a favorable opinion letter from the Internal Revenue Service (IRS) dated June 30, 2020, stating that the Plan is qualified under Section 401(a) of the Code and therefore is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan was amended and restated subsequent to receiving the opinion letter; however, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

ASC 740, *Income Taxes*, prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return as well as guidance on de-recognition, classification, interest and penalties and financial statement reporting disclosures. For these benefits to be recognized, a tax position must be more-likely-than-not to be sustained upon examination by taxing authorities. As the Plan was tax exempt and had no unrelated business income, these provisions of ASC 740 did not have an impact on the Plan’s financial statements. The Plan recognized interest and penalties accrued on any unrecognized tax exposures as a component of income tax expense. The Plan does not have any amounts accrued relating to interest and penalties as of March 31, 2022 and December 31, 2021.

The Plan was subject to routine audits by the IRS and Department of Labor; however, there are currently no audits in progress for any open periods.
