Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Start Early (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2021, and schedule of assets (held at end of year) as of December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 16, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Start Early (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established on January 1, 2000, covering all employees of Start Early (the Company). Participants have a one-month eligibility requirement with respect to elective deferral contributions and a one-year eligibility requirement with respect to Company contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Participants may contribute up to 90% of their pretax annual compensation. All new employees are automatically enrolled in the Plan at a 5% pretax payroll deduction unless they opt out. The Plan also includes an auto-escalation feature whereby any participant contributing less than 10% of their compensation will have their contribution increased by 1% at July 1 of each year until it reaches 10%, unless they opt out of the auto-escalation feature or do not enroll in payroll deductions. Effective January 1, 2021, the Plan allowed Roth contributions into the Plan. The Plan provides that the participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make catch-up contributions. Participants may also contribute amounts representing distributions or rollovers from other qualified defined benefit or defined contribution plans. Contributions are limited to the amounts defined by the Internal Revenue Code (IRC).

At its discretion, the Company may make discretionary non-elective Company contributions to the Plan. The discretionary contribution formula adopted for the year ended December 31, 2021, was 3.83% of each employee's compensation beginning in the first quarter after the employee had completed one full year of service with the Company and at least 1,000 hours of service.

Investment options: Participants may direct the investment of their accounts among the various investment funds provided under the Plan. Participants may change their investment selections in accordance with the rules established by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contributions and (2) the Plan's earnings or losses as well as administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants: Loans are limited to one per year and one at a time. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the excess of the participant's highest outstanding loan balance on their account during the prior 12-month period, or 50% of their account balance. The loans are secured by the balance in the participant's accounts. Loans shall bear interest at prime plus 1%. Participants request loans and determine the length of payback up to five years, or 10 years for a home loan, which is repaid through payroll deductions.

Start Early

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Vesting: Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested for company contributions, after three years of credited service, as shown below:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	66%
3	100%

Payment of benefits: Upon death, disability, retirement or termination of service, a participant may receive a lump-sum distribution or a partial distribution amount equal to the vested value of his or her account. In-service withdrawals may be made due to financial hardship, rollovers and participants reaching age 59-1/2, as defined by the Plan.

Forfeited accounts: At December 31, 2021 and 2020, forfeited non-vested accounts totaled \$11,180 and \$23,668, respectively. These accounts can be used to reduce future Company contributions or applied in payment of administrative expenses. The Company used \$4,187 and \$30,312 of forfeitures to reduce Company contributions and pay administrative expenses, respectively during 2021.

Revenue-sharing income: The Plan has a revenue-sharing arrangement with Fidelity Management Trust Company (Fidelity), whereby Fidelity agrees to deposit recordkeeping revenue in excess of the agreed-upon compensation. The Company may direct the trustee to use the amounts held in the revenue credit account to reimburse the Company for fees and expenses associated with services provided to the Plan, or pay such vendors, including the trustee or third parties, directly. During 2021, the Plan received \$671 from this arrangement. As of December 31, 2021 and 2020, the balance in the revenue-sharing account amounted to \$13,372 and \$12,423, respectively.

Subsequent events: The Plan evaluated subsequent events for potential recognition and/or disclosure through January 25, 2023, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based on terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020.

Start Early

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments are recorded upon distribution.

Expenses of the Plan: The Plan provides that expenses related directly to the Plan may be charged to the Plan or paid by the Company at the Company's discretion.

Note 3. Fair Value Measurements

The Plan uses a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2021			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 30,202,870	\$ -	\$ -	\$ 30,202,870
Collective trust fund—Stable Value Fund (measured at NAV) ^(a)				583,112
Investments at fair value				<u>\$ 30,785,982</u>

	2020			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 24,932,299	\$ -	\$ -	\$ 24,932,299
Collective trust fund—Stable Return Fund and Stable Value Fund (measured at NAV) ^(a)				585,579
Investments at fair value				<u>\$ 25,517,878</u>

(a) The NAV of the Stable Return Fund and Stable Value Fund is determined using the market value, or fair value if market data is unavailable, of the underlying securities. Wells Fargo and Putnam reserve the right to require a 12-month notice for withdrawal of assets from the funds initiated by the Plan. There is no funding commitment for either of these funds.

Note 4. Related Party and Party-In-Interest Transactions

Plan investments include mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Total expenses paid to the Plan's service providers amounted to \$57,273.

Certain employees of the Company perform administrative services for the Plan. These employees are not compensated by the Plan for their services. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Start Early

Notes to Financial Statements

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

The Plan adopted a volume submitter plan sponsored by FMR LLC has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

On December 1, 2022, the Plan received a notice from the DOL indicating that the period from January 1, 2019 through present was selected for examination. The Plan Administrator provided the requested documents to the DOL by the December 14, 2022, deadline request date. As this examination is ongoing, the ultimate outcome is uncertain; therefore, no adjustment has been reflected in the financial statements. The Plan Administrator intends to cooperate with the DOL and make any corrections necessary to maintain the Plan's qualified tax status. Penalties, if any, would need to be paid by the Plan Sponsor and not by the Plan.

Note 7. Information Certified or Provided by Fidelity Management Trust Company (the Trustee)

The following is a summary of the Plan's asset and income information as of and for the years ended December 31, 2021 and 2020, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

	2021	2020

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2021 and 2020:

	2021	2020
Net assets available for benefits per the financial statements	\$ 31,360,394	\$ 25,913,572

Net assets available for benefits per the Form 5500	<u>\$ 31,201,930</u>	<u>\$ 25,913,479</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2021:

Net change in net assets available for benefits	
per the financial statements	\$ 5,446,822
Participant contributions	(105,111)
Company contributions	(44,220)
Investment income	1
Other income	(671)
Interest Income on notes receivable from participants	(2)
Benefits paid to participants	(9,039)
Administrative Expenses	671
Net change in net assets available for benefits per form 5500	<u>\$ 5,288,451</u>

Note 10. Non-Exempt Transactions

During 2019, due to oversight by Fidelity, the Plan Sponsor inadvertently failed to deposit \$139,252 of participant deferrals and loan payments within the required timeframe as stated by the DOL regulations. Fidelity intends to file Form 5330 and intends to pay the applicable excise tax. The excise tax payment will be made by from Fidelity's assets and not the Plan's assets. Furthermore, an adjustment for lost earnings was made by Fidelity in February 2020 at the expense of Fidelity.

During 2020, the Plan Sponsor inadvertently failed to deposit \$163 of participant deferrals within the required timeframe as stated by the DOL regulations. The Plan Sponsor intends to file Form 5330 and the Plan Sponsor intends to pay the applicable excise tax. The excise tax payment will be made from Plan Sponsor assets and not the Plan's assets.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Start Early (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2021, and schedule of assets (held at end of year) as of December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 16, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Start Early (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established on January 1, 2000, covering all employees of Start Early (the Company). Participants have a one-month eligibility requirement with respect to elective deferral contributions and a one-year eligibility requirement with respect to Company contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Participants may contribute up to 90% of their pretax annual compensation. All new employees are automatically enrolled in the Plan at a 5% pretax payroll deduction unless they opt out. The Plan also includes an auto-escalation feature whereby any participant contributing less than 10% of their compensation will have their contribution increased by 1% at July 1 of each year until it reaches 10%, unless they opt out of the auto-escalation feature or do not enroll in payroll deductions. Effective January 1, 2021, the Plan allowed Roth contributions into the Plan. The Plan provides that the participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make catch-up contributions. Participants may also contribute amounts representing distributions or rollovers from other qualified defined benefit or defined contribution plans. Contributions are limited to the amounts defined by the Internal Revenue Code (IRC).

At its discretion, the Company may make discretionary non-elective Company contributions to the Plan. The discretionary contribution formula adopted for the year ended December 31, 2021, was 3.83% of each employee's compensation beginning in the first quarter after the employee had completed one full year of service with the Company and at least 1,000 hours of service.

Investment options: Participants may direct the investment of their accounts among the various investment funds provided under the Plan. Participants may change their investment selections in accordance with the rules established by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contributions and (2) the Plan's earnings or losses as well as administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants: Loans are limited to one per year and one at a time. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the excess of the participant's highest outstanding loan balance on their account during the prior 12-month period, or 50% of their account balance. The loans are secured by the balance in the participant's accounts. Loans shall bear interest at prime plus 1%. Participants request loans and determine the length of payback up to five years, or 10 years for a home loan, which is repaid through payroll deductions.

Start Early

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Vesting: Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested for company contributions, after three years of credited service, as shown below:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	66%
3	100%

Payment of benefits: Upon death, disability, retirement or termination of service, a participant may receive a lump-sum distribution or a partial distribution amount equal to the vested value of his or her account. In-service withdrawals may be made due to financial hardship, rollovers and participants reaching age 59-1/2, as defined by the Plan.

Forfeited accounts: At December 31, 2021 and 2020, forfeited non-vested accounts totaled \$11,180 and \$23,668, respectively. These accounts can be used to reduce future Company contributions or applied in payment of administrative expenses. The Company used \$4,187 and \$30,312 of forfeitures to reduce Company contributions and pay administrative expenses, respectively during 2021.

Revenue-sharing income: The Plan has a revenue-sharing arrangement with Fidelity Management Trust Company (Fidelity), whereby Fidelity agrees to deposit recordkeeping revenue in excess of the agreed-upon compensation. The Company may direct the trustee to use the amounts held in the revenue credit account to reimburse the Company for fees and expenses associated with services provided to the Plan, or pay such vendors, including the trustee or third parties, directly. During 2021, the Plan received \$671 from this arrangement. As of December 31, 2021 and 2020, the balance in the revenue-sharing account amounted to \$13,372 and \$12,423, respectively.

Subsequent events: The Plan evaluated subsequent events for potential recognition and/or disclosure through January 25, 2023, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based on terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020.

Start Early

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments are recorded upon distribution.

Expenses of the Plan: The Plan provides that expenses related directly to the Plan may be charged to the Plan or paid by the Company at the Company's discretion.

Note 3. Fair Value Measurements

The Plan uses a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Start Early

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2021			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 30,202,870	\$ -	\$ -	\$ 30,202,870
Collective trust fund—Stable Value Fund (measured at NAV) ^(a)				583,112
Investments at fair value				<u>\$ 30,785,982</u>

	2020			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 24,932,299	\$ -	\$ -	\$ 24,932,299
Collective trust fund—Stable Return Fund and Stable Value Fund (measured at NAV) ^(a)				585,579
Investments at fair value				<u>\$ 25,517,878</u>

- (a) The NAV of the Stable Return Fund and Stable Value Fund is determined using the market value, or fair value if market data is unavailable, of the underlying securities. Wells Fargo and Putnam reserve the right to require a 12-month notice for withdrawal of assets from the funds initiated by the Plan. There is no funding commitment for either of these funds.

Note 4. Related Party and Party-In-Interest Transactions

Plan investments include mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Total expenses paid to the Plan's service providers amounted to \$57,273.

Certain employees of the Company perform administrative services for the Plan. These employees are not compensated by the Plan for their services. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Start Early

Notes to Financial Statements

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

The Plan adopted a volume submitter plan sponsored by FMR LLC has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

On December 1, 2022, the Plan received a notice from the DOL indicating that the period from January 1, 2019 through present was selected for examination. The Plan Administrator provided the requested documents to the DOL by the December 14, 2022, deadline request date. As this examination is ongoing, the ultimate outcome is uncertain; therefore, no adjustment has been reflected in the financial statements. The Plan Administrator intends to cooperate with the DOL and make any corrections necessary to maintain the Plan's qualified tax status. Penalties, if any, would need to be paid by the Plan Sponsor and not by the Plan.

Note 7. Information Certified or Provided by Fidelity Management Trust Company (the Trustee)

The following is a summary of the Plan's asset and income information as of and for the years ended December 31, 2021 and 2020, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2021 and 2020:

	2021	2020
Net assets available for benefits per the financial statements	\$ 31,360,394	\$ 25,913,572

Net assets available for benefits per the Form 5500	<u>\$ 31,201,930</u>	<u>\$ 25,913,479</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2021:

Net change in net assets available for benefits	
per the financial statements	\$ 5,446,822
Participant contributions	(105,111)
Company contributions	(44,220)
Investment income	1
Other income	(671)
Interest Income on notes receivable from participants	(2)
Benefits paid to participants	(9,039)
Administrative Expenses	671
Net change in net assets available for benefits per form 5500	<u>\$ 5,288,451</u>

Note 10. Non-Exempt Transactions

During 2019, due to oversight by Fidelity, the Plan Sponsor inadvertently failed to deposit \$139,252 of participant deferrals and loan payments within the required timeframe as stated by the DOL regulations. Fidelity intends to file Form 5330 and intends to pay the applicable excise tax. The excise tax payment will be made by from Fidelity's assets and not the Plan's assets. Furthermore, an adjustment for lost earnings was made by Fidelity in February 2020 at the expense of Fidelity.

During 2020, the Plan Sponsor inadvertently failed to deposit \$163 of participant deferrals within the required timeframe as stated by the DOL regulations. The Plan Sponsor intends to file Form 5330 and the Plan Sponsor intends to pay the applicable excise tax. The excise tax payment will be made from Plan Sponsor assets and not the Plan's assets.

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Start Early (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2021 financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedule of delinquent participant contributions for the year ended December 31, 2021, and schedule of assets (held at end of year) as of December 31, 2021, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 16, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Notes to Financial Statements

Note 1. Description of the Plan

The following description of Start Early (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan established on January 1, 2000, covering all employees of Start Early (the Company). Participants have a one-month eligibility requirement with respect to elective deferral contributions and a one-year eligibility requirement with respect to Company contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions: Participants may contribute up to 90% of their pretax annual compensation. All new employees are automatically enrolled in the Plan at a 5% pretax payroll deduction unless they opt out. The Plan also includes an auto-escalation feature whereby any participant contributing less than 10% of their compensation will have their contribution increased by 1% at July 1 of each year until it reaches 10%, unless they opt out of the auto-escalation feature or do not enroll in payroll deductions. Effective January 1, 2021, the Plan allowed Roth contributions into the Plan. The Plan provides that the participants who are projected to be age 50 or older by the end of the calendar year and who are making deferral contributions to the Plan may also make catch-up contributions. Participants may also contribute amounts representing distributions or rollovers from other qualified defined benefit or defined contribution plans. Contributions are limited to the amounts defined by the Internal Revenue Code (IRC).

At its discretion, the Company may make discretionary non-elective Company contributions to the Plan. The discretionary contribution formula adopted for the year ended December 31, 2021, was 3.83% of each employee's compensation beginning in the first quarter after the employee had completed one full year of service with the Company and at least 1,000 hours of service.

Investment options: Participants may direct the investment of their accounts among the various investment funds provided under the Plan. Participants may change their investment selections in accordance with the rules established by the Plan.

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of (1) the Company's contributions and (2) the Plan's earnings or losses as well as administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants: Loans are limited to one per year and one at a time. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000, reduced by the excess of the participant's highest outstanding loan balance on their account during the prior 12-month period, or 50% of their account balance. The loans are secured by the balance in the participant's accounts. Loans shall bear interest at prime plus 1%. Participants request loans and determine the length of payback up to five years, or 10 years for a home loan, which is repaid through payroll deductions.

Start Early

Notes to Financial Statements

Note 1. Description of the Plan (Continued)

Vesting: Participants are immediately fully vested in their contributions plus actual earnings thereon. Vesting in the Company contribution portion of their accounts, plus actual earnings thereon is based on years of continuous service. A participant is 100% vested for company contributions, after three years of credited service, as shown below:

Years of Service	Vested Percentage
Less than 1	0%
1	33%
2	66%
3	100%

Payment of benefits: Upon death, disability, retirement or termination of service, a participant may receive a lump-sum distribution or a partial distribution amount equal to the vested value of his or her account. In-service withdrawals may be made due to financial hardship, rollovers and participants reaching age 59-1/2, as defined by the Plan.

Forfeited accounts: At December 31, 2021 and 2020, forfeited non-vested accounts totaled \$11,180 and \$23,668, respectively. These accounts can be used to reduce future Company contributions or applied in payment of administrative expenses. The Company used \$4,187 and \$30,312 of forfeitures to reduce Company contributions and pay administrative expenses, respectively during 2021.

Revenue-sharing income: The Plan has a revenue-sharing arrangement with Fidelity Management Trust Company (Fidelity), whereby Fidelity agrees to deposit recordkeeping revenue in excess of the agreed-upon compensation. The Company may direct the trustee to use the amounts held in the revenue credit account to reimburse the Company for fees and expenses associated with services provided to the Plan, or pay such vendors, including the trustee or third parties, directly. During 2021, the Plan received \$671 from this arrangement. As of December 31, 2021 and 2020, the balance in the revenue-sharing account amounted to \$13,372 and \$12,423, respectively.

Subsequent events: The Plan evaluated subsequent events for potential recognition and/or disclosure through January 25, 2023, the date the financial statements were available to be issued.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates: The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance, plus any accrued, but unpaid interest. Delinquent participant loans are reclassified as distributions based on terms of the Plan document. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2021 or 2020.

Start Early

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Investment valuation and income recognition: The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 3 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments are recorded upon distribution.

Expenses of the Plan: The Plan provides that expenses related directly to the Plan may be charged to the Plan or paid by the Company at the Company's discretion.

Note 3. Fair Value Measurements

The Plan uses a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Start Early

Notes to Financial Statements

Note 3. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2021 and 2020.

Mutual funds: Valued at the quoted net asset value (NAV) of shares held by the Plan at year-end. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2021			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 30,202,870	\$ -	\$ -	\$ 30,202,870
Collective trust fund—Stable Value Fund (measured at NAV) ^(a)				583,112
Investments at fair value				<u>\$ 30,785,982</u>
	2020			Total
	Level 1	Level 2	Level 3	
Mutual funds	\$ 24,932,299	\$ -	\$ -	\$ 24,932,299
Collective trust fund—Stable Return Fund and Stable Value Fund (measured at NAV) ^(a)				585,579
Investments at fair value				<u>\$ 25,517,878</u>

(a) The NAV of the Stable Return Fund and Stable Value Fund is determined using the market value, or fair value if market data is unavailable, of the underlying securities. Wells Fargo and Putnam reserve the right to require a 12-month notice for withdrawal of assets from the funds initiated by the Plan. There is no funding commitment for either of these funds.

Note 4. Related Party and Party-In-Interest Transactions

Plan investments include mutual funds managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Total expenses paid to the Plan's service providers amounted to \$57,273.

Certain employees of the Company perform administrative services for the Plan. These employees are not compensated by the Plan for their services. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Start Early

Notes to Financial Statements

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 6. Tax Status

The Plan adopted a volume submitter plan sponsored by FMR LLC has received an advisory letter from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

On December 1, 2022, the Plan received a notice from the DOL indicating that the period from January 1, 2019 through present was selected for examination. The Plan Administrator provided the requested documents to the DOL by the December 14, 2022, deadline request date. As this examination is ongoing, the ultimate outcome is uncertain; therefore, no adjustment has been reflected in the financial statements. The Plan Administrator intends to cooperate with the DOL and make any corrections necessary to maintain the Plan's qualified tax status. Penalties, if any, would need to be paid by the Plan Sponsor and not by the Plan.

Note 7. Information Certified or Provided by Fidelity Management Trust Company (the Trustee)

The following is a summary of the Plan's asset and income information as of and for the years ended December 31, 2021 and 2020, included throughout the Plan's financial statements and supplemental schedules that was prepared by or derived from information provided by the Trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee that information provided to the Plan Administrator by the Trustee related to the following assets and income is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets and income:

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2021 and 2020:

	2021	2020
Net assets available for benefits per the financial statements	\$ 31,360,394	\$ 25,913,572
Company contribution receivable	(44,220)	-

Net assets available for benefits per the Form 5500	<u>\$ 31,201,930</u>	<u>\$ 25,913,479</u>

The following is a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500 for the year ended December 31, 2021:

Net change in net assets available for benefits	
per the financial statements	\$ 5,446,822
Participant contributions	(105,111)
Company contributions	(44,220)
Investment income	1
Other income	(671)
Interest Income on notes receivable from participants	(2)
Benefits paid to participants	(9,039)
Administrative Expenses	671
Net change in net assets available for benefits per form 5500	<u>\$ 5,288,451</u>

Note 10. Non-Exempt Transactions

During 2019, due to oversight by Fidelity, the Plan Sponsor inadvertently failed to deposit \$139,252 of participant deferrals and loan payments within the required timeframe as stated by the DOL regulations. Fidelity intends to file Form 5330 and intends to pay the applicable excise tax. The excise tax payment will be made by from Fidelity's assets and not the Plan's assets. Furthermore, an adjustment for lost earnings was made by Fidelity in February 2020 at the expense of Fidelity.

During 2020, the Plan Sponsor inadvertently failed to deposit \$163 of participant deferrals within the required timeframe as stated by the DOL regulations. The Plan Sponsor intends to file Form 5330 and the Plan Sponsor intends to pay the applicable excise tax. The excise tax payment will be made from Plan Sponsor assets and not the Plan's assets.
