INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Toledo Painters and Allied Trades Pension Plan
P.O. Box 1330
Holland, OH 43528

Opinion

We have audited the accompanying financial statements of Toledo Painters and Allied Trades Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Toledo Painters and Allied Trades Pension Plan as of April 30, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Toledo Painters and Allied Trades Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Toledo Painters and Allied Trades Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Toledo Painters and Allied Trades Pension Plan 's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Toledo Painters and Allied Trades Pension Plan 's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of April 30, 2022, and the schedule of reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Schedule MB, line 6 - Summary of Plan Provisions

Attached is a summary of the plan provisions valued. The plan provisions differ from those valued the preceding year in the following respects:

- The benefit accrual rate per 100 hours worked on and after May 1, 2021 was increased from \$2.50 to \$3.50 effective May 1, 2021.

Schedule MB, line 6 - Statement of Actuarial Assumptions/Methods

Attached is a summary of the actuarial assumptions and methods used to perform the most recent valuation.

PLAN HISTORY

Origins/Purpose

The Toledo Painters' and Allied Trades Pension Plan was established effective May 1, 1965 as a result of collective bargaining between Local Union No. 7 of the International Brotherhood of Painters and Allied Trades, and the Toledo Chapter of the Painting and Decorating Contractors of America. A Trust Agreement was entered into in order to give effect to the provisions of the Collective Bargaining Agreement between the parties pursuant to which a Pension Plan was to be established.

The Pension Plan is managed under the provisions of the Labor Management Relations Act by a Board of Trustees consisting of an equal number of representatives from Labor and from Management.

The purpose of the Pension Plan is to provide Normal and Early Retirement Benefits, Disability Benefits, Deferred Vested Benefits, Joint and 50% Survivor Benefits, Joint and 75% Survivor Benefits, optional retirement benefits and Death Benefits.

Employer Contributions

The Pension Plan is financed entirely by contributions from the employers as specified in the applicable Collective Bargaining Agreements. Following is a history of recent hourly contribution rates in effect.

<i>Effective Date</i>	<i>Hourly Contribution Rate</i>	<i>Effective Date</i>	<i>Hourly Contribution Rate</i>
July 1, 1990	\$ 1.41	July 1, 2006	\$ 2.46
September 1, 1993	\$ 1.51	July 1, 2007	\$ 2.56

July 1, 2002	\$ 2.06	July 1, 2016	\$ 3.81
July 1, 2003	\$ 2.16	July 1, 2018	\$ 3.86
July 1, 2004	\$ 2.26	July 1, 2019	\$ 4.16
July 1, 2005	\$ 2.41		

Tax Exempt Status

The Pension Plan and Trust Agreement were initially filed with and approved by the District Director, Internal Revenue Service, as qualified and exempt from taxation. It is the intention of the Trustees to maintain the Pension Plan and Trust Agreement as qualified and exempt from taxation under the appropriate provisions of the Internal Revenue Code and the Rules and Regulations issued thereunder, as amended from time to time.

ACTUARIAL ASSUMPTIONS (CONT.)

Decrement timing	Beginning of the year
Future hours worked	
<i>Vested lives</i>	1,650 hours per year, 0 after assumed retirement age
<i>Non-vested lives</i>	950 hours per year, 0 after assumed retirement age
Future hourly contribution rate	\$4.16
Age of participants with unrecorded birth dates	Based on average entry age of participants with recorded birth dates and same vesting status.
Marriage assumptions	80% assumed married with the male spouse 3 years older than his wife.
Optional form assumption	All non-retired participants assumed to elect the life only form of benefit.
Post-retirement single sum death benefit	For inactive vested and retirees, valued as certain period (in months) equal to the value of total contributions divided by the monthly benefit amount. For active participants, valued as a five-year certain period.
Inactive vested lives over age 74	Continuing inactive vested participants age nearest 74 and older are assumed deceased and are not valued. Participants assumed deceased under age 74 prior to May 1, 2020 are still assumed to be deceased.
Disability benefits	100% of future disabilities will be eligible for a Social Security Disability benefit and payable until normal retirement age.
Section 415 limit assumptions	
<i>Dollar limit</i>	\$230,000 per year.
<i>Assumed form of payment for those limited by Section 415</i>	Qualified joint and 100% survivor annuity.
Benefits not valued	Pre-retirement death benefits following disability for active participants.

RATIONALE FOR SELECTION OF ACTUARIAL ASSUMPTIONS

The non-prescribed actuarial assumptions were selected to provide a reasonable long term estimate of developing experience. The assumptions are reviewed annually, including a comparison to actual experience. The following describes our rationale for the selection of each non-prescribed assumption that has a significant effect on the valuation results.

ERISA rate of return used to value liabilities	Future rates of return were modeled based on the Plan's current investment policy asset allocation and composite, long-term capital market assumptions taken from Horizon Actuarial's 2020 survey of investment consultants. Based on this analysis, we selected a final assumed rate of 7.00%, which we feel is reasonable. This rate may not be appropriate for other purposes such as settlement of liabilities. Due to the special rules related to withdrawal liability for a construction industry plan and the nature of the building trades industry, we believe the valuation interest rate is also appropriate for withdrawal liability purposes.
Mortality	The PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2020 projection scale was chosen as the base table for this population. The blue collar table was chosen based on the industry of plan participants. Finally, a 105% multiplier for males and 95% multiplier for females was applied. This was based on a study of data from larger plans in similar industries. Based on information from the CDC on COVID-19 deaths, this study was adjusted to exclude an increase in deaths due to COVID-19.
Retirement	Actual rates of retirement by age were last studied for this plan for the period May 1, 2013 to April 30, 2018. The assumed future rates of retirement were selected based on the results of this study. No adjustments were deemed necessary at this time.
Withdrawal	Actual rates of withdrawal by age were last studied for this plan for the period May 1, 2013 to April 30, 2018. The assumed future rates of withdrawal were selected based on the results of this study. No adjustments were deemed necessary at this time.
Future hours worked	Based on review of recent plan experience.

ACTUARIAL METHODS

Funding method <i>ERISA Funding</i>	Traditional unit credit cost method, effective May 1, 2009.
<i>Funding Period</i>	Individual Entry Age Normal with costs spread as a level dollar amount over service.
Population valued <i>Actives</i>	Eligible employees with at least one hour during the preceding plan year.
<i>Inactive vested</i>	Vested participants with no hours during the preceding plan year.
<i>Retirees</i>	Participants and beneficiaries in pay status as of the valuation date.
<i>Participants not reported</i>	Inactive non-vested participants with less than 87 hours worked are not reported in the data.
Asset valuation method <i>Actuarial value</i>	Smoothed market value with phase-in effective May 1, 2013. Each year's gain (or loss) is spread over a period of 5 years. The actuarial value can be no less than 80% nor more than 120% of the market value as of the determination date.
<i>Unfunded vested benefits</i>	For the presumptive method, actuarial value, as described above, is used.
Pension Relief Act of 2010	• 10-year smoothing elected with respect to the loss incurred during the plan year ended in 2009. The asset method change in 2013 eliminates its effect. • The 130% cap on actuarial value of assets was elected for the plan year beginning in 2009. • 30-year amortization of net investment loss was elected with respect to the loss incurred during 2008- 2009. The loss was allocated to future years using the "prospective method" of IRS. The amount of each allocation is shown in Appendix C.

STATEMENT BY ENROLLED ACTUARY

Schedule MB, line 11 - Justification for Change in Actuarial Assumptions

The assumptions and methods differ from those used the preceding year in the following respects:

- The ERISA rate of return assumption used to value liabilities was changed from 7.25% to 7.00% to provide our best estimate of the future rate of net investment return based on the Plan's current investment policy and asset allocation.
- The assumed mortality rates were changed from 100% of the PRI-2012 Blue Collar Mortality Table to 105% of the PRI-2012 Blue Collar Mortality Table for males and 95% for females. The mortality projection scale was updated from MP-2019 to MP-2020. These changes were made because we wanted to reflect the latest mortality improvement data available.
- The assumed future hours worked were increased from 1,600 hours to 1,650 hours per future year for vested active lives and from 900 hours to 950 hours per future year for non-vested active lives. This represents our best estimate of future hours based on recent plan experience.
- The assumed operational expenses were decreased from \$160,000 to \$135,000 to reflect our best estimate of future expenses based on recent plan experience.
- The expense load on ASC 960 liabilities was changed from 6.25% to 6.00% based on recent plan experience.
- We changed our valuation software, which includes a change in the timing of when active participants are expected to leave active status.
- The current liability interest rate was changed from 2.78% to 2.01%. The new rate is within established statutory guidelines.

INDEPENDENT AUDITORS' REPORT

To the Board of Trustees
Toledo Painters and Allied Trades Pension Plan
P.O. Box 1330
Holland, OH 43528

Opinion

We have audited the accompanying financial statements of Toledo Painters and Allied Trades Pension Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of April 30, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Toledo Painters and Allied Trades Pension Plan as of April 30, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Toledo Painters and Allied Trades Pension Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Toledo Painters and Allied Trades Pension Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Toledo Painters and Allied Trades Pension Plan 's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Toledo Painters and Allied Trades Pension Plan 's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of April 30, 2022, and the schedule of reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards generally accepted in the United States of America.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF THE PLAN:

The following description of the Toledo Painters and Allied Trades Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a multi-employer defined benefit pension plan subject to a collective bargaining agreement covering employees of the participating employers who work under the jurisdiction of Local Union No. 7 of the International Brotherhood of Painters and Allied Trades. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions and funding policy

The participating employers make monthly contributions to the Plan on behalf of covered employees in amounts determined by the CBA and subject to minimum funding requirements of ERISA and maximum deductibility of contributions by participating employers under the Internal Revenue Code (IRC). Participating employers are required to make monthly contributions at a fixed dollar amount for each hour worked by participants. No participant contributions to the Plan are permitted. The Plan Trustees design the benefit structure based on information from the actuarial consultants. The Plan's actuary has certified that the minimum funding requirements of ERISA have been met as of May 1, 2021.

Benefits

Under the terms of the Plan, participants are eligible for normal retirement benefits upon reaching age 65 with five years of participation. Early unreduced retirement benefits are available upon reaching age 62 with 25 years of vesting service. Early reduced retirement benefits are available to participants upon reaching age 55 with 30 years of vesting service. The Plan also provides certain death, disability, and vested termination benefits. Normal retirement benefits are based on the number of hours worked by the participant at specified benefit rates per hour as established by the Board of Trustees.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following significant accounting policies of the Plan are set forth to facilitate the understanding of data presented in the financial statements.

Basis of accounting

The accompanying financial statements are presented on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Investment valuation and income

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion at Fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Employer contributions receivable

Employer contributions receivable represents amounts due from employers that were received subsequent to year end. Therefore, the carrying amount of these receivables is not reduced by an allowance for amounts that will not be collected. In addition, it is impractical to estimate revenue recognition for amounts due but erroneously unreported by employers.

Contributions receivable from Northwestern Ohio Administrators

Contributions receivable from Northwestern Ohio Administrators, Inc. (NWOA), administrative manager for the Plan, represent employer contributions received by NWOA and maintained in NWOA's cash concentration account until such time as they are transferred to the Plan's cash account. Interest is earned on amounts maintained in the cash concentration account.

Payment of benefits

Benefits payments to participants or their beneficiaries are recorded upon payment.

Subsequent events

The Plan has evaluated subsequent events through January 11, 2023, the date on which the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

3. FAIR VALUE MEASUREMENTS (CONTINUED):

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The assets' or liabilities' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets at fair value. There has been no changes in the methodologies used at April 30, 2022 and 2021.

U.S. government and agency obligations: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate obligations: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing prices as reported by the funds. The funds held by the Plan are registered with the Securities and Exchange Commission and are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Partnership/joint venture interests: Valued at the net asset value per share or unit. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported NAV.

Money market funds and investment cash: Valued at cost, which approximates fair value.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. FAIR VALUE MEASUREMENTS (CONTINUED):

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value at April 30, 2022 and 2021.

HGK Trinity Street Int'l Equity Fund (b)	\$ 957,871	-	\$0	Monthly	30 days

3. FAIR VALUE MEASUREMENTS (CONTINUED):

(a) The fund has been organized to allow Taft-Hartley pension funds, governmental retirement plans, corporate pension plans and qualified trusts forming part of a pension or profit-sharing plan, endowments, charitable foundations and other taxable and tax exempt organizations to pool their assets to make investments primarily in core stable institutional quality office, retail, industrial and multi-family residential properties that are substantially leased and have minimal deferred maintenance or functional obsolescence. Investments are generally redeemed as of the first day of each quarter, subject to the availability of liquid assets.

(b) The Fund's investment objective is to produce superior long-term returns over the course of both bull and bear market cycles. A core objective is to reduce downside capture and to protect capital during market downturns, although there may be periods of volatility where significant draw-downs occur. The Fund plans on achieving this objective by identifying undervalued companies where there is a pricing discrepancy, with an emphasis on capital preservation. The majority of the Fund's portfolio investments will consist of companies that are mid-market capitalization to large capitalization companies. However, emerging markets and small capitalization stocks will from time-to-time be represented in the portfolio, but generally will not comprise more than thirty percent (30%) of the Fund's partners' capital. Limited partners may withdraw a minimum of \$10,000 dollars as of the last day of each month and at such other times and in such other amounts with the consent of, and upon such terms of payment as may be approved by, the General Partner in its sole discretion (each such date being referred to as a "Withdrawal Date"), upon at least thirty days' prior written notice to the General Partner.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated participants or their beneficiaries, beneficiaries of participants who have died and present participants or their beneficiaries. Benefits payable under circumstances including retirement, death, disability, and termination of employment are included to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits of the Plan is determined by an enrolled actuary of United Actuarial Services and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuation as of May 1, 2021 were:

- net investment return rate of 7%;
- mortality rates based on the PRI-2012 Blue Collar Mortality Tables for employees and healthy annuitants projected forward using the MP-2020 projection scale.
- 6% operating expense load applied to accumulated plan benefits;
- retirement age is based at increasing rates between ages 55 and 65.
- future hours worked of 1,650 hours per year for vested participants and 950 hours per year for non-vested participants.

4. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED):

The actuarial assumptions and methods used in this valuation differ from those used in the prior valuation in the following respects:

- The assumed mortality rates were changed from 100% of PRI-2012 Blue Collar Mortality Table to 105% of the PRI-2012 Blue Collar Mortality Table for males and 95% for females and the mortality projection scale was updated from MP-2019 to MP-2020. The expense load on accumulated plan benefits was changed from 6.25% to 6% based on recent plan experience. The assumed future hours worked were increased from 1,600 hours to 1,650 hours for vested active lives and from 900 hours to 950 hours for non-vested active lives. Additionally, the rate of return assumption was changed from 7.25% to 7%.

The forgoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Based on the latest actuarial information available, which is as of May 1, 2021, the actuarial present value of accumulated plan benefits is summarized as follows:

Vested Benefits:

Participants currently receiving benefits	\$22,797,862
Other participants	<u>13,793,125</u>
Total	36,590,987
Non-vested benefits	<u>384,220</u>
Total actuarial present value of accumulated plan benefits	\$ <u>36,975,207</u>

Changes in the actuarial present value of accumulated plan benefits since May 1, 2020 are summarized as follows:

Actuarial present value of accumulated plan benefits as of May 1, 2020	\$ 35,579,023
Increase (decrease) during the year attributable to:	
Benefits accumulated and actuarial experience gain or loss	105,199
Change in actuarial assumptions	1,026,348
Interest due to decrease in the discount period	2,579,479
Benefits paid to participants or their beneficiaries	(2,193,418)
Operational expenses paid	<u>(121,424)</u>
Net increase	<u>1,396,184</u>
Actuarial present value of accumulated plan benefits as of May 1, 2021	\$ <u>36,975,207</u>

5. PLAN TERMINATION:

In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations thereunder, and the plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal-age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefits protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan terminate at some time in the future will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

6. PLAN STATUS:

At April 30, 2022 and 2021, the Plan was certified as not in endangered or critical status by the Plan actuary under the provisions of the Pension Protection Act of 2006.

7. TAX STATUS:

The Internal Revenue Service has determined and informed the Plan by a letter dated August 11, 2015, that the Plan, as amended and restated effective May 1, 2014, and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan is required to operate in conformity with the Code and the Employee Retirement Income Securities Act of 1974 to maintain its tax exempt status. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

9. RISKS AND UNCERTAINTIES (CONTINUED):

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in the net assets available for benefits is uncertain and cannot be reasonably estimated at this time.
