Deerland Probiotics & Enzymes 401(k) Plan
Kennesaw, Georgia

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of Deerland Probiotics & Enzymes 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of February 24, 2022 and December 31, 2021, and the related statements of changes in net assets available for benefits for the periods January 1, 2022 to February 24, 2022 and January 1, 2021 to December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Deerland Probiotics & Enzymes 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the periods ended February 24, 2022 and December 31, 2021 stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the financial statements referred to above related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Deerland Probiotics & Enzymes 401(k) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with auditing standards generally accepted in the United States of America described in Note 2, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Deerland Probiotics & Enzymes 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Deerland Probiotics & Enzymes 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Deerland Probiotics & Enzymes 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Notes to the Financial Statements

For the Periods January 1, 2022 to February 24, 2022 and January 1, 2021 to December 31, 2021

1. Description of Plan

The following description of the Deerland Probiotics & Enzymes 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all full-time employees of Deerland Probiotics & Enzymes, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective November 18, 2021, the Company was acquired by an unrelated party. As a result of the acquisition, the Company terminated the Plan. Contributions to the Plan ceased and participants were given until February 16, 2022 to request a 100% distribution. After that time, participants with a balance of \$1,000 or more were rolled into an IRA account held by Principal Life Insurance Company. Any remaining participants with balances under \$1,000 were issued a check of their entire balance, net of the applicable tax withholdings. As of February 24, 2022, the Plan ceased operations. Employees who had completed 60 days of service and were age eighteen or older were eligible to participate in the Plan.

Contributions: Prior to the Company's acquisition, participants could contribute a percentage of their annual wages by way of pre-tax or post-tax salary reductions up to the amount allowable by the Internal Revenue Code, as defined in the Plan. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). Participants who attained age 50 before the end of the Plan year were eligible to make catch-up contributions.

During 2021, the Company made a matching contribution to the Plan equal to 100% of a participant's salary deferral up to a maximum of 4% of the participant's compensation. The Company made matching contributions to the Plan during 2021 totaling \$494,753, respectively. The Company could also make a discretionary profit sharing contribution to the Plan, which was determined annually. There were no discretionary contributions made during 2021.

As a part of the Plan termination, contributions ceased November 18, 2021. Therefore, The Company made no matching or discretionary contributions during period ending February 24, 2022.

Participant accounts: Each participant's account is credited with (a) the participant's contribution, (b) the Company's elective and matching contributions (if any) and (c) plan earnings. Net income and asset revaluations are allocated to each participant based upon the earnings of the investments selected by the participant. These are allocated based upon the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately 100% vested in both participant and employer contributions plus actual earnings thereon.

Notes receivable from participants: Prior to November 18, 2021, participants could borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of the employee deferral account balance. The loans were secured by the balance in the participant's account

and bore interest rates commensurate with local prevailing rates as determined by the plan administrator. Principal and interest was paid ratably through payroll deductions.

Investment options: Upon enrollment in the Plan, a participant could direct contributions into various investment options.

Payment of benefits: Prior to November 18, 2021, participants who terminated service and had account balances of \$5,000 or less received an automatic distribution of that balance. Participants with balances greater than \$1,000 but less than \$5,000 had their balance directly rolled over to an individual retirement account as designated by the Company, unless the participant elected a direct distribution or other eligible direct rollover. Distributions are made in a lump-sum amount equal to the value of the vested interest in the participant's account.

Participants meeting certain eligibility requirements, as defined in the plan agreement, could receive distributions from the Plan while still employed with the Company.

2. Summary of Accounting Policies

Basis of accounting: The Plan's policy is to prepare its financial statements on the accrual basis of accounting; consequently, certain revenue is recognized when earned rather than when received, and certain expenses are recognized when the obligation is incurred rather than when paid.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair market value of investments.

Investment valuation and income recognition: Investments are stated at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income and dividends are recorded on the accrual basis. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded for periods ended February 24, 2022 and December 31, 2021. If a participant ceases to make loan repayments and the plan administrator deems

the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Subsequent events: Management has evaluated subsequent events between the end of the most recent fiscal year end and January 13, 2023, the date the financial statements were available to be issued.

3. Risks & Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

4. Fair Value Measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used.

Deerland Probiotics & Enzymes 401(k) Plan

Notes to the Financial Statements

For the Periods January 1, 2022 to February 24, 2022 and January 1, 2021 to December 31, 2021

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective Investment Trusts: Valued at the net asset value of units held by the trust provider using the net asset value of the shares of the underlying funds adjusted for income and expenses of the trust.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, The Plan's assets that are measured at fair value as of December 31, 2021:

	Assets at Fair Value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 2,457,704	\$ -	\$ -	\$ 2,457,704
Investments measured at net asset value ^(a)	-	-	-	8,948,119
Investments at fair value	<u>\$ 2,457,704</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 11,405,823</u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Investments Measured Using the Net Asset Value per Share Expedient: The following table summarizes investments for which fair value is measured using the net asset value per share expedient as of December 31, 2021. There are no participant redemption restrictions for these investments. The redemption notice period is applicable to the Plan.

December 31, 2021	Fair Value	Unfunded Commitments	Redemption Frequency (If Eligible)
Collective Investment Trusts	\$ 8,948,119	N/A	Daily

Due to Plan termination, no assets were held by the Plan as of February 24, 2022.

For the Periods January 1, 2022 to February 24, 2022 and January 1, 2021 to December 31, 2021

5. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Effective November 18, 2021, the Company terminated the Plan (see Note 1).

6. Tax Status

The prototype document adopted by the Plan obtained its latest opinion letter on March 31, 2014 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code and, therefore, not subject to tax. The plan administrator believes that the Plan and related trust are currently designed in compliance with the applicable requirements of the Internal Revenue Code.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of February 24, 2022 and December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. A tax liability would be recognized if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Certified Information

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and ERISA-required supplemental schedule, including investments and notes receivable from participants held at February 24, 2022 and December 31, 2021, and net appreciation (depreciation) in fair value of investments, interest and dividends, and interest income on notes receivable from participants for the periods ended February 24, 2022 and December 31, 2021, was obtained by management and agreed to or derived from information certified as complete and accurate by Principal Life Insurance Company (the custodian).

8. Related-Party Transactions and Party In Interest Transactions

Substantially all of the administrative costs of the Plan are paid by the Company. Certain employees serve as the Plan's administrators. The administrators do not receive any compensation for services rendered to the Plan.

The Plan holds investments in funds managed by the Plan's asset custodian, Principal Life Insurance Company. Investments in these funds totaled \$10,203,125 for year ended December 31, 2021.
