Independent Auditor's Report

To the Plan Administrator of the
NAC Mechanical Services 401(k) Plan
Gaithersburg, Maryland

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of NAC Mechanical Services 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of September 1, 2021 and December 31, 2020, and the related statement of changes in net assets available for benefits for the period from January 1, 2021 through September 1, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA (ERISA Section 103(a)(3)(C) audit). As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the investment information is prepared and certified to by the qualified institution in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained certifications from qualified institutions as of September 1, 2021 and December 31, 2020, and for the period from January 1, 2021 through September 1, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP); and
- the certified investment information in the accompanying financial statements agrees to, or is derived from, in all material respects, the information prepared and certified by qualified institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis of Matter – Plan Merger

As further discussed in Note 1 to the financial statements, the Plan merged into the Service Logic 401(k) Plan effective September 1, 2021. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is responsible for maintaining a current plan instrument, including all plan amendments. Management is also responsible for administering the Plan and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

1. Description of Plan

The following description of the NAC Mechanical Services 401(k) Plan (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan’s provisions.

General

The Plan was established on January 1, 1999 and most recently amended and restated on May 15, 2021. The Plan was a defined contribution plan covering eligible employees of NAC Mechanical Services, LLC (the “Company” or “Plan Sponsor”). The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended, (“ERISA”).

Plan Merger

Effective July 1, 2021, the Company became a participating employer in the Service Logic 401(k) Plan (the “SL Plan”) and as a result, the Plan was frozen to new participants and future contributions. Effective September 1, 2021, assets of approximately \$4.9 million, including notes receivable from participants, were transferred from the Plan to the SL Plan. To facilitate the transition, participants of the Plan were not able to direct or diversify investments to their accounts, obtain a loan or distribution or perform certain other administrative changes from August 27, 2021 through September 26, 2021.

Issuer and Administration of the Plan

Massachusetts Mutual Life Insurance Company (“MassMutual”) was the recordkeeper of the Plan. On December 31, 2020, Empower Retirement (“Empower”) acquired the retirement business of MassMutual. Following an initial transition period, Empower became the sole administrator of the retirement business of MassMutual in 2021.

The Plan’s assets were held with Talcott Resolution Life Insurance Company (formerly Hartford Life Insurance Company) (“Issuer” or “Talcott”). The Issuer held all assets of the Plan in accordance with the Group Funding Agreement with the Company.

The administrator of the Plan was the Company. The trustees were two individuals of the Company. The Company determined the appropriateness of the Plan’s investment offerings and monitored investment performance.

Eligibility

An employee of the Company became eligible to make elective deferral contributions to the Plan on the first day of the month coinciding with or following the completion of two months of service. An employee of the Company became eligible to participate in receiving employer discretionary matching contribution and employer discretionary profit-sharing contributions on the first day of the month coinciding with or following the completion of 1,000 hours of service in a 12-month period, as defined by the Plan Document.

Leased employees, non-resident aliens who received no earned income within the United States, and independent contractors were not eligible for the Plan.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

Contributions

Participants could contribute on a pre-tax basis up to 100 percent of their eligible compensation, subject to certain Internal Revenue Code ("IRC") limitations. Participants who had attained or would have attained the age of 50 by the last day of the plan year were eligible to elect catch-up contributions, as defined by the Plan, subject to IRC limitations. Participants could terminate or change their salary deferral agreements according to procedures and limitations as determined by the Plan Document.

The Company could make a discretionary employer matching contribution to eligible participants with at least 1,000 hours of service during the plan year and who are employed on the last day of the plan year. The amount and percentage was at the Company's sole discretion. The Company did not make an employer discretionary matching contribution for the period from January 1, 2021 through September 1, 2021.

The Company could make an employer discretionary profit-sharing contribution to eligible participants with at least 1,000 hours of service during the plan year and who are employed on the last day of the plan year. The discretionary employer profit-sharing contribution was to be allocated to participants based on an integrated formula, as defined by the Plan Document, as allowed by the IRC. The Company did not make a discretionary employer profit-sharing contribution for the period from January 1, 2021 through September 1, 2021.

Rollover contributions transferred from other qualified retirement plans or from Individual Retirement Accounts ("IRA") were accepted as permitted by the Plan Document.

Participant's Accounts and Investment Options

Each participant's account was credited with (1) the participant's pre-tax, catch-up, and rollover contributions; (2) the Company's employer matching and discretionary employer profit-sharing contributions; and (3) an allocation of the Plan earnings or losses. Each participant's account was charged with withdrawals and expenses. Participants were charged an administrative fee for participant requested transactions. Earnings or losses from investment funds were allocated to each participant's account in the proportion that the balance of each participant's account bore to the total balance of all participants in each fund.

Participants could direct the investment of their account balances into various investment options offered by the Plan. The Plan offered various pooled separate accounts and a fixed-rate group annuity contract. Participants could make investment election changes at any time. The benefit to which a participant was entitled was the benefit that can be provided from the participant's vested balance.

Notes Receivable from Participants

Participants could borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested interest in the Plan. Participants could have two notes outstanding at any given time. Notes bore a rate of interest equal to 1 percent above the prime rate. The interest rate remained fixed throughout the duration of the note. The notes were

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

repaid ratably through payroll deductions over a period of five years less, unless it was for the purchase of a principal residence in which case the note repayment period could not extend beyond thirty years from the date of the note. The notes were subject to certain restrictions, as defined by the Plan Document, and applicable restrictions under the IRC. Outstanding notes receivable of approximately \$225,000, were transferred from the Plan to the SL Plan on September 1, 2021.

Vesting

Participants pre-tax, catch-up and rollover contributions were 100 percent vested at all times. The Company's employer discretionary matching and employer discretionary profit-sharing contributions vested as follows:

Years of Service	Vested Percentage
Less than 2	0 percent
2	20 percent
3	40 percent
4	66 percent
5 or more	100 percent

Participants became fully vested upon death, disability, or termination of the Plan.

Forfeitures

Forfeitures could first be used to reduce administrative expenses paid by the Plan. Any remaining balance could be used to reduce future employer contributions payable under the Plan. There were no amounts used to reduce administrative expenses or reduce future employer contributions for the period from January 1, 2021 through September 1, 2021. The balance within the forfeitures account at September 1, 2021 and December 31, 2020 was de minimis.

Benefit Payments

A participant's vested interest in the Plan was payable upon termination of service due to death, disability, normal retirement (age 65), or termination of employment. Upon termination of service, a participant could elect to (1) receive a lump-sum amount equal to the vested value of the participant's account; (2) rollover the amount to another qualified retirement plan or an IRA; or (3) leave the account in the Plan up to age 72, at which time one of the above distribution options had to be selected, if no longer employed.

For terminated participants whose account balance was less than \$1,000, a lump-sum cash distribution was to be made, if the participant did not elect another form of distribution. For terminated participants whose account balance was greater than \$1,000 but less than \$5,000, the account balance was to be rolled over into an IRA in the name of the participant, if the participant did not elect another form of distribution.

In-service hardship and other in-service distributions were allowed, if certain criteria were met.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

Plan Termination

The Company had the right under the Plan Document to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. See *Plan Merger* above for discussion regarding the Plan merger with the SL Plan in 2021.

2. Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments were stated at fair value, except for the fully benefit-responsive investment contract. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The Company determined the Plan's valuation policies utilizing information provided by MassMutual and Empower. See Note 4, *Fair Value Measurements and Disclosures* for a discussion of fair value measurements.

Purchases and sales were recorded on a trade-date basis. Interest income was recorded as earned on the accrual basis. Dividend income was recorded on the ex-dividend date. Net appreciation (depreciation) in the fair value of investments included the Plan's gains and losses on investments bought and sold as well as held during the year.

Accounting for Fully Benefit-Responsive Investment Contracts with Insurance Companies

The Plan entered into the Fixed Account with Talcott, which is a fixed-rate group annuity contract. This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because it is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. The Fixed Account is a general account product and is credited with participant and employer contributions and earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to pay the principal and specified interest rates guaranteed. The declared interest rate can never be less than 1 percent and interest earned is compounded daily. The interest crediting rate is reset quarterly. The method for calculating the interest crediting rate is determined by Talcott. There are no reserves against contract value for credit risk of the contract issuer or otherwise. The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations which may be affected by future economic and regulatory developments.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

Certain events could limit the ability of the Plan to transact at contract value, including but not limited to, premature termination of the contract by the Plan, layoffs, plan termination, bankruptcy, mergers, and early retirement incentives. This would cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. See Note 1, *Plan Merger*, regarding the liquidation of all assets during 2021. There were no adjustments to the contract value or fee to exit the contract.

Notes Receivable from Participants

Notes receivable from participants were measured at their unpaid principal balance. Any accrued but unpaid interest was de minimus. If a participant ceased to make loan repayments and the Plan Administrator deemed the participant loan to be in default, the participant loan balance was reduced, and a benefit payment was recorded.

Contributions

Participant contributions were recognized in the period during which the Company made the respective payroll deduction from the participant's compensation.

Benefit Payments

Benefit payments to participants were recorded when paid. As of September 1, 2021 and December 31, 2020, there were no pending distributions.

Administrative Expenses

Certain fees (primarily loan and distribution) were charged directly to the participant's account and are included in administrative expenses. Investment related expenses (in the form of an expense ratio) were included in net appreciation (depreciation) of fair value of investments. All other expenses of the Plan for the period from January 1, 2021 through September 1, 2021 were paid by the Company and are excluded from these financial statements.

3. Certified Investment Information

The Plan Administrator elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C), pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulation for Reporting and Disclosure under ERISA.

MassMutual in its capacity as administrative agent and attorney-in-fact for Talcott, a qualified institution, has certified that the following data included in the accompanying financial statements is complete and accurate:

- Investments as reported in the Statement of Net Assets Available for Benefits as of December 31, 2020;
- Investment information included in the Notes to Financial Statements.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

Under a power of attorney granted to Great-West Life & Annuity Insurance Company and Great-West Life & Annuity Insurance Company of New York (each an affiliate of Empower), qualified institutions, have certified on behalf of Talcott (the Issuer) that the following data included in the accompanying financial statements is complete and accurate:

- Investment income as reported in the Statement of Changes in Net Assets Available for Benefits for the period from January 1, 2021 through September 1, 2021.

At the request of the Plan Administrator, the Plan's independent auditors did not perform any auditing procedures with respect to this certified information, except for comparing the certified investment information with the related information presented and disclosed in the financial statements, reading the disclosures relating to the investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

4. Fair Value Measurements

Accounting Standards Codification ("ASC") 820, provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Insurance Company Pooled Separate Accounts: Valued based upon the redemption price of units held by the Plan, which is based on the current fair value of the separate account's underlying assets. Unit values are determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. Investments in the pooled separate account funds are categorized as Level 2 in the fair value hierarchy as of December 31, 2020.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

<i>As of December 31, 2020</i>	Level 1	Level 2	Level 3	Total
Pooled separate accounts	\$ -	\$ 3,962,297	\$ -	\$ 3,962,297
Total investments, at fair value	\$ -	\$ 3,962,297	\$ -	\$ 3,962,297

5. Related Party and Parties-in-Interest Transactions

Certain Plan investments were managed by Talcott, the issuer of the Plan's investments. Such transactions, while considered party-in-interest transactions under ERISA regulations, were permitted under the provisions of the Plan. Certain direct fees were paid to MassMutual, the recordkeeper, from the Plan. Certain indirect fees for investment advisory and recordkeeping fees were paid to Morgan Global Retirement Partners (investment advisor), and Creative Retirement Solutions (third-party administrator), respectively, and are included in the net appreciation (depreciation) of investments. The Plan also issued loans to participants which were secured by the vested balance of the participants' accounts. These transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

6. Concentrations, Risks and Uncertainties

The Plan provided for various investment options in pooled separate accounts and a fixed-rate group annuity contract. Investments, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risk. As further discussion in Note 1, *Plan Merger*, the Plans assets were liquidated and transferred to the SL Plan on September 1, 2021.

7. Income Tax Status

Effective December 15, 2014, the Plan adopted a Volume Submitter Profit Sharing Plan with CODA ("Volume Submitter"). The Volume Submitter received an opinion letter from the Internal Revenue Service ("IRS") dated March 31, 2014, indicating that the form of the Volume Submitter was designed in accordance with applicable sections of the IRC. The Plan was amended and restated effective May 15, 2021 to a Non-Standardized Pre-Approved Profit Sharing Plan with CODA ("Non-Standardized Plan"). The Non-Standardized Plan received an opinion letter from the IRS dated June 30, 2020, indicating that the form of the Non-Standardized Plan is designed in accordance with applicable sections of the IRC. The Plan Administrator believes that the Plan, as amended and restated, was designed and operated in compliance with the applicable provisions of the IRC and the Plan and related trust was tax-exempt; therefore, no provision for income taxes have been included in the accompanying financial statement.

NAC Mechanical Services 401(k) Plan

Notes to Financial Statements

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Excess Contribution Refundable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2020 excess contributions of \$29,716 to participants prior to March 15, 2021.

9. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the accompanying Statement of Net Assets Available for Benefits to the Form 5500 as of December 31, 2020:

<i>December 31,</i>	<i>2020</i>
Net assets available for benefits per the statement of net assets available for benefits	\$ 4,382,362
Plus: 2020 excess contributions (corrective distributions)	29,716
Net assets available for benefits per the Form 5500 (unaudited)	\$ 4,412,078

The following is a reconciliation of net increase in net assets available for benefits per the accompanying Statement of Changes in Net Assets Available for Benefits to the Form 5500 for the period from January 1, 2021 through September 1, 2021:

<i>Period Ended September 1,</i>	<i>2021</i>
Net increase prior to plan merger per statement of changes in net assets available for benefits	\$ 502,363
Less: 2021 refund of excess contributions (corrective distributions)	(29,716)
Total net income per Form 5500 (unaudited)	\$ 472,647

10. Subsequent Events

The Plan Administrator has evaluated subsequent events through January 27, 2023, which is the date the financial statements were available to be issued. Management determined there were no material subsequent events that required recognition or additional disclosure in these financial statements.
