INDEPENDENT AUDITOR'S REPORT
YEARS ENDED MAY 31, 2022 AND 2021**

To the Management of
Drury University 403(b) Retirement Plan
Springfield, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2021 Financial Statements

We have performed an audit of the financial statements of **Drury University 403(b) Retirement Plan** (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits (modified cash basis) as of May 31, 2022, the related statement of changes in net assets available for benefits (modified cash basis) for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended May 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical

requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

We draw attention to Note 2 of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of May 31, 2022, are presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated March 15, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTES TO FINANCIAL STATEMENTS

MAY 31, 2022 AND 2021

1. Description of plan

The following description of the **Drury University 403(b) Retirement Plan** (the Plan) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General

The Plan is a defined contribution 403(b) plan covering all employees of Drury University (the University), except students and employees who work fewer than 1,000 hours of service in a plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was adopted October 1, 1946.

Effective May 31, 2012, the Drury University Tax Deferred Annuity Plan merged with the Drury University Defined Contribution Retirement Plan. Under the new consolidated plan, the documents were restated, so that together the plans would become a single Code Section 403(b) plan and be called the "Drury University 403(b) Retirement Plan."

The Plan changed service providers effective July 1, 2015, to VALIC. With this change, the Plan was restated effective July 1, 2015.

On December 20, 2019, the Setting Every Community Up for Retirement Enhancement Act of 2019 (SECURE Act) was enacted and was effective beginning on January 1, 2020. The SECURE Act provisions included, among other things, an increase in the age limit for required minimum distributions from 70 ½ to 72. On March 27, 2020, the Coronavirus Aid, Relief, and Economic Security (CARES) Act was enacted. The CARES Act provided immediate and temporary relief for eligible retirement plans and their participants who were adversely impacted by COVID-19. The optional features within these Acts have not been implemented to date. Written amendments to the Plan to reflect any operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Contributions

Participants may contribute a percentage of their annual compensation to the Plan, up to the maximum dollar amount allowed under the Internal Revenue Code. Transfers from qualified plans are allowed as rollover contributions under the provisions of the Plan.

The employer contributes a match of 100 percent of each participant's elected deferral up to 6 percent of a participant's compensation contributed as pre-tax deferral. Effective June 1, 2020, the Board of Directors approved to suspend all employer match contributions due to the current financial environment related to the effects of the COVID-19 pandemic. Effective March 29, 2021, the Board of Directors approved to reinstate the employer match contribution at 3 percent of a participant's compensation contributed as pre-tax deferral.

The accompanying notes are an integral part
of these financial statements.

DRURY UNIVERSITY
403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Participant accounts

Each participant's account is credited with the participant's contribution, employer matching contributions, and Plan earnings. Net income and asset revaluation are allocated to each participant based upon the earnings of the investments selected by the participant. These are allocated based upon the participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in all contributions, plus actual earnings thereon.

Benefit payments

Participants may request a distribution from the Plan upon severance from employment, disability, or attainment of age 59 1/2 or 65. The individual agreements governing the investment options that a participant selects may have additional limits on when a distribution is available.

Plan loans

Plan loans are issued as separate contracts by TIAA and do not represent plan assets. Loans are collateralized using a participant's TIAA Traditional account balance in an amount equal to 110 percent of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45 percent of his or her TIAA Traditional account balance subject to annuity contract and plan provisions. Loan terms range from one to five years in one-year increments (up to 20 years for the purchase of the participant's primary residence). Principal and interest are paid ratably by the participant to TIAA, and each payment will reduce amounts collateralized by the borrowing participant's TIAA Traditional account balance. Plan loan balances outstanding from participants to TIAA were \$31,655 and \$30,398 as of May 31, 2022 and 2021, respectively.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to 50 percent of their vested account or \$50,000, if less. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan Fund. The loans are secured by the balance in the participant's account and bear interest at a rate based on a reasonable and comparable interest rate, not to exceed 5 years or 10 years if used for the purchase of a residence. Principal and interest are paid ratably through monthly payroll deductions. As of May 31, 2022, the interest rate on participant loans was between 4.25 percent and 6.50 percent.

Plan termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their account balances.

DRURY UNIVERSITY
403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. Summary of significant accounting policies

This summary of significant accounting policies of the Plan is presented to assist in understanding the Plan's financial statements. The financial statements and notes are representations of the Plan Sponsor, which is responsible for their integrity and objectivity. The Plan's policy is to prepare its financial statements on the cash basis of accounting; consequently, certain revenue and the related assets are recognized when received rather than when earned, and certain expenses are recognized when paid rather than when the obligation is incurred. This basis has been modified to record investments at market value. The preparation of the financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures in the financial statements. Accordingly, actual results could differ from those estimates.

Basis of accounting

The Plan's financial statements are presented on the modified cash basis of accounting. Under this basis, interest and dividends are recognized when received rather than when earned.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan's other investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on a cash basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefit payments to participants are recorded when paid.

The accompanying notes are an integral part
of these financial statements.

DRURY UNIVERSITY
403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

Notes receivable from participants

Notes receivable from Plan participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Subsequent events

The Plan has evaluated subsequent events through February 3, 2023, the date the financial statements were available to be issued.

3. Fully benefit-responsive investment contracts at contract value

TIAA Traditional Annuity - Investments in TIAA Traditional Annuity SRA and GSRA (TIAA Traditional) is an unallocated fixed-annuity contract that is fully and unconditionally guaranteed by TIAA. TIAA Traditional provides a guarantee of principal, a guaranteed minimum rate of interest, between 1 percent and 3 percent, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the “declaration year”, which begins each March 1. Additional interest is not guaranteed for future years. Contributions to a participant’s account purchases a guaranteed amount of lifetime annuity income. When a participant’s account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

VALIC Fixed-Interest Option Annuity – Investments in VALIC Fixed-Interest Option Annuity, which are fully benefit responsive, are recorded at contract value. The Fixed-Interest Option is a product that offers an annual minimum crediting rate set at the beginning of each year, as well as a contract minimum rate guarantee. The product credits interest under a portfolio interest crediting method in which all deposits receive the same return regardless of date of initial deposit. The interest rate is declared monthly with interest credited daily at an annual effective rate. The declared crediting rate was 1.00 percent at the end of May 31, 2022. There are no sales charges applied to contribute and no surrender charges applied to distribute funds.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

The accompanying notes are an integral part
of these financial statements.

DRURY UNIVERSITY
403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, or (4) a material amendment to the agreement without the consent of the issuer.

4. Fair value measurement

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1* - Quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
- Level 2* - Observable inputs other than Level 1 process, such as quoted prices for similar assets or liabilities; quoted prices for identical or similar assets in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3* - Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Following is a description of the valuation methodologies used for assets at fair value. There have been no changes in the methodologies used at May 31, 2022 and 2021:

Registered investment companies: These mutual fund accounts invest in equity securities, fixed income instruments, and short-term instruments in accordance with each fund's investment objectives. Account investments are valued based on quoted prices.

Pooled separate account: The fair value of the TIAA-Real Estate Account is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources.

Fixed annuity contract: Investments in TIAA Traditional Annuity RA and GRA, which are non-benefit responsive, are contract-based, therefore observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs. The fair value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply to RA contracts and could impact the value realized upon exiting the contract. Specifically, the TIAA annuity contract does not allow lump-sum cash withdrawals, and transfers must be spread out in ten annual installments (see Note 3).

of these financial statements.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of May 31, 2022 and 2021. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments as of May 31, 2022 and 2021, respectively, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair Value 05/31/2022	Fair Value 05/31/2021	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
TIAA Traditional Annuity	\$13,902,741	\$14,809,303	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA: 3.00% to 3.80% GRA: 3.00% to 3.80%

In estimating fair value of the investments in Level 3, the investment committee may use third-party pricing sources or appraisers. In substantiating the reasonableness of the pricing data provided by third parties, the investment committee evaluates a variety of factors including review of methods and assumptions used by external sources, recently executed transactions, existing contracts, economic conditions, industry and market developments, and overall credit ratings.

5. Summary of certified information

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator has obtained certifications from TIAA-CREF and AIG Federal Savings Bank, the custodians of the Plan for the years ended May 31, 2022 and 2021, that all information relating to the Plan's investments and related investment income is complete and accurate. Information, as to the value of the investments managed by the custodians, investment income (loss), and all information in the supplemental schedules, is presented in reliance solely upon those certifications.

6. Income tax status

The Plan was designed under a prototype standardized 403(b) Plan accepted by the Internal Revenue Service by a letter dated April 5, 2018, in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes the Plan is qualified and is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan Management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax period in progress.

7. Related party transactions

During the years ended May 31, 2022 and 2021, the University paid for certain administrative, accounting and certain other services related to the Plan, which are not reflected in the financial statements. In addition, certain Plan investments are shares of mutual funds managed by TIAA-CREF and VALIC. TIAA-CREF and VALIC are record keepers as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions.

8. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

On March 11, 2020, the World Health Organization characterized coronavirus (COVID-19) as a pandemic, and on March 13, the President of the United States declared a national emergency relating to the disease. In addition to the President's declaration, state and local authorities have recommended social distancing and have imposed quarantine and isolation measures on large portions of the population, including mandatory business closures. These measures are designed to protect the overall public health, however, are expected to have material adverse impacts on domestic and foreign economies and may result in the United States entering a period of recession.

As a result of COVID-19, there has been heightened market risk and volatility associated with the pandemic, and this could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits, as mentioned above. Because of the uncertainty of the markets during this time, Plan management is unable to estimate the total impact the pandemic will have.

9. Subsequent events

Effective November 1, 2022, the Plan was amended and restated to update the employer match contribution reinstated by the Board of Directors. The amended adoption agreement states that the employer match contribution is a discretionary match to be determined by the employer.
