Independent Auditors' Report

The Plan Administrator
The J. M. Smucker Company
Employees' Retirement Plan
Orrville, Ohio

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of The J. M. Smucker Company Employees' Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of April 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2022 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended April 30, 2022, stating that the certified investment information, as described in Note C to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- The information in the accompanying 2022 financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2022 Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of April 30, 2022, and the supplemental schedules of reportable transactions for the year then ended are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2021 Financial Statements

We have audited the 2021 financial statements, and in our report dated February 3, 2022, we expressed an unmodified opinion on those 2021 financial statements.

NOTES TO FINANCIAL STATEMENTS

Note A. Description of the Plan

The following is a summary of certain provisions of The J. M. Smucker Company Employees' Retirement Plan (the "Plan"). Participants should refer to the Plan document for more complete information.

The Plan is a defined benefit plan that, prior to being frozen, covered substantially all regular employees of The J. M. Smucker Company (the "Company") and certain of its subsidiaries not accruing benefits under any other retirement plan of the Company. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended. Effective December 31, 2007, the Company froze benefit service to the Plan for participants under the age of forty (40) and no new participants were allowed to join the Plan after that time. Participants at or over the age of forty as of January 1, 2008 continued to accrue benefit service in the Plan until December 31, 2017, at which time benefit accruals were frozen to all participants.

Benefits are based on both a participant's eligible compensation during employment with the Company and the participant's years of service with the Company. Participants can elect to receive their benefits as an annuity or a lump-sum.

Note B. Significant Accounting Policies

Basis of Accounting:

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Administration & Investments Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodian, and SEI Private Trust Company ("SEI" or "Trustee"). See Note E. for a description of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note B. Significant Accounting Policies (Continued)

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated plan benefits (see Note D.) are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by the employees. Accumulated plan benefits include benefits expected to be paid to (a) retired, terminated, or deceased employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on their previous compensation as defined in the Plan. The actuarial present value of accumulated plan benefits was determined on a "going concern" basis, based on each participant's age, and eligible service and average salary through December 31, 2017 (the freeze date described in Note A).

Administrative Fees:

Administrative fees are paid by the Plan or by the Company.

Use of Estimates:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Payment of Benefits:

Benefit payments to participants are recorded upon distribution.

Subsequent Events:

The Company has evaluated subsequent events through February 10, 2023, which is the date the financial statements were available to be issued.

On February 8, 2023, The J.M. Smucker Company announced the divestiture of several pet food brands. The transaction is expected to close by the Company’s fiscal year-end of April 30, 2023. While expected to be immaterial, the impact to The J.M. Smucker Employees’ Retirement Plan is unknown at this time.

Note C. Trustee Certification

For the year ended April 30, 2022, the plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, SEI, the Plan's Trustee, has certified to the completeness and accuracy of the investments and accrued income reflected in the statement of net assets available for benefits at April 30, 2022, the supplemental schedules as of and for the year ended April 30, 2022, the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended April 30, 2022 and the related investment information in the accompanying notes to the financial statements. This information is unaudited by independent accountants.

Note D. Accumulated Plan Benefits

The Plan's independent actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Plan provides for benefit payments to be paid as a lump-sum or, in certain circumstances, to commence upon the date of normal or qualified early retirement or the death or other termination of an active employee. The Plan provides for the immediate payout to a participant upon retirement, death, or other termination if the actuarial present value of the participant's nonforfeitable accrued retirement benefit payable does not exceed $5,000. For any mandatory distributions greater than $1,000 and up to and including $5,000 for which the participant does not make an election for either a rollover to an eligible retirement plan or a direct distribution, the Company will pay the distribution in a direct rollover to an individual retirement plan designated by the Company.

The actuarial present value of accumulated plan benefits at May 1, 2021 is as follows:

Vested benefits:	
Participants currently receiving payments	$ 62,783,348
Other participants	73,414,145
	136,197,493
Nonvested benefits	2,307,908
	$138,505,401

Note D. Accumulated Plan Benefits (Continued)

Changes in accumulated plan benefits from May 1, 2020 to May 1, 2021 are as follows:

Actuarial present value of accumulated plan benefits - May 1, 2020	$140,654,214
Changes during the year attributable to:	
Benefits accumulated	-
Actuarial losses	2,469,025
Decrease in the discount period	7,651,814
Actual benefits paid	(15,158,393)
Change of assumptions	2,888,741
Net decrease	(2,148,813)
Actuarial present value of accumulated plan benefits - May 1, 2021	$138,505,401

Significant assumptions underlying the actuarial computations are as follows:

	Year Beginning May 1,	
	2021	2020
Life expectancy of participants	PRI-2012 table (MP-2020 mortality improvement scale) using separate gender-distinct rates for annuitants and non-annuitants	PRI-2012 table (MP-2019 mortality improvement scale) using separate gender-distinct rates for annuitants and non-annuitants
Annuity discount rate	5.75%	5.75%
Lump-sum discount rate	5.00%	5.00%
Retirement	100% by age 65	100% by age 66

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note E. Fair Value Measurements

The Plan estimates the fair value of financial instruments using available market information and other generally accepted valuation methodologies. The inputs used to measure fair value are classified into three levels:

- Level 1 – Quoted market prices in active markets for identical assets and liabilities
- Level 2 – Significant observable market-based inputs or unobservable inputs that are corroborated by market data
- Level 3 – Significant unobservable inputs in which little or no market data exists

The following is a description of the valuation methodologies used for assets measured at fair value.

- Mutual funds and money market fund: Valued at the quoted net asset value ("NAV") of shares held by the Plan at year end. These are classified as Level 1.
- Private equity fund: Valued at fair value using the NAV per share (or its equivalent) practical expedient and, therefore, has not been classified in the fair value hierarchy.
- Collective investment trust: Valued at fair value using the NAV per share (or its equivalent) practical expedient and, therefore, has not been classified in the fair value hierarchy.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. There have been no changes in the methodologies used from 2021 to 2022. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan assets as of April 30, 2022 and 2021:

	Assets at Fair Value as of April 30, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 75,589,887	$ -	$ -	$ 75,589,887
Total assets in the fair value hierarchy	$ 75,589,887	$ -	$ -	75,589,887
Investments measured at NAV:				
Collective investment trust				19,444,066
Investments at fair value				$ 95,033,953

Note E. Fair Value Measurements (Continued)

	Assets at Fair Value as of April 30, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	$119,844,242	$ -	$ -	$119,844,242
Money market fund	86	-	-	86
Total assets in the fair value hierarchy	$119,844,242	$ -	$ -	119,844,328
Investments measured at NAV:				
Private equity fund				1,065,460
Collective investment trust				14,802,884
Investments at fair value				$135,712,672

The Plan values its investments in the private equity fund and the collective investment trust at amounts reported by the investment manager and as validated through consideration of the audited financial statements of the investments. Accordingly, the Plan does not use separate quantitative information to value the investments.

The following table summarizes the investment strategy types of the alternative investments as of April 30, 2022 and 2021:

Instrument	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
April 30, 2022				
SEI Core Property CIT (a)	$ 19,444,066	-	Quarterly	95 days
April 30, 2021				
SEI Core Property CIT (a)	14,802,884	-	Quarterly	95 days
SEI 2005 Global Opportunity PE Fund (b)	1,065,460	-	Not eligible	Not eligible

Note E. Fair Value Measurements (Continued)

(a) The SEI Core Property Collective Investment Trust (the "Fund") seeks both current income and appreciation through investment in underlying funds that acquire, manage, and dispose of commercial real estate properties. The Fund expects to invest at least 85% of its assets in open-end core underlying funds focused on properties in the U.S. with "core" meaning high-quality, low-leveraged, income-generating office, industrial, retail, and multi-family properties, generally fully-leased to creditworthy companies and governmental entities. Up to 5% of the Fund's net assets may be invested in liquid real estate strategies (publicly-traded REITs) for cash management purposes and the Fund may have up to a 15% allocation to non-core sectors and strategies.

(b) The category comprises a private equity fund of funds whose investments will consist of primary limited partnership interests in corporate finance and venture capital funds. In addition, secondary partnership and co-investment deals are acceptable. Corporate finance investments may include leveraged buy-out, industry consolidation, growth or fundamental business change, acquisitions, refinancing and recapitalization, mezzanine investments, and distressed and turnaround strategies. Venture capital investments include start-up companies and companies developing new business solutions and technologies.

Note F. Party-in-Interest Transactions

The Plan currently holds investments which are under the management of the Trustee. Therefore, these qualify as party-in-interest transactions. Fees charged by the Trustee to the Plan were $527,980 and $624,506 for the years ended April 30, 2022 and 2021, respectively.

Note G. Funding Policy

Funding requirements are determined annually. The Company has agreed to contribute such amounts as are necessary to meet the minimum funding requirements of ERISA and to provide assets sufficient to meet the benefits to be paid to Plan participants.

Note H. Plan Termination

The Company expects to continue the Plan indefinitely but reserves the right to terminate it at any time. In the event of termination, Plan assets shall be apportioned and distributed for the purchase of annuities in the order of priority outlined in the Plan agreement subject to compliance with ERISA regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC"). Should the Plan terminate at some future time, its net assets may not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by, and the financial condition of, the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Note I. Income Tax Status

The Plan obtained a determination letter on October 31, 2017, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Included in the Plan's underlying investments were units of a fund structured as a limited partnership. In any given year, this partnership could generate unrelated business income ("UBI") to the trust. In turn, a plan holding these investments would be liable for any income tax resulting from these investments after offsetting any related expenses and/or investment loss carry-forward amounts. Because the amount of any future UBI passing through to the Plan could not be determined, the Plan's management did not record any deferred income tax benefit (loss) on the Plan's financial statements. The Plan liquidated this investment during 2022.

The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of April 30, 2022, there are no uncertain positions taken or expected to be taken that would require such recognition or disclosure in the financial statements.

Note J. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Demographic Assumptions

Inclusion date	The valuation date coincident with or next following the date on which the employee becomes a participant.
New or rehired employees	It was assumed there will be no new or rehired employees.
Mortality	
■ Healthy	For minimum funding purposes, the prescribed mortality assumption under IRC 430(h)(3)(A) using static tables with separate mortality rates for annuitants and non-annuitants.
■ Disabled	For minimum funding purposes, the permitted tables under IRS Revenue Ruling 96-7 are used for disabled participants.
■ Lump Sum	The proposed 2021 IRS mortality table without future projection.

SCHEDULE SB ATTACHMENTS

Termination

Rates varying by age and gender

Representative Termination Rates not Due to Disability, Retirement or Mortality

Attained Age	Rate
25	11.07%
35	7.67
45	5.69
55	4.21

Disability

The DP-1985 Disability Table using sex-distinct rates for male and female employees. The following rates are illustrative:

Attained Age	Males	Females
25	0.038%	0.047%
35	0.069	0.136
45	0.202	0.323
55	0.722	0.952

Retirement

Rates varying by age and service, average age 62. For purposes of determining the Funding Target and Target Normal Cost (both disregarding at-risk assumptions), the rates at which participants retire by age and service are shown below.

Attained Age	Employees Without 30 Years of Service	Employees With 30 Years of Service
55-59	10%	20%
60-61	10	30
62-63	25	40
64	25	50
65	100	100

Benefit commencement date:

- Preretirement death benefit

The later of the death of the active participant or the date the participant would have attained age 55. For the supplemental portion attributable to employee contribution the beneficiary receives the benefit upon death of the participants.

SCHEDULE SB ATTACHMENTS

■ Deferred vested benefit	Future terminated participants (not retirement eligible) are assumed to take a lump sum upon termination. Current deferred vested participants are assumed to begin annuity payments at age 65.
■ Disability benefit	Upon disablement with at least 10 years of service.
■ Retirement benefit	Upon termination of employment and at least age 55 with 10 years of service or age 65.
Form of payment	60% of participants reaching retirement or termination are assumed to elect a lump sum payment while the remaining 40% of participants are assumed to elect an annuity. For married participants electing an annuity, 80% are assumed to elect 50% J&S annuity and 20% electing a straight life annuity. For deferred vested participants, 80% of married participants are assumed to elect the 50% joint and survivor form and 20% are assumed to elect a single life form.
Percent married	It was assumed that 85% of males and 50% of females are married.
Spouse age	Females are assumed to be three years younger than males.
Administrative expenses	$1,200,000
Covered pay	N/A
At-risk assumptions	For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.
Timing of benefit payments	Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

SCHEDULE SB ATTACHMENTS

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22). The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the prior plan year.) The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.
Benefits not valued	All benefits described in the Plan Provisions section of this report were valued based on discussions with The J.M. Smucker Company regarding the likelihood that these benefits will be paid. Willis Towers Watson has reviewed the plan provisions with The J.M. Smucker Company and, based on that review, is not aware of any significant benefits required to be valued that were not.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC 430, lump sum benefits are valued using “annuity substitution”, so that the interest rates assumed are effectively the same as described above for the discount rate, adjusted as required to account for

	the fact that the plan's lump sum conversion rate is either IRC 417(e) assumptions or whichever produces the larger lump sum.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Assumed termination rates differ by age and gender because of observed and expected differences in termination rates by age and gender. These rates reflect experience study conducted in 2021.
Disability	Assumed disability rates differ by age and gender because of observed and expected differences in disability rates by age and gender.
Retirement	Retirement rates are based on plan sponsor expectations for the future reflecting plan changes, availability of Social Security and Medicare, and workforce events like early retirement windows that have occurred and current economic conditions with periodic monitoring of observed gains and losses caused by retirement patterns different than assumed. These rates reflect experience study conducted in 2021.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430 or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Changes in Assumptions and Methods

Change in assumptions since prior valuation	The interest rate and mortality assumption (including those due to ARPA) were updated to reflect prescribed changes. The termination rates, retirement rates and form of payment assumptions were updated following an experience study.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

SCHEDULE SB ATTACHMENTS

Schedule SB, Line 22
Description of Weighted Average Retirement Age
as of May 1, 2021

See Schedule SB, Part V, Statement of Actuarial Assumptions and Methods for retirement rates. The average retirement age for Line 22 was calculated by determining the average age at retirement for those current active participants expected to reach retirement, based on all current decrements assumed.

As of the valuation date, the weighted average retirement age is 59.

Age of Retirement	Under 30 Years	Over 30 Years	% Retiring*	Weighted Ages
(A)	(B)	(C)	(D)	(A)*(D)
55	10.00%	20.00%	18.00%	9.90
56	10.00%	20.00%	14.76%	8.27
57	10.00%	20.00%	12.10%	6.90
58	10.00%	20.00%	9.92%	5.76
59	10.00%	20.00%	8.14%	4.80
60	10.00%	30.00%	9.64%	5.78
61	10.00%	30.00%	7.13%	4.35
62	25.00%	40.00%	7.51%	4.66
63	25.00%	40.00%	4.73%	2.98
64	25.00%	50.00%	3.63%	2.32
65	100.00%	100.00%	4.43%	2.88
Retirement Age		⇨		**59**

*Separate retirement rates (or decrements) are used for participants who reach an eligible retirement age prior to completing 30 years of service and those who reach an eligible retirement age after completing 30 years of service as shown above. An individual's average retirement age is determined based on the appropriate retirement decrement looking at the participant's age and service at each non-zero decremented retirement age. The weighted average retirement age for the plan represents the average of the individual averages for each active participant included in the current year's valuation.

It is estimated that 80% of the current active population will be eligible to retire with over 30 years of service, thus the derivation of the weighted average retirement age for the plan can be demonstrated using an earliest retirement age of age 55 for all individuals, and a 20% weighting of the decrements applicable to those with under 30 years of service combined with an 80% weighting of the decrements applicable to those with over 30 years of service as shown above.

Credited Service

Effective December 31, 2017 all plan benefits are frozen for all participants.

Effective January 1, 2008, with respect to participants who had not attained age 40 as of that date, benefit service is frozen.

Service for eligibility purposes is credited from the date of hire, as is service for benefit purposes is determined from date of hire or effective date noted above.

Normal Retirement Benefit

Eligible at age 65.

A monthly pension, if paid on a straight-life basis, equal to the sum of the Basic and Supplemental Benefits as follows:

Basic - Greater of a) or b) below:

a) $10.00 per month per year of credited service; and

b) 1% of Final Average Monthly Base Pay times years of credited service.

Frozen 4/30/1991 Supplemental Benefit - Monthly benefit equals the greater of a) or b) below:

a) 1/12 of the amount obtained by multiplying 50% times the employee contributions without interest as of April 30, 1991; and

b) Excess of Prior Formula over Current Formula at April 30, 1991.

Final Average Monthly Base Pay – 1/60 of the highest aggregate Base compensation received by an employee from an Employer during any 60 consecutive calendar months over all employment prior to the earlier of retirement or other termination of employment. Effective May 1, 2011, compensation recognized for pension purposes is limited to $245,000 and is subject to annual indexing. Effective January 1, 2008, with respect to participants who had not attained age 40 as of that date, base compensation earned after December 31, 2007 is not considered. For all others pay was frozen December 31, 2017.

SCHEDULE SB ATTACHMENTS

Early Retirement Benefit

Eligible after age 55 and at least 10 years of service.

The monthly early retirement pension is equal to the accrued Basic and Supplemental Benefits reduced 1/3 of 1% for each month commencement of benefits precedes:

a) age 62, if employee has 30 or more years of vesting service, or

b) age 65, if employee has less than 30 years of vesting service.

Disability Benefit

Eligible upon total and permanent disability after at least 10 years of service and not eligible for a short or long-term disability benefit under any plan maintained by the Company.

The monthly disability pension is the accrued normal retirement benefit commencing upon determination of disability (after at least 5 months).

Vested Benefits Upon Termination of Service

Eligible if the employee terminates after 5 years of service.

The vested termination benefit is the accrued normal retirement benefit commencing at age 65 or, if the employee has 10 years of service, commencing as early as age 55 on an actuarially reduced basis.

Lump Sum Window

A window was offered to deferred vested pensioners to take their benefits as a lump sum as of March 1, 2013.

Death Benefits for Participants in Active Service

Return of a participant’s contributions to the Supplemental pension benefit together with accumulated interest.

SCHEDULE SB ATTACHMENTS

Preretirement Spouse's Benefit

Eligible upon death of a participant after 5 years of service.

The spousal death benefit is the benefit to which the spouse would have been entitled had the deceased employee retired on the day of his death with a 50% Joint and Survivor option in effect. If death occurs prior to age 55, benefits to the spouse will commence with the month following the date that the employee would have reached age 55.

Optional Forms of Retirement Income

An employee may elect to receive his benefit as a single life, 100% Joint and Survivor, 75% Joint and Survivor, 50% Joint and Survivor, 66-2/3% Joint and Survivor basis, or 120-month Certain and Continuous annuity, or as a single lump sum.

Unless otherwise elected, any benefit payable under the plan shall be paid on a 50% Joint and Survivor basis if the employee has been married to his current spouse for at least one year, or on a straight-life basis otherwise with the further provision that any benefits payable will be the actuarial equivalent of a straight-life benefit.

Pension Increases

Effective January 1, 2003 all pension benefits were adjusted to reflect a cost-of-living increase as follows:
