Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Hudspeth & Associates, Inc. 401(k) Plan, (the "Plan") which comprise the statements of net assets available for benefits (in liquidation) as of October 31, 2019 and December 31, 2018, and the related statement of changes in net assets available for benefits for the period from January 1, 2019 to October 31, 2019 (in liquidation) and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management was responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility was to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that Voya Retirement Insurance and Annuity Company held the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the custodian as of October 31, 2019 and December 31, 2018, and for the period from January 1, 2019 to October 31, 2019, that the information provided to the Plan administrator by the custodian was complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Emphasis of Matter

As described in Note 1 to the financial statements, the governing body of Hudspeth & Associates, Inc. 401(k) Plan has approved Plan liquidation. As a result, the Plan utilized the liquidation basis of accounting in presenting the 2019 and 2018 financial statements, rather than the accrual basis of accounting. Our opinion was not modified with respect to that matter.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Hudspeth & Associates, Inc. 401(k) Plan

Notes to Financial Statements

Note 1: Plan Description

The following description of Hudspeth & Associates, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was a defined contribution plan consisting of a 401(k) plan and a profit sharing plan. The Plan covered all full-time employees of Hudspeth & Associates, Inc. (the "Company") who had completed one year of service and were age twenty-one or older. An employee had to be employed on the last day of the Plan year in order to be eligible to receive the Company's discretionary annual profit sharing contribution. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Company was the Plan administrator and was responsible for oversight of the Plan, Voya Retirement Insurance and Annuity Company (Voya) served as the custodian. Farmer and Betts served as third party administrator and recordkeeper. The Plan advisory committee determined the appropriateness of the Plan's investment offerings and monitored investment performance.

Plan Termination

During the year ended December 31, 2018, Plan management elected to terminate the Plan and began to take formal action to terminate the Plan. Therefore, in accordance with accounting principles generally accepted in the United States of America ("GAAP"), the Plan changed its basis of accounting used to value Plan assets from the ongoing Plan basis to the liquidation basis as of December 31, 2018, and thereafter.

Contributions

Each year, participants could contribute up to the amount allowed by law of annual compensation, as defined in the Plan, on a pretax basis or after-tax basis. Deferral contributions and after-tax Roth contributions could not exceed certain limits set forth by the Internal Revenue Service ("IRS"). Participants who had attained age 50 before the end of the Plan year were eligible to make catch-up contributions. Participants could also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). The Company could at its discretion make matching contributions equal to a percentage of each participant's contributions. Additionally, the Company could make additional profit sharing contributions at the discretion of the Company's Board of Directors. For the year ended December 31, 2019, the Company made no matching contributions or profit sharing contributions. Contributions were subject to certain limitations.

Hudspeth & Associates, Inc. 401(k) Plan

Notes to Financial Statements

Note 1: Plan Description (Continued)

Participant Accounts

Each participant's account was credited with the participant's contributions, Company discretionary matching contributions, and allocations of Company discretionary profit sharing contributions and plan investment earnings. Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Investment Options

Participants directed the investment of their contributions into various investment options offered by the Plan. The Plan offered various pooled separate accounts and a guaranteed investment contract as investment options for participants. Participants could change their investment options at any time.

Vesting

Participants were immediately 100% vested in their contributions, including rollovers plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing contributions, and earnings thereon, was based on years of continuous service. A year of service was credited for which 1,000 hours or more were worked in a Plan year. A participant was 100% vested after three years of continuous service.

Upon plan management's approval of the resolution to terminate the Plan, all participants became 100% vested in their accounts.

Notes Receivable From Participants

Participants could borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms ranged from one to three years, and could be longer upon approval of the Company for the purchase of a primary residence. The loans were secured by the balance in the participant's account and bore interest at a rate equal to 1% above the prime rate. A loan carried the same rate of interest throughout its term. Principal and interest was paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant could elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or annual installments as required by minimum distribution rules. For termination of service due to other reasons, a participant could receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes to Financial Statements

Note 1: Plan Description (Continued)

Hardship Withdrawals

Hardship withdrawals were available if the participant met certain criteria.

Forfeited Accounts

Forfeitures which were attributable to the Company match were first used to pay administrative expenses and any remaining forfeitures could be used to reduce the future Company contributions. Because of the Plan termination; all participants became fully vested and there were no unallocated forfeitures held by the Plan at December 31, 2019.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

As a result of the decision to terminate the Plan, the Plan changed its basis of accounting from the accrual basis to the liquidation basis, effective December 31, 2018. There were no material changes to the financial statements as a result of this change in accounting.

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan administrator determined the Plan's valuation policies utilizing information provided by the investment advisors and the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments included the Plan's gains and losses on investments bought and sold, as well as held, during the period.

Note 2: Summary of Significant Accounting Policies (Continued)

Notes Receivable From Participants

Notes receivable from participants were measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income was recorded on the accrual basis. Related fees were recorded as administrative expenses and were expensed when they were incurred. No allowance for credit losses was recorded as of October 31, 2019 and December 31, 2018. Delinquent participant notes receivable were recorded as benefit payments on the basis of the terms of the Plan document, upon Plan termination.

Payment of Benefits

Benefits were recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan were paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and distributions were charged directly to the participant's account and are included in administrative expenses. Investment related expenses were paid through revenue sharing and included in net appreciation in fair value of investments.

Subsequent Events

Subsequent events have been evaluated through February 3, 2023, which was the date the financial statements were available to be issued. Plan management has not identified any material subsequent events that require reporting or disclosure

Note 3: Information Prepared and Certified by the Custodian (Unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya, the custodian of the Plan, has certified that the following unaudited data included in the accompanying financial statements is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of October 31, 2019 and December 31, 2018.
- Net Appreciation in fair value of pooled separate accounts and interest income from the guaranteed investment contract, as shown in the Statement of Changes in Net Assets Available for Benefits.

This information has not been audited by the Plan's independent auditors.

Note 4: Fair Value Measurements

GAAP establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority level; Level 2 inputs consist of observable inputs other than quoted prices for identical assets (Level 1); and Level 3 inputs are unobservable and have the lowest priority. The Plan used appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measured fair value using Level 1 inputs because they generally provided the most reliable evidence of fair value. Level 2 inputs were used for investments for which Level 1 inputs were not available. Level 3 inputs would only be used if Level 1 or Level 2 inputs were not available. There are no plan assets requiring the use of Level 1, Level 2, or Level 3 inputs for the periods presented.

The asset or liability's fair value measurement level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following was a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used as of October 31, 2019 and December 31, 2018.

Pooled Separate Accounts: Fair value is estimated using the net asset value (NAV) per unit by the issuer of the pooled separate accounts. Fair Value is based on the fair value of underlying investments held by the pooled separate accounts. The underlying investments consists primarily of mutual funds.

The preceding method could produce a fair value calculation that could not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method was appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2018. Classification within the fair value hierarchy table was based on the lowest level of any input that was significant to the fair value measurement.

	(In Liquidation)			
	Assets at Fair Value as of December 31, 2018			
	Level 1	Level 2	Level 3	Total
Investment Assets in the Fair Value Hierarchy	\$ -	\$ -	\$ -	\$ -
Investment Assets Measured at NAV (a)				<u>2,086,458</u>
Total Investment at Fair Value				<u>\$ 2,086,458</u>

Hudspeth & Associates, Inc. 401(k) Plan

Notes to Financial Statements

Note 4: Fair Value Measurements (Continued)

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in the table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets available for Benefits.

There were no transfers in and/or out of Levels 1, 2, or 3 for financial instruments measured at fair value on a recurring basis for the period from January 1, 2019 to October 31, 2019 and the year ended December 31, 2018. If the Plan were to recognize transfers, it would do so at the end of the reporting period.

Fair Value of Investments in Entities That Use NAV

The following table summarizes investments measured at fair value based on NAV per share as of December 31, 2018.

<i>December 31, 2018</i>	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
Pooled Separate Accounts	\$ 2,086,458	N/A	Daily	1 day

Note 5: Fully Benefit-Responsive Investment Contract with Insurance Company

The Plan had a fully benefit-responsive investment contract with Voya. This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals and administrative expenses.

The investment contract held by the Plan was a traditional guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer. The crediting rate is reviewed on an annual basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts was dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations could be affected by future economic and regulatory developments.

Certain events, such as the premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Voya. As of December 31, 2018, the Plan administrator believed the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan participants was probable. As disclosed in Note 7, during the year ended December 31, 2018, the Plan sponsor approved a resolution to terminate the Plan, which could affect the amount received. However, the Plan administrator does not believe the amount will be significant.

Notes to Financial Statements

Note 6: Party-in-Interest Transactions

Certain Plan investments were managed by Voya, the custodian of the Plan. Farmer and Betts served as third party administrator and recordkeeper, and Wells Fargo Advisors Insurance Agency LLC served as investment advisor. These transactions qualified as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments as they were paid through revenue sharing rather than a direct payment. During the period January 1, 2019 to October 31, 2019, the Plan made direct payments of \$18,603 to these parties which were not covered by revenue sharing. The Plan sponsor paid directly any other fees related to the Plan's operations.

Notes receivable from participants also qualified as party-in-interest transactions, which are exempt from the prohibited rules of ERISA.

Note 7: Plan Termination

During the year ended December 31, 2018, the Company elected to terminate the Plan subject to the provisions of ERISA. As a result of the termination, all participants became 100 % vested in their accounts.

Note 8: Tax Status

The Plan adopted a volume submitter plan, which obtained a favorable advisory letter from the United States Treasury Department dated March 31, 2014, stating that the form of the volume submitter plan is acceptable under Section 401 of the Internal Revenue Code (IRC) and was therefore exempt from Federal income taxes. The Plan administrator and Company management believe that the Plan was designed, and was operated, in compliance with the applicable requirements of the IRS. Therefore, management believed that the Plan was qualified, and the related trust was tax-exempt as of the financial statement date. Accordingly, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires Plan management to evaluate the tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded, as of October 31, 2019, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in-progress.

Note 9: Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to of the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could have materially affected participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
