Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of College Foundation, Inc. Defined Contribution Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certification from a qualified institution as of and for the year ended June 30, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section—

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Auditors Report on the 2021 Financial Statements

The 2021 financial statements of the Colleege Foundation, Inc. Defined Contribution Plan were audited by predecessor auditors. Their report dated January 11, 2022 indicated that based on their audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section -

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4i – Schedule of Assets Held at End of Year as of June 30, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

COLLEGE FOUNDATION, INC. DEFINED CONTRIBUTION RETIREMENT PLAN
Notes to Financial Statements
June 30, 2022 and 2021

1. Description of the Plan

The following description of the College Foundation, Inc. Defined Contribution Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan document and adoption agreement for a more complete description of the Plan's provisions.

A. General:

The Plan is a defined contribution plan under Internal Revenue Code Section 403(b) covering substantially all employees of College Foundation, Inc. (the Foundation), the Plan sponsor. Employees of the Foundation are eligible to make elective deferrals thirty days from the date of hire. Employees become eligible for matching contributions after they have attained the age of twenty-one and completed two years of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Plan document, initially effective on July 1, 1968, was amended effective January 1, 2009 to incorporate the ERISA specimen plan document with a specific adoption agreement approved by the Plan sponsor. The Plan was amended effective December 1, 2020 to allow in-service distributions at age 59 1/2 and hardship withdrawals. The Plan was amended effective August 1, 2021 to require automatic distributions if a participant terminates employment and has a vested balance that does not exceed \$5,000.

B. Contributions:

Participants may make elective deferrals of their pre-tax or after-tax annual compensation (or a combination of both) up to the maximum amount allowable under Internal Revenue Code Section 402(g) and the Plan document and adoption agreement. Mandatory employee contributions of two percent (2%) become a condition of employment after meeting the Plan's age and years of service requirements. Participants who have attained age fifty before the close of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing direct or eligible rollover distributions from other qualified plans.

The Foundation matches the mandatory employee contribution of two percent (2%). The Foundation also makes matching contributions on the participant's elective deferrals based upon a tiered contribution schedule included in the Plan document and adoption agreement. Contributions are subject to certain limitations as defined in the Plan document and adoption agreement.

C. Participant Accounts:

Each participant's account is credited with the participant's contributions, the Foundation's matching contributions and allocations of Plan earnings. Allocations are based on account balances, as defined in the Plan document and adoption agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

D. Vesting:

Participants are immediately vested in their elective deferrals, mandatory contributions and rollovers plus actual earnings thereon, as well as the portion of their individual account derived from the Foundation's matching contributions plus actual earnings thereon.

E. Investment Options:

Participants direct the investment of their contributions, including rollover contributions, as well as Foundation matching contributions made on their behalf into various investment options offered by the Plan. Participants may change their investment options at any time throughout the year.

1. Description of the Plan (Continued)

F. Payment of Benefits:

Upon severance from employment or attainment of normal retirement age, a participant or their beneficiary may receive the value of the vested portion of their individual account paid to them in one or more of the following forms of payment: (1) in a lump sum, (2) in a partial payment, (3) in installment payments over a period not to exceed the life expectancy of the participant or the joint and last survivor life expectancy of the participant and their designated beneficiary, or (4) applied to the purchase of an annuity contract or converted to an income option as available to participants under the individual agreements permitted under the Plan document and adoption agreement. Participants may elect to roll over distributions to other qualified plans or to individual retirement accounts.

G. Notes Receivable from Participants and Plan Loans:

Plan participants may request a loan in accordance with provisions in the Plan document and adoption agreement. Participants may borrow from their accounts an amount at a minimum of \$1,000 up to a maximum of 50% of the participant's nonforfeitable account balance. The maximum aggregate dollar amount of loans outstanding to any participant may not exceed \$50,000, reduced by the excess of the participant's highest outstanding loan balance during the 12-month period ending on the date of the loan over the participant's current outstanding loan balance on the date of the loan. Loan terms may not exceed five years; however, loan terms may be extended beyond five years if the proceeds are used to acquire a home that will be the primary residence of the participant. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 5.00%, which were commensurate with Federal Reserve Board Bank prime loan rate plus 1 percent at the time of the loan origination. Principal and interest are paid ratably through payroll deductions if currently employed by the Foundation.

Through November 2021, plan loans were issued as separate contracts by TIAA and did not represent plan assets. Loans are collateralized using the participant's TIAA Traditional account balance in an amount equal to one hundred ten percent (110%) of the outstanding loan balance. Principal and interest are paid by the participant to TIAA and payments reduce amounts collateralized by the borrowing participant's TIAA Traditional account balance.

H. Net Assets Available for Benefits:

Net assets available for benefits include assets held by TIAA as collateral for Plan loans currently outstanding to participants as well as amounts reported to the IRS as deemed distributed but still held in Plan assets pending a distributable event. See Note 7 regarding Contingency.

2. Summary of Significant Accounting Policies

A. Basis of Accounting:

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

B. Use of Estimates:

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities as of the date of the financial statements. Actual results could differ from those estimates.

Notes to Financial Statements

2. Summary of Significant Accounting Policies (Continued)

C. Investment Valuation and Income Recognition:

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion and disclosures related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Payment of Benefits:

Benefits are recorded when paid.

E. Administrative Expenses:

Personnel with the Foundation perform many administrative duties of the Plan, including maintenance of personnel files and reconciliation of payroll records. Expenses including related overhead costs paid by the Foundation are excluded from these financial statements. Other contract administrator fees may be paid directly from Plan assets.

3. Financial Information Certified by Custodian

The following is a summary of the unaudited information included in the Plan's financial statements and supplemental schedule which was prepared by or derived from information prepared by TIAA, custodian of the Plan, and furnished to the Plan administrator. The Plan administrator has obtained certification from the custodian that such information is complete and accurate:

Statement of Net Assets Available for Benefits – all items and amounts with the exception of receivables and liabilities, as applicable.

Statement of Changes in Net Assets Available for Benefits – all items and amounts with the exception of contributions and benefits paid to participants.

Supplemental Schedule – all items and amounts.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, as amended, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

COLLEGE FOUNDATION, INC. DEFINED CONTRIBUTION RETIREMENT PLAN
Notes to Financial Statements
June 30, 2022 and 2021

4. Fair Value Measurements (Continued)

Level 2 – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual Funds (Registered Investment Companies): These investments are valued using the net asset value (NAV) as reported by the fund. NAV is based on the value of the underlying assets owned by the fund, less its liabilities, and then divided by the number of units outstanding. NAV is a quoted price in an active market and classified within Level 1 of the valuation hierarchy.

Pooled Separate Account (TIAA Real Estate): These investment assets are valued at the closing accumulation unit value on a daily basis, which is considered to be representative of fair value. The value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. The unit values are calculated each day and listed on the NASDAQ stock market and are classified within Level 1 of the valuation hierarchy.

Guaranteed Annuity Contracts: These investment assets are unallocated fixed-annuity contracts that provide a guarantee of principal, a guaranteed minimum rate of interest, and the potential for additional interest if declared by TIAA. The contracts are reported at contract value which approximates fair value and are classified within Level 3 of the valuation hierarchy. See Note 5 for further details.

Stable Value Fund: This asset is a fixed-rate group annuity contract that provides a guarantee of principal, a guaranteed minimum rate of interest before deductions for contract fees, and the potential for additional interest if declared by TIAA. The fund is reported at contract value, which is the relevant measurement attribute for that portion of the Plan's net assets available for benefits attributable to fully benefit-responsive investment contracts. The fund's contract value approximates fair value and is classified within Level 3 of the valuation hierarchy. See Note 6 for further details.

4. Fair Value Measurements (Continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2022:

5. Guaranteed Annuity Contracts

The Plan offers TIAA Traditional Annuity contracts, unallocated fixed-annuity nonbenefit-responsive contracts fully and unconditionally guaranteed by TIAA's General Account. The annuity provides a guarantee of principal, a guaranteed minimum rate of return, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect for the "declaration year", which begins each March 1. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the "crediting rate" in the accumulation phase of the account. Contributions to a participant's account purchase a guaranteed amount of lifetime annuity income. When a participant's account in the TIAA Traditional is annuitized based on available options, the present value of the stream of payments is equal to the account balance. The subsequent stream of annuity payments occurs outside of the Plan and does not represent an obligation of the Plan.

Withdrawals by participants of amounts from the portion of an individual's account composed of the annuity option are limited by the terms of the contract and provisions in the Plan document and adoption agreement.

6. Stable Value Fund

Beginning in the Plan year ending June 30, 2017, the Plan offered the TIAA Stable Value Fund (Fund) a fixed-rate group annuity fully benefit-responsive contract. Contributions are maintained in a non-unitized separate account of TIAA and buy a contractual or guaranteed amount of future benefits for the participant. During the accumulation phase, allocations to the Fund are supported by the value of the assets in the separate account. In the event that the assets in the separate account are insufficient to support the guarantees provided for under the contract, the TIAA General Account is obligated to fund the deficiency. After the accumulation phase, the Fund is guaranteed by TIAA's General Account. The annuity provides a guarantee of principal, a guaranteed minimum rate of interest before deductions for contract fees, and the potential for additional interest if declared by TIAA. Additional interest, when declared, remains in effect from January 1 through June 30 and from July 1 through December 31 and is not guaranteed for future periods. Together, the guaranteed minimum and additional amounts make up the "crediting rate" in the accumulation phase of the account.

6. Stable Value Fund (Continued)

The Fund's objective is providing capital preservation and income, safety, liquidity, competitive interest and the option to receive guaranteed income for life during retirement. The Fund is immediately liquid to a participant for withdrawals and transfers and does not have withdrawal restrictions (except that immediate transfers cannot be made to competing investment options pursuant to the contract's "equity wash" provisions). In addition, transfers into the Fund may not be made for 30 days following a transfer out. Upon retirement, participants can choose from a variety of income options including lifetime annuities guaranteed by TIAA. Lifetime annuities are paid from TIAA's General Account and not the separate account.

7. Contingency

Outstanding loans held by TIAA bear interest rates from 4.00% to 7.65% with maturities through November 1, 2026 as of June 30, 2022 and 2021, and are collateralized using the participants' TIAA Traditional account balances in an amount equal to 110% of their outstanding loan balances.

The loan activity during the Plan years ended June 30, 2022 and 2021 is as follows:

	2022	2021
Beginning Balance	\$ 592,933	\$ 656,939
New Loans Issued by TIAA	67,124	136,754
Principal Repayments by Plan Participants	(150,092)	(204,048)
Net Activity in Loans Deemed Distributed	<u>5,562</u>	<u>3,288</u>
Ending Balance	\$ <u>515,527</u>	\$ <u>592,933</u>

The ending balance for loan activity shown above includes \$235,739 and \$226,688 held in the Plan Loan Default Fund as of June 30, 2022 and 2021, respectively. These amounts reflect collateral of defaulted loans that have been deemed distributed to the participants but for which a distributable event has not yet occurred.

8. Related Party Transactions

TIAA is the trustee and custodian as defined by the Plan and, therefore, any administrative fees paid by the Plan would qualify as exempt party-in-interest transactions. No direct administrative expenses were paid by the Plan in the years ended June 30, 2022 and 2021.

9. Plan Termination

Although it has not expressed any intent to do so, the Foundation has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Notes to Financial Statements
June 30, 2022 and 2021

10. Income Tax Status

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan Participants under Section 403(b).

U.S. GAAP requires that plan management evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of June 30, 2021, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan files information returns in the U.S. Federal jurisdiction. The plan administrator believes it is no longer subject to examination by taxing authorities for years prior to the Plan year ending June 30, 2019.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks including but not limited to interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

12. Subsequent Events

Subsequent events have been evaluated through January 24, 2023, which is the date the financial statements were available to be issued. The Plan is not aware of any subsequent events that would require recognition or disclosure in the financial statements.
