401(K) RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

Note 1 – Description of Plan

The following description of the Daewon America, Inc. 401(K) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Daewon America, Inc. (the "Company" or the "Plan Sponsor"), with no minimum age requirement and service requirement of one month of service. The Plan began on August 1, 2008 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective June 8, 2020, the Plan changed its service provider from Principal Life Insurance Company to Nationwide Trust Company. This change in the service provider resulted in a blackout period from April 13, 2020 to June 8, 2020. During the blackout period, participants were unable to direct or reallocate investments or obtain distributions from the Plan. The investment funds in the previous Plan were subsequently transferred to the new Plan's comparable investment options provided by the new trustee. The plan also changed its eligibility requirement of waiting period from one month to two months.

Contributions

Every pay period, participants may elect to defer amounts from 2% to 100% of pre-tax eligible earnings as defined in the Plan. Participants of age 50 or over may be eligible to contribute an additional \$6,500 for 2020. Participants may also contribute amounts representing distributions from other qualified plans. However, the total contributions in any taxable year may not exceed the dollar limit, \$19,500 for 2020, which is set by law. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a matching contribution equal to 30% of participants' elective deferrals, not exceeding 1.8% of participants' eligible earnings. The Company may also decide to make non-elective (discretionary) contribution to the Plan, which will be allocated to all participants eligible in the Plan. Participants' share of the non-elective contributions is integrated with the Company's contributions to Social Security. Certain amounts are contributed to the Plan based on participants' eligible earnings, either not exceeding or exceeding the taxable wage base under Social Security. The Social Security taxable wage base for 2020 is \$137,700 and is adjusted each year by the Social Security Administration.

Vesting

Participants are always 100% fully vested in account attributable to elective deferrals and rollover contributions, if any. Vesting in qualified matching contributions and qualified non-elective contributions plus actual earnings thereon is based on years of continuous service. Participants whose employment terminates for any reason other than death, disability, attainment of age 65, normal retirement age, will be vested in matching contributions accounts to the following schedule:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 3	0%
3 or more	100%

Note 1 – Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Plan's contribution and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Distribution of Benefits

On termination of service due to death or disability, all amounts credited to participant's account become fully vested and distribution will be made pursuant to the election of the participant or beneficiary. For termination of service due to other reasons, a participant may receive the value of the vested interest in a single lump-sum payment or have the payment paid as a direct rollover to an individual retirement plan or individual retirement annuity or to another employer's tax qualified plan.

If the Plan is terminated for any reason including retirement and the value of participant's vested benefit (excluding any rollover contribution account) is more than \$5,000, the participant may choose to receive installments or defer receiving payments until age 70 ½. If vested benefit in the Plan (excluding any rollover contribution account) does not exceed \$5,000, then the Company can cash a participant's entire vested account balance out of the Plan. Under the Plan, if a participant is determined to be a cashout-eligible, vested account balance is greater than \$1,000, and has not elected to (a) received vested benefit in a single lump sum payment, or (b) have the payment paid as a direct rollover, it will automatically be rolled over to an IRA selected by the Company.

If a participant continues working for the Company after age 70 ½ and is a 5% owner, distributions are required to begin by the April 1st following the year in which a participant reaches age 70 ½, even if he or she is still employed at the time. If a participant is not a 5% owner, he or she must begin to receive benefits no later than the April 1st following the later of the year in which a participant reaches age 70 ½ or terminate employment.

In the event of financial hardship, each participant can withdraw money from his or her account if he or she satisfies certain conditions, but matching contributions are not permitted to be withdrawn. Participants must take any non hardship in-service withdrawals available to them under the Plan before obtaining hardship withdrawals. The hardship distribution is not in addition to participants' benefits and will therefore reduce the value of the benefits they will receive at retirement.

Forfeitures

If a participant terminate employment before becoming 100% vested in his or her account balance and receive a distribution of the vested matching contributions, the non-vested portion will be forfeited upon distribution made. For the years ended December 31, 2021 and 2020, the forfeited amounts totaled \$0 and \$12, respectively. In 2021, the Company utilized forfeitures totaling \$11 to offset Plan administration fees and \$1 to offset employer contribution. Outstanding balance of forfeited non-vested accounts amounts to \$0 both December 31, 2021 and 2020.

Top-Heavy Plan

If the Plan becomes top-heavy, when more than 60% of the Plan's assets are in the accounts of key employees, in any plan year, then non-key employees will be entitled to certain "top-heavy minimum benefits", and other special rules will apply. Among these top-heavy rules are, the Company may be required to make a contribution on a participant's behalf in order to provide with at least "top-heavy minimum benefits".

Note 2 – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying statements of net assets available for benefits and changes in net assets available for benefits have been prepared on the accrual basis of accounting.

Risks and Uncertainties

The Plan utilizes various investment instruments including Insurance company general account and pooled separate accounts. Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and those such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Investments

The Plan's investments are stated at fair value. Purchases and sales of investments are recorded on a trade-date basis. Gains and losses are calculated on a moving average using a current value cost basis.

Distributions

Distributions to participants are recorded when paid.

Fair Value of Financial Instruments

Investments are stated at fair value. The carrying amounts for interest-bearing cash and receivables approximate their fair values due to the short-term nature of these instruments.

Excess Participant Contribution Payable

Amounts payable to participants for contributions in excess of the amount allowed by the IRS are recorded as a liability with a corresponding reduction in contributions.

Note 3 – Tax Status

The Plan document is a prototype document that the Company adopted with specific provisions customized to meet the needs of the Plan Sponsor and the participants. The prototype document has received a favorable determination from the Internal Revenue Service that the form of the Plan is acceptable under Section 401 of the Internal Revenue Code for use by employers for the benefit of their employees. Although the Plan has been amended since receiving the original determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 4 – Plan Termination

Although it is not intended to maintain the Plan indefinitely, the Company reserves the right to terminate the Plan at any time subject to the provisions of ERISA. Upon termination, no further contributions will be made to the Plan and all amounts credited to participants' accounts will become 100% vested.

Note 5 – Investment

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by \$280,701 and \$322,472 in 2021 and 2020, respectively.

The Plan administrator elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Massachusetts Mutual Life Insurance Company has certified that the following information included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as reflected in the statements of net assets available for benefits as of December 31, 2021 and 2020
- Investment activity, as reflected in the statements of changes in net assets available for benefits for the years ended December 31, 2021 and 2020
- Investments, as reflected in Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2021

The Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the certified information, except for comparing such information with the related information in the financial statements and supplemental schedule.

Note 6 – Fair Value Measurements

The FASB ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to those valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: a. Quoted prices for similar assets or liabilities in active markets b. Quoted prices for identical or similar assets or liabilities in inactive markets c. Inputs other than quoted prices that are observable for the asset or liability d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
Level 3	If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for the assets measure at fair value. There have been no changes in the methodologies used for the year ended December 31, 2021 and 2020.

Pooled separate account	Valued at the net asset value (NAV) of shares held by the plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value.
Guaranteed interest account	Fair value represents contract value adjusted to reflect current market interest rates and is the amount plan participants would receive currently if they were to withdraw or transfer funds within the plan prior to their maturity for an event other than death, disability, termination, or retirement.
Money market fund	Valued at the closing price reported on the active market on which the individual securities are traded.
Trust mutual funds	These funds are traded daily using their NAV. All capital gains and dividends paid from these investments are reinvested into the Fund's unit value. Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Plan investments are managed by Principal Life Insurance Company, the custodian of the Plan. Any purchases and sales of these funds are performed in the open market at fair value and qualify as party-in-interest. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 9 – Excess Participant Contribution Payable

The Plan failed the discrimination test for the year ended December 31, 2021. Excess participant contribution amounting to \$19 was recorded as a liability in the accompanying statement of net assets available for benefits at December 31, 2021, and as a reduction in contributions in the accompanying statement of changes in net assets available for benefits for the year then ended. The Plan will distribute excess participant contribution of \$19 to the related participant in 2022.
