Independent Auditors' Report

The Plan Administrator
Walker 401(k) Retirement Plan
Needham, Massachusetts

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed the audit of the financial statements of the Walker 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of and for the year ended June 30, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the 2022 financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of June 30, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditors' Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by the qualified institution. In our report dated February 1, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

WALKER 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan

The following description of the Walker 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a 401(k) plan established for the benefit of the employees of Walker Inc. (the "Employer"). All employees become eligible to participate in the Plan on the date of hire. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). All of the investments are participant directed.

The Plan uses Massachusetts Mutual Life Insurance Company ("MassMutual") for recordkeeping and custodian services of its group annuity contract. On December 31, 2020, Empower Retirement, LLC ("Empower Retirement") acquired the retirement business of MassMutual. Following an initial transition period, Empower Retirement became the sole administrator of this business. An affiliate of Empower Retirement, Great-West Life & Annuity Insurance Company ("Great-West"), has been granted power of attorney over the group annuity contract issued by MassMutual. Empower Retirement prepared statements and documents on behalf of MassMutual as of June 30, 2022.

Participant Contributions

Participants may reduce their compensation by a specific percentage or dollar amount and have that amount contributed to the Plan as a salary deferral. These deferrals or contributions are subject to dollar limits set by Federal law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans ("Participant Rollovers").

Profit Sharing Contributions

Each Plan year, the Employer, at its sole discretion, determines the amount of profit sharing contributions to the Plan, subject to limitations set by Federal law. To be eligible for the profit sharing contributions, participants must complete a year of service (defined as 1,000 hours) during the Plan year and be employed by the Employer on the last day of the Plan year. For the year ended June 30, 2022, the Employer did not make a profit sharing contribution.

Discretionary Matching Contributions

Each Plan year, the Employer, at its sole discretion, determines the amount of discretionary matching contributions to the Plan, subject to limitations set by Federal law. To be eligible for the discretionary matching contributions, participants must complete a year of service (defined as 1,000 hours) during the Plan year and be employed by the Employer on the last day of the Plan year. For the year ended June 30, 2022, the Employer made discretionary matching contributions, matching up to 2% of eligible deferrals amounting to \$130,000 net of \$26,894 of forfeitures, which was made subsequent to the year end.

WALKER 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Employer contributions and Plan earnings and reduced by direct loan fees. Allocations are based on participant earnings, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balances.

Vesting

Participants are always fully vested in their participant deferral and rollover contributions plus actual earnings thereon. Participants begin vesting in Employer contributions after one year of service and become fully vested after three years of service. A participant also becomes fully vested upon death, disability or retirement, as defined by the Plan.

Withdrawals and Distributions

Participants may take an in-service withdrawal from their deferral and rollover accounts due to financial hardship. Participants may also take an in-service withdrawal from their vested accounts upon reaching the age of 59½. Upon termination of service, a participant may elect to receive a joint and survivor annuity distribution or a lump-sum amount if the value of his or her vested account balance is under \$5,000. If a participant's vested account is less than \$1,000, the entire account balance will automatically be paid in a lump sum to the participant.

Forfeitures

A participant who leaves the employ of the Employer forfeits any non-vested balance at the earlier of the end of five consecutive years of break in service or if the participant receives a complete distribution from his/her vested accounts. At June 30, 2022 and 2021, forfeited non-vested accounts totaled \$52,325 and \$35,813, respectively. The accounts can be used to pay administrative expenses and to offset a portion of the Employer contributions. During the year ended June 30, 2022, \$6,505 was used to offset 2021 Employer contributions contributed in 2022 and \$21 was utilized to pay administrative expenses. Subsequent to year end, \$26,894 was utilized to offset a portion of the 2022 Employer match for the 2022 Plan year.

Notes Receivable from Participants

Participants may borrow up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. Participants may have 2 loans outstanding at one time. Loan terms range up to five years (or longer for the purchase of a primary residence). Loans are secured by the balance in the participant's account and bear interest at a fixed rate equal to prevailing local bank rates for similar loans. Principal and interest are paid ratably through payroll deductions.

WALKER 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 1 - Description of the Plan (Continued)

Plan Expenses

Certain expenses of the Plan are paid by the Employer and are not included in the Statement of Changes in Net Assets Available for Benefits. Fees related to the administration of notes receivable from participants and for distributions are charged directly to the participant's account and are included in administrative expenses. Contract administrator fees and investment advisory/management fees charged from Great-West are also included in administrative expenses.

Note 2 - Summary of Significant Accounting Policies

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments, Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Unit Values

Individual participant accounts for the pooled separate and variable annuity accounts are maintained on a unit value basis. Participants do not have beneficial ownership in the specific underlying securities or other assets in the funds, but do have an interest therein represented by units which are valued daily. The funds earn dividends and interest which are automatically reinvested in additional units. Generally, contributions to and withdrawals from each fund are converted to units by dividing the amounts of such transactions by the unit values as last determined, and the participants' accounts are charged or credited with the number of units properly attributable to each participant.

WALKER 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 2 - Summary of Significant Accounting Policies (Continued)

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2022 or 2021.

Benefits Paid

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Subsequent Events

The Plan administrator has evaluated subsequent events through March 8, 2023, the date that the financial statements were available to be issued. No significant items were noted for disclosure during this evaluation.

Note 3 - Information Certified by the Insurance Companies

Plan investments are held in fixed and variable rate annuities, pooled separate investment accounts and a guaranteed interest account by the Plan's insurance companies, TIAA and CREF and Great-West. The fair values of the investments held by TIAA and CREF as of June 30, 2022 and 2021, and all investment transactions for the year ended June 30, 2022, including interest and dividend income and net depreciation in fair values are reported to the Plan and certified as complete and accurate by TIAA and CREF. The fair and contract values of the investments held by Great-West as of June 30, 2022, and all investment transactions for the period December 30, 2021 to June 20, 2022, including interest and dividend income and net depreciation in fair values are reported to the Plan and certified as complete and accurate by Great-West. The fair and contract values of the investments held by MassMutual, an insurance company as of June 30, 2021, and all investment transactions for the period July 1, 2021 to December 30, 2021, including interest and dividend income and net depreciation in fair values are reported to the Plan and certified as complete and accurate by MassMutual. Information included in the supplemental schedule has also been derived from information certified by the insurance companies.

Note 4 - Fair Value Measurements

The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level I) and the lowest priority to unobservable inputs (Level III). Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described below:

Level I – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level II – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level II input must be observable for substantially the full term of the asset or liability.

Level III – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2022 and 2021.

TIAA Traditional Annuity (Non Benefit-Responsive Contract)

The TIAA Traditional Annuity is a fixed rate guaranteed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is offered through the Group Retirement Annuities (GRA) contract type. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claim-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years.

GRA contracts are non benefit-responsive contracts, reported at fair value, which approximates their contract value. As GRA investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level III). The contract value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals.

Note 4 - Fair Value Measurements (Continued)

TIAA Traditional Annuity (Non Benefit-Responsive Contract) (Continued)

Liquidity restrictions apply to GRA investment contracts that could impact the value realized upon exiting the contract. The redemption provisions of the fixed rate annuities vary depending on the nature of the contract option chosen by the participant.

TIAA Real Estate Account

The account generally invests in real estate properties and real estate-related investments. The account's value is principally derived from the market value of the underlying real estate holdings or other real estate-related investments. Real estate holdings are valued principally utilizing external appraisals, which are estimates of property values based on a professional's opinion. The account sometimes holds securities as well, and these securities are generally priced using values obtained from independent pricing sources.

The fair value of the Plan's interest in the TIAA Real Estate Account (a pooled separate account) is based on the fund's quoted value, which is considered by Plan management to be the best approximation of fair value. This investment is valued at net asset value ("NAV"). The unit value of the fund is calculated daily and available to Plan management and client investors on TIAA and CREF's website. There are no unfunded commitments from participants in the Plan who invest in this account. The pooled separate account may be redeemed quarterly with one day's notice.

CREF Variable Annuities and TIAA Access Funds

The accounts invest principally in mutual funds, equity securities, fixed income instruments and short-term investments in accordance with each portfolio's investment objectives. Account investments are primarily valued using market quotations or prices obtained from independent pricing sources that may employ various pricing methods to value the investments including matrix pricing.

The fair values of accumulation units held by the Plan in CREF Variable Annuity accounts and TIAA and CREF Access Variable Annuity accounts are based on each account's daily NAV, which is considered by Plan management to be the best approximation of the fair value hierarchy. Data for NAVs are available daily to Plan administrators and client investors on TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts. The variable annuities may be redeemed daily with a day's notice.

Pooled Separate Investment Account - Great-West

Valued at the NAV of units of the separate account. The NAV, as provided by the custodian, is considered by Plan management to be the best approximation of fair value. The NAV is based on the fair value of the underlying investments held by the account less its liabilities. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the separate account, the investment advisor reserves the right to temporarily delay withdrawal from the account in order to ensure that securities liquidations will be carried out in an orderly business manner.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of June 30, 2022 and 2021:

Note 5 - Fully Benefit-Responsive Investment Contract

Following is a description of the investments and valuation methodologies for fully benefit-responsive investment contracts:

Guaranteed Interest Account

The Plan has a fully benefit-responsive guaranteed investment contract with Great-West. Great-West maintains the contributions in a general account. The guaranteed interest account is a guaranteed investment contract with principal and interest guaranteed by the general funds of Great-West. A substantial penalty will be imposed for early discontinuance of the contract prior to maturity. The average interest rate credited to participants was 3% at June 30, 2022 and 2021. Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for Participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are periodically reviewed for resetting.

The Plan's ability to receive amounts due is dependent on Great-West's ability to meet its financial obligations. Great-West's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Employer or other Employer events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with Participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The following table represents the contract value of the Plan's fully benefit-responsive investment contracts account at June 30:

		2022		2021
Guaranteed interest account, at contract value	\$	418,502	\$	305,439

WALKER 401(k) RETIREMENT PLAN

Notes to Financial Statements

Note 6 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Note 7 - Related Party Transactions and Party-In-Interest Transactions

Certain Plan investments are held by TIAA and CREF and Great-West, the custodians and recordkeepers of the Plan, and, therefore, these are considered exempt party-in-interest transactions. Administration and other fees paid by the Plan to Great-West during the year ended June 30, 2022 amounted to \$10,942. Notes receivable from participants are also considered exempt party-in-interest transactions.

Note 8 - Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such a manner as the Employer may determine.

Note 9 - Tax Status

The Plan has adopted the SunGard Corbel LLC volume submitter profit sharing plan. The Plan and related trust have been determined by the Internal Revenue Service (the "IRS") to be tax-exempt under Internal Revenue Code Section 401(a). The most recent favorable opinion letter from the Internal Revenue Service was received by the Plan, dated June 30, 2020. The Plan has been amended since receiving the opinion letter; however, the Plan administrator believes that the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
