INDEPENDENT AUDITORS' REPORT

Plan Administrator and Administrative Committee
Sanoh America, Inc. Salaried Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit
We have performed an audit of the accompanying financial statements of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) [ERISA Section 103(a)(3)(C) audit]. The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of Sanoh America, Inc. Salaried Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note E to the financial statements, is complete and accurate.

Basis for Opinion
We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Sanoh America, Inc. Salaried Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

INDEPENDENT AUDITORS' REPORT (continued)

Responsibilities of Management for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Sanoh America, Inc. Salaried Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements
Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Sanoh America, Inc. Salaried Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Sanoh America, Inc. Salaried Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Sanoh America, Inc. Salaried Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 13, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

A - DESCRIPTION OF PLAN

The following description of the Sanoh America, Inc. Salaried Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General: The Plan, effective on January 1, 2003, is a defined benefit pension plan sponsored by Sanoh America, Inc. (the "Company" or "Plan Sponsor"). All Sanoh America, Inc. salaried employees are eligible to participate upon the later of age 21 or upon completion of one year of continuous service. The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* ("ERISA"). Fidelity Management Trust Company ("Fidelity") is the custodian, recordkeeper, and actuary. All of the assets of the Plan are in the Sanoh America, Inc. Pension Plan Master Trust. The Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Funding Policy: The Company has agreed to voluntarily contribute such additional amounts that are necessary to provide assets sufficient to meet the benefits to be paid to Plan members. The Company's funding policy is to make contributions to the Plan in amounts as determined by the Plan's independent actuary. The Plan has met the minimum funding requirements established by the federal government.

Pension Benefits: Participants are eligible for monthly benefit payments upon reaching age 65. The normal monthly benefit payments are determined by .75% of average compensation, reduced by social security benefits and multiplied by the total number of years of credited service, not to exceed 40 years. A participant is 100% vested after five years of service. Prior to that time, the participant is not vested.

Employees are eligible to receive early retirement benefits between the ages of 55 and 65 upon the completion of 10 years of continuous service or may qualify for special early retirement benefits upon reaching age 55 and completing 15 years of continuous service. Early retirement benefits are computed in a manner similar to normal retirement at age 65, except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. Accrued benefits are payable as an annuity over the participant's lifetime or as a qualified joint and one-half survivor annuity.

Death and Disability Benefit: A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to 50% of the accrued benefit unless the beneficiary is more than 5 years younger which requires a further reduction in the benefit.

A - DESCRIPTION OF PLAN (continued)

An employee who becomes totally and permanently disabled will continue to accrue benefit service for the period the eligible employee is entitled to a disability benefit under the Company's long-term disability plan.

Vesting: Upon completion of five years of vesting service but prior to becoming eligible for a normal retirement benefit, a participant is entitled to a deferred vested termination benefit equal to a percentage of their accrued retirement benefit. Eligible employees are fully vested upon completion of five years of vesting service.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements have been prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities at the date of the financial statements, and the actuarial present value of accumulated plan benefits at the benefit information dates. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers and custodians. See Note F for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits: Benefit payments to participants are recorded upon distribution.

Administrative Expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits. In addition, certain investment related expenses are included in net appreciation (depreciation) of fair value of investments presented in the accompanying statements of changes in net assets available for benefits.

B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Subsequent events: The Plan has evaluated all subsequent events through October 13, 2022, the date the financial statements were available to be issued.

C - ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding the valuation date. Benefits payable under all circumstances—retirement, death, disability, and termination of employment—are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuary report of the present value of accumulated plan benefits and the change in the present value of accumulated plan benefits as of January 1, 2021 and 2020 and the years then ended were prepared by the Fidelity Workplace Investing LLC. Actuarial valuation assumptions and methods used as of January 1, 2021 and 2020, are updated each year for assumption and method changes as prescribed by law such as changes in the maximum compensation and benefit limits and the prescribed mortality table.

C - ACCUMULATED PLAN BENEFITS (continued)

The actuarial present value of accumulated plan benefits as of January 1, 2021 and 2020 is as follows:

	2021	2020
Vested Benefits:		
Participants in pay status	$ 1,021,159	$ 711,079
Inactive participants	1,815,643	1,310,139
Active participants	2,320,608	2,583,241
Total vested benefits	5,157,410	4,604,459
Nonvested benefits - Active participants	479,338	501,534
Total actuarial present value of accumulated plan benefits	$ 5,636,748	$ 5,105,993

The changes in the actuarial present value of the Plan's accumulated plan benefits for the years ended January 1, 2021 and 2020, are as follows:

	2021	2020
Actuarial present value of accumulated plan benefits at January 1, 2020 and 2019	$ 5,105,993	$ 4,359,449
Increase during the year attributable to:		
Interest due to the decrease in the discount period	354,781	303,168
Benefits paid	(76,676)	(57,939)
Benefits accumulated and plan experience	252,650	475,216
Change in assumptions	-	26,099
Actuarial present value of accumulated plan benefits at January 1, 2021 and 2020	$ 5,636,748	$ 5,105,993

The significant actuarial assumptions used in the January 1, 2021 and 2020 valuation were:

Rate of return on investments:	7.00% and 7.00% per annum at January 1, 2021 and 2020, respectively
Mortality:	For 2021, Amount-weighted Pri-2012 Total Mortality Tables projected generationally with MP-2020 Mortality Improvement Scale with separate tables for Employees, Disabled Members, Annuities, and Contingent For 2020, Amount-weighted Pri-2012 Total Mortality Tables projected generationally with MP-2019 Mortality Improvement Scale with separate tables for Employees, Disabled Members, Annuities, and Contingent Annuitants.
Expenses:	Sanoh pays the administrative expenses directly instead of paying for them out of the Master Trust

C - ACCUMULATED PLAN BENEFITS (continued)

Retirement age: Age 65 is normal retirement age as defined in Plan provisions

Asset valuation: Asset valuation method, which allows for smoothing of gains/losses over multiple years

Discount rate: 2.80% and 3.65% per annum at January 1, 2021 and 2020, respectively

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

D - PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.

2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.

3. Vested benefits not insured by the PBGC.

4. All nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

D - PLAN TERMINATION (continued)

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefits obligations and may depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

E - INFORMATION CERTIFIED BY THE CUSTODIAN

Investments as certified by Fidelity as of December 31, 2021 and 2020, and net investment income for the years then ended are as follows:

	2021	2020
Investments:		
Plan Interest in Sanoh America, Inc. Pension Plan Master Trust	$ 7,696,371	$ 6,525,696
Net investment income:		
Change in plan interest in Sanoh America, Inc. Pension Plan Master Trust	$ 904,024	$ 897,844

F - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include
- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

F - FAIR VALUE MEASUREMENTS (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits. There have been no significant changes in the valuation methodologies used at December 31, 2021 and 2020. The Plan has no liabilities measured at fair value.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded and are classified within Level 1 of the valuation hierarchy.

All of the Plan's investments as of December 31, 2021 and 2020 were held in the Sanoh America, Inc. Pension Plan Master Trust, see Note G.

G - INTEREST IN SANOH AMERICA, INC. PENSION PLAN MASTER TRUST

All of the Plan's investments are in the Sanoh America, Inc. Pension Plan Master Trust, which was established for the investment of assets of the Plan and one other Sanoh America, Inc. sponsored retirement plan. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Sanoh America, Inc. Pension Plan Master Trust are held by Fidelity Management Trust Company.

The value of the Plan's interest in the Sanoh America, Inc. Pension Plan Master Trust is based on the beginning of year value of the Plan's interest in the trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2021 and 2020, the Plan's interest in the net assets of the Sanoh America, Inc. Pension Plan Master Trust was approximately 40 percent and 40 percent, respectively. Total investment income (including net appreciation (depreciation) in the fair value of investments) of the Sanoh America, Inc. Pension Plan Master Trust is allocated to the individual plans based upon the amount of the time the Plan's assets were invested in the master trust.

G - INTEREST IN SANOH AMERICA, INC. PENSION PLAN MASTER TRUST (continued)

The following table presents the investments and other assets and liabilities of the Sanoh America Inc. Pension Plan Master Trust as of December 31, 2021 and 2020:

H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Plan's financial statements.

On March 11, 2020, the World Health Organization characterized coronavirus (COVID-19) as a pandemic, and on March 13, the President of the United States declared a national emergency relating to the disease. In addition to the President's declaration, state and local authorities recommended social distancing and imposed quarantine and isolation measures on large portions of the population, including mandatory business closures. These measures are designed to protect the overall public health, however are expected to have material adverse impacts on domestic and foreign economies and may result in the United States entering a period of recession.

As a result of COVID-19, there has been heightened market risk and volatility associated with the pandemic, and this could materially affect amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits. Because of the uncertainty of the markets during this time, Plan management is unable to estimate the total impact the pandemic will have.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

I - PARTY-IN-INTEREST TRANSACTIONS

At December 31, 2021 and 2020, Plan investments were held in the Sanoh America, Inc. Pension Plan Master Trust by Fidelity. Administrative expenses paid amounted to $0 for both 2021 and 2020. Certain administrative functions are performed by officers and employees of the Company (who may also be a participant in the Plan) at no cost to the Plan.

These transactions are not deemed prohibited party-in-interest transactions because they are covered by the statutory administrative exemptions from the Internal Revenue Code's and ERISA's rules on prohibited transactions.

J - FEDERAL INCOME TAX STATUS

The Internal Revenue Service (IRS) has determined and informed the Plan most recently by letter dated January 27, 2016, that the Plan's Regulations and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Subsequent to receiving the determination letter, several amendments to the Regulations have been approved that will not impact the Plan's tax-qualified status. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to routine audits by taxing jurisdictions. The 2013 Form 5500 was examined during 2015 by the IRS. In a letter dated August 18, 2015, the IRS stated that no change is necessary in the information reported and have accepted the return as filed. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The plan administrator believes it is no longer subject to income tax examinations for the years prior to 2018.

K - SECURE ACT, CARES ACT, AND ARPA

The Plan will implement certain requirements by the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act) and the Coronavirus Aid, Relief, and Economic Security Act (the CARES Act), which laws change the Plan to, among others, allow certain eligible individuals to suspend required minimum distributions and delay the commencement date for required minimum distributions to age 72. Certain optional features within these acts have been assessed and have been implemented to date. Written amendments to the Plan electing these operational changes will be adopted by the end of 2025. Also, the CARES Act extended the deadline for any contribution otherwise due in the 2020 calendar year to January 1, 2021.

K - SECURE ACT, CARES ACT, AND ARPA (continued)

In addition, the Plan elected the provisions of the American Rescue Plan Act (ARPA) that provides funding relief for defined benefit plans retroactively for years beginning in 2019. The ARPA provides funding relief in the form of Interest Rate Stabilization and 15-year Shortfall Amortizations. The 15-year shortfall amortization reduces the 2019 and 2020 minimum required contributions thus creating a prefunding balance. These prefunding credit balances were used for 2020 or 2021 plan years.

Salary Scale: 3.50% (previously, 3.50%). Provided by the company based on anticipated future experience.

Increase in Consumer Price Index (CPI): 2.00% increase per year. We believe this assumption to be reasonable.

Increase in Social Security Taxable Wage Base: 3.00%. Real wage growth combined with inflation assumption indicates an economic assumption of social security national wage growth in pension plan valuations. Based on historic real growth in National Average Wages (from 1951) and Social Security estimate of around 1%, our best estimate places this assumption in the range of 0.75% to 1.25% above inflation.

Administrative Expenses:

ERISA: $0 for 2021 (previously $0 in 2020). Estimated based on expected non-investment related administrative expenses paid from the Trust plus estimated PBGC premiums for the current year expected to be paid from the Trust.

Mortality:

ERISA: IRS 2021 Small Plan Combined Static Mortality Table as prescribed by IRC Section 430. These tables include future mortality improvement of 8 years for males and 9 years for females with the following adjustments: For ages below 80, the projection period is increased by 1 year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80. Previously: IRS 2020 Small Plan Combined Static Mortality Table as prescribed by IRC Section 430. These tables include future mortality improvement of 8 years for males and 9 years for females with the following adjustments: For ages below 80, the projection period is increased by 1 year for each year below age 80. For ages above 80, the projection period is reduced (but not below zero) by 1/3 year for each year above 80.

Retirement Rates: Active participants are assumed to retire at the point in time in which they reach age 62 and 10 years of service (or Normal Retirement Age, if sooner).

Inactive participants are assumed to retire at Normal Retirement Age.

This assumption is based on the prior actuary's experience analysis and anticipated future experience.

35	12.10%	55	4.20%

Marital Status: 75% of males and females are assumed married, with females 3 years younger than males. This assumption does not have material impact on the results of this report and has been selected based the prior actuary's assumption.

Maximum Benefit: $230,000 for 2021.

Maximum Salary: $290,000 for 2021.

Form of Payment: It has been assumed benefits will be paid in the normal annuity form applicable to the particular benefit. To the extent optional forms of payment are elected and conversions are determined under an actuarial basis, which differs from the basis funded in the valuation, gains or losses will occur. These gains or losses will be recognized through the routine application of the actuarial cost method. Other optional forms are roughly actuarially equivalent on the valuation basis, so no significant gains or losses are anticipated.

Sanoh America, Inc.
Sanoh America, Inc. Salaried Pension Plan
EIN: 38-2694169 PN: 001
For Plan Year Ended December 31, 2021

Actuarial Assumptions and Methods (continued)

Actuarial Value of Plan Assets for Funding Purposes:

The actuarial value of assets is equal to:

a) the market value of assets, including discounted receivables, on the valuation date, less

b) the following percentages of prior years' investment gains (losses):

   i) 67% of the prior year, and
   ii) 33% of the second prior year,

   Investment gains and losses are defined as the excess or deficiency of the expected return on the market value (at an assumed rate of 6.75%, not to exceed the third segment rate for that year) over the actual return on the market value of assets, including discounted receivables, for any given year.

c) The actuarial value of assets can be neither less than 90% nor greater than 110% of the market value of assets, including discounted receivables.

Actuarial Assumptions and Methods (continued)

Shortfall Amortization Charge for ERISA Funding Purposes: Per IRC Section 430(c), the shortfall amortization charge for any plan year is the aggregate total (not less than zero) of the shortfall amortization installments for such plan year with respect to any shortfall amortization base which has not been fully amortized. The shortfall amortization installments are the amounts necessary to amortize the shortfall amortization base of the plan for any plan year in level annual installments over the 15-year period beginning with such plan year.

Actuarial Cost Method: The unit credit cost method is used for ERISA funding target (FT) purposes. Under this method, accrued pension benefits are determined for all eligible active participants. These benefits reflect service, salary and negotiated benefit increases to date. The liability is then equal to the present value of all benefits (PVAB) for inactive participants plus the PVAB for active participants.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings, or negotiated benefit increases, to date in both cases. The total normal cost is based upon the sum of the individual normal costs. The target normal cost for funding is equal to the total normal cost plus assumed administrative expenses expected to be paid from the trust.

The projected unit credit method is used for IRS maximum deductible limit cushion amount purposes. Under this method, accrued pension benefits are determined for all eligible active participants reflecting service to date and anticipated salary and negotiated benefit increases to the assumed retirement age. This liability for active participants is then added to the present value of all benefits for inactive participants to determine the total liability under this method.

The normal cost is determined on an individual basis for all active participants who have not attained the assumed retirement age and is equal to the present value of the difference between the current accrued benefit and the anticipated accrued benefit one year later, with the accrued benefit based upon earnings and negotiated benefit increases projected to assumed retirement age in both cases. The total normal cost is based upon the sum of the individual normal costs.

Monthly Benefits Paid Upon the Following Events:

Normal retirement: Accrued Benefit determined as of NRD.

Early retirement: The Accrued Benefit payable at NRD reduced by 1/4th of 1% for each month that the benefit commencement precedes NRD. No Social Security offset applies if the participant commences before age 62.

Special Early Retirement: The Accrued Benefit payable at NRD reduced for each month that payments commence prior to age 62. The reduction is 5/12ths of 1% for months 1-48; 4/12ths of 1% for months 49-60; and 3/12ths of 1% for months 61-84 that precede age 62. No Social Security offset applies if the participant commences before age 62.

Postponed retirement: The greater of the Accrued Benefit determined as of actual retirement date or the Accrued Benefit as of NRD actuarially increased to the late retirement date.

Termination with deferred vested benefit: Accrued Benefit on the date of the termination multiplied by the vesting percentage payable at NRD. Participants are 100% vested after earning five years of vesting service.

Death with pre-retirement spouse benefit: If the participant was eligible for early retirement, the benefit is payable immediately. Otherwise, the benefit is payable when the participant would have been eligible for early retirement. The amount paid to the surviving spouse is equal to the amount that would have been paid had the participant terminated on his date of death, elected the 50% Joint and Survivor annuity on his earliest retirement date, and died the next day.

Disability: The expected benefit at NRD. Accrual Service continues to accrue for the period that the participant is entitled to a disability benefit under the plan sponsor's long term disability plan.
