The Bush School 403(b) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of The Bush School 403(b) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended June 30, 2022 stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section

- The amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying 2022 financial statements related to assets held by and certified to by the qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by the institutions that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Board of Trustees
The Bush School 403(b) Retirement Plan
Seattle, Washington

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of The Bush School 403(b) Retirement Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Bush School 403(b) Retirement Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

Board of Trustees
The Bush School 403(b) Retirement Plan
Seattle, Washington

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Bush School 403(b) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Bush School 403(b) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2022 Supplemental Schedule Required by ERISA

The supplemental schedule, Schedule H, line 4(i) – schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including the form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion—

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or are derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of The Bush School 403(b) Retirement Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated February 9, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. Description of the Plan:

The following description of The Bush School 403(b) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan covering substantially all employees of The Bush School (the School), except non-resident aliens, student employees, reclassified employees and employees covered by a collective bargaining agreement. The School is the Plan's sponsor and administrator and the Board of Trustees is responsible for oversight of the Plan, determines the appropriateness of the Plan's investment offerings, and monitors investment performance. The Plan was established January 1, 2010 and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Benefits under the Plan are provided through group retirement annuities primarily from Teachers Insurance and Annuity Association (TIAA) and unit-annuities or variable annuities from College Retirement Equities Fund (CREF), TIAA's companion organization (collectively, TIAA-CREF) and with mutual funds held by Charles Schwab Bank (Charles Schwab). TIAA-CREF and Charles Schwab are the custodians of the Plan. The terms of the annuities are an integral part of the terms of the Plan. Effective February 1, 2010, TIAA-CREF was limited to participants that currently have account balances held by TIAA-CREF, no new participants or accounts will be available. As of December 31, 2019, no additional payroll contributions or deferrals were remitted to TIAA-CREF, instead all payroll contributions and deferrals are remitted to the Charles Schwab account.

Contributions:

Each year, participants may contribute up to 100% of their annual compensation, as defined by the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants who have completed at least 15 years of service with the School may make additional catch-up contributions to the Plan not to exceed \$3,000 per year. Subject to School approval, participants may also contribute amounts representing distributions from other qualified plans (rollovers).

Participants are eligible for employer matching contributions after completing one full year of service and attain age 21 with 800 hours of service for faculty and 1,000 hours for staff. The School matches 100% of the first 5% of the participant's eligible compensation that a participant contributes into the Plan. The matching contribution ceases after two years of service.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. Description of the Plan (continued):

Contributions (continued):

Participants are eligible for the employer base contributions after they have completed two years of service and attain age 21, regardless of whether the participant elects to contribute to the Plan. For participants hired prior to July 1, 2015, the employer base contributions is equal to 10% of the participant's eligible compensation. For participants hired after July 1, 2015, the employer base contribution is calculated at 5% of the participant's eligible compensation during the first two years of eligibility to receive this benefit and then the employer base contributions will be calculated at 7.5% of the participant's eligible compensation for each subsequent year thereafter.

Contributions are subject to certain Internal Revenue Service (IRS) limitations and may be made using before or after tax dollars.

Participant accounts:

Each participant's account is credited with the participant's contributions, the School's contributions, and an allocation of Plan earnings and administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants direct the investment of contributions into various investments offered by the Plan.

Vesting:

Participants are immediately vested in their contributions and the School's contributions at all times, therefore, there are no forfeitures.

Notes receivable from participants:

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance of the participant's account. The loan interest rate is set at 1.0% above the prime rate, as defined. The loan terms are a maximum of five years, unless the loan is for the acquisition of a principal residence, in which case the loan term will be extended up to 15 years. Principal and interest is paid ratably through monthly payroll deductions.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

1. Description of the Plan (continued):

Notes receivable from participants (continued):

Some loans are issued and held directly by TIAA-CREF and are collateralized by the participant's account balance. Principal and interest are re-paid by the participant directly to TIAA-CREF. These loans are not considered assets of the Plan and, therefore, are not reported in the statements of net assets available for benefits. One note receivable from a participant of the Plan held by TIAA-CREF was outstanding at June 30, 2022 and 2021.

Payment of benefits:

Upon termination of service due to retirement, death, disability, or termination of employment, a participant or designated beneficiary may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account or annual installment payments over a set period of time. Account balances under \$5,000 will be distributed in a lump sum amount. In-service withdrawals are permitted after age 59 1/2 or due to disability. Participant elective deferrals are not suspended in the event of a hardship withdrawal. The age requirement for required minimum distributions is 72 years old.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of estimates:

The preparation of financial statements in accordance with GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and the disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. Summary of significant accounting policies (continued):

Investment income and income recognition:

Investments are reported at fair value (except for fully-benefit responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investments held by a defined contribution plan are required to be reported at fair value, except fully benefit-responsive investment contracts. Contract value is the relevant measure of the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan holds various investment contracts with TIAA-CREF. The TIAA Traditional Annuity is a fixed rate guaranteed annuity contract and is unconditionally guaranteed by TIAA-CREF. The Traditional Annuity is offered through a variety of contract types, including Group Supplemental Retirement Annuities (GSRA) and Group Retirement Annuities (GRA). The GSRA contracts are fully benefit-responsive contracts. The GRA contracts are not considered fully benefit-responsive and are reported at fair value.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of June 30, 2022 or 2021. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan document.

Payment of benefits:

Benefits are recorded when paid.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

2. Summary of significant accounting policies (continued):

Expenses:

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the School. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses when they are incurred. Investment-related expenses are included in net depreciation in fair value of investments. Investment advisory fees are paid directly by the Plan and are included as a component of net investment income on the statement of changes in net assets.

Subsequent events:

The Plan has evaluated subsequent events through March 9, 2023, the date on which the financial statements were available to be issued.

3. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. Fair value measurements (continued):

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2022 or 2021.

Mutual funds, money market mutual funds and pooled separate account: Valued at the daily closing price as reported by the fund or account. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission (SEC). The pooled separate account is also registered with the SEC. These funds and account are required to publish their daily net asset value (NAV) and to transact at that price. There are no unfunded commitments from participants in the Plan who invest in the pooled separate account. Transfers out of the pooled separate account are limited to one per calendar quarter. The mutual funds and pooled separate account held by the Plan are deemed to be actively traded (Level 1).

Variable annuity accounts: The accounts are primarily valued using daily closing prices, market quotations or prices obtained from independent pricing sources who may employ various pricing methods to value the investments including matrix pricing. Variable annuity accounts consist of CREF and TIAA Access Annuity accounts. The CREF accounts are valued on a daily basis and are listed on NASDAQ's website (Level 1). The unit values are updated overnight for each day that NASDAQ is open. There are no restrictions or unfunded commitments from participants in the Plan who invest in these accounts. For CREF accounts, the allowable redemption frequency is daily. CREF Money Market Account holdings are generally valued at amortized cost. The TIAA Access Annuity accounts are valued using market quotations obtained from independent pricing services (Level 2).

There are no trading restrictions associated with the TIAA Access Annuity accounts. The accounts invest principally in equity securities, fixed-income instruments, and short-term investments in accordance with each portfolio's investment objectives.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

3. Fair value measurements (continued):

Fixed annuity contracts: Investments in the TIAA Traditional GRA annuity contract type is a non-benefit-responsive contract. The GRA annuity contracts are fixed-rate contracts that are fully and unconditionally guaranteed by TIAA-CREF. As these investments are contract-based, observable prices for identical or similar investments do not exist (Level 3). The contract value approximates fair value and equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Contract value is deemed to approximate fair value based on recent participant investment transactions at contract value. The GRA annuity contracts do not allow lump-sum withdrawals, and transfers must be spread over 10 annual installments.

The fair values of Plan assets, by level within the fair value hierarchy, were as follows:

	June 30, 2022			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 19,520,722			\$ 19,520,722

4. Fixed annuity contracts with TIAA-CREF:

The Plan has investments in fully benefit-responsive TIAA Traditional GSRA annuity contracts, in which contributions are maintained in a general account. The GSRA annuity contracts are fixed-rate contracts that are fully and unconditionally guaranteed by TIAA-CREF. The contract value approximates fair value and equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Contract value is deemed to approximate fair value based on recent participant investment transactions at contract value. Investments in the GSRA annuity contracts earn a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The GSRA annuity contracts also provide the potential for additional interest if declared by TIAA-CREF's Board of Trustees. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

4. Fixed annuity contracts with TIAA-CREF (continued):

The average yield and crediting rates ranged from approximately 3.00% to 4.25% for the GSRA annuity contracts, net of annual fees, for the year ended June 30, 2022. The crediting interest rate is calculated on a daily basis. When a participant's accumulation in the GSRA annuity contracts are converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution on the statement of changes in net assets available for benefits. The GSRA annuity contracts provide for full participant-directed liquidity.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the School or other events that cause a significant withdrawal from the Plan, (4) the failure of the Plan to qualify for exemption under ERISA, or (5) premature termination of the contract. The Plan administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are unlikely to occur.

5. Certified investments:

Certain information related to investments disclosed in the accompanying financial statements and ERISA supplemental schedule, including investments held at June 30, 2022 and 2021, and net depreciation in fair value of investments, interest and dividends for the year ended June 30, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by TIAA-CREF and Charles Schwab, the custodians of the Plan.

6. Related party transactions and party-in-interest transactions:

Certified Plan investments and notes receivable from Participants are managed by TIAA-CREF and Charles Schwab. TIAA-CREF and Charles Schwab are custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

7. Plan termination:

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

THE BUSH SCHOOL 403(b) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

8. Tax status:

The Plan adopted the Thorson Barnett & McDonald, P.C. 403(b) Prototype Plan, which was restated effective July 1, 2015. The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (the Code). The terms of the Plan have been prepared to conform with the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for Plan participants under Section 403(b).

9. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
