Mary Institute and Saint Louis Country Day School
Defined Contribution Retirement Plan
St. Louis, Missouri

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the financial statements of Mary Institute and Saint Louis Country Day School Defined Contribution Retirement Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements (2022 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended June 30, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2022 Financial Statements

We do not express an opinion on the accompanying 2022 financial statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion for the 2022 Financial Statements* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2022 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

As described in Note 3 to the financial statements, the Plan has excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements* for 403(b) Plans. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded

annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion on the 2022 Financial Statements* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

2022 Supplemental Schedule Required by ERISA

The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion for the 2022 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Auditor's Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by qualified institutions.

The Plan has excluded from the 2021 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the 2021 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the 2020 financial statements.

In our report dated February 7, 2022, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements.

Mary Institute and Saint Louis Country Day School Defined Contribution Retirement Plan

Notes to Financial Statements June 30, 2022 and 2021

Note 1: Description of the Plan

General

The following description of the Mary Institute and Saint Louis Country Day School Defined Contribution Retirement Plan (Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

The Plan is a defined contribution plan sponsored by Mary Institute and Saint Louis Country Day School (MICDS or Sponsor) for the benefit of its employees. Employees are immediately eligible to participate in the Plan as a contributing participant upon commencement of employment with MICDS. Participants are required to be 18 years of age and have a faculty status of at least 51% of a full-time equivalent or be scheduled to work at least 21 hours per week to qualify for employer matching contributions.

The Plan is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). Teachers Insurance and Annuity Association of America and College Retirement Equities Fund (TIAA-CREF) is a custodian of certain Plan investments. Variable Annuity Life Insurance Company Retirement Services Company (VALIC) is a record keeper for certain Plan investments. The investments are held in a trust through AIG Federal Savings Bank (AIG FSB), who serves as trustee and custodian. In addition, Equitable Financial Life Insurance Company, formerly known as AXA Equitable Life Insurance Company (AXA), is an issuer and custodian of certain pooled separate accounts and a guaranteed investment account.

Contributions

The Plan permits eligible employees to have the Sponsor make annual contributions through a salary deferral election. The Sponsor will make employer matching contributions equal to 8% of the participant's compensation, if the participant is deferring at least 3% of eligible compensation. There is no employer matching contribution for employee deferral contributions that are less than 3% of eligible compensation.

Contributions are subject to certain limitations. Employee rollover contributions are also permitted. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan allows for special code Section 403(b) catch-up contributions for those participants with 15 years of service.

Participant Investment Account Options

Investment account options available include various mutual funds, pooled separate accounts, and annuity accounts. Each participant has the option of directing their contributions into any of the separate investment account options selected by the Sponsor and may change the allocation to the extent permitted by the individual agreements.

Notes to Financial Statements

June 30, 2022 and 2021

Participant Accounts

Each participant's account is credited with the participant's contribution, the Sponsor's contributions and Plan earnings and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefits to which a participant is entitled is the benefit provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions and the Sponsor's contributions plus earnings thereon.

Notes Receivable from Participants

The Plan Document includes provisions authorizing loans from the Plan to active eligible participants. Loans are made to any eligible participant demonstrating a qualifying need. The minimum amount of a loan shall be \$1,000. The maximum amount of a participant's loans is determined by the available loan balance restricted to the lesser of \$50,000 or 50% of the participant's vested account balance. All loans are covered by demand notes and are repayable over a period not to exceed five years (except for loans for the purchase of a principal residence) through payroll withholdings unless the participant is paying the loan in full. Interest on the loans is based on local prevailing rates as determined by the Plan Administrator.

In 2021, the Plan adopted the *Coronavirus Aid, Relief, and Economic Security Act* (CARES Act) provisions for loan relief to 1) delay certain required loan repayments for one year and 2) increase loan limits to the lesser of \$100,000 or 100% of the participant's vested balance for coronavirus-related loans. The CARES Act provided for the increased loan limit for coronavirus related loans issued through September 22, 2020. The one-year suspension of loan repayments applies to qualified participants' loan payments due between March 27, 2020 and December 31, 2020. Following the suspension period, these loans will be re-amortized over the remaining period of the loans, plus the suspension period.

Payment of Benefits

Upon termination of service, an employee may elect to receive a lump-sum amount equal to the value of their account or installment payments in the form of a single life annuity, a survivor annuity or minimum distributions. Withdrawals other than for termination are permitted under circumstances provided by the Plan.

In 2021, the Company implemented the CARES Act provisions for coronavirus-related distributions (CRD). Through December 31, 2020, qualified participants are permitted to take a CRD of up to \$100,000 from the Plan. Participants who take a CRD have the option to have the distribution taxed over a three-year period, with the ability to recontribute up to the full amount of the distribution within three years and not be subject to federal income tax as a result. The Plan also waived minimum distribution requirements for any distribution required to be made in 2021.

Plan Termination

Although it has not expressed an intention to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Quoted market prices, if available, are used to value investments. Mutual funds and variable annuity accounts are valued at the net asset value (NAV) of shares held by the Plan at year-end. Investments in pooled separate accounts, which invest in investments that pursue multiple strategies to exceed the performance of certain industrial averages, and guaranteed interest accounts are valued at estimated fair value as provided by the custodians.

The Plan is funded by individually controlled TIAA and CREF investments. Contributions are allocated to the TIAA Traditional Annuity contract, TIAA-CREF Variable Annuity accounts and the TIAA Real Estate Pooled Separate account.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Plan Loans

TIAA-CREF issues loans to Plan participants outside the scope of the Plan. Participants pledge as security a portion of their balance in the TIAA Traditional Annuity, which represents 110% of the outstanding loan balance. Plan loan interest rates ranged from 4.00% to 4.63% as of June 30, 2022 and 2021, respectively.

The balances of plans loans as of June 30, 2022 and 2021, are \$16,815 and \$14,927, respectively. In the event of default, such loans are reportable to Plan participants as taxable income but remain outstanding and continue to accrue interest until repaid by the Plan participant or the participant becomes eligible to receive a distribution under the terms of the Plan.

The Employee Benefit Security Administration (EBSA) has expressed concern that the pledging of collateral of a participant's balance could be considered a prohibited transaction; however, formal guidance has yet to be issued by the EBSA.

Plan Tax Status

The Plan, together with the investment vehicles, is intended to be a tax-sheltered annuity plan under Section 403(b) of the Internal Revenue Code of 1986, as amended. The Plan has not requested or obtained a determination letter, as the IRS does not currently provide that service for 403(b) plans. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code and not subject to tax.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses may be paid by the Sponsor or the Plan, at the Sponsor's discretion.

Note 3: Excluded Investments

The Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity and custodial accounts issued to current and former employees prior to July 1, 2008, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. Investment income and distributions related to such accounts have also been excluded from the accompanying statements of changes in net assets available for benefits for the years ended June 30, 2022 and 2021. The total amount of these excluded annuity and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying financial statements.

Note 4: Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. There hierarchy comprises three levels of inputs used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets
- Level 3** Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets

Recurring Measurements

The following table presents the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at June 30, 2022 and 2021:

(A) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended June 30, 2022 and 2021. The Plan had no assets measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, investments are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of investments with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters and cash flows. Such investments are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, investments are classified within Level 3 of the hierarchy.

- (a) This class includes investments in pooled separate accounts that invest primarily in domestic equities. While the underlying asset values are quoted prices, the NAVs of the separate accounts are not publicly quoted. The fair value of the investments in this class has been estimated using the NAV per share of the investments.
- (b) This class includes investments in variable annuity accounts that invest primarily in domestic equities. The investments seek a favorable long-term rate of return through capital appreciation and investment income by investing primarily in a broadly diversified portfolio of common stocks. The fair value of the investments in this class has been estimated using the NAV per share of the investments.
- (c) This class includes investments in variable annuity accounts that seek current income consistent with maintaining liquidity and preserving capital. The accounts invest in high-quality, short-term instruments, maturing in 397 days or less. The accounts invest primarily in commercial paper, bank obligations and U.S. government-issued securities that are classified as 'first-tier' securities, meaning that they are ranked in the highest category by at least two nationally recognized statistical rating organizations. Up to 30% of assets may be invested in money market and debt instruments of foreign issuers denominated in U.S. dollars. The fair value of the investments in this class has been estimated using the NAV per share of the investments.
- (d) This class includes investments in variable annuity accounts that seek a favorable long-term rate of return that reflects the investment performance of the financial markets while giving special consideration to certain social criteria. The accounts are balanced with assets divided between domestic and foreign stocks (60%) and fixed-income securities, including money market instruments (40%). The accounts invest only in companies that are suitable from a financial perspective and whose activities are consistent with the accounts' social criteria. Using specific environmental, social and governance criteria, the evaluation process seeks out companies that are strong stewards of the environment, devoted to serving local communities and society in general, committed to higher labor standards, dedicated to producing high-

quality and safe products, and managed in an exemplary and ethical manner. The fair value of the investments in this class has been estimated using the NAV per share of the investments.

- (e) This class includes variable annuity accounts that seek a favorable long-term rate of return through investment in fixed-income securities. Up to 20% of assets may be invested in money market instruments, other short-term instruments, non-investment-grade securities or unrated securities. The fair value of the investments in this class has been estimated using the NAV per share of the investments.
- (f) This class includes variable annuity accounts that seek a favorable long-term rate of return through capital appreciation and income from a broadly diversified portfolio that consists primarily of foreign and domestic common stocks. The accounts typically invest at least 80% of assets in equity securities of foreign and domestic companies. The accounts use fundamental valuation methods as well as quantitative strategies to seek out attractively priced companies, of any capitalization size, that the managers believe are undervalued based on the company's prospects for growth in earnings, cash flow and revenues. Particular focus is placed on companies with shareholder-oriented management teams dedicated to creating shareholder value. The fair value of the investments in this class has been estimated using the NAV per share of the investments.

Note 5: Certification of Plan Trustee and Custodians

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee and custodians, qualified institutions, have certified the following information included in the accompanying financial statements and ERISA-required supplemental schedule is complete and accurate.

- Investments and notes receivable from participants as shown in the Statements of Net Assets Available for Benefits as of June 30, 2022 and 2021.
- Investment income (loss) and interest income on notes receivable from participants as shown in the Statements of Changes in Net Assets Available for Benefits for the years ended June 30, 2022 and 2021.
- Investment information and notes receivable from participants as included in the accompanying Schedule of Assets (Held at End of Year) as of June 30, 2022.

The Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedule.

Note 6: Investments in Fully-Benefit Responsive Investment Contracts

The Plan has two fully benefit-responsive investment contracts, with TIAA-CREF and VALIC. TIAA-CREF and VALIC maintain contributions in a general account, to which they add interest at a crediting interest rate based on a formula agreed upon with the issuer. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and expenses. TIAA-CREF and VALIC are contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. These contracts have been determined to be not fully benefit-responsive, as participant-initiated transfers are subject to certain restrictions.

The investments are fully benefit responsive; therefore, contract value is the relevant measurement. Contract value, as reported to the Plan by TIAA-CREF and VALIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against the contract value for credit risk of the contract issuer or otherwise.

The following represents the disaggregation of contract value between types of investment contracts held by the Plan:

	2022	2021
Traditional investment contracts	\$ 3,230,336	\$ 3,258,668
Evergreen investment contracts	<u>2,045,675</u>	<u>2,150,674</u>
	<u>\$ 5,276,011</u>	<u>\$ 5,409,342</u>

The traditional investment contract held by the Plan is an investment contract related to the Plan's investment in the TIAA Traditional Benefit Responsive Annuity. The contract issuer is contractually obligated to repay the principal and interest at a specific interest rate that is guaranteed to the Plan. The crediting rate is determined by the issuer on an annual basis but may not be less than 3%. The contract cannot be terminated before the scheduled maturity date.

The evergreen investment contract held by the Plan is a group annuity contract related to the Plan's investment in the VALIC Fixed Interest Option. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is determined by the issuer on an annual basis but may not be less than 1%.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan Documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from

Mary Institute and Saint Louis Country Day School

Defined Contribution Retirement Plan

federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Note 7: Investments in Guaranteed Interest Accounts with Insurance Companies

The Plan has entered into certain guaranteed interest account (GIA) contracts with TIAA-CREF and AXA. TIAA-CREF and AXA maintain contributions in a general account, to which they add interest at a crediting interest rate based on a formula agreed upon with the issuer. As of June 30, 2022, the crediting interest rates for TIAA-CREF and AXA contracts may not be less than 4.5% and 3.00%. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and expenses. TIAA-CREF and AXA are contractually obligated to repay principal and a specified interest rate that is guaranteed to the Plan. These contracts have been determined to be not fully benefit-responsive, as participant-initiated transfers are subject to certain restrictions.

Participants are permitted to transfer funds between their CREF variable annuity and pooled separate accounts into their TIAA annuity accounts at any time. However, transfers out of the TIAA annuity accounts into any CREF account held by an active participant can only be made through a Transfer Payout Annuity, which provides for the transfer of funds in substantially equal installments over a period of 10 years.

Note 8: Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at June 30, 2022 and 2021, to Form 5500:

Note 9: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan or relatives of such persons.

The Plan invests in certain investments managed by the custodians and therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing.

The Plan paid \$79,839 and \$69,591 of recordkeeping fees during 2022 and 2021, respectively. The Sponsor provides certain administrative services at no cost to the Plan.

Note 10: Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Note 11: Subsequent Events

Subsequent events have been evaluated through March 13, 2023, which is the date the financial statements were available to be issued.
