1 Current value of plan assets and liabilities at the beginning and end of the plan year. Combine the value of plan assets held in more than one trust. Report the value of the plan's interest in a commingled fund containing the assets of more than one plan on a line-by-line basis unless the value is reportable on lines 1c(9) through 1c(14). Do not enter the value of that portion of an insurance contract which guarantees, during this plan year, to pay a specific dollar benefit at a future date. **Round off amounts to the nearest dollar.** MTIAs, CCTs, PSAs, and 103-12 IEs do not complete lines 1b(1), 1b(2), 1c(8), 1g, 1h, and 1i. CCTs, PSAs, and 103-12 IEs also do not complete lines 1d and 1e. See instructions.

INDEPENDENT AUDITOR'S REPORT

To the Investment Committee
The John Thomas Dye 403(b) Plan
Los Angeles, California

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We have performed an audit of the accompanying financial statements of The John Thomas Dye 403(b) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 The John Thomas Dye 403(b) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of June 30, 2022, and for the year then ended, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2022 Financial Statements

We do not express an opinion on the financial statements of The John Thomas Dye 403(b) Plan referred to in the first paragraph. Because of the significance of the matter described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion on the 2022 Financial Statements

The John Thomas Dye 403(b) Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, The John Thomas Dye 403(b) Plan has excluded from investments in the accompanying 2022 statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the accompanying 2022 financial statements.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The John Thomas Dye 403(b) Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Our responsibility is to conduct an audit of The John Thomas Dye 403(b) Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of The John Thomas Dye 403(b) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit.

Other Matter - 2022 Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at end of year) as of June 30, 2022, ("supplemental schedule"), is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis of Disclaimer of Opinion for the 2022 Financial Statements section of our report, it is inappropriate to and we do not express an opinion on the supplemental schedule.

Auditor's Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of The John Thomas Dye 403(b) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. Further, The John Thomas Dye 403(b) Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

The John Thomas Dye 403(b) Plan has excluded from the 2021 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the 2021 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the 2021 financial statements.

1. DESCRIPTION OF THE PLAN

The following description of The John Thomas Dye 403(b) Plan (the "Plan") provides only general information. Participants should refer to the plan documents, as amended, for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan sponsored by The John Thomas Dye School (the "School", "Employer", or "Plan Sponsor"), pursuant to Section 403(b) and related provisions of the Internal Revenue Code (IRC), was established effective July 1, 1991, and restated effective January 1, 2020. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. The Plan covers all eligible employees of the School as defined in the plan document. The Plan is subject to the provisions of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective March 27, 2020, the Plan adopted the provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act, related to notes receivable from participants and distributions. The School has until December 31, 2025, to amend the Plan for changes allowed by the CARES Act. The Plan has not been formally amended to adopt these provisions as of June 30, 2022.

Plan administration

The Plan Sponsor is responsible for the administration and operation of the Plan. TIAA and CREF (TIAA), and as agent for TIAA, FSB (collectively known as the "Custodians"), serve as the Plan's asset custodians and are responsible for the custody and management of the Plan's assets. An affiliate of the Custodians is responsible for maintaining participant accounts and transactions related to participant initiated activity.

Eligibility

Employees covered under the Plan include all employees, except employees who normally work less than 20 hours per week and student employees. There are no age or service requirements that need to be satisfied in order to make elective deferral contributions. Employees are eligible for elective salary deferrals and Employer matching contributions on the first day of employment.

Contributions

Participants may elect to contribute amounts subject to the limits contained in the IRC Section 402(g), each Plan participant shall be permitted to elect to defer a portion of his or her eligible compensation under the Plan as a voluntary participant Plan contribution. This contribution can either be made pre-tax or post-tax (Roth). Participants who have attained age 50 before the end of the Plan year are eligible to make up catch-up contributions, subject to regulatory limitations.

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

1. DESCRIPTION OF THE PLAN (continued)

Contributions (continued)

Participants may also contribute amounts representing distributions from other qualified retirement plans (rollovers) into the Plan. Participants direct the investment of all their contributions into various investment options offered by the Plan.

The Plan allows for an Employer discretionary matching contribution. For 2022, the School made matching contributions of 100% of each participant's eligible compensation up to 7% of a participant's elective deferral. In addition, after completing ten or more years of continuous service, eligible employees are available to receive Employer matching contributions up to 10% of a participant's elective deferral.

Participant accounts

Each participant's account is credited with the participant's contribution or rollovers and adjusted for allocations of (a) the School's contributions and (b) Plan earnings or losses, and (c) Plan expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions and Employer contributions plus actual earnings thereon.

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, being called to military active duty, disability or death. A participant may also make an in-service withdrawal from his or her account when the participant attains the age 59 1/2 years or incurs a financial hardship. Upon retirement, disability or death a participant's account may be withdrawn by the participant, or their beneficiary in a lump sum amount, partial payment, installment payments, a joint survivor annuity contract or may postpone payment to a later date as described in the Plan documents. Upon termination, a participant may leave their account in the Plan if their balance is greater than \$1,000, take a lump sum distribution of the vested interest in their account or rollover their vested account to another qualified plan or an IRA. Upon termination, if a participant's account balance is equal to or less than \$1,000, the balance is immediately distributed as a lump-sum payment.

Participants with an immediate and heavy financial need may be eligible for a hardship withdrawal, subject to certain restrictions as described in the plan documents.

1. DESCRIPTION OF THE PLAN (continued)

Plan loans

Plan loans to participants, which are no longer offered as of October 2020, were available to participants through TIAA, subject to certain limitations. Plan loans were issued directly from the funds owned by TIAA; therefore, loan proceeds were not removed from a participant's account balance. Adequate security was required and a portion of the participant's account was reserved, or held in collateral, to cover 110% of the outstanding loan in case of default. The loan interest rate for these Plan loans may have been fixed or variable and the initial rate was determined by the terms of the controlling contract as are the rate adjustment details and frequency.

For loans having collateral held in Retirement Loan contracts, principal repayments are transferred to the CREF Money Market investment option in the participant's Retirement Annuity or Group Retirement Annuity contract. For all Plan loans, interest is paid directly to TIAA, and Plan loans are not reflected in the statements of new assets available for benefits. As of June 30, 2022 and 2021, outstanding Plan loan balances due to TIAA were \$52,947 and \$69,942, respectively. Additionally, there were \$1,002 defaulted plan loans as of June 30, 2022. Plan loans outstanding as of June 30, 2022, bear interest from 4.00% to 4.45% and have various maturity dates through May 2029.

Notes receivable from participants

Notes receivable from participants ("participant loans" or "loans") are issued directly from the participant's account balance. Participants are allowed to borrow from their accounts not less than \$1,000 and up to a maximum of the lesser of \$50,000 or 50% of their vested account balance. Participant loans must be repaid in five years unless the loan is to purchase a principal residence. Participant loans are secured by the balance in the participant's account managed by an affiliate of the Custodians and bear interest at a rate commensurate with rates charged by persons in the business of lending money for loans that would be made in similar circumstances. Principal and interest payments are made directly by the participant to the Custodians. Outstanding participant loans as of June 30, 2022, bear interest at the annual rate of 4.25%. Participant loans outstanding as of June 30, 2022, have various maturity dates through April 2026.

Administrative expenses

Certain administrative expenses of the Plan, including recordkeeping and audit fees, were paid directly by the School for the year ended June 30, 2022. Other administrative expenses, including investment management services, are paid out of the assets of the Plan. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting and financial statement presentation

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and changes therein.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation or depreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Contributions and contribution receivables

Contributions from participants are recorded based on the date the contributions have been separated from a participant's pay by the School, which is the pay date. Employer matching contributions are recorded in the year they are earned and to coincide with the year in which the School records the contribution in its general ledger. The Plan records receivables for School contributions based upon the contributions recognized, less amounts received by the Plan as of the last day of the Plan year.

Rollover contributions are recorded based on the date the rollover contributions are received by the Custodians.

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Notes receivable from participants

Participant loans are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on participant loans is recorded on an accrual basis. No allowance for credit losses has been recorded as of June 30, 2022 and 2021.

Payment of benefits

Benefits are recorded as a reduction of net assets when paid.

Plan records management

In November 2007, the Department of labor issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting and disclosure requirements under Part 1 of Subtitle B of Title I of ERISA. Prior to the amended regulations, the Plan was not viewed as a separate reporting entity. Historically, the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the School. Accordingly, various accounting records and supporting documents related to the Plan's 403(b) contracts and custodial accounts issued to current and former employees prior to January 1, 2009, were not available from Custodians. Consequently, the financial statements have been prepared based on available records analyzed by Plan management.

As certain records were not available from the inception of the Plan, the effect, if any, on the completeness or accuracy of the Plan's financial statements cannot be determined as required by U.S. GAAP.

Administrative expenses

Expenses are recorded when incurred.

3. FAIR VALUE MEASUREMENTS

Accounting standards define fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Such standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements). The three levels of fair value hierarchy are as follows:

- *Level 1* - inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date.

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

3. FAIR VALUE MEASUREMENTS (continued)

- *Level 2* - inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability; or
- *Level 3* - inputs to the valuation methodology are unobservable and significant to the fair value measurement of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used as of June 30, 2022 and 2021.

Mutual funds:

Investment securities traded on security exchanges are valued at the daily closing market prices as of the valuation date. The mutual funds held by the Plan are open-end funds that are registered with the U.S. Securities and Exchange Commission. The funds are deemed to be actively traded and are classified within Level 1 of the fair value hierarchy.

Pooled separate account:

Units held in the separate account are accumulation units and calculate the contract owner's interest. Such units are valued daily to reflect investment performance and the prorated daily deduction for expense charges. The number of units credited to a participant's account is determined by dividing the dollar amount of the transaction by the unit value the next time value is computed. Units are valued any day the New York Stock Exchange is open for business and may be accessed by plan sponsors and participants via the TIAA website. The pooled separate account is classified within Level 1 of the fair value hierarchy.

CREF variable annuities:

The fair values of accumulation units held by the Plan in CREF variable annuities are primarily valued using market quotations or prices obtained from independent pricing sources. Data for values are available daily to Plan administrators and client investors on TIAA's website and provide sufficient corroborative evidence to ascertain the relationship between each fund's value and the values of individual underlying holdings. Underlying holdings include mutual funds and are primarily valued using market quotations or prices obtained from independent pricing sources. There are no unfunded commitments from participants in the Plan who invest in these accounts, and these investments may be redeemed at any time. The CREF variable annuities are classified within Level 1 of the fair value hierarchy.

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

3. FAIR VALUE MEASUREMENTS (continued)

TIAA traditional annuities:

The contract value of the Plan's interest in TIAA traditional annuities ("fixed annuity contracts") is determined by the accumulated cash contributions and interest credited to the contracts, less any withdrawals. The fixed annuity contracts with TIAA include the TIAA Traditional Annuity Retirement Choice Annuity (RC), the TIAA Traditional Annuity Retirement Annuity (RA) and the TIAA Traditional Annuity Group Retirement Annuity (GRA). The crediting rate is based on the performance of a large, diversified portfolio, is correlated with the highest debt security yields, and is adjusted for contract liquidity.

Investments in the RC, RA and GRA annuity contracts are non-fully benefit-responsive, fair value is the relevant measurement attribute for that portion of the net assets available for plan benefits attributable to the investment contracts. These contracts are included in the financial statements at fair value, as reported by TIAA. Contract value is considered an approximation of fair value. The TIAA traditional annuities are classified within Level 3 of the fair value hierarchy.

For RC contracts, a guaranteed rate is set each calendar year for amounts remitted in that calendar year. The floating guaranteed rate will be between 1% - 3%, inclusive (based on the 5-year constant maturity treasury rate less 125 basis points). The guaranteed rate for each calendar year remittance will be maintained for at least ten years. The current guaranteed rate is 1.00%. The account also offers the opportunity for additional amounts in excess of the guaranteed rate. When declared, the additional amounts will remain in effect for the twelve-month period that begins March 1. Lump-sum withdrawals are available from the RC contracts only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the account must be paid in equal installments over seven years.

For RA contracts, TIAA guarantees a 3% minimum annual interest rate for all premiums remitted. The contract also offers the opportunity for additional amounts in excess of the guaranteed rate. When declared, additional amounts remain in effect for the twelve-month period that begins each March 1. Lump-sum withdrawals are not available from the RA account. Subject to the terms of the Plan, all withdrawals and transfers from the account must be paid in ten annual installments.

For GRA contracts, TIAA guarantees a 3% minimum annual interest rate for all premiums remitted. The contract also offers the opportunity for additional amounts in excess of the guaranteed rate. When declared, additional amounts remain in effect for the twelve-month period that begins each March 1. Lump-sum withdrawals are available from the GRA account only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the account must be paid in ten annual installments.

The contracts above do not permit TIAA to terminate the agreements prior to the scheduled maturity dates. As these investments are contract based, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs.

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

3. FAIR VALUE MEASUREMENTS (continued)

TIAA traditional annuities: (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Transfers between levels within the fair value hierarchy are recognized when there is a change in the investments within a level or a change in inputs used to value those investments. For the year ended June 30, 2022, transfers out of level 3 investments totaled \$509,042. For the year ended June 30, 2022, transfers into level 3 investments totaled \$559,780. Purchases and sales of level 3 investments for the year ended June 30, 2022, were \$595,431 and \$1,180,916, respectively.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets, by type, at fair value as of June 30, 2022:

3. FAIR VALUE MEASUREMENTS (continued)

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the fair value hierarchy at June 30, 2022:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Interest crediting Range
TIAA traditional annuities	\$ 3,098,442	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RC - 3.95% - 5.25%, RA 3.70% - 5.00%, GRA 3.70 - 5.00%

The following table presents information about significant unobservable inputs related to the Plan's investment in assets categorized as Level 3 in the fair value hierarchy at June 30, 2021:

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Interest crediting Range
TIAA traditional annuities	\$ 3,575,309	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RC - 2.90% - 3.00%, RA 3%, GRA 3%

4. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)

The plan administrator, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of ERISA. Accordingly, the Custodians, determined to be qualified institutions by the plan administrator, have certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of June 30, 2022 and 2021.
- Net depreciation in fair value of investments, interest and dividends, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2022.
- Investments and notes receivable from participants reflected on the schedule of assets (held at end of year) as of June 30, 2022 ("supplemental schedule").

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

4. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS (UNAUDITED)
(continued)

Accordingly, as requested by the Plan administrator, the Plan's auditor performed no audit procedures on the certified information other than to agree the certified information to the related information included in the financial statements and supplemental schedule.

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

ERISA defines parties-in-interest similarly to FASB ASC 850, Related Party Disclosures, except that ERISA's definition is broader and includes all entities and individuals that provide services to the Plan; however, these entities may not necessarily be related parties. Management did not identify any related parties to the Plan that were not also considered to be parties-in-interest. The Plan did not enter into any material related party transactions during the Plan year related to compensation arrangements, expense allowances, or similar items.

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, and an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association or relatives of such persons.

Some fees and expenses of the Plan relating to legal, accounting, and other administrative services are paid by the School. The Plan is not required to repay expenses paid by the School on its behalf.

Certain fund level fees incurred by the funds in which the Plan invests for such services as investment management, shareholder services and sub-transfer agency fees are paid through fund level revenue sharing arrangements. These fees reduce fund earnings thereby impacting Plan revenue applied to participants' accounts. Any excess amounts above the record keeping fees are credited back to the participants invested in the specific funds. There were no amounts in excess of fees in the current year.

Certain Plan investments are managed by the Custodians; therefore, these investment transactions qualify as exempt party-in-interest transactions.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the School has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

The John Thomas Dye 403(b) Plan
Notes to Financial Statements
June 30, 2022 and 2021

7. TAX STATUS

The Plan is a defined contribution plan designed to qualify as a tax-exempt plan under Section 403(b) of the IRC. The Plan has adopted the ERISA 403(b) Volume Submitter Plan that has received an opinion letter from the IRS dated August 7, 2017, stating the Plan is designed in accordance with the applicable sections of the IRC and is appropriate for use by employers for the benefit of their employees. The Plan has been amended since receiving the opinion letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and is therefore tax exempt. Accordingly, no provision for income taxes is included in the Plan's financial statements.

8. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through March 15, 2023, the date the financial statements were available to be issued. No subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.
