Report of Independent Auditors

The Plan Administrator of
Saint Martin's University 403(b) Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Saint Martin's University 403(b) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended June 30, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying 2022 financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Saint Martin's University 403(b) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Saint Martin's University 403(b) Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Saint Martin's University 403(b) Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Saint Martin's University 403(b) Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedule Required by ERISA

The supplemental Schedule of assets (held at end of year) as of June 30, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of Saint Martin's University 403(b) Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated April 13, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Saint Martin's University 403(b) Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of the Saint Martin's University 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan document, as amended, for a more complete description of the Plan's provisions.

General – The Plan is a 403(b) tax deferred annuity plan covering substantially all employees of Saint Martin's University (the University) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan has three custodians: Teachers Insurance and Annuity Association of America – College Retirement Equities Fund (TIAA and CREF), Newport Trust Company (Newport), and Nationwide Life Insurance Company (Nationwide). The University is the Plan's sponsor and serves as Plan administrator.

Eligibility – Employees, except students and non-resident aliens, of the University who work 20 or more hours per week are eligible to participate in the Plan. Adjunct employees are not excluded; however, any compensation earned under the adjunct pay codes is excluded. Employees who have completed 1,000 hours at the end of the first 12 consecutive months of employment are eligible for discretionary employer contributions. The entry dates for employer contributions are the first day of the month following the satisfaction of the eligibility requirements.

Contributions

Participant contributions – Each year, participants may contribute between 1% and 100% of pretax annual compensation, as defined in the Plan. Effective January 1, 2019, participants may also elect to make Roth contributions utilizing after-tax compensation. Participants who have attained age 50 before the end of the Plan year or that have been employed for 15 or more years with a qualified organization are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined contribution plans.

Employer contributions – The University may elect to make discretionary contributions based on a percentage of eligible compensation for eligible employees for the Plan year. As of June 30, 2022, the University's Board of Trustees approved varying contribution rates. Due to uncertain economic factors associated with the coronavirus pandemic, the Board approved contributions to the Plan once final tuition amounts and enrollment were known after spring semester of fiscal year 2022. As of June 30, 2022, the University's Board of Trustees approved a discretionary contribution of 35% of June 2022 compensation. This is recorded as employer contribution receivable as of June 30, 2022.

Contributions are subject to regulatory limitations.

Participant account – Each participant's account is credited with the participant's contributions and University contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan and Plan losses. Allocations are based on participant earnings (losses), account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of their account into various investment options offered by the Plan.

Vesting – Participants are vested immediately in both their contributions and the employer contribution plus actual earnings thereon.

Saint Martin's University 403(b) Plan

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Notes receivable from participants – While the Plan does not allow for participant loans, TIAA and CREF does issue loans to Plan participants outside of the scope of the Plan in accordance with the Plan Document. Participants may borrow from TIAA and CREF a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. These loans are secured by the balance of the participant's account and bear fixed, reasonable rates of interest, as determined by TIAA and CREF. The participant is required to transfer funds equal to the amount of the loan plus 10% into the TIAA Traditional Annuity Account for use as collateral on the loan. These funds are restricted with respect to withdrawals and transfers while the loan is outstanding. The maximum loan term is five years unless the loan qualifies as a home loan, in which case the term of the loan is not to exceed ten years. Principal and interest payments are made monthly by the participant directly to TIAA and CREF. The loans themselves are not reported as assets of the Plan. There were no Plan loans as of June 30, 2022 and 2021.

Payment of benefits – On termination of service due to death, disability, retirement at 70.5, or attaining age 59½, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. Participants may also qualify for hardship withdrawals from deferrals, not including ROTH contributions, contributed to the Plan and employer contributions for qualified hardship distributions. If the hardship is with Nationwide, it is limited to elective deferrals only. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in accordance with U.S. GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value and contract value. The Plan's custodian, TIAA and CREF, certifies the contract value of the guaranteed investment contract. The Plan's custodians, TIAA and CREF, Newport, and Nationwide, certify the fair value of all other investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Note 2 – Summary of Significant Accounting Policies (continued)

Contract value is the relevant measurement for assets invested in fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity contract types, including the Supplemental Retirement Annuities (SRA) Retirement Choice Plus (RCP) and the Group Supplemental Retirement Annuities (GSRA), are considered fully benefit-responsive. Other TIAA Traditional Annuity contract types, including the Retirement Annuities (RA) Group Retirement Annuities (GRA) and Retirement Choice (RC), are considered non-fully benefit-responsive and, therefore, are reported at fair value.

Fully benefit-responsive investment contract – The portion of the guaranteed investment contract that guarantees the contract value even when the fair market value of the underlying assets is more or less than contract value.

Non-fully benefit-responsive investment contract – The portion of the guaranteed investment contract that holds illiquid contracts and is not considered fully benefit-responsive.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued.

The Plan has evaluated subsequent events through March 22, 2023, which is the date the financial statements were available to be issued.

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in techniques used at June 30, 2022 and 2021.

Registered investment companies (mutual funds and money market funds) – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

TIAA Real Estate Separate Account – The TIAA Real Estate Account, which is a pooled separate account (PSA), is a single account that invests primarily in real estate holdings and is only available as an investment option in TIAA Variable Annuity Contracts. Participants redeeming units from the TIAA Real Estate Account may only do so one per calendar quarter. Units of the PSA are valued using the NAV of the shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate accounts – Nationwide Group Accounts – Units held in pooled separate accounts (PSAs) are valued using the NAV practical expedient of the PSA as reported by the account managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. There are no unfunded commitments from participants in the Plan who invest in these accounts. The account is not a direct filing entity. This account has a daily redemption frequency, no redemption notice, nor any redemption restrictions.

Note 3 – Fair Value Measurements (continued)

Non-fully benefit-responsive investment contract – TIAA Traditional Annuity – Certain investments in a TIAA Traditional Annuity contract are non-fully benefit-responsive contracts and are reported at fair value. The Plan holds Retirement Annuities and Group Retirement Annuities that have illiquid contracts; therefore, observable prices for identical or similar investments do not exist and, accordingly, these investments are valued using unobservable inputs (Level 3). The fair value equals the accumulated cash contributions and interest credited to the contract, less any withdrawals. Liquidity restrictions apply that could impact the value realized upon exiting the contract.

The following table discloses, by level, the fair value hierarchy of the Plan's assets at fair value:

Fair Value Measurement at June 30, 2022				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 6,660,035	\$ -	\$ -	\$ 6,660,035
Pooled separate accounts	280,514	-	-	280,514
Investment contracts	-	-	1,211,914	1,211,914
Total assets in the fair value hierarchy	<u>\$ 6,940,549</u>	<u>\$ -</u>	<u>\$ 1,211,914</u>	8,152,463
Investments measured at NAV practical expedient				17,013,965
				<u>\$ 25,166,428</u>

Fair Value Measurement at June 30, 2021				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 8,434,639	\$ -	\$ -	\$ 8,434,639
Pooled separate accounts	249,961	-	-	249,961
Investment contracts	-	-	1,204,394	1,204,394
Total assets in the fair value hierarchy	<u>\$ 8,684,600</u>	<u>\$ -</u>	<u>\$ 1,204,394</u>	9,888,994
Investments measured at NAV practical expedient				19,540,435
				<u>\$ 29,429,429</u>

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements:

Name	Fair Value	Valuation Technique	Unobservable Inputs	Range of Input Values
TIAA Traditional Annuity Account	\$ 1,211,914	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	Retirement Annuity 3.00% - 3.80% Group Retirement Annuity 3.00% - 3.80%

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 4 – Guaranteed Investment Contract with TIAA and CREF

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants. Each contract is fully and unconditionally guaranteed by TIAA. The Traditional Annuity is offered through a variety of contract types; the Plan participates in the Retirement Annuities (RA), Group Retirement Annuities (GRA), Group Supplemental Retirement Annuity (GSRA), and Supplemental Retirement Annuity (SRA). The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant's account, and the options for receiving income upon retirement.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, are guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

The SRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits. There are no unfunded commitments or reserves against contract value for credit risk of the issuer or otherwise.

The contract meets the Fully Benefit Responsive Investment Contract (FBRIC) criteria and is therefore reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA and CREF, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that cause a significant withdrawal from the Plan; (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; or (5) premature termination of the contract. No events are probable of occurring that might limit the Plan's ability to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

Saint Martin's University 403(b) Plan

Notes to Financial Statements

Note 5 – Tax Status

The Plan document is a volume submitter 403(b) plan that received a favorable opinion letter from the Internal Revenue Service on March 31, 2017, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the Plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the values of the investments in the near term could materially affect a participant's account balance and the amounts reported in the statement of net assets available for benefits.

Note 7 – Information Certified by the Custodians

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, Newport, and Nationwide, the custodians of the Plan, have certified to the completeness and accuracy of:

- Investments reflected on the accompanying statements of net assets available for benefits as of June 30, 2022 and 2021.
- Net depreciation in fair value of investments, interest, and dividends reflected on the accompanying statement of changes in net assets available for benefits for the year ended June 30, 2022.
- Investments reflected on the schedule of assets (held at end of year).

Note 8 – Party-in-Interest Transactions

The Plan paid expenses related to the Plan's operations and investment management to various service providers. Certain Plan investments are shares of funds and insurance contracts management by TIAA and CREF. TIAA and CREF is one of the custodians as defined by the Plan; therefore, transactions with this entity qualifies as exempt party-in-interest transactions.

Note 9 – Plan Termination

Although it has not expressed any intention to do so, the University has the right under the Plan to terminate the Plan and to discontinue its contributions at any time, subject to the provisions of ERISA.

Note 10 – Reconciliation to Form 5500

The Form 5500, in addition to the items noted in the reconciliations below, has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.

The following is a reconciliation of the net assets available for benefits reported in the financial statements and the net assets reported on the Form 5500 as of June 30:
