INDEPENDENT AUDITORS' REPORT

To the Participants and Administrator
Xtek, Inc. Employee Stock Ownership Plan

Opinion

We have audited the financial statements of the Xtek, Inc. Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Xtek, Inc. Employee Stock Ownership Plan as of June 30, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Xtek, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Xtek, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Xtek, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Xtek, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of June 30, 2022 and the schedule of reportable transactions for the year ended June 30, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying

accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. PLAN DESCRIPTION:

The Xtek, Inc. Employee Stock Ownership Plan (the “Plan”) is a defined contribution plan covering substantially all full-time employees of Xtek, Inc. (“Sponsor” or the “Company”). The following description of the Plan provides only general information. Participants should refer to the Plan document for a complete description of the Plan. The primary purpose of the Plan is to allow participants to acquire stock ownership interests in the Company. The Plan holds 100% of the common stock of the Company. The Company also elected S-corporation status effective July 1, 2000.

Benefits

The vested portion of a participant’s capital accumulation account will be distributed following the participant’s separation from service. The participant will receive his or her distribution in the form of cash, promissory notes or whole shares of Xtek, Inc. common stock or a combination of these methods. In addition, a participant may elect to have any portion of an eligible distribution paid to an eligible retirement plan via a direct rollover. Prior to July 1, 2009, a participant or beneficiary could elect to transfer the distribution to the Company’s Defined Benefit Pension Plan and distribute the benefit thereunder at the actuarially determined equivalent.

The Company’s administrative committee authorizes the trustee to remit payments of benefits from the trust to participants, spouses and other beneficiaries entitled to such benefits under the Plan.

Eligibility

Generally, full time employees, who have attained the age of 18, are eligible to participate in the Plan on their hire date. Prior to January 1, 2022, the age requirement was age 21.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant’s account will be credited quarterly with their allocable share of Company stock (including fractional shares), and any stock dividends on the Company stock, and at least annually with any forfeitures of Company stock. Only those participants who are eligible employees of the Company on the allocation date will receive an allocation. Allocations are based on a participant’s eligible compensation, relative to total eligible compensation.

Contributions

The Company, at the approval of the Company’s Board of Directors, may make contributions to the Plan. Contributions can be in the form of cash and/or shares of Company stock, as determined by the Company’s Board of Directors. The Plan does not permit employee contributions.

Effective July 1, 2000, the Plan was amended to incorporate a money purchase contribution formula equal to 3% of an eligible participant’s compensation for each plan year. In order to be eligible to receive this contribution, a participant must be a covered employee on the allocation dates of the plan year, or have terminated their service on or after their earliest retirement age or by reason of disability or death, during that Plan year. The Plan provides for quarterly contribution allocations. For the Plan years ended June 30, 2022 and 2021, the Plan had met its funding requirements.

Vesting

Participants become 100% vested in their respective capital accumulation accounts after three years of service with the Company or earlier if upon normal retirement age.

Put option

The Company shall provide a “put option” to any participant (or beneficiary) who receives a distribution of Company stock. The put option shall permit the participant (or beneficiary) to sell such Company stock to the Company or an affiliate at any time during two option periods, at the then fair market value.

Diversification

A participant who has attained the age of 55 and completed at least 10 years of participation in the Plan shall be entitled to elect to withdraw in cash a portion of their balance in the Company stock account, in accordance with Code Section 401(a)(28)(B). Diversification is offered to most eligible participants over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. No withdrawal election shall be permitted if the balance in such Company stock account has a fair market value of \$500 or less, unless and until the balance in the account as of a subsequent allocation date in the election period exceeds \$500.

Forfeitures

Employer contributions are forfeited by participants upon termination before becoming vested. Forfeited amounts are allocated to remaining participants in accordance with Plan provisions. As of June 30, 2022 and 2021, there were no unallocated forfeitures.

Voting rights

Participants are entitled to exercise voting rights attributable to those shares allocated to their accounts and are notified by the trustee prior to the time that such rights are to be exercised. Participant voting rights are exercised through the trustee, subject to provisions described in the Plan document.

Plan termination

The Company intends to continue the Plan indefinitely for the benefit of the participants but reserves the right to terminate the Plan at any time by resolution of its Board of Directors. In the event the Plan is terminated, participants become fully vested in their capital accumulation accounts, and Plan assets are distributed to participants in accordance with the Plan agreement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

The following is a brief description of the significant accounting policies of the Plan.

Basis of accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes in net assets available for benefits. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash equivalents

Cash equivalents include the Plan's investment in a highly liquid mutual fund. This fund is used primarily as a holding account for distributions.

Benefits

Benefits are recorded when distributed.

Administrative expenses

The Sponsor pays most Plan administrative expenses and such expenses are excluded from these financial statements. If the Sponsor does not pay such expenses, the trustee shall pay them from the Plan assets.

Subsequent events

The Plan has evaluated subsequent events through April 4, 2023, the date the financial statements were available to be issued.

3. INVESTMENTS:

The Plan's investment in the Company's common shares is as follows at June 30:

	<u>2022</u>	<u>2021</u>
Number of shares	254,094	275,990
Cost	\$ 13,586,590	14,270,234
Fair value	\$ 49,482,319	53,329,549

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest

priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There were no changes in methodologies used at June 30, 2022 and 2021.

Common stock: The fair value of the Xtek, Inc. common stock held by the Plan is valued based on an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of the company assets and liabilities. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves Plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company.

Cash and cash equivalents: The carrying value approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of June 30, 2022 and 2021.

Investments at fair value as of June 30, 2022

	<u>Fair Value</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

Total investments fair value	\$ <u>53,331,417</u>	<u>1,868</u>	<u>-</u>	<u>53,329,549</u>

Changes in Fair Value of Level 3 Assets

The Plan distributed or transferred 28,491 and 36,098 shares valued at \$5,505,242 and \$4,889,513 of the Plan's level 3 assets for the years ended June 30, 2022 and 2021, respectively. The Plan received Company contributions in the form of 6,595 and 11,646 shares valued at \$1,274,335 and \$1,763,391 for the years ended June 30, 2022 and 2021, respectively.

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

The following table represents the Plan's level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs.

5. TAX STATUS:

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated April 2, 2015, that the Plan was designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, no provision for income taxes has been included in the Plan's financial statements.

6. RISKS AND UNCERTAINTIES:

Investment securities are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that change in the value of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements and supplemental schedules.

7. RELATED PARTY TRANSACTIONS:

The Plan invests in Company common stock. In 2021, the Plan also invested in the BMO Government Money Market Fund which is managed by BMO Harris Bank N.A., the Plan trustee. These transactions qualify as party-in-interest transactions.

8. PLAN OPERATIONS IMPACTED BY COVID-19:

On March 11, 2020, the World Health Organization declared the novel coronavirus (COVID-19) outbreak a pandemic which has impacted the financial markets and global economy. The COVID-19 pandemic is on-going and the duration and extent of the related financial impact on the Plan's net assets available for benefits and changes in net assets available is uncertain and cannot be reasonably estimated at this time.

On March 27, 2020, the U.S. Congress passed the Coronavirus Aid, Relief, and Economic Security (CARES) Act. The CARES Act provided temporary relief for retirement plan sponsors and their participants with respect to distributions and participant loans during 2020. The provisions of the CARES Act could be effective and operationalized immediately, prior to amending the plan document. The Sponsor elected not to adopt the optional provisions of the CARES Act.
