INDEPENDENT AUDITORS' REPORT

To the Trustee and ESOP Committee of
Mindworks Innovations, Inc.
Employee Stock Ownership Plan:

Opinion

We have audited the financial statements of Mindworks Innovations, Inc. Employee Stock Ownership Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets (deficit) available for benefits as of December 31, 2021 and 2020, the related statements of changes in net assets (deficit) available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets (deficit) available for benefits of Mindworks Innovations, Inc. Employee Stock Ownership Plan as of December 31, 2021 and 2020, and the changes in its net assets (deficit) available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Mindworks Innovations, Inc. Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events considered in aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audits of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and asses the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures including examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Mindworks Innovations, Inc. Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Mindworks Innovations, Inc. Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audits.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year and schedule of reportable transactions are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including its form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules are fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

MINDWORKS INNOVATIONS, INC.
EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS
DECEMBER 31, 2021 AND 2020

NOTE 1 – Plan Description and Basis of Presentation

The following brief description of Mindworks Innovations, Inc. Employee Stock Ownership Plan (Plan) is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

In July 2021, Mindworks Innovations, Inc. (the Company) established the Plan retroactively under provisions permitted by the SECURE Act Section 201 effective as of January 1, 2020. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with the requirements of Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986 (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is designed to invest primarily in company stock. The Plan also provides for the Company to make fixed and/or discretionary contributions in the form of cash or company stock. The Plan is administered by the ESOP Committee of the Plan. An independent trustee appointed by the ESOP Committee serves as the Plan Trustee (Trustee).

In September 2021, the Plan acquired all outstanding convertible preferred class B stock (Class B preferred stock) representing 30% of the issued and outstanding stock of the Company using a cash contribution in the amount of $1,700,000 and proceeds from secured borrowings from the Company and the shareholder (ESOP Loans Payable). (See Note 6.)

Eligibility

Employees of the Company enter the Plan on January 1st or July 1st in the plan year in which they attain the age of 21 and complete one year of service. An employee will have completed one year of service if they have worked at least 1,000 hours of service in a consecutive 12-month period. Independent contractors, nonresident aliens without any U.S. source of income, employees covered under a collective bargaining agreement, and leased employees are not eligible to participate in the Plan. Participants who are not employed on the last day of the plan year and have not completed 1,000 hours of service during the plan year are not eligible to receive an allocation of the Company's contributions for the plan year.

Contributions

Contributions can be made in cash or company stock. The contributions are allocated according to the pro rata share of each participant's compensation to total eligible compensation. During the years ended December 31, 2021 and 2020, the Company made discretionary contributions of $3,708,871 and $1,700,000, respectively.

NOTE 1 – Plan Description and Basis of Presentation (Continued)

Payment of Benefits

Distributions on account of death, disability, or retirement shall begin in the plan year following the plan year in which the event occurs. The amount to be distributed is based upon the account valuation date immediately preceding the distribution.

Distributions for other separation from service are offered no later than the sixth plan year following the plan year in which the participant terminated. However, if a participant's vested balance includes shares the Company acquired with the proceeds of the ESOP Loans Payable, the Company may elect to defer any portion of the participant's account attributable to unallocated shares until the earlier of (i) the plan year following the close of the tenth plan year following termination of employment, (ii) death, (iii) or the plan year following the plan year in which the loan is repaid in full or the participant turns 65.

Vested account balances less than or equal to $5,000 but greater than $1,000 will be distributed in one lump sum or rolled over at the participants request. If a participant does not provide instructions, the amounts will be directly rolled over to an individual retirement account designated by the Trustee. Vested balances of $1,000 or less will automatically be paid in a cash lump sum.

If the value of a vested account balance of the participant exceeds $5,000 as of the distribution date, no portion of the participant's account may be distributed before the participant attains age 65 without written consent. Distribution of the account balance shall commence no later than 60 days after the allocation date coinciding with or following the latest of the participant's 65th birthday, the 10th anniversary of the date the participant became eligible, or the date the participant terminated service. Payments will generally be made in substantially equal period payments, at least annually, over a period not to exceed 5 years.

Administrative Expenses

As provided in the plan agreement, administrative expenses may be paid either by the Plan or by the Company. The Company has historically paid the operating expenses of the Plan.

NOTE 1 – Plan Description and Basis of Presentation (Continued)

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to the participant's account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which instructions have not been given by a participant. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interests of plan participants and beneficiaries.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each plan year with an allocation of shares of the Company stock released by the Trustee from the unallocated account, forfeitures of terminated participants' non-vested accounts, dividends and plan earnings, and an allocation of the employer's contribution. Only those participants who are eligible employees of the Company as of the last day of the plan year will receive an allocation. Allocations are generally based on a participant's eligible compensation, relative to total eligible compensation. Plan earnings are allocated to each participant's account based on the ratio of account balances.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability, or death, he or she will vest in the balances in their account based upon total years of service with the Company. Participants are 20% vested after 2 years of service and 100% vested after six years.

Put Option

Under federal income tax regulations, the Company stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

NOTE 1 – Plan Description and Basis of Presentation (Continued)

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in the Company's stock into investments that are more diversified. Participants who are at least age 55 with at least 10 years of service with 1,000 hours may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify either receive a cash distribution or rollover into an individual retirement account.

Forfeitures

As of December 31, 2021 and 2020, there was no balance in the forfeited non-vested account as all forfeitures were used in the same year they were forfeited. Plan forfeitures are allocated to each participant's account based upon the relation of the participant's eligible compensation to total eligible compensation for the plan year. During the year ended December 31, 2021, 539 forfeited shares were allocated to eligible participants. There were no forfeiture allocations during the year ended December 31, 2020. Forfeitures may also be used to pay administrative expenses of the Plan.

NOTE 2 – Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – Summary of Significant Accounting Policies (Continued)

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to *(a)* the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Investment Valuation and Income Recognition

The shares of the Company's Class B preferred stock are valued at fair value as determined by an annual independent appraisal. See Note 5 for discussion of fair value measurements. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through March 17, 2023, the date the financial statements were available to be issued.

NOTE 3 – Administration of Plan Assets

The Plan's assets, which consist principally of the Company's Class B preferred stock, are held by the Trustee of the Plan.

Company contributions are held and managed by the Trustee. The Trustee administers the payment of interest and principal on the loan, which is funded through company contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

NOTE 4 – Class B Preferred Stock

Conversion, Distribution and Liquidation Rights

The Class B preferred stock is convertible by the Plan trustee without the payment of additional consideration, into such number of fully paid and non-assessable shares of common stock as determined by the conversion price as outlined in the articles of incorporation. Participants must receive distributions of cash or company stock upon election of a distribution from the Plan.

Dividend Rights

The Class B preferred ESOP stock has a cumulative annual compounding dividend computed as 8% of the ESOP purchase price, or $2,200,000, payable annually for a period of the sooner of five years or the date in which Company elects to be taxed as an S corporation. During the year ended December 31, 2021, dividends totaling $632,877 were declared and paid.

Voting Rights

Each share of Class B preferred stock is entitled to a number of votes equal to the number of shares of company common stock into which it is convertible.

The Plan's investments at December 31, 2021 and 2020 consisted of Class B preferred stock of Mindworks Innovations, Inc. as follows:

	As of December 31, 2021		
	Allocated	**Unallocated**	**Total**
Number of shares	18,865	281,135	300,000
Cost	$ 1,729,292	$ 25,770,708	$ 27,500,000
Fair value	$ 1,417,321	$ 21,121,679	$ 22,539,000

	As of December 31, 2020		
	Allocated	**Unallocated**	**Total**
Number of shares	-	-	-
Cost	$ -	$ -	$ -
Fair value	$ -	$ -	$ -

The decrease in value of Mindworks Innovations, Inc. Class B preferred stock is reported in net unrealized depreciation in fair value of investments on the statement of changes in net assets (deficit) available for benefits and totaled $4,961,000 for the year ended December 31, 2021.

NOTE 5 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

NOTE 5 – Fair Value Measurements (Continued)

The following tables set forth by level within the fair value hierarchy, the Plan's assets at fair value measurements as of December 31, 2021 and 2020:

	Fair Value Measurements December 31, 2021			
	Level 1	**Level 2**	**Level 3**	**Total**

Transfer out	$ -	$ -
Purchase of 300,000 shares	$ 27,500,000	$ -
Distributions	$ -	$ -

NOTE 5 – Fair Value Measurements (Continued)

Quantitative Information about Significant Unobservable Inputs Used in Level 3 Fair Value Measurements

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during and as of the year ended December 31, 2021 and 2020.

Instrument	Fair Value December 31, 2021	Fair Value December 31, 2020	Principal Valuation Technique	Significant Unobservable Inputs
Mindworks Innovations, Inc. Class B preferred stock	$ 22,539,000	$ -	Income and market	-EBITDA, cash flows, and net income -Discount for limited marketability -Discount for lack of control

The Company's Class B preferred stock held by the Plan is valued at fair value based upon an independent appraisal. This appraisal was based upon a combination of the market and income valuation techniques. The appraiser took into account historical and projected cash flow and net income and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of control and a discount for lack of marketability.

The valuation process involves the Trustee engaging an independent appraiser on an annual basis. Plan management accumulates the data for the appraiser from the Company's audited financial statements and other internally prepared reports requested by the appraiser. The appraiser prepares a preliminary report which plan management, along with the Trustee, reviews in detail, discusses, and approves.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE 6 – ESOP Loans Payable

In September 2021, the Plan entered into a $20,500,000 term loan agreement with the Company (Company Loan Payable), to be repaid over 25 years. The loan agreement bears interest at 1.73%. Concurrently, the Plan entered into a $7,000,000 term loan agreement with the selling shareholder (Shareholder Loan Payable), to be repaid over ten years bearing interest at 7.0%. The proceeds of the Company Loan Payable and Shareholder Loan Payable (ESOP Loans Payable), as described above, totaled $27,500,000 and were used to purchase the Company's Class B preferred stock. Unallocated shares are collateral for the ESOP Loans. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. During the year ended December 31, 2021, 18,865 shares were released and allocated. The Plan's ESOP Loans Payable balance at December 31, 2021 totaled $25,380,942.

Subsequent to year-end, in August 2022, the Company Loan Payable and the Shareholder Loan Payable were refinanced resulting in a single ESOP Loan Payable (Refinanced ESOP Loan) to the Company. The Refinanced ESOP Loan is payable through December 2045 and bears interest at 3.35% and requires annual payments of principal and interest of approximately $924,000.

The following is a schedule of future minimum principal payments on the loan:

Year Ending December 31,	
2022	$ 4,131,903
2023	923,871
2024	923,871
2025	923,871

NOTE 7 – Employer Contributions

The Company is obligated to make contributions to the Plan in cash or in shares of Company stock, or a combination of both, as determined by the Company's Board of Directors. Discretionary contributions are allocated to eligible participants' accounts based upon the participants' eligible compensation as a percentage of total compensation, not to exceed Internal Revenue Service (IRS) limitations. The Company's contribution which, when aggregated with the Plan's dividends and interest earnings, shall equal at least the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on the term loans. (See Note 6.)

During 2021, the Company made a contribution of $1,700,000, of which $1,689,904 was applied to principal and $10,096 was applied to interest on the ESOP Loans Payable. At December 31, 2021, company contribution receivables totaled $3,708,871, of which $3,208,032 was applied to principal and $500,839 was applied to interest on the ESOP Loans Payable during the year ended December 31, 2022.

NOTE 8 – Related-Party and Party-in-Interest Transactions

The Plan invests in the Company's Class B preferred stock and has indebtedness guaranteed by the Company. In addition, the Plan has an outstanding loan totaling $7,000,000 with the selling shareholder. These are related-party and party-in-interest transactions. The Plan has a number of service providers. Such providers are parties-in-interest under ERISA.

NOTE 9 – Risks and Uncertainties

The plan investments consist primarily of the Company's Class B preferred stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows and/or other such techniques. Due to the level of risk associated with the investment in the Class B preferred stock and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of the Class B preferred stock will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets (deficit) available for benefits.

NOTE 10 – Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to the Plan's provisions. Upon termination of the Plan, the Company's Board of Directors and the ESOP Committee directs the Trustee to pay all liabilities and expenses of the Plan and to sell shares of financed company stock held as collateral to the extent it determines such sale to be necessary in order to repay the loan. Subsequently, the interest of each participant in the trust fund will be distributed to such participant or his or her beneficiary at the time prescribed by the plan terms and the IRC.

NOTE 11 – Tax Status

The IRS has determined and informed the Company by a letter dated March 10, 2022 that the Plan is qualified and the trust established under the Plan is tax-exempt, under the appropriate sections of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
