Independent Auditor's Report

To the Board of Trustees of
Plumbers & Pipefitters Local Union
No. 396 Pension Fund
Canfield, Ohio

Opinion

We have audited the financial statements of Plumbers & Pipefitters Local Union No. 396 Pension Fund, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of June 30, 2022 and 2021, the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Plumbers & Pipefitters Local Union No. 396 Pension Fund as of June 30, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Plumbers & Pipefitters Local Union No. 396 Pension Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Plumbers & Pipefitters Local Union No. 396 Pension Fund's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the plan; and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Plumbers & Pipefitters Local Union No. 396 Pension Fund's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Plumbers & Pipefitters Local Union No. 396 Pension Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment as of June 30, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

NOTE A – DESCRIPTION OF PLAN

The following brief discussion of the Plumbers and Pipefitters Local Union No. 396 Pension Fund (the “Plan”) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

- 1.) **General** – The Plumbers and Pipefitters Local Union No. 396 Pension Fund is a multi-employer defined benefit plan covering all eligible members of Local Union No. 396 of the United Association of Journeymen and Apprentices of the Plumbing and Pipefitting Industry of the United States and Canada. The Plan was established in 1970 after succeeding the Mahoning and Trumbull County Building Trades Pension Fund (established in 1959), and provides for pension, death and disability benefits. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).
- 2.) **Pension Benefits** – Under the Plan, employees with 10 or more years of service (5 or more years of service beginning July 1, 1999), are entitled to monthly pension benefits beginning at normal retirement age (65) equal to \$20.00 for each year of credited service earned through June 30, 1980, plus \$100.00 for each year of credited service from July 1, 1980 through June 30, 2002, plus \$80.00 for each year of credited service from July 1, 2002 through June 30, 2009, plus \$70.00 for each year of credited service from July 1, 2009 through June 30, 2021, plus \$100 for each year of credited service thereafter, subject to a maximum of \$2,930 per month.
- 3.) **Death and Disability Benefits** – When a participant dies prior to retirement, a death benefit equal to the actuarial equivalent of the lump sum return of contributions benefit, is paid to the participant’s beneficiary. Active employees who become totally disabled after completing four (4) years of credited service are eligible for a disability retirement benefit. The benefit commences on the first day of the month following six months of disability. The benefit amount is reduced to the accrued benefit, adjusted for early receipt.
- 4.) **Early Retirement Benefits** – Participants who have reached the age of 52 and have completed ten (10) or more years of credited service may elect to retire and receive benefits computed as previously described, reduced by a pre-prescribed amount for each year that the participant retires early. Terminated vested participants will not be eligible to commence receipt of any early retirement benefit of the Plan. A terminated vested participant will be entitled to a monthly pension benefit equal to their accrued benefit payable at age 65.
- 5.) **Contributions** – By union agreement, employers who employ members of Plumbers and Pipefitters Local Union No. 396 contribute to the Plan \$11.25 for every hour the employee was paid from June 1, 2022 through June 30, 2022, \$11.00 for every hour the employee was paid from June 1, 2021 through May 31, 2022, \$10.75 for every hour the employee was paid from August 1, 2020 through May 31, 2021, and \$10.50 for every hour the employee was paid from July 1, 2020 through July 31, 2020.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- 1.) **Basis of Accounting** – The accompanying financial statements are prepared on the accrual basis of accounting.
- 2.) **Use of Estimates** – The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein; disclosures of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual results may differ from those estimates.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

- 3.) **Investment Valuation and Income Recognition** – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's trustees determine the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note G for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

- 4.) **Actuarial Present Value of Accumulated Plan Benefits** – Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees and their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented as of June 30, 2021. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated plan benefits.

An independent actuary from Cuni, Rust & Strenk Actuarial Consulting determines the actuarial present value of accumulated plan benefits. The actuarial present value of the plan benefits is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The actuarial cost method used is the individual entry age normal method.

The significant actuarial assumptions used in the valuation as of June 30, 2021 is (a) life expectancy of participants (the blue collar adjusted Pri-2012 table), (b) retirement age assumptions (the assumed average retirement age was 63.8 for 2021) and (c) investment return. The 2021 valuation included an assumed average rate of return of 6.50% net of investment expenses and a current liability rate of 2.33%. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of July 1, 2021. Had the valuation been performed as of June 30, 2021 there would be no material differences.

- 5.) **Payment of Benefits** – Benefit payments to participants are recorded upon distribution.
- 6.) **Administrative Expenses** – The Plan's expenses are paid by the Plan as provided by the plan document. Certain expenses incurred in connection with the general administration of the Plan and certain investment related expenses that are paid by the Plan are recorded as deductions in the statement of changes in net assets available for benefits.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

7.) Subsequent Events – The Plan evaluated subsequent events through March 7, 2023, the date the financial statements were available to be issued.

NOTE C – INVESTMENTS

The Plan's investments are held at various custodial institutions.

NOTE D – ACTUARIAL CERTIFICATION OF STATUS

As of June 30, 2021, The Plan's actuary, Cuni, Rust & Strenk, has certified the Plan as Not Endangered, Critical, or Critical and Declining as defined by the PPA as amended by the Multiemployer Pension Reform Act of 2014 (MPRA). As of June 30, 2021, the Plan's PPA funded percentage is greater than 80%. See the actuarial valuation report for further detail.

NOTE E – TAX STATUS

The Plan obtained its latest determination letter on November 19, 2015, in which the Internal Revenue Service states that the Plan, as designed, was in compliance with the applicable requirements of the Internal Revenue code (IRC). The Plan has been amended since receiving the determination letter. However, the Plan administrators believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any periods in progress. The Plan administrators believe it is no longer subject to income tax examinations for years prior to 2019.

NOTE F – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

NOTE G – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

Plumbers and Pipefitters Local Union No. 396 Pension Fund

Notes to Financial Statements

June 30, 2022 and 2021

NOTE G – FAIR MARKET VALUE MEASUREMENTS – Continued

Level 1 – Inputs in to valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in active markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If an asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation of the method used for assets measured at fair value. There have been no changes on the methodologies used at June 30, 2022 and 2021.

Mutual Funds – Valued at the daily closing price reported by the Fund. The funds are open-ended and are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price.

Pooled Separate Accounts, & Common/Collective Funds - Valued at net asset value (NAV) of units held. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liability. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Limited Liability Companies - appraised quarterly by an independent Member of the Appraisal Institute (MAI). Thereafter, values are updated by an independent consultant based on changes in factors such as occupancy levels, lease rates, overall market conditions, and capital improvements.

NOTE G – FAIR MARKET VALUE MEASUREMENTS – Continued

The following table summarizes investments measured at fair value based on net asset value (NAVs) per share as of June 30, 2022 and 2021.

<u>June 30, 2022</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently applicale)</u>	<u>Redemption Notice Period</u>
Pooled Separate Accounts	\$ 4,239,441	\$ -	Monthly	30 Days
Common/Collective Funds	\$ 2,774,944	\$ -	Quarterly	45 Days
<u>June 30, 2021</u>	<u>Fair Value</u>	<u>Unfunded Commitments</u>	<u>Redemption Frequency (if currently applicale)</u>	<u>Redemption Notice Period</u>
Pooled Separate Accounts	\$ 3,326,119	\$ -	Monthly	30 Days
Common/Collective Funds	\$ 2,167,320	\$ -	Quarterly	45 Days

Pooled Separate Accounts – The pooled separate account invests in high quality, well-leased real estate properties in the multifamily, industrial, office, retail and hotel sectors to produce consistent returns over time. The pooled separate account can be redeemed monthly at the net asset value at the time of redemption.

Common/Collective Funds – The common/collective fund invests in real estate properties and loans to produce consistent returns over time. The common/collective fund can be redeemed quarterly at the net asset value at the time of redemption.

Gains and losses (realized and unrealized) included in changes in net assets for the periods above are reported in net appreciation in fair value of investments in the statement of changes in net assets available for benefits.

NOTE H – PLAN TERMINATION

Though there are no plans to do so, in the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Any and all obligations of the Plan and Trust, including expenses incurred up to the date of termination of the Plan and the expenses incidental to such termination.
- b. Benefits payable as a pension.
- c. Other benefits (if any) of the individuals under the Plan guaranteed under Title IV of ERISA.
- d. All other vested benefits under the Plan.
- e. All other benefits under the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than single-life annuity, the corresponding ceiling is actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the contributing employers subject to the collective bargaining agreement and may also depend on the level of benefits guaranteed by the PBGC.

NOTE I – RELATED PARTY AND PARTY IN INTEREST TRANSACTIONS

Certain Plan investments are managed by various custodians of the Plan. As described in Note B, the Plan paid certain expenses related to plan operations and investment activity to various service providers. These transactions are party in interest transactions under ERISA.

NOTE J – ACCUMULATED PLAN BENEFITS AND CHANGES

Rationale for Selection of Significant Actuarial Assumptions

1. Interest Rate: Based on the Plan's target asset allocation, reflecting asset class future return expectations as determined by the Plan's investment consultant and publicly available inflation expectations, anticipated risk premiums, and associated long-term capital market assumptions.

2. Mortality Rates: Pri-2012 table used as base rates. Blue Collar adjustment used to reflect expected workforce mortality experience. Pri-2012 Retiree table used to reflect expected retiree mortality experience. Pri-2012 Contingent Survivor table used to reflect expected surviving spouse mortality experience. Pri-2012 Disabled Retiree table used to reflect expected disabled mortality experience. Pri-2012 tables are adjusted for expected generational mortality improvement from base year 2012 using Scale MP-2021.

3. Retirement Rates: Based on the Plan's most recent experience study.

4. Hours Worked: Based on prior year hours worked and adjusted for anticipated changes in future hours worked.

5. Termination/Disability Rates: Based on the Plan's most recent experience study.

6. Payment Form Election: Based on the Plan's most recent experience study.

Rationale for Selection of Significant Actuarial Assumptions

1. Interest Rate: Based on the Plan's target asset allocation, reflecting asset class future return expectations as determined by the Plan's investment consultant and publicly available inflation expectations, anticipated risk premiums, and associated long-term capital market assumptions.

2. Mortality Rates: Pri-2012 table used as base rates. Blue Collar adjustment used to reflect expected workforce mortality experience. Pri-2012 Retiree table used to reflect expected retiree mortality experience. Pri-2012 Contingent Survivor table used to reflect expected surviving spouse mortality experience. Pri-2012 Disabled Retiree table used to reflect expected disabled mortality experience. Pri-2012 tables are adjusted for expected generational mortality improvement from base year 2012 using Scale MP-2021.

3. Retirement Rates: Based on the Plan's most recent experience study.

4. Hours Worked: Based on prior year hours worked and adjusted for anticipated changes in future hours worked.

5. Termination/Disability Rates: Based on the Plan's most recent experience study.

6. Payment Form Election: Based on the Plan's most recent experience study.
