Independent Auditor's Report

To the Retirement Advisory Committee and Plan Administrator
University of New Haven Retirement and 403(b) Savings Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Financial Statements

We were engaged to perform an audit of the financial statements of the University of New Haven Retirement and 403(b) Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C)"). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2022 Financial Statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2022 Financial Statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from qualified institutions as of and for the year ended June 30, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion on the 2022 Financial Statements

We do not express an opinion on the accompanying 2022 Financial Statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion on the 2022 Financial Statements* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2022 Financial Statements.

Basis for Disclaimer of Opinion on the 2022 Financial Statements

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying 2022 Financial Statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan may have excluded from investments in the accompanying statement of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded in the accompanying statement of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and related income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue our auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion on the 2022 Financial Statements* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit.

Other Matters

2022 Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of June 30, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion on the 2022 Financial Statements* section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Auditor's Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by qualified institutions. Further, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

The Plan has excluded from the 2021 financial statements certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment income and distributions related to such accounts have also been excluded from the 2021 financial statements. The amount of these excluded annuity contracts and custodial accounts and the related income and distributions are not determinable. Accounting principles generally accepted in the United States of America require that these accounts and the related income and distributions be included in the 2021 financial statements.

In our report dated April 11, 2022, we indicated that because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements.

University of New Haven Retirement and 403(b) Savings Plan

Notes to Financial Statements June 30, 2022

Note 1 - Description of the Plan

The following description of the University of the New Haven Retirement and 403(b) Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan is a contributory Internal Revenue Code (the "Code") Section 403(b) defined contribution retirement plan covering all eligible employees of the University of New Haven (the "University"). Employees become eligible to make salary deferral contributions to the Plan immediately following their date of hire. Students and employees who normally work less than 20 hours per week are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Code. The Board of Governors is responsible for oversight of the Plan. The Retirement Advisory Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Board of Governors.

Contributions

Each year, participants may make salary deferral contributions to the Plan equal to a percentage of their pre-tax annual compensation, as defined by the Plan, up to code limits. Participants who have attained age 50 before the end of the calendar year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan through Fidelity Management Trust Company ("Fidelity"). In addition, participants also direct the investment of their account balances that remain with the Plan's prior service provider, Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"). The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate. Automatically enrolled participants have their pre-tax deferral rate set at 6% of eligible compensation and their contributions invested in a default investment alternative until changed by the participant.

Each month, the University makes a matching contribution to the Plan on behalf of each eligible participant. The University's matching contribution was equal to 9% of eligible compensation provided that the participant had elected to make salary deferral contributions of at least 6% of eligible compensation. Grandfathered Employees, as defined, are excluded from receiving any University matching contributions. Participants also direct the investment of the university's matching contributions.

Clerical Union Employees and Grandfathered Employees, as defined, are eligible to receive a nonelective contribution from the University equal to 7% of their eligible compensation. Effective September 2, 2013, Clerical Union Employees were given the opportunity to opt-out of the 7% nonelective contribution and begin to make salary deferral contributions, subject to the Plan's matching contributions noted in the previous paragraph. If Clerical Union Employees chose this option, they cannot revert back to the 7% nonelective contribution. Participants also direct the investment of the University's nonelective contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

University of New Haven Retirement and 403(b) Savings Plan

Notes to Financial Statements June 30, 2022

Participant accounts

Each participant's account is credited with the participant's contributions and university matching contributions, as well as allocations of the University's nonelective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all contributions to their accounts plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from the salary deferral contribution portion of their Fidelity account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the vested balance in the participant's Fidelity account and bear interest at a fixed rate when the loan is issued based on the terms of the Plan document. Principal and interest payments are made directly by participants to Fidelity.

Payment of benefits

Upon termination of service for any reason, a participant with an account balance of \$1,000 or less will receive a lump-sum distribution. Participants with an account balance greater than \$1,000 may elect to receive a single lump-sum amount, installment payments for a specified term or purchase of an annuity contract equal to the value of the participant's interest in his or her account.

Withdrawals from the salary deferral portion of a participant's salary deferral account may be made in the event of a financial hardship in accordance with the provisions specified in the Plan. Withdrawals from a participant's rollover account may also be made at any time in accordance with the provisions specified in the Plan. Participants in Phased Retirement, as defined by the Plan, may also make an in-service withdrawal from their account balances. Additionally, in-service withdrawals of the salary deferral portion of a participant's account are allowed in accordance with the provisions specified in the Plan for participants who have attained age 59½.

Forfeited accounts

At June 30, 2022 and 2021, forfeited nonvested matching accounts totaled \$6,079 and \$23, respectively. These accounts may be used to reduce future employer contributions or pay Plan expenses. There were no forfeited nonvested accounts utilized during year ended June 30, 2022.

Notes to Financial Statements June 30, 2022

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan's fully benefit-responsive investments include a guaranteed investment contract and a fixed annuity contract.

The Plan was established in 1967 and was historically viewed as an amalgamation of individual annuity and custodial accounts, and the Plan administrator and its service providers did not maintain financial information at a Plan level. Because historical records were not maintained or were not available at the Plan level, the Plan may have excluded from the accompanying statements of net assets available for benefits certain annuity and custodial accounts, and related activity, issued to current and former employees prior to July 1, 2009. In recognition of these recordkeeping matters, the Department of Labor ("DOL") released Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans* ("FAB 2009-02"), as transitional relief to address situations where a Plan's management is not able to obtain historical records. If FAB 2009-02 is implemented, the DOL has indicated that they will not reject the Form 5500 where contracts are excluded, as long as certain conditions were met. Further, FAB 2009-02 suggests that plan administrators make good faith efforts to include known contracts. While the Plan administrator has, in good faith, included all known contracts, because of certain incomplete records, there is uncertainty that all contracts have been included. However, the Plan administrator believes that excluded annuity or custodial accounts, if any, would meet the conditions of FAB 2009-02. As discussed in Note 3, the Plan has received certified statements of completeness and accuracy from the Plan's service providers as of and for the years ended June 30, 2022 and 2021.

As part of historical records not being maintained since the Plan was established in 1967, participants may have individual balances with legacy custodians which are not reflected in the net assets as of July 1, 2009.

Investment valuation and income recognition

Investments are reported at fair value except for fully benefit-responsive investment contracts, which are reported at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Advisory Committee determines the Plan's valuation policies utilizing information provided by the custodians and insurance entities. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

University of New Haven Retirement and 403(b) Savings Plan

Notes to Financial Statements June 30, 2022

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of June 30, 2022 and 2021.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Fees related to the administration of notes receivable from participants and other participant initiated transactional expenses are charged directly to the participant's account and are included in administrative expenses. Indirect investment related expenses are included in the net depreciation in fair value of investments.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events

The Plan has evaluated subsequent events through March 29, 2023, the date the financial statements were available to be issued.

Note 3 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at June 30, 2022 and 2021, and investment income (loss) and interest income on notes receivable from participants for the year ended June 30, 2022, that are disclosed in the accompanying financial statements and supplemental schedule, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Fidelity, a custodian of the Plan, Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF"), the insurance entities holding certain investments of the Plan and also the record-keeper as agent for TIAA, FSB, the custodian of the other investments of the Plan.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820, *Fair Value Measurement*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;

University of New Haven Retirement and 403(b) Savings Plan

Notes to Financial Statements June 30, 2022

- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2022 and 2021.

Mutual funds and money market fund: Valued at the daily closing price as reported by the funds. The mutual funds and money market fund held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds and money market fund held by the Plan are deemed to be actively traded.

Variable annuity contracts: Valued at the unit value as reported by the account. The unit values are listed on the National Association of Securities Dealers Automated Quotations ("NASDAQ") website and updated overnight for each day that the NASDAQ is open. The accounts held by the Plan are deemed to be actively traded.

Nonfully benefit-responsive fixed annuity contracts: Valued based on the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. These annuity contracts are not available for sale or transfer on any securities exchange. Withdrawals under the retirement annuity contracts may be made in the form of a life annuity or in 10 annual installments. The fully benefit-responsive fixed annuity contracts are valued as described in Note 5.

Pooled separate account: Valued at the unit value reported by the account. The unit value is listed on NASDAQ's website and updated overnight for each day that NASDAQ is open. The account held by the Plan is deemed to be actively traded.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Instrument	Fair value as of June 30, 2022	Valuation technique	Significant unobservable inputs	Range of significant input values
TIAA Traditional Annuity Account - Nonfully benefit-responsive	<u>\$ 28,104,411</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.00% - 3.80%
Instrument	Fair value as of June 30, 2021	Valuation technique	Significant unobservable inputs	Range of significant input values
TIAA Traditional Annuity Account - Nonfully benefit-responsive	<u>\$ 28,899,106</u>	Discounted cash flow Theoretical transfer (exit value)	Risk-adjusted discount rate applied	RA - 3.00% - 4.45%

RA = Retirement Annuity

Note 5 - Investment contracts with insurance companies

TIAA

The Plan has entered into a fully benefit-responsive fixed annuity contract with TIAA, an insurance company, referred to as the TIAA Traditional Annuity. Participants who choose to invest in this option make contributions that purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis.

As described in Note 2, because certain fixed annuity contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fully benefit-responsive fixed annuity contract. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer and ranges between 1% and 3% and has the potential for additional interest if declared by TIAA.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

University of New Haven Retirement and 403(b) Savings Plan

Notes to Financial Statements June 30, 2022

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer, and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation or (4) a material amendment to the agreement without the consent of the issuer.

The fixed annuity contracts do not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Principal Life Insurance Company

The Plan has also entered into a fully benefit-responsive guaranteed investment contract with Principal Life Insurance Company ("PLIC"). PLIC maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by PLIC, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer. The minimum interest rate under the contract is currently set at 1%. Interest rates are reviewed on an annual basis for resetting.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Notes to Financial Statements

June 30, 2022

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer, and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation or (4) a material amendment to the agreement without the consent of the issuer.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note 6 - Plan termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Plan loans

In addition to the notes receivable from participants described in Note 1, participants may also borrow from TIAA using the assets in the participant's salary deferral or rollover portion of their accounts as collateral. Under this arrangement, TIAA has the right to collect the collateral in the event of a default. Principal and interest payments are made directly by participants to TIAA. At June 30, 2022 and 2021, Plan loans totaling \$16,263 and \$22,990, respectively, were outstanding under this arrangement, of which \$9,155 and \$8,802, respectively, have been defaulted.

Note 8 - Tax status

The Plan has been designed using a 403(b) volume submitter plan document designed by Fidelity Workplace Services LLC. Fidelity Workplace Services LLC received an advisory letter dated August 7, 2017, in which the IRS stated that the 403(b) volume submitter plan document satisfies the applicable requirements of the Code. Although the Plan itself has not received an IRS determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, the Plan is considered to be qualified and tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Related party and party-in-interest transactions

Certain Plan investments are proprietary investments managed by Fidelity, TIAA and CREF. Fidelity is the custodian of the Plan and TIAA and CREF are the insurance entities who also hold assets of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Indirect fees incurred by the Plan for investment management services are included in the net depreciation in fair value of investments. Direct fees of \$35,976 for the year ended June 30, 2022 were charged directly to participants' accounts held with Fidelity for certain participant-initiated transactions. The Plan also allows participants to take loans against their account balances, which are also considered party-in-interest transactions. The University pays directly any other fees related to the Plan's operations.

At June 30, 2022 and 2021, the Plan's revenue sharing account totaled \$97,006 and \$47,045, respectively. This account is used to pay Plan expenses and any excess amounts may be re-allocated to participants' accounts. The Plan received revenue sharing credits from Fidelity in the amount of \$78,000 for the year ended June 30, 2022, which is shown as other income in the accompanying statement of changes in net assets available for benefits. For the year ended June 30, 2022, the Plan utilized \$28,125 from the revenue sharing account to pay Plan expenses.

Note 10 - Risks and uncertainties

The Plan holds various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.
