**BOBBY DODD INSTITUTE, INC. 403 (b) PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021 AND 2020**

NOTE 1 DESCRIPTION OF PLAN

The following description of the BOBBY DODD INSTITUTE, INC. 403 (b) PLAN (the “Company”) (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan covering all full-time employees of the Company. Employees can begin their elective deferral upon their first day of employment, while elective discretionary contributions begin after the employees have completed one year of service and have reached the age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – The Plan’s employer contributions are discretionary. Each year, participants may contribute a portion of their pretax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollovers). An aggregate of \$52,276 was rolled into the Plan during the year ended June 30, 2021, and is included in the statement of changes in net assets available for benefits.

Participant Accounts – Each participant's account is credited with the participant’s and Company’s contribution and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided in the Plan agreement from the participant's vested account. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions as defined.

Vesting – Participants are immediately vested in employer contributions as well as their contributions plus actual earnings thereon.

Investment Options – Upon enrollment in the Plan, a participant may direct contributions in various Matrix Trust Company and Newport Trust Company investment options.

Participants may change their investment options as they deem necessary.

Payment of Benefits – Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amounts equal to the value of the participant's vested interest in his or her account, or installments.

Plan Fees – Substantially all expenses incurred in the administration of the Plan have been paid by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation of fair value of investments.

**BOBBY DODD INSTITUTE, INC. 403(b) PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021 AND 2020**

NOTE 1 DESCRIPTION OF PLAN (CONTINUED)

Risks and Uncertainties – The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate risk, market risk and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and such changes could materially affect participants' account balances and the amounts reported in the accompanying statements of net assets available for benefits.

As a result of the COVID-19 outbreak, there have been mandates issued by various government authorities that have resulted in an overall decline in economic activity. The ultimate impact of COVID-19 on the financial performance of the Plan's investments is undeterminable in the near future.

CARES Act – The Plan has adopted the provisions of the CARES Act as signed into law on March 27, 2020. The Plan document will be formally amended to include the legislative changes as of December 31, 2022.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting – The financial statements of the Plan are prepared using the accrual method basis of accounting.

Estimates – The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires the plan management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition – The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits – Benefits are recorded when paid.

NOTE 3 PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

**BOBBY DODD INSTITUTE, INC. 403 (b) PLAN
NOTES TO FINANCIAL STATEMENTS
JUNE 30, 2021 AND 2020**

NOTE 4 RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The net assets available for benefits per the financial statements agree with the net assets available for benefits per the Form 5500.

There are no reconciling differences between benefits paid to participants between the financial statements and the Form 5500. Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved prior to June 30, 2021 and 2020 but not yet paid as of that date.

Liabilities allocated to withdrawing participants are recorded on the Form 5500 and statements of net assets available for benefits for benefit claims processed and approved for payment prior to year end, but not yet paid as of that date.

NOTE 5 TAX STATUS

The Plan has been designed to qualify under Section 403(b) of the Internal Revenue Code (Code). The terms of the Plan have been prepared to conform with the sample language provided by the Internal Revenue Service ("IRS") in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the Code to maintain the tax-exempt status for plan participants under Section 403(b).

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable taxing authorities. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 RELATED PARTY TRANSACTIONS AND PARTY IN INTEREST TRANSACTIONS

Matrix Trust Company and Newport Trust Company provide certain administrative services to the Plan pursuant to a Master Plan Service Agreement ("MSA") between the Company, Matrix Trust Company and Newport Trust Company. Matrix Trust Company and Newport Trust Company receive revenue from mutual fund service providers for services Matrix Trust Company and Newport Trust Company provide to the funds. This revenue is used to offset certain amounts owed to Matrix Trust Company and Newport Trust Company for their administrative services to the Plan.

If the revenue received by Matrix Trust Company and Newport Trust Company from such mutual fund service providers exceeds the amount owed under the MSA, Matrix Trust Company and Newport Trust Company remits the excess to the Plan's trust. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During June 30, 2021 and 2020, there were no excess amounts. The Plan or Plan Sponsor may make a payment to Matrix Trust Company and Newport Trust Company for administrative expenses not covered by revenue sharing.

Certain Plan investments are shares of mutual funds managed by Matrix Trust Company and Newport Trust Company. Matrix Trust Company and Newport Trust Company are also the investment trustees and recordkeepers of the Plan, and, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan totaled \$22,242 for the year ended June 30, 2021.

NOTE 9 FAIR VALUE MEASUREMENTS

The Plan establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Basis of Fair Value Measurement

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at June 30, 2021 and 2020.

NOTE 9 FAIR VALUE MEASUREMENTS (CONTINUED)

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed Investment Contract: Guaranteed investment contracts are valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, the Plan evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The following tables present by level, within the fair value hierarchy, the Plan investment assets at fair value, as of June 30, 2021 and 2020. As required, investment assets are classified in their entirety based upon the lowest level of input that is significant to the fair value measurement.
