Independent Auditors' Report

To the Participants and Plan Administrator of the
Goucher College Voluntary Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements

We have performed an audit of the financial statements of the Goucher College Voluntary Retirement Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended June 30, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion on the 2022 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section:

- the amounts and disclosures in the 2022 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the 2022 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2022 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2022 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings and certain internal control-related matters that we identified during the audit.

Other Matter — 2022 Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4(i) – schedule of Net Assets (Held at End of Year), as of June 30, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Other Matter - Auditors' Report on the 2021 Financial Statements

We were engaged to audit the 2021 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated April 12, 2022, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements, and (b) the form and content of the information included in the 2021 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Goucher College Voluntary Retirement Plan

Notes to Financial Statements

June 30, 2022 and 2021

1. Description of the Plan

The following brief description of the Goucher College Voluntary Retirement Plan (the Plan) is provided for general information purposes only. Participants who desire more complete information should refer to the plan document, which is available from Goucher College's (the Plan Sponsor or the College) Human Resources Department.

General

The Plan is a defined contribution plan sponsored and administered by the College and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA), and the requirements of Section 403(b) of the Internal Revenue Code (IRC). Participants fund the Plan by purchasing investments from TIAA and CREF, a registered insurance company. TIAA and CREF is an open-end diversified management investment company registered with the U.S. Securities and Exchange Commission. TIAA provides record-keeping services for the Plan.

Effective June 30, 2022, the Plan merged into the Goucher College Faculty/Exempt Staff Defined Contribution Plan; effective July 1, 2022, the Goucher College Faculty/Exempt Staff Defined Contribution Plan was restated and renamed the Goucher College Defined Contribution Retirement Plan. All existing TIAA and CREF contracts will remain separate within their record-keeping system but reporting of all contracts will be combined for annual reporting and disclosure requirements.

Eligibility

Union or nonexempt staff who completed one year of full-time service with the College, or any accredited college or university (service requirement) during the 12 months preceding employment at the College, may have participated in the matching contribution feature of the Plan. Union or nonexempt staff who had not met the employer match service requirement or who wished to contribute more than the matching contribution to the Plan were eligible to contribute a portion of their compensation to the Plan as a voluntary pretax deferral. There was no service requirement for participation in the Plan's voluntary pretax deferral feature. In addition to union and nonexempt staff, part-time faculty and part-time staff were also permitted to contribute to the voluntary pretax deferral feature.

Contributions and Vesting

Eligible nonexempt employees who met the service requirement could have elected to have 2%, 3% or 4% of their compensation contributed on a pretax basis to the Plan. Contributions made by nonexempt employees under this feature were matched by the College according to a formula that was determined and announced at least 30 days before the first day of the plan year. For the year ended June 30, 2022, the matching contribution was 100% of the employee contribution. The College suspended the match for the year ended June 30, 2021. Effective pay dates for the suspension and reinstatement of the match varied, beginning in July or August, based on the employee's pay cycle.

Eligible union employees who met the service requirement could have elected to have 2% or 3% of their compensation contributed on a pretax basis to the Plan. Contributions made by union employees were matched by the College according to the formula established in the collective bargaining agreement. For the years ended June 30, 2022 and 2021, the matching contribution was 200% of the union employee contribution.

Rollovers and transfers to the Plan were permitted to the extent permitted under the applicable custodial accounts and under the IRC.

Goucher College Voluntary Retirement Plan

Notes to Financial Statements

June 30, 2022 and 2021

College match contributions for both nonexempt and union employees were fully vested after three years of service. Eligible employees, including part-time faculty and part-time staff, electing to participate in the voluntary pretax deferral feature may have made contributions up to the maximum dollar amount determined by the Internal Revenue Service (IRS), but these contributions were not eligible for a match by the College. Contributions to the voluntary pretax deferral feature of the Plan were fully vested and could be forfeited.

Participant Accounts

Each participant's account was credited with the participant and College contributions and its account earnings (losses) and an allocation of plan expenses, if any. Allocations were based on earnings or account balances, as defined. The benefit to which a participant was entitled was the vested portion of the participant's account. Participants were immediately vested in their contributions and actual earnings thereon. Participants could have directed their contributions into a variety of investment options.

Benefit Payments

Participants or their beneficiaries were eligible for distributions upon retirement, termination, disability or death. Participants may have also made withdrawals from their accounts because of or due to financial hardship under guidelines set forth in the plan document. In addition, participants may have withdrawn 100% of their elective deferral account at age 59½.

Plan Loans and Related-Party Transactions

Effective July 1, 2021, TIAA and CREF no longer offered plan loans to participants; no changes were made to the structure of the existing plan loans outstanding at June 30, 2022 or 2021. Prior to July 1, 2021, loans were made directly from funds owned by TIAA and CREF and not directly from a participant's account; therefore, the plan loans are not shown on the Statements of Net Assets Available for Benefits. A portion of the participant's account was reserved, or held as collateral, to cover the outstanding loan in case of default. For all such plan loans, interest and principal were paid by the participant directly to TIAA and CREF. The interest rate on the plan loans was determined by TIAA and CREF and may have been fixed or variable; the initial rate was determined by the terms of the controlling contract, as was the rate adjustment details and frequency. The interest rates on outstanding loans ranged from 4.00% to 4.35% as of June 30, 2022 and 2021, and the loans matured at various dates through March 1, 2028. Plan loans with TIAA and CREF amounted to \$24,116 and \$35,073 as of June 30, 2022 and 2021, respectively.

Forfeitures

Employee elective deferrals were completely vested and not subject to forfeiture. College contributions to a participant's account were not vested until after the third year of service. If a participant's employment was terminated prior to the end of the third year of service, the nonvested College contributions may have been used to pay the Plan's administrative expenses or used to reduce future College contributions to the Plan. At June 30, 2022 and 2021, forfeited non-vested accounts totaled \$2,807 and \$2,568, respectively. No forfeitures were used to reduce expenses or College contributions in 2022 and 2021.

Administrative Expenses

Reasonable plan administration expenses, including those involved in retaining necessary professional assistance, could have been paid from the assets of the Plan, to the extent permitted by the participant's individual agreements. The College could have, at its discretion, paid a portion or all of these expenses or seek reimbursement from the Plan. Expenses paid by the College are excluded from these financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis.

Investment Valuation and Income Recognition

The Plan's investments, other than fully benefit-responsive investment contracts, are stated at fair value. The registered investment companies are valued using published market prices. The separate accounts are variable accounts, whose returns are not guaranteed and its accumulations and returns fluctuate based on the performance of the underlying investments. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation includes the gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Effective July 1, 2021, participants may have borrowed from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans were secured by the balance in the participant's account and bore interest at rates that ranged from 4.25% to 4.50% as of June 30, 2022, which were commensurate with the Federal Reserve Board Bank rate plus 1% at inception of the loan. Principal and interest was paid ratably through payroll deductions. Terms ranged from one to five years or greater for the purchase of a primary residence; the loans matured at various dates through October 15, 2026. There were no notes receivable as of June 30, 2021.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of June 30, 2022.

Payments of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

3. Information Certified by Custodian

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA for 2022 and 2021. Accordingly, TIAA and CREF, the custodian of the Plan, has certified as being complete and accurate the investments in the Statements of Net Assets Available for Benefits as of June 30, 2022 and 2021, the investment activity reflected in the Statements of Changes in Net Assets Available for Benefits for the years ended June 30, 2022 and 2021, and the investment information included in the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of June 30, 2022.

Goucher College Voluntary Retirement Plan

Notes to Financial Statements

June 30, 2022 and 2021

Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified as complete and accurate for the respective periods.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for investments measured at fair value. There were no changes in methodologies used as of June 30, 2022 and 2021.

Registered Investment Companies: The fair values of accumulation units by the Plan in TIAA Accounts and other mutual fund accounts (registered investment companies) are based on each account's daily net asset value (NAV). TIAA Accounts are not exchange traded, but are classified within Level 1 of the fair value hierarchy because they are redeemable daily at the NAV quoted by TIAA and CREF. Data for NAVs are available daily to plan administrators and client investors on TIAA and CREF's website and provides sufficient corroborative evidence to ascertain the relationship between each fund's NAV and the values of the individual underlying holdings. Underlying holdings are primarily valued using market quotations or prices obtained from independent pricing sources. Other mutual funds are exchange traded and are classified within Level 1 of the fair value hierarchy. The mutual funds held by the Plan are open-ended and are registered with the U.S. Securities and Exchange Commission. In addition, there are no restrictions on redemptions and no notice period for redemptions.

Goucher College Voluntary Retirement Plan

Notes to Financial Statements

June 30, 2022 and 2021

Separate Accounts are valued at the NAV of shares held by the Plan at year-end as determined by the issuer. Participants can redeem on a quarterly basis with redemption notice. The unit value of the account is calculated daily and available to plan administrators and client investors on NASDAQ's website and is classified within Level 1 of the fair value hierarchy. Transfers out of the fund are limited to one per calendar quarter. There are no unfunded commitments from participants in the Plan who invest in this account.

TIAA Real Estate Account (REA) is a separate account of TIAA investing mainly in real estate and real-estate-related investments. The REA's value is principally derived from the market value of the underlying real estate holdings or other real-estate-related investments. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a valuation specialist's opinion. The REA sometimes holds securities as well. These are generally priced using values obtained from independent pricing sources. The REA is valued using NAV. The NAV as provided by the custodian is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Transfers out of the REA are limited to one per calendar quarter. The fund objective is for long-term returns through rental income and appreciation of real estate investments owned in the fund.

TIAA Traditional Annuity Accounts - nonbenefit-responsive are reported at contract value, which approximates fair value. As these investments are contract-based, observable prices for identical or similar investments do not exist, and accordingly, these investments are valued using unobservable inputs (Level 3). The contract value equals the accumulated cash contributions and interest credited to the contracts, less any withdrawals, and transfers, if any. Group Retirement Annuity (GRA) and Retirement Annuity (RA) contracts are nonbenefit-responsive. Redemption restrictions apply to GRA and RA contracts that could impact the value realized upon exiting the contract. Specifically, lump-sum withdrawals are available from a GRA contract only within 120 days after termination of employment and are subject to a 2.5% surrender charge. Lump-sum withdrawals are not available from an RA contract. All other withdrawals and transfers must be spread out in ten annual installments.

The following tables presents the Plan's fair value hierarchy for those investments measured at fair value as of June 30, 2022 and 2021:

	Assets at Fair Value as of June 30, 2022			
	Level 1	Level 2	Level 3	Total

Investments at fair value				<u>\$ 10,656,800</u>

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the years ended June 30, 2022 and 2021:

	2022	2021
Purchases	\$ 9,542	\$ 7,847
Issuances	-	-

Investments Measured Using NAV per Share Practical Expedient

The following table summarizes investments for which fair value is measured using NAV per share practical expedient as of June 30, 2022 and 2021. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

June 30, 2022				
	Fair Value	Unfunded Commitments	Redemption Frequency (if Currently Eligible)	Redemption Notice Period
TIAA real estate account	\$ 631,780	N/A	Daily	Limited to once per quarter

5. Fully Benefit-Responsive Investment Contract

The Plan holds a traditional investment contract. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contracts, plus earnings, less participant withdrawals and administrative expenses.

	2022	2021
Traditional investment contract	\$ 1,446,867	\$ 1,291,090

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at the specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Goucher College Voluntary Retirement Plan

Notes to Financial Statements

June 30, 2022 and 2021

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC.
2. Premature termination of the contracts.
3. Plan termination or merger.
4. Changes to the Plan's prohibition on competing investment options.
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines.
2. A breach of material obligation under the contract.
3. A material misrepresentation.
4. A material amendment to the agreements without the consent of the issuer.

6. Annuity Contracts With TIAA and CREF

The Plan has entered into nonbenefit-responsive guaranteed investment contracts with TIAA and CREF under which the plan deposits contributions into a guaranteed annuity fund. The contracts are backed by the claims-paying ability of TIAA and CREF. They guarantee principal contributions and a contractually specified minimum range of interest rates of 3 to 4% and offer the opportunity for additional amounts in excess of the guaranteed rate. These additional amounts are declared on a year-by-year basis by the TIAA and CREF Board of Trustees.

7. Related-Party and Party In Interest Transactions

Certain of the Plan's investments are managed by the custodian, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net (depreciation) appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. These transactions qualify as party in interest transactions. Certain administrative functions of the Plan are performed by officers or employees of the College. No such officer or employee receives compensation from the Plan.

Goucher College Voluntary Retirement Plan

Notes to Financial Statements

June 30, 2022 and 2021

8. Tax Status

The Plan has been designed to qualify under Section 403(b) of the IRC. The plan administrator believes the Plan is operating in accordance with the applicable requirements of Section 403(b) of the IRC and therefore believes the Plan is qualified and the related custodial accounts are tax-exempt.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

As of June 30, 2022 and 2021, the Plan had investments of \$4,298,700 and \$5,037,140, respectively, that were concentrated in three funds.

10. Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event the Plan is terminated, participants will become 100% vested in their College contributions. As described in Note 1, the Plan merged into the Goucher College Faculty/Exempt Staff Defined Contribution Plan effectively June 30, 2022.

11. Subsequent Events

The plan administrator evaluated subsequent events for recognition or disclosure through April 17, 2023, the date at which the financial statements were available to be issued, and determined that there were no adjustments or disclosures required to the financial statements. See Note 1 for plan merger discussion.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits on the financial statements to the Form 5500 at June 30, 2022:

	<u>2022</u>
