INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and
Battelle Pension Management and Investment Council
Columbus, Ohio

Opinion

We have audited the financial statements of Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statement of net assets available for benefits as of June 30, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of June 30, 2022, and the changes in net assets available for benefits for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Other Matter

The financial statements of the Plan as of and for the year ended June 30, 2021 were audited by another auditor who expressed an unmodified opinion on those statements on May 25, 2022.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter - Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment Purposes at End of Year as of June 30, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. ORGANIZATION

The accompanying financial statements present the net assets of the Pension Plan of the Pacific Northwest Laboratories, Battelle Memorial Institute (“Plan”) and changes therein. The net assets of the Plan are commingled with the assets of the Employees’ Pension Plan of Battelle Memorial Institute and the assets of The 2017 Employees’ Pension Plan of Battelle Memorial Institute within the Battelle Pension Trust (“Master Trust”).

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General. The Plan is a defined benefit pension plan covering all U.S.-based salaried employees and eligible hourly employees of the Pacific Northwest Laboratories, Battelle Memorial Institute (“Battelle” or “Plan Sponsor”) and those group members, as defined by the Plan, who have adopted the Plan, except employees who are covered by collective bargaining agreements or by another pension plan funded by the employer. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”).

Pension Benefits. Participants with five or more years of vested service, as defined by the Plan, are entitled to annual pension benefits beginning at the normal retirement age of 65 based upon certain formulas using years of credited service up to a maximum of 40 years and the highest 60 months of compensation. The Plan permits early retirement at ages 55 to 64. Participants may elect to receive their vested benefit as a joint and survivor annuity payable monthly from the date of retirement. Participants may also elect to receive their vested benefit as a lump sum under certain conditions. The normal form of benefit is a single-life annuity payable monthly. If participants terminate before rendering five years of vesting service, they forfeit the right to receive their accumulated plan benefits. A participant is fully vested upon attainment of age 65 while in active service.

Death and Disability Benefits. If a vested participant dies before benefit payments begin, a death benefit equal to the participant’s accumulated benefits is paid to the participant’s spousal beneficiary based on certain payment options as defined by the Plan. Alternatively, the Plan provides spousal and nonspousal beneficiaries the option to elect a death benefit of 120 monthly payments commencing immediately, where each monthly payment is equal to the actuarial equivalent of the monthly payment the participant would have received at normal retirement age, or the lump-sum present value of such 120 monthly payments.

Active participants who become totally disabled, as defined by the Plan, are immediately fully vested in their pension benefit under the Plan and may elect to begin receiving an annual disability retirement benefit. Alternatively, active salaried participants who become totally disabled, as defined by the Plan, may elect to continue to accrue benefits with their salary rate remaining the same as at the time they became disabled until retirement, at which time disabled participants commence receipt of their pension benefits, which cannot occur while the participant is receiving benefits from a disability program sponsored by Battelle.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting. The financial statements of the Plan have been prepared under the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with accounting principles generally accepted in the United States (“U.S. GAAP”) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities; disclosure of contingent assets, liabilities, and pension obligations at the date of the financial statements; and the reported amounts of changes in net assets and pension obligations during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties. The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, liquidity, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, salary increases, and employee demographics, all of which are subject to change.

Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near-term would be material to the financial statements.

Investment Valuation and Income Recognition. Investments are stated at fair value. Fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

The valuation of investments is prepared by Northern Trust (“Trustee”). The Trustee utilizes its external pricing service to estimate the fair value of certain investments held in the Plan. The Trustee uses multiple pricing vendors for the assets held in the Master Trust. In some cases, such as private equity funds, the valuation is provided to the Trustee by the applicable fund manager of the investment. The Plan’s investment managers review and validate the prices utilized by the Trustee to determine fair value. The Plan Sponsor receives audit reports of the Trustee’s operating controls and valuation processes. Management has established processes and procedures for establishment and valuation of alternative investments.

BATTELLE MEMORIAL INSTITUTE

AS OF AND FOR THE YEARS ENDED JUNE 30, 2022 AND 2021

(Dollars in Thousands)

Payment of Benefits. Benefit payments to participants or beneficiaries are recorded upon distribution.

Administrative Expenses. Investment management and custodial fees; accounting fees; audit fees; and certain administrative, consulting, and legal fees are paid by the Plan and are expensed as incurred. Certain other administrative expenses not paid by the Plan are paid by the employer.

Subsequent Events. Plan management has performed an evaluation of subsequent events through April 18, 2023, which is the date the financial statements were available for issuance. There were no subsequent events noted.

3. THE MASTER TRUST

At June 30, 2022 and 2021, the Plan had an approximate 68.4% and 66.8% interest, respectively, in the net assets available for benefits of the Master Trust. Net assets, interest, dividends, realized gains (losses), unrealized gains (losses), and certain administrative expenses relating to the Master Trust are allocated to the individual plans via unitized accounting with the Trustee. This unitization is based on the weighted market value of the Plan's ownership in the Master Trust assets at the close of the previous month.

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets
- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the Master Trust. Consideration was given to how third-party pricing was performed.

**PENSION PLAN OF THE PACIFIC NORTHWEST LABORATORIES,
BATTELLE MEMORIAL INSTITUTE
NOTES TO FINANCIAL STATEMENTS**

AS OF AND FOR THE YEARS ENDED JUNE 30, 2022 AND 2021

(Dollars in Thousands)

The following is a description of the valuation methodologies used by the Plan to calculate the fair value of Master Trust investments. There have been no changes in the methodologies used at June 30, 2022 and 2021:

Cash includes trust deposit accounts as well as local and foreign currencies for which fair value measurements are all based on quoted prices for similar assets or liabilities. Cash equivalents include derivative (futures) contracts recorded at fair value as well as a short-term investment fund, which is valued at net asset value per share as determined by the issuer.

Common stocks and the mutual fund are valued at the closing price reported in the active market in which the individual security is traded.

U.S. Government and U.S. Government Agency (“Government”) bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the government security is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments.

Private real estate investments are valued at estimated fair value based on net asset value as reported by the fund managers. These funds seek growth and income through investment in commercial, residential, and industrial real estate. Funds are subject to various redemption restrictions and advance notice requirements. In addition, circumstances may exist in which the otherwise redeemable investment may be subject to limitations, including availability of cash arising from net investment income and the sale of investments in the ordinary course of business. Certain private real estate investments are stated at fair value using net asset value (“NAV”) as a practical expedient.

Certain commingled funds include a collective trust investment which is valued at estimated fair value based on net asset value as reported by the fund manager. The collective trust investment invests primarily in readily marketable international securities with the objective of long-term growth. The commingled funds are stated at fair value which is measured using NAV as a practical expedient.

Certain private equity funds are measured at fair value using NAV as a practical expedient, as reported by the fund manager. The NAV is based on the cumulative capital account balances reported by the general partners. In some cases, this might be based on limited partnerships’ audited financial statements.

The allocation of the gains, losses, and expenses to the partners are based on the ownership percentage as described in the partnership agreements. These funds seek growth and income through investments in various private market investments including, but not limited to, buyout, mezzanine debt, and venture capital. For private equity funds in the hierarchy as of June 30, 2022 and 2021, other than those disclosed in the NAV table below, substantially all redemptions are permanently restricted until the termination of the partnership or by written consent of the general partner.

(Dollars in Thousands)

The estimated time period for liquidation of these private equity funds varies from 1 to 12 years, but is subject to variability.

For private equity funds in the NAV table below which have no specific information detailed for Redemption Frequency or Redemption Notice Period, these funds generally have a stated life in the investment agreement, providing no short-term redemption liquidity. Distributions are received through the liquidation of the underlying assets of the funds. The intention is to hold these investments through liquidation. These portfolios will be fully liquidated prior to the termination of the stated life.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of June 30, 2022 and 2021 (in thousands). Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

For the year ended June 30, 2022, the Plan had purchases of \$167,835 and sales of \$16,002 of assets using significant unobservable inputs (Level 3). Based on updated information received from the funds, there were \$2,631 of assets transferred out of Level 3 and into investments measured at net asset value.

5. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service participants have rendered as of the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by an independent actuary, and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

AS OF AND FOR THE YEARS ENDED JUNE 30, 2022 AND 2021

(Dollars in Thousands)

The significant actuarial assumptions used in the valuations as of June 30, 2022 and 2021, were as follows:

- Mortality: Disabled Mortality: Pri-2012 generational combined annuitant and non-annuitant disabled mortality tables projected using Scale MP-2021 (2022) and Pri-2012 generational combined annuitant and non-annuitant disabled mortality tables projected using Scale MP-2020 (2021). Healthy Mortality: Pri-2012 generational white collar separate annuitant and non-annuitant healthy mortality tables projected using Scale MP-2021 (2022) and Pri-2012 generational white collar separate annuitant and non-annuitant healthy mortality tables projected using Scale MP-2020 (2021).
- Assumed retirement rates are stratified by various age (and/or service) ranges, with 100% assumed to be retired by age 70.
- Assumed turnover rates are based on plan experience, by various age categories.
- Interest rate of 6.00% for 2022 and 5.75% for 2021.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

For the 2022 plan year, the change in actuarial assumptions pertains primarily to the following: a) an increase in the interest rate as indicated above which increases the assumed future rate of return on assets, b) a change in the implied forward rates used to calculate 417(e) lump sum factors which were updated based on 2022 PPA interest rates, c) a change in the mortality projection scale used in 2022 increased the actuarial loss, and d) a update to the mortality improvement scale used to calculate 417(e) lump sum factors.

For the 2021 plan year, the change in actuarial assumptions pertains primarily to the following: a) an increase in the interest rate as indicated above which increases the assumed future rate of return on assets, b) a change in the implied forward rates used to calculate 417(e) lump sum factors which were updated based on 2021 PPA interest rates, c) a change in both the base mortality table and the mortality projection scale used in 2021 increased the actuarial gain, and d) a update to the mortality improvement scale used to calculate 417(e) lump sum factors.

For both the 2022 and 2021 plan years, the increase in obligations due to net actuarial loss is the result of census changes from the previous year.

6. FUNDING POLICY

The employer makes contributions to the Plan, which are expected to be sufficient to provide the defined benefits of the Plan. Such contributions, as determined by actuaries, include provisions for normal costs as they accrue and unfunded prior service cost over a maximum of 30 years. Minimum funding requirements as set forth in ERISA have been met for the years ended June 30, 2022 and 2021.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, Battelle has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions set forth in ERISA. Should the Plan be terminated at some future time, all participants become fully vested in benefits earned as of the termination date.

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits of any participant who retired three years or more prior to the date of termination or who could have retired as of such date (in the normal form of annuity) without in either case giving effect to any increase in benefits, which has been put into effect by a Plan amendment within five years prior to such date.
- b. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations discussed below.
- c. All other vested benefits that are not insured by the PBGC.
- d. All nonvested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

8. EXEMPT PARTY-IN-INTEREST TRANSACTIONS

In 2022 and 2021, the shares of the short-term investment fund (a collective trust) held by the Master Trust were managed by The Northern Trust Company (“Northern Trust”). Northern Trust was the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest. In addition, certain Plan investments were held in companies that also serve as portfolio managers, and these transactions also qualify as party-in-interest. The Plan also paid certain administrative fees to the Trustee, actuary, third-party administrator, auditor, and others which qualify as party-in-interest transactions.

9. FEDERAL INCOME TAX STATUS

The Internal Revenue Service (“IRS”) has determined and informed Battelle by a letter dated July 3, 2019, that the Plan, as amended, and related Master Trust are designed in accordance with applicable sections of the Internal Revenue Code (“IRC”). The Plan has been amended since receiving the determination letter; however, Plan management believes that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. Therefore, no provision for income taxes has been included in the Plan’s financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of June 30, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

During the period ended June 30, 2021, there was a net realized gain of \$7,500 and a last day's mark of \$103.

At the time the Plan enters into a futures contract, it is generally required to make a margin deposit with the custodian of a specified amount of liquid assets. Subsequent payments are made or received by the investment fund equal to the daily change in the contract value and are recorded as variation margin receivable or payable and offset in unrealized gains or losses. Futures are marked to market each day, with the change in value reflected in the unrealized gains and losses.

The use of futures contracts involves, to varying degrees, elements of market and counterparty risk, which may exceed the amounts recognized in the Statements of Net Assets Available for Benefits. Futures contracts present the following risks: imperfect correlation between the change in market value of a fund's securities and the price of futures contracts; the possible inability to close a futures contract when desired; losses due to unanticipated market movements, which potentially are unlimited; and the possible inability of the Plan to correctly predict the direction of securities prices, interest rates, currency exchange rates, and other economic factors. Futures markets are highly volatile, and the use of futures may increase the volatility of an investment's value. As a result of low margin deposits normally required in futures trading, a relatively small price movement in a futures contract may result in substantial losses to the Plan. Futures contracts may be illiquid, and exchanges may limit fluctuations in futures contract prices during a single day. All of the future contracts are traded on a U.S. exchange.

Significant events that occurred during the year	None

Definitions

• Covered employees	Any Employee who is employed by a Participating Employer and who is not classified as one or more of the following: (1) a member of the Board of Directors unless member is also an Employee; (2) an employee who is covered by a collective bargaining agreement unless such agreement provides for participation in the Plan; (3) an individual employed outside the United States by a foreign-based subsidiary or division of Employer; (4) an employee who is covered by any other qualified defined benefit pension plan funded by Employer; (5) an employee of any Battelle Affiliate that has not adopted this Plan for its employees; (6) a Leased Employee; (7) an independent contractor; (8) effective on and after February 13, 2003, an individual employed as a telephone interviewer; (9) interns and co-op students; and (10) Limited Term Employees.
• Participation	Participation commences on the date of employment for employees other than hourly employees. Hourly employees participate after completing 1,000 hours of service.
• Employee contributions	None.
• Credited service for vesting	A participant receives one year of Credited Service for Vesting for every plan year he is credited with at least 1,000 hours of service or a fraction of a year if credited with at least 500 hours of service.
• Credited service for benefit accrual	A participant receives one year of Credited Service for Benefit Accrual for every plan year he is credited with at least 2,080 hours, or a fraction of a year if credited with less than 2,080 hours. Note that hourly employees must complete a minimum of 1,000 hours of service to receive any credit.
• Monthly compensation	Monthly equivalent of compensation as if the employee worked full-time. Effective July 1, 2001, incentive compensation and overtime are counted as plan compensation. However, compensation is limited by IRC 401(a)(17) annually (indexed for future years).
• Final average earnings	The average of the highest 60 consecutive months of compensation.
• Accrued benefit	The normal retirement benefit based on Credited Service for Benefit Accrual and Final Average Compensation on the date of determination.

Schedule SB, Part V — Summary of Plan Provisions**Normal retirement**

• Eligibility	Attainment of age 65
• Benefit	<p>The larger of i. and ii.</p> <p>i. 1.2% of Final Average Compensation times Credited Service for Benefit Accrual (maximum of 40 years)</p> <p>ii. The sum of a. plus b.</p> <p>a. Credited Service for Benefit Accrual for (a) and (b) cannot exceed 40 years.

*For any Member who has attained age 50 and completed at least 15 years of Credited Service for Vesting as of June 30, 2012, benefits under (b.1.) and (b.2.) use Final Average Compensation as of their date of termination. For any other Member not meeting these criteria, benefits under (b.1.) and (b.2.) use Final Average Compensation on June 30, 2012

Benefits attributable to service prior to July 1, 2009 under (b) are increased by 9.76% to account for the change in normal form of payment from 10 years Certain and Life to Single Life Annuity.

Early retirement

• Eligibility	The later of attainment of age 55 and the completion of 10 years of Credited Service for Vesting.
• Benefit attributable to credited service for benefit accrual earned prior to July 1, 2009	The accrued benefit is reduced 1/2% for each month the early retirement date precedes age 60.
• Benefit attributable to credited service for benefit accrual earned after July 1, 2009	Normal retirement benefit, actuarially reduced based on the RP 2000 white collar mortality table, projected to 2025 using scale AA, and blended 60% male and 40% female and 7% interest compounded annually.

Late retirement

• Eligibility	Actual retirement after age 65.
• Benefit	The benefit reflects Credited Service for Benefit Accrual and Monthly Compensation earned after age 65.

Deferred vested

• Eligibility	100% after 5 years of Credited Service for Vesting; no vesting prior to completion of 5 years of Credited Services for Vesting. Participant is 100% vested on normal retirement date.
---------------	---

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	Accrued Retirement Benefit payable at age 65 or payable at or after age 55 and reduced for each month benefit commencement date precedes age 65.
Disability	
• Eligibility	Only employees other than hourly employees are eligible for special disability benefits. Total and permanent disability is defined in the Plan.
• Benefit	A monthly benefit equal to the regular retirement benefit with Monthly Compensation and Credited Service for Benefit Accrual determined at retirement as if the participant were employed on the same basis as immediately before disablement. This benefit will be reduced for early retirement, if applicable.
Pre-retirement death	
• Eligibility	Eligible if employee has a vested benefit.
• Benefit	For death after vesting but prior to early retirement eligibility the benefit is equal to the vested Accrued Retirement Benefit payable at the earliest date the participant could have retired. The amount is reduced as for early retirement and is payable as a 100% joint and survivor annuity (benefits are payable for 120 months if there is no surviving spouse).
Form of benefits	
• Automatic form for unmarried participants	Single Life Annuity
• Automatic form for married participants	50% Joint & Survivor Annuity
• Optional forms	50%, 75%, or 100% joint and survivor annuity, life annuity with 5 or 10 years of payments certain to be made. Additional options include a guaranteed number of payments of any duration with or without a life annuity. Participants who terminate employment on or after July 1, 2015 with a present value of accrued benefits less than \$125,000 can elect to receive their benefit in the form of a lump sum.
• Optional form conversion factors	Optional forms of benefit, other than the lump sum, are determined using the RP 2000 white collar mortality table, projected to 2025 using Scale AA, and blended 60% male and 40% female and 7% interest compounded annually. Lump sums are determined using 417(e) interest and mortality.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2021, the limit is \$290,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2021, the limit is \$230,000.

Schedule SB, Part V — Summary of Plan Provisions**Summary of major plan provisions for HAMTC staff members**

The same terms in effect currently for PNNL Pension Plan employees shall be provided to the HAMTC staff members with the following exceptions guaranteed until June 30, 2026:

Definitions	
• Final average earnings	The average of the highest 60 consecutive months of compensation. For staff members with at least 10 years of pension vesting service as of July 1, 2016, the final average earnings calculation will apply to service worked in both Hanford and PNNL Pension Plans.
Normal retirement	
• Benefit	<p>Staff members with at least 10 years of Credited Service for Vesting on July 1, 2016:</p> <ul style="list-style-type: none"> 1.6% of Final Average Compensation multiplied by years of Credited Service for Benefit Accrual (maximum of 40 years) and on the basis of a 10 year certain annuity. <p>Staff members with less than 10 years of Credited Service for Vesting on July 1, 2016:</p> <ul style="list-style-type: none"> 1.2% of Final Average Compensation multiplied by years of Credited Service for Benefit Accrual (maximum of 40 years) and on the basis of a life annuity.
Early retirement	
• Eligibility	The later of attainment of age 55 and the completion of 3 years of Credited Service for Vesting unless eligible for immediate vesting ⁴ .
• Benefit attributable to credited service for benefit accrual earned prior to July 1, 2009	The accrued benefit is reduced 1/2% for each month the early retirement date precedes age 60.
• Benefit attributable to credited service for benefit accrual earned after July 1, 2009	Normal retirement benefit, actuarially reduced based on the RP 2000 white collar mortality table, projected to 2025 using scale AA, and blended 60% male and 40% female and 7% interest compounded annually.
Deferred vested	
• Eligibility	100% after 3 years of Credited Service for Vesting unless eligible for immediate vesting. Participant is 100% vested on normal retirement date.
Form of benefits	
• Optional forms	Annuity forms offered in the PNNL Plan and an unlimited lump sum payment. Staff members hired after September 1, 2015 can only elect a lump sum form of payment if the present value of accrued benefits is less than \$125,000.

⁴ Staff members already vested in the Hanford Pension Plan as of July 1, 2016 are immediately vested in the PNNL Pension Plan

Schedule SB, Part V — Summary of Plan Provisions**Benefits included or excluded**

Unless noted below, all benefits provided by the plan are included in this valuation.

- **Most recent plan amendments included:** Plan amendment adopted August 6, 2018 increased the pre-retirement death benefit to the beneficiary amount from a 100% joint and survivor annuity (updated from a 50% joint and survivor annuity).
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond the Minimum Required Distribution date. This valuation does not currently include increases for current participants over age 70 as it was determined the effect of doing so would be minimal. This will be reevaluated annually.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding**Additional benefits included or excluded**

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* The plan has no historical or assumed prohibited payments.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial assumptions**

Discount rate sponsor elections			
•	Segment rates or full yield curve	Segment	
•	Look-back months	4	
		Stabilized	Nonstabilized
•	First 5 years	4.75%	1.54%
•	Next 15 years	5.36%	2.89%
•	Over 20 years	6.11%	3.55%
		Rationale: The segment rates above are mandated by PPA based on the look-back month selected by the Plan Sponsor. Stabilized segment rates are in accordance with the changes made by MAP-21, HATFA, BBA 2015, ARPA and IJJA	
Mortality sponsor elections			
•	Healthy participants	Section 430(h)(3) prescribed separate generational annuitant and nonannuitant mortality tables. These tables are based on the RP-2014 mortality tables with improvements beyond 2006 removed with generational mortality improvements based on the IRS methodology and projection scale MP-2019.	
•	Pre-1995 disabilities	Revenue Ruling 96-7 table for participants who became disabled before 1995	
•	Post-1994 disabilities	Revenue Ruling 96-7 table for participants who became disabled after 1994 and are eligible for Social Security disability benefits	
		Rationale: The mortality tables above are mandated by PPA based on Plan Sponsor elections.	
417(e) lump sums		Lump Sums payable to all participants with a present value of accrued benefits less than \$125,000. Liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and unisex generational mortality	
		Rationale: Threshold lump sum amounts are estimated using ASC 960 lump sum assumptions described in the section below. Lump sum mortality is mandated by PPA. Valuing lump sums under the annuity substitution rules is required by PPA.	
Non-417(e) lump sums			
•	Mortality table	Not applicable	
•	Interest rate	Not applicable	
Other economic assumptions			
•	Salary increases	Salary rates begin with 7.20% at age 20 and reduce until age 70 where the rate is then held constant at 3.20%. See table of sample rates.	

¹ The PBGC Rates are based on the alternative method which was elected by the Plan Sponsor beginning June 1, 2020.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

	<u>Rationale:</u> This assumption is based on an experience study covering the period July 1, 2013 to June 30, 2018 and is adjusted to reflect Battelle Memorial Institute's future expected salary increases.
• Inflation	2.20% per year.
	<u>Rationale:</u> This assumption is based on a long-term average of the inflation assumption periodically published by Mercer Investment Consulting in their Capital Markets Outlook.
• Expected investment return	5.75% for 2021, 5.50% for 2020, 6.75% for 2019 and 7.25% per year for 2016 through 2018.
	<u>Rationale:</u> Mercer's best estimate return utilizes the weighted average approach rounded to the nearest 25 basis points, weighting 60% with forward looking asset return assumptions and 40% with the building block method recognizing current yields, which defines the return as the sum of three components: inflation, risk-free return, and risk premium, all offset by an expense load. Assumptions for these components are derived from a recent Mercer Investment Consulting Capital Market Outlook. Risk premiums are applied appropriately to reflect Battelle Memorial Institute's actual asset allocation.
• Expenses	For the 2021/2022 plan year, this amount is \$6,260,000 and has been added to 2021/2022 normal cost.
	<u>Rationale:</u> The prior plan year's administrative and investment expenses, excluding the prior year's PBGC premiums paid, adjusted for expected events (if any) and anticipated current year PBGC premiums, rounded up to the next \$5,000.

Demographic assumptions

• Withdrawal	Rates are based on age (see sample below).
	<u>Rationale:</u> This assumption is based on an experience study covering the period July 1, 2013 to June 30, 2018. See table of sample rates. The plan sponsor believes that this period is representative of anticipated future experience.
• Disability incidence	Rates are based on age (see sample below).
	<u>Rationale:</u> This assumption is based on an experience study covering the period July 1, 2009 to June 30, 2014. See table of sample rates. The plan sponsor believes that this period is representative of anticipated future experience.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

64	25.00%
65-66	36.00%
67-69	23.00%
70 and above	100.00%

Rationale: This assumption is based on an experience study covering the period July 1, 2013 to June 30, 2018. The plan sponsor believes that this period is representative of anticipated future experience.

• Benefit commencement age for

– Future vested deferred	62
– Current vested deferred	63 if terminated before July 1, 2009 62 if terminated on or after July 1, 2009

Rationale: This assumption is based on an experience study covering the period July 1, 2013 to June 30, 2018. The plan sponsor believes that this period is representative of anticipated future experience.

Spouse assumptions	Male participants	Female participants
– Percentage married	90%	75%
– Spouse age difference	2 years younger	1 year older

Rationale: This assumption is based on an experience study covering the period July 1, 2013 to June 30, 2018. The plan sponsor believes that this period is representative of anticipated future experience.

• Accrual of future credited service for benefit accrual (for Part-Time employees)	Hourly employees are assumed to accrue 0.25 of a year during each future plan year. Non-hourly employees are assumed to accrue 1 year times their percent full-time for each future year of employment.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial methods****Asset methods**

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- This plan provides disability/death benefits that are only partially based on a participant's accrued benefit or years of service. This benefit is allocated to funding target based on the accrued benefit on the valuation date plus a portion of the excess of the benefit over the accrued benefit multiplied by the ratio of the participant's service at the beginning of the plan year to their service at each decrement age. This benefit is allocated to target normal cost based on the proportionate benefit attributable to the increase in the participant's service and compensation during the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Maximum suggested contribution funding methods

Calculations of maximum suggested contributions include the excess of the funding target computed using the projected unit credit method over the minimum funding target. The objective of the projected unit credit method is to fund each participant's benefits under the plan as they accrue, taking into consideration expected future compensation increases. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- An individual's **projected funding target** is the present value of benefits based on credited service as of the beginning of the plan year and projected compensation that would be used in the calculation of the benefit on each expected separation date. If multiple decrements are used, the projected funding target for an individual is the sum of the component projected funding targets associated with the various anticipated separation dates. The plan's projected funding target is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."
- The plan's **projected funding target** is the sum of the projected funding targets for all participants under the plan. The excess of the plan's projected funding target over the plan's funding target is included in the "cushion amount."

Schedule SB, line 24 — Change in Actuarial Assumptions

The following changes were made for the plan year beginning July 1, 2021.

- The expected investment return was updated from 5.50% to 5.75%.
- The expense component of normal cost was changed from \$7,420,000 to \$6,260,000 to reflect our expectations for the current plan year.

Schedule SB, line 22 — Description of Weighted Average Retirement Age

Each employee is assumed to retire in accordance with the table of retirement rates. The proportion of employees expected to retire at each potential retirement age is shown below. The average retirement age is 62.

(A) Retirement age	(B) Retirement percent	(C) Lx	(D) Number of employees expected to retire (B) x (C)	(E) (A) x (D)

70	100.00%	4,950	4,950	346,511
Total			100,000	6,184,925
Average				61.85

The weighted average retirement age is the total for column E divided by the total for column D, rounded to the nearest integral age. It should be noted that while only integral values are shown in the table, the full content of each cell, including decimal portions, is used in the calculations.

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
