Independent Auditor's Report

To the Plan Administrator

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Modified Cash Basis Financial Statements

We have performed an audit of the modified cash basis financial statements of Cranbrook Educational Community Retirement Plan and Trust (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits - modified cash basis as of September 30, 2022 and the related statement of changes in net assets available for benefits - modified cash basis for the year then ended and the related notes to the modified cash basis financial statements (2022 modified cash basis financial statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2022 modified cash basis financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of September 30, 2022 and for the year then ended stating that the certified investment information, as described in Note 4 to the 2022 modified cash basis financial statements, is complete and accurate.

Opinion on the 2022 Modified Cash Basis Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the 2022 Modified Cash Basis Financial Statements* section:

- The amounts and disclosures in the accompanying 2022 modified cash basis financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with the modified cash basis of accounting.
- The information in the accompanying 2022 modified cash basis financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2022 Modified Cash Basis Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the 2022 Modified Cash Basis Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

To the Plan Administrator
Cranbrook Educational Community Retirement
Plan and Trust

Basis of Accounting

We draw attention to Note 2 to the modified cash basis financial statements, which describes the basis of accounting. The financial statements and supplemental schedule are prepared on a modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Emphasis of Matter

As explained in Note 5, the modified cash basis financial statements include investments valued at approximately \$13 million (23 percent of net assets) at September 30, 2022 and \$13 million (19 percent of net assets) at September 30, 2021, whose fair values have been estimated by management in the absence of readily determinable market values. Management's estimates are based on information provided by the qualified institution. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the 2022 Modified Cash Basis Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note 2 and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of modified cash basis financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the modified cash basis financial statements.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the modified cash basis financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or that may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Modified Cash Basis Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit for the 2022 Modified Cash Basis Financial Statements* section of our report, our objectives are to obtain reasonable assurance about whether the modified cash basis financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the modified cash basis financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the modified cash basis financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the modified cash basis financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the modified cash basis financial statements.

To the Plan Administrator
Cranbrook Educational Community Retirement
Plan and Trust

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2022 modified cash basis financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of the modified cash basis of accounting described in Note 2.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the modified cash basis financial statements as a whole are presented fairly, in all material respects, in accordance with the modified cash basis of accounting described in Note 2.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

2022 Modified Cash Basis Supplemental Schedule Required by ERISA

The supplemental schedule of assets held at end of year - modified cash basis as of September 30, 2022 is presented for the purpose of additional analysis and is not a required part of the modified cash basis financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the modified cash basis financial statements. The information included in the modified cash basis supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the modified cash basis financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the modified cash basis financial statements or to the modified cash basis financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the modified cash basis supplemental schedule, we evaluated whether the modified cash basis supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the modified cash basis supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the modified cash basis supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Modified Cash Basis Financial Statements

We were engaged to audit the 2021 modified cash basis financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by a qualified institution. In our report dated February 14, 2022, we indicated that, (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion, and, accordingly, we did not express an opinion on the Plan's 2021 modified cash basis financial statements, and (b) the form and content of the information included in the 2021 modified cash basis financial statements, other than that derived from the certified information, were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Cranbrook Educational Community Retirement Plan and Trust

Notes to Modified Cash Basis Financial Statements

September 30, 2022 and 2021

Note 1 - Plan Description

The following description of Cranbrook Educational Community Retirement Plan and Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was originally established on October 19, 1964 and amended on October 1, 2021. All employees, with the exception of student and leased employees, of Cranbrook Educational Community (Cranbrook) are eligible to participate in the nonelective contributions of the Plan if they have completed one year of service and attained age 21. Employees of Cranbrook are eligible to participate in the matching contributions of the Plan after they have completed one year of service and attained age 21; if their original employment date was on or after July 1, 2008; or if their original employment date was prior to July 1, 2008 and they made a one-time irrevocable election to enroll in the base plus match plan. An employee is also credited with one year of service if he or she has completed one year of service during the 12-month period immediately preceding the date of his or her employment with Cranbrook with another nonprofit educational institution, cultural institution, or other organization, as defined in Section 501(c)(3) of the Internal Revenue Code. A participant must complete at least 1,000 hours of service to be credited with a year of service.

Contributions

Cranbrook makes nonelective and matching contributions, as applicable, to the Plan on behalf of each participant at least quarterly. Nonelective contributions equal to 9 percent of compensation are made to employees hired before July 1, 2008 who have not made a one-time irrevocable election to be eligible to receive the 5 percent base rate plus matching contributions, if eligible, and to all participants who are employees represented by the American Federation of State, County and Municipal Employees (AFSCME) and were hired before April 1, 2009. All other eligible participants receive nonelective contributions equal to 5 percent of compensation. Plan nonelective contributions are not made on any amount of compensation in excess of amounts stated in Section 401(a)(17) of the Internal Revenue Code (IRC). Certain other limitations may apply, as discussed in the plan document and in compliance with other IRC limitations.

Participants eligible to receive matching contributions shall receive an allocation equal to a percentage of the lesser of the participant's elective contribution made to Cranbrook Educational Community Section 403(b) Plan or compensation, based on the employee classification of which he or she is a member, as follows:

Classification A - Participants satisfying the eligibility requirements who have 1-5 years of participation equal a 1 percent match

Classification B - Participants satisfying the eligibility requirements who have 6-15 years of participation equal a 2 percent match

Classification C - Participants satisfying the eligibility requirements who have 16-30 years of participation equal a 3 percent match

Classification D - Participants satisfying the eligibility requirements who have 31 years or more of participation equal a 4 percent match

Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan. Employee contributions, other than rollovers, and loans are not permitted under the Plan.

Plan contributions are invested in one or more investment vehicles available to the participants with Teachers Insurance Annuity Association (TIAA) and College Retirement Equities Fund (CREF) (collectively, TIAA-CREF).

Note 1 - Plan Description (Continued)

Vesting

All participants whose original hire date was prior to July 1, 2008 and all participants who are AFSCME-represented employees and hired prior to April 1, 2009 are 100 percent vested and have a nonforfeitable interest in their entire nonelective and matching accounts (as applicable) under the Plan at all times. A participant whose original hire date is on or after July 1, 2008, or an AFSCME-represented employee whose original hire date is on or after April 1, 2009, is vested and has a nonforfeitable interest in a percentage of his or her nonelective and matching accounts, according to the following schedule:

<u>Period of Service</u>	<u>Vesting Percentage</u>
Less than 1 year	- %
1 year	-
2 years	50
3 years or more	100

Participant Accounts

Each participant's account is credited with the allocations of employer contributions and plan earnings and charged with an allocation of administrative expenses. Determination of the allocation methodology of these amounts is outlined in the plan document. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures attributable to nonelective contributions are used to reduce the nonelective contribution payable to the Plan. Forfeitures attributable to matching contributions are used to reduce the matching contribution to the Plan.

Benefit Payments

The value of participants' accounts is payable to participants upon retirement, death, or other termination of employment. Participants can elect to receive, or have their beneficiary receive, benefits under any of the lifetime income options set forth in the contracts between TIAA-CREF and the participants and/or Cranbrook. Other distribution alternatives, including lump-sum distributions, are available subject to plan provisions. Certain amounts invested in the TIAA Traditional Annuity group annuity contract may not be distributed in a lump sum (see redemption restrictions below).

Redemption Restrictions

Certain contracts under the TIAA Traditional Annuity investment have limits on the ability of the participants to transfer or withdraw from the fund. Transfers from the Retirement Annuity (RA) and Transfer Payout Annuity (TPA) contracts must be paid out in 10 annual installments and from the Retirement Choice (RC) contracts in seven years. Withdrawals from the RA contract must be paid out in 10 annual installments and from the Retirement Choice contracts in seven years. The remaining contracts under the TIAA Traditional Annuity investment do not have restrictions related to transfers and withdrawals. The TIAA Stable Value investment is immediately liquid to participants and does not have participant-level withdrawal restrictions. There are, however, equity wash provisions that prevent the immediate transfer of amounts to any competing funds available in the Plan.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Some plan assets are in investment funds managed by TIAA-CREF and TIAA, FSB or their affiliates. TIAA-CREF is a service provider of the Plan, and TIAA, FSB is the custodian of the Plan; therefore, these transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Termination

While it is expected that the Plan will continue indefinitely, Cranbrook reserves the right at any time to amend, otherwise modify, or terminate the Plan or to discontinue any further contributions or payments under the Plan by resolution of its board. In the event of a termination of the Plan or complete discontinuance of plan contributions, Cranbrook will notify all participants of termination. If the Plan is terminated, participants become 100 percent vested in their account balances, and the net assets would be distributed to the participants according to the balances in the participants' accounts.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared on a modified cash basis of accounting, which is allowed by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA). The disclosure requirements specified in these rules and regulations differ in some respects from accounting principles generally accepted in the United States of America. Consequently, except as described in the next sentence, revenue is recorded when received rather than when earned, and expenses are recorded when paid rather than when the obligation is incurred. Additionally, these modified cash basis financial statements differ from the cash basis of accounting in that investments are recorded at fair value.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value except as noted below.

Investments in registered investment companies are valued at net asset value (NAV) per share (or its equivalent) of the funds, which is valued based on the net asset values of the underlying net assets. Investments in the pooled separate account are valued at net asset value per share (or its equivalent) of the funds, which is based on the fair market value of the underlying net assets that consist primarily of rental property subject to long-term leases and have been estimated on the basis of future rental receipts and estimated residual values discounted at interest rates commensurate with the risks involved. The guaranteed investment account is considered non-benefit responsive and is presented at fair value. Contract value represents deposits made to the contract, plus earnings at guaranteed crediting rates, less withdrawals and fees.

The TIAA Traditional Annuity is a guaranteed annuity contract issued by TIAA that invests in the general assets of TIAA. The TIAA Traditional Annuity includes the following contracts, which are all considered to be non-benefit responsive: Retirement Annuity, Interest Payment (IP), and Transfer Payout Annuity. The non-benefit-responsive portion is recorded at fair value. Since there are no specific securities in TIAA's general account related to these contracts and due to the contract terms, including the frequency of the interest rate reset intervals, contract value is the best estimate of fair value. Contract value represents principal invested plus interest earned, less any withdrawals.

The TIAA Stable Value is a group annuity contract issued by TIAA that invests in a nonunitized separate account of TIAA. The TIAA Stable Value is considered benefit responsive and is presented at contract value. Contract value represents principal invested, plus interest earned, less any withdrawals.

All other investments are valued based on quoted market prices. See Note 5 for additional information.

Cranbrook Educational Community Retirement Plan and Trust

Notes to Modified Cash Basis Financial Statements

September 30, 2022 and 2021

Note 2 - Summary of Significant Accounting Policies (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Benefit Payments

Benefits are recorded when paid. There were benefit payments requested but not paid (due to redemption restrictions) totaling \$719,029 and \$663,022 as of September 30, 2022 and 2021, respectively.

Allocated Insurance Contracts

The Plan has allocated insurance contracts for retirees who were covered under the Plan in prior years. These contracts remain intact, and additional contracts have been purchased. The activity related to the allocated insurance contracts for retirees receiving benefits is excluded from the financial statements. The Plan receives no income from these allocated insurance contracts.

Use of Estimates

The preparation of financial statements under the modified cash basis of accounting requires plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Administrative Expenses

Cranbrook paid certain administrative expenses of the Plan during the year ended September 30, 2022.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including April 17, 2023, which is the date the financial statements were available to be issued.

Note 3 - Tax Status

The Plan has received a determination letter from the Internal Revenue Service indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 4 - Unaudited Information

TIAA-CREF and TIAA, FSB hold the Plan's investments and execute related transactions. TIAA has the authority to certify the investment balances and related investment activity on behalf of TIAA, FSB. The investment balances and related income and losses included in the accompanying modified cash basis financial statements and supplemental schedule of assets held at end of year - modified cash basis are based solely on information certified by TIAA-CREF including TIAA, on behalf of TIAA, FSB.

Cranbrook Educational Community Retirement Plan and Trust

Notes to Modified Cash Basis Financial Statements

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at September 30, 2022 and 2021.

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances where inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

- (3) This class represents investments in actively managed registered investment companies with investments in both equity and debt securities. The investments may include common stock, corporate bonds, U.S. and non-U.S. municipal securities, interest rate swaps, options, and futures.
- (4) This class represents investments in actively managed registered investment companies that invest primarily in money market funds that seek high current income consistent with maintaining liquidity and preserving capital.
- (5) This class represents investments in actively managed pooled separate accounts that invest primarily in real estate.

There were no unfunded commitments or redemption restrictions on the investments valued at NAV described above.

Note 6 - Group Annuity Contracts

Based on the terms of the contracts, the TIAA Stable Value contract is considered benefit responsive. The investment contract is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Cranbrook Educational Community Retirement Plan and Trust

Notes to Modified Cash Basis Financial Statements

September 30, 2022 and 2021

Note 6 - Group Annuity Contracts (Continued)

Interest is credited on contract balances using a vintages approach. Under this methodology, TIAA groups the dollars it receives over defined time periods into vintages and determines a crediting rate for the applicable vintage. Interest crediting rates are determined during the accumulation phase of the applicable declaration year. When establishing interest crediting rates for this product, TIAA considers many factors, including the net investment earnings rate of the TIAA assets supporting that vintage, administrative expenses during the time period, and required contingency reserves. The minimum crediting rate for the benefit-responsive contracts is generally 3.00 percent; however, in some recent contracts, it is between 1 percent and 3 percent.

Generally, there are no events that could limit the ability of the Plan to transact at contract value paid within 90 days or, in rare circumstances, contract value paid over time. There are no events that allow the issuer to terminate the contract and that require the plan sponsor to settle an amount different than contract value paid either within 90 days or over time.

As described in Note 2, because the contracts are fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets attributable to the investment contract. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.
