INDEPENDENT AUDITOR'S REPORT

Plan Administrator
Mississippi Methodist Hospital and
Rehabilitation Center Retirement Savings Plan
Jackson, Mississippi

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of Mississippi Methodist Hospital and Rehabilitation Center Retirement Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021 and 2020, the related statement of changes in net assets available for benefits for the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 403(b) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subjected to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of December 31, 2021 and 2020, and for the year ended December 31, 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional scepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified net asset information, except for obtaining and reading the certification, comparing the certified net asset information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

The supplemental schedule of assets (held at end of year) as of December 31, 2021 is presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Statement of Changes in Net Assets Available for Benefits
Year Ended December 31, 2021

Note 1. Description of the Plan

The following description of the Mississippi Methodist Hospital and Rehabilitation Center Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions, which are available from the Plan administrator.

General

The Plan is a defined contribution plan, covering certain employees of Mississippi Methodist Hospital and Rehabilitation Center, Inc. (the "Hospital"). The Hospital is a nonprofit organization as determined by Section 501(c)(3) of the Internal Revenue Code (the "Code"). Therefore, the Plan is subject to the 403(b) provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). 403(b) plans require universal availability; therefore, participation in the Plan is not subject to any hours or years of service requirements.

Contributions

Participating employees may make salary deferrals up to the maximum allowable by the Internal Revenue Service ("IRS"). Participants who have attained age 21 and have completed one year of service and 1,000 hours are eligible for Hospital matching and discretionary contributions unless the participant is part of an excluded category. Excluded employees include PRN (on-call) employees, per-visit employees, contract employees and employees of Select Physicians Management Service, Inc. The Hospital may elect to match a percentage of the participants' contributions in any discretionary percentage allowed by IRS guidelines, up to 6 percent of compensation. For 2021 and 2020, the Hospital made a matching contribution on all eligible deferral contributions of 50 percent up to the first 6 percent of compensation. The Hospital may also elect to make an additional discretionary contribution equal to a uniform percentage of an eligible employee's compensation. For 2021, the Hospital made a discretionary contribution of 3 percent of compensation.

Participant Investment Account Options

Contributions to the Plan are invested into any of the investment funds available under the Plan provisions, in such proportions as the participants direct. Participants may change investment options at any time.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Hospital's matching contributions and allocations of (a) the Hospital's discretionary contribution and (b) earnings on participant and Hospital contributions; and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The Plan provides benefits based solely upon the amount contributed to the participant's account and any income, expenses, gains and losses on investments, which may be allocated to such participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1. Continued

Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Hospital contributions portion of their accounts plus earnings thereon is based on years of continuous service. Participants are 100 percent vested after three years of credited service for the Hospital matching contributions and discretionary contributions and earnings thereon. Participants also become 100 percent vested upon attaining the Plan's early retirement age, or age 55.

Payment of Benefits

Benefits are generally payable on termination, retirement, death or disability. Benefits may be paid by either lump sum or installments over a fixed reasonable period of time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of (1) \$50,000, reduced by the participant's current outstanding note balance or (2) 50 percent of their vested account balance, reduced by the highest outstanding note balance during the 12-month period immediately preceding the date of the note. Participants may have no more than three notes outstanding at any time. Note terms range from one to five years or up to 15 years for notes used for the purchase of a primary residence. The notes are collateralized by the balance in the participant's account and bear interest at a rate of prime plus 1 percent, ranging from 4.25 percent to 6.50 percent for the years ended 2021 and 2020.

Notes receivable from participants are borrowings from their individual accounts and measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document. As of December 31, 2021, and 2020, outstanding notes receivable from participants were \$589,822 and \$702,862, respectively. Notes receivable from participants totaling \$60,659 defaulted during 2021.

Forfeitures

At December 31, 2021 and 2020, forfeited nonvested accounts totaled \$62,576 and \$36,360, respectively. These accounts will be used to reduce future administrative expenses. During 2021, forfeitures totaling \$40,577 were used to reduce administrative expenses.

Revenue Holding Account

Administrative fees for the Plan are estimated and paid quarterly using a percentage of investment income. Funds drawn from investment income for this purpose in excess of actual Plan expenses are maintained in a Revenue Holding Account to pay future administrative expenses. The Revenue Holding Account consists of an unallocated, noninterest-bearing account and is classified as cash of \$47,800 and \$60,010 on the statements of net assets available for benefits as of December 31, 2021 and 2020, respectively.

Note 2. Summary of Accounting Policies

Basis of Presentation

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments held by a defined contribution plan are required to be reported at fair value, except fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Realized and unrealized gains and losses on the Plan's investments are included in net appreciation in fair value of investments at year-end in the statement of changes in net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Due from (to) Brokers

Amounts due from (to) brokers represent receivables (payables) for transactions in which securities have been sold (purchased) but not yet settled as of the reporting date. These balances are not included in the fair value hierarchy disclosure due to their short-term nature; as such the carrying amounts of these financial assets and financial liabilities already approximate fair value. Credit risk relating to unsettled transactions is considered small due to the short settlement period involved and the high credit quality of the brokers used.

Year Ended December 31, 2021

Note 2. Continued

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Administrative expenses incurred by the Plan are paid by the Plan to the extent not paid by the Hospital.

Note 3. Investments Certified and Provided by Trustees

Information related to net assets disclosed in the accompanying financial statements and supplemental schedule held at December 31, 2021 and 2020, and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2021, was obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by Matrix Trust Company ("Matrix"), the trustee and custodian of the Plan, and Newport Trust Company, the record keeper of the Plan. The contract value of the guaranteed investment contract was certified by the Trustee.

Note 4. Fair Value Measurements

FASB Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

RETIREMENT SAVINGS PLAN**

Note 4. Continued

Following is a description of the valuation methodologies used for assets measured at fair value, on a recurring basis. There have been no changes in the methodologies used at December 31, 2021 and 2020.

- **Mutual funds:** Valued at the daily closing price as reported by the fund or individual common stock holdings within the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded (Level 1).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 44,572,668	\$ -	\$ -	\$ 44,572,668
	\$ 44,572,668	\$ -	\$ -	\$ 44,572,668

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2020:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 41,620,783	\$ -	\$ -	\$ 41,620,783
	\$ 41,620,783	\$ -	\$ -	\$ 41,620,783

Note 5. Guaranteed Investment Contracts

The Plan invests in benefit-responsive investment contracts with Met Life Insurance Company ("Met Life"). Met Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuers are contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by Reliance, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

RETIREMENT SAVINGS PLAN**

Statement of Changes in Net Assets Available for Benefits

Note 5. Continued

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 2 percent. Such interest rates are reviewed on a quarterly basis for resetting.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events included the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletions of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 6. Related Party Transactions and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50 percent or more of such an employer or employee association, or relatives of such persons.

During the year ended December 31, 2021, certain Plan investments were shares of investment contracts and mutual funds managed by Matrix. Matrix is the custodian of the Plan assets as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions. Administrative expenses paid by the Plan to Matrix during 2021 totaled \$280,050.

Note 7. Plan Termination

Although it has not expressed any intent to do so, the Hospital has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If terminated, the participants become fully vested and the net assets of the Plan are to be set aside for the participants' benefits.

Note 8. Income Tax Status

The Plan has been designed to qualify pursuant to the appropriate section of the Code and, accordingly, the Plan's net investment income is exempt from income taxes. The Plan Administrator is aware of certain compliance violations and intends to go through the Employee Plans Compliance Resolution System ("EPCRS") process to resolve these matters with no impact to the tax status of the

Plan. Although the Plan has not obtained a determination letter from the IRS, the Plan's Administrator believes that the Plan is currently designed and being operated in compliance, with the exception of the compliance violation noted above, with the applicable requirements of the Code. Therefore, no provisions for income taxes have been included in the Plan's financial statements.

Note 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 10. Subsequent Events

The Plan has evaluated subsequent events for potential recognition or disclosure through October 13, 2022, the date the financial statements were available to be issued.
