INDEPENDENT AUDITORS' REPORT

To the Administrative Committee
Farwest Steel Corporation and
Affiliated Companies 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the accompanying financial statements of Farwest Steel Corporation and Affiliated Companies 401(k) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C). The financial statements comprise the statements of net assets available for benefits as of December 31, 2021, the related statements of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency (qualified institution), provided that the statements or information regarding assets so held are prepared and certified by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Management has obtained a certification from a qualified institution as of December 31, 2021, and for the year then ended, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section-

- the amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).

- the information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements section of our report, our objectives are to obtain reasonable assurance about whether the 2021 financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the 2021 financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters - 2021 Supplemental Schedule Required by ERISA

The 2021 supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the 2021 financial statements but is supplemental information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the 2021 financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the 2021 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the 2021 financial statements or to the 2021 financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- The certified investment information in the supplemental schedule agrees to, or is derived from, in all material respects, the information prepared and certified by a qualified institution that management determined meet the requirements of ERISA Section 103(a)(3)(C).

Other Matters - Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated October 6, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

FARWEST STEEL CORPORATION AND AFFILIATED COMPANIES 401(k) PLAN

Notes to Financial Statements

1. Description of the Plan

The following description of the Farwest Steel Corporation and Affiliated Companies 401(k) Plan (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General. Established by Farwest Steel Corporation (the Company) on January 1, 1989, the Plan is a tax qualified defined contribution plan formed for the benefit of all eligible employees of the Company and its affiliates. The Plan includes a salary deferral arrangement commonly called a 401(k) plan. Under such provisions, employees are able to make tax deferred contributions to the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Generally, all non-union employees of the Company who have attained the age of 18 are eligible to participate in the Plan after fulfilling the service requirement.

An employee is eligible to make salary deferral contributions beginning on the later of the payroll period that starts on or after the first day of the month coincident with or next following the employee's date of hire with the plan sponsor or attaining age 18. Employees, age 18 or older, are eligible for employer discretionary matching and profit-sharing contributions the first month beginning after they complete two years of service.

For eligibility purposes, a year of service is defined as a twelve consecutive month period during which an employee completes at least 1,000 hours of service.

Sponsors. The Plan has been adopted by the following companies, and the net assets available for benefits include those allocated to participants of the group:

- Farwest Steel Corporation
- Farwest Steel Alaska, Inc.
- Farwest Steel Post Tensioning Company
- Farwest Steel Reinforcing Company
- Western Coating, Inc.

The above employers are a control group and are treated as a single employer for Department of Labor's reporting purposes.

1. Description of the Plan (Continued)

Contributions. Participant elective deferral contributions represent amounts by which an eligible employee has elected a reduction in compensation in consideration of the Company contributing such amounts to the Plan. Such elective deferral contributions are excluded from the participant's taxable income until received as a distribution from the Plan. Participants over 50 years of age may make additional annual "catch-up" contributions as allowed by the Internal Revenue Code (IRC). Total elective deferral contributions are limited by various IRC provisions. The Plan also provides that refunds may be made to certain participants in order to comply with various statutory limits.

The Plan contains an automatic enrollment provision which provides that a participant, upon first being eligible to participate in the Plan, will be automatically enrolled. Individuals are automatically enrolled in the Plan with a deferral rate of 3% unless they affirmatively elect otherwise. Individuals who do not elect otherwise will also be subject to an automatic increase in deferral rate each plan year of 1% until their deferral rate equals or exceeds 10%. After initial participation, a participant may commence, recommence, or change the amount of the deferral at their discretion, which will become effective for the next payroll period. A participant can also elect to cease the deferral at any time.

The Plan provides for two types of discretionary matching contributions which are made at the option of the board of directors. The basic match is allocated each month based on elective deferrals and eligible compensation for that month. The supplemental match is allocated once per year based on elective deferrals and eligible compensation for the plan year. There are no hours of service or end of period employment requirements for the basic match. To share in an allocation of the supplemental match, a participant must work 1,000 hours during the plan year and be employed on the last day of the plan year. An otherwise eligible participant will share in an allocation of the supplemental match, even if these requirements are not satisfied, if the failure to satisfy the requirements is due to death, disability, or retirement after reaching age 65. For 2021 and 2020, a basic match equal to 25% of eligible elective deferral contributions was allocated to each pay period that occurred during each month and paid after the end of the month. In addition, a supplemental match equal to 50% of eligible deferrals was allocated on a plan year basis. The combined total of basic and supplemental matching contributions may not exceed 5% of each participant's compensation for the plan year. Matching contributions totaled \$967,088 and \$924,592 for 2021 and 2020, respectively.

Notes to Financial Statements

1. Description of the Plan (Continued)

The Plan also provides for discretionary profit-sharing contributions which are made at the option of the board of directors. A participant must work 1,000 hours during the plan year and be employed on the last day of the plan year to receive a discretionary profit-sharing contribution allocation, unless separation from duty is due to death, disability, or retirement after age 65. Contributions are allocated pro rata based on the ratio of a participant's eligible compensation to total eligible compensation of all participants. There were no profit sharing contributions allocated for the years ended December 31, 2021 and 2020.

Participant Accounts. Individual accounts are maintained for each plan participant to reflect the participant's elective deferral, rollover, and employer contributions. These individual accounts are self-directed by the participants, allowing the participants to choose the investment combination they wish from numerous available funds. Income and loss are allocated to the participants' accounts based on the investment performance of the investments the participants have chosen. The benefit to which a participant or beneficiary is entitled is the benefit that can be provided from the participant's account.

Investment Options. The plan sponsor and trustee have selected a menu of registered investment companies and an investment contract from which the participants can choose. Plan participants invest the amounts in their accounts in these various investment funds. Each participant instructs the trustee as to how the assets are to be invested. If contributions are made on behalf of a participant who has not given investment instructions to the trustee, the participant will be deemed to have elected investment in the plan's target date fund based on the participant's age. The Plan maintains no investments which are not directed by the plan participants.

Vesting. Participants are immediately 100% vested in their elective deferral, rollover, and employer contribution accounts.

Payment of Benefits. On termination of service, a participant or their beneficiary may elect to receive an amount equal to the value of the participant's interest in his or her account in a lump-sum amount. The Plan allows for in-service withdrawals after age 59 1/2. In addition, special distribution rules may apply if the participant had an account balance in the Farwest Steel Corporation Pension Plan which was transferred into this Plan.

Expenses. Certain expenses of maintaining the Plan are paid by the plan sponsor and are therefore excluded from these financial statements. Investment related expenses are included as a reduction to investment income. Administrative expenses of the plan are allocated to participant accounts.

2. Summary of Significant Accounting Policies

Basis of Reporting. The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP). These principles require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts in the statements of changes in assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment Valuation. The Plan's investment in the fully benefit-responsive investment contract is stated at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expense.

Registered investment companies are stated at fair value. GAAP defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date and establishes a framework for measuring fair value.

The fair value framework requires the categorization of assets and liabilities into three levels based upon the ability to observe the inputs used to value the assets and liabilities. The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Level One provides the most reliable and observable measure of fair value, whereas Level Three generally requires significant judgment.

The fair value hierarchy is categorized into three levels based on the inputs as follows:

- Level One - Unadjusted, quoted prices in active markets for identical assets and liabilities.
- Level Two - Observable inputs, other than those included in Level One. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.
- Level Three - Unobservable inputs reflecting assumptions about the inputs used in pricing the asset or liability.

2. Summary of Significant Accounting Policies (Continued)

Purchase and sales of securities are recorded on a trade-date basis. The cost of investments sold for the purpose of computing gains and losses is based on average cost. Dividends are recorded on the ex-dividend date. Income from the investment contract is reflected as interest income in the statements of changes in net assets available for benefits and is credited daily. The Plan presents in the statements of changes in net assets available for benefits, the net appreciation or depreciation in the fair value of the Plan's investments, which consists of the realized gains or losses, and the unrealized appreciation or depreciation of those investments.

Risks and Uncertainties. The Plan may invest in various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participant account balances and the amounts reported in these financial statements.

Payment of Benefits. Benefits are recorded when paid. There were no benefits elected to be withdrawn from the Plan but not yet been paid for both December 31, 2021 and 2020.

Subsequent Events. The Plan evaluates subsequent events and the evidence they provide about conditions existing at the date of the statements of net assets available for benefits as well as conditions that arose after the statements of net assets available for benefits date but before the financial statements are issued. The effects of conditions that existed at the date of the statements of net assets available for benefits are recognized in the financial statements. Events and conditions arising after the statements of net assets available for benefits date but before the financial statements are issued are evaluated to determine if disclosure is required to keep the financial statements from being misleading. To the extent such events and conditions exist, disclosures are made regarding the nature of events and the estimated financial effects for those events and conditions. For purposes of preparing the accompanying financial statements and the following notes to these financial statements, the Plan evaluated subsequent events through October 11, 2022, the date the financial statements were available for issue.

See independent auditors' report.

3. Contract with Insurance Company

The Plan has an investment contract with Great-West Life & Annuity Insurance Company (Great-West). Investments in this contract are commingled with the general assets of Great-West. Because participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in this account at contract value, the investment contract is determined to be fully benefit-responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Prior to the first day of each calendar quarter, Great-West establishes an effective rate of interest for the investment contract for such quarter. Interest will be credited to the account daily, based on its daily balance, at a rate of interest which is the daily equivalent of the effective annual rate of interest applicable for each quarter. The effective annual interest rate will never be less than 1%.

Either party to the contract may terminate the contract with advance written notice to the other party. If the parties fail to determine a mutually agreeable contract termination date, the contract termination date will be the 75th calendar day after the written notice. The contract shall be deemed to terminate once all plan assets have been distributed.

Upon termination, Great-West will distribute the contract value of the participants' investment contract account, less the participants' share of any outstanding charges and fees remaining unpaid on the investment contract termination date. While assets remain with Great-West, they will be subject to all charges and fees outlined in the contract.

4. Fair Value Measurement

The Plan's only investments recorded at fair value are investments in registered investment companies, which are valued at quoted market prices in active markets and are categorized at Level One on the fair value hierarchy.

The fair valuation methodology used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial investments could result in a different fair value measurement at the reporting date.

5. Information Certified by the Trustee and Insurance Company

The plan administrator has elected the method of compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Great-West Trust Company, LLC (Great-West Trust), a qualified institution, has certified that the following investment information included in the accompanying financial statements is complete and accurate:

Total investments as shown in the accompanying statements of net assets available for benefits of \$44,688,719 and \$39,769,173 as of December 31, 2021 and 2020, respectively.

Total investment income as shown in the accompanying statements of changes in net assets available for benefits of \$5,060,846 and \$4,538,900 for the years ended December 31, 2021 and 2020, respectively.

All investment-related information in the accompanying supplemental Form 5500, Schedule H, part IV, line 4i, schedule of assets (held at end of year) as of December 31, 2021.

At the request of the plan administrator, the Plan's independent auditors did not perform auditing procedures with respect to this certified investment information, except for comparing such certified investment information to the related investment information included in the financial statements.

6. Related-Party Transactions

Great-West Trust, the trustee of the Plan, is a related company to Great-West, the issuer of the guaranteed investment contract. See Note 3. As manager of the investment contract, Great-West receives fees from the account, which affect investment performance.

Great-West also has an administrative service contract with the Plan. Under this agreement, Great-West is responsible for, among other things, maintaining participant account records, processing contributions, and processing distributions. Effective March 31, 2020, Great-West is paid for these services based on an annual asset-based fee that is charged to participant accounts, in addition to charges to specific participant accounts based on transactions they elect, such as plan distributions. This expense is offset by credits from Great-West representing a portion of indirect compensation Great-West receives from various fund managers. The total fees, net of credits, for these services totaled \$50,783 and \$41,656 for the years ended December 31, 2021 and 2020, respectively.

6. Related-Party Transactions (Continued)

Advised Assets Group, a wholly owned subsidiary of Great-West, provides investment management services to the Plan. Fees for these services are deducted from plan assets on a quarterly basis. Total fees paid by the Plan for these services amounted to \$8,194 and \$6,240 for the years ended December 31, 2021 and 2020, respectively and are included in investment expenses.

Roehl & Yi provides investment advisor services to the Plan. The plan sponsor pays these investment advisory fees on behalf of the Plan.

7. Income Tax Status

The Plan obtained its latest determination letter on June 1, 2015, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. The Company believes that the Plan is currently being operated in compliance with the applicable requirements of the IRC, and that, as a result, the Plan qualifies under Section 401(a) and the related trust is tax-exempt as of December 31, 2021 and 2020. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA.

See independent auditors' report.
