Report of Independent Auditors

The Retirement Plan Advisory Committee
University of Western States 403(b) Plan

Report on the Audit of the Financial Statements

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of University of Western States 403(b) Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of University of Western States 403(b) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America (GAAP).
- the information in the accompanying financial statements related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of University of Western States 403(b) Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about University of Western States 403(b) Plan's ability to continue as a going concern within one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit.
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of University of Western States 403(b) Plan's internal control. Accordingly, no such opinion is expressed.

- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about University of Western States 403(b) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter

Supplemental Schedule Required by ERISA

The supplemental schedule H, line 4(i) - schedule of assets held at year end as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosures under ERISA.

- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that management determined meet the requirements of ERISA Section 103(a)(3)(C).

University of Western States 403(b) Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following brief description of the University of Western States (the University) 403(b) Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of the Plan's provisions.

General – The Plan is a 403(b) salary deferral and employer contribution plan covering substantially all the employees of the University, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The University is the Plan's sponsor and administrator.

Eligibility – Employees of the University, except non-resident aliens and students, are eligible to make elective deferrals effective the first day of the month following salary reduction form submission, or the first day of the month following the form's effective date, whichever is later. Employees eligible to make elective deferrals, who are not notified of quarterly teaching assignments and work more than 30 hours per week, are eligible to receive employer contributions on the first day of the month following completion of one year of eligible service and attaining 21 years of age.

Newly hired employees are eligible to receive employer contributions immediately upon hire if they have completed applicable hours of service requirements with a previous employer within 2 years prior to the date of hire. Hours of service for purposes of satisfying the one-year service requirement shall include only hours of service with a predecessor employer organization that meets the eligibility requirements of Code Section 403(b)(1) or an institution of higher education.

Contributions

Participant contributions – Contributions to the Plan are made through employee deferrals on earned compensation, as defined in the Plan. As a condition of employment, participants covered under the collective bargaining agreement are required to contribute 1% of eligible compensation after one year of service. Participants may contribute on a tax-deferred basis up to the annual limitations as prescribed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions representing distributions from other qualified plans.

Employer matching and discretionary contributions – For the year ended December 31, 2022, the University made non-discretionary matching contributions of up to the first 10% of each eligible participant's wages in accordance with the Plan document. The University may also make discretionary employer contributions allocated to eligible participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. There were no discretionary employer contributions made for the year ended December 31, 2022.

All contributions are subject to regulatory limitations.

University of Western States 403(b) Plan

Notes to Financial Statements

Participant accounts – Each participant’s account is credited with the participant’s contributions and University matching contributions, if eligible, as well as allocations of discretionary employer contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses paid by the Plan. Allocations are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account. Participants direct the investment of all contributions into various investment options offered by the Plan.

Vesting – Participants are vested immediately in their contributions plus actual earnings thereon. Employer contributions to participants who are covered under the collective bargaining agreement are 100% vested at all times. Upon a participant’s death, disability, or attainment of normal retirement age, as defined, while employed with the University, the participant’s account will become fully vested. Employer contributions to all other participants shall vest in accordance with the following schedule:

Completion of the Year of Service	Vested Percentage	Forfeited Percentage
0	0%	100%
1	0%	100%
2	20%	80%
3	40%	60%
4	80%	20%
5	100%	0%

Forfeitures – Forfeitures are the nonvested portion of a participant’s account that are lost upon termination of employment. Forfeitures are retained in the Plan and may be used to reduce future employer contributions or to restore previously forfeited amounts. Forfeited nonvested accounts totaled \$3 as of December 31, 2022. There were no forfeited nonvested accounts as of December 31, 2021. For the year ended December 31, 2022, the University’s contributions were reduced by \$59,829 from forfeited nonvested accounts.

Collateralized plan loans – Participants may borrow directly from TIAA a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their elective deferral account balance, subject to the rules of the individual agreements. Principal and interest payments are made monthly or quarterly by the participant directly to TIAA. The maximum loan term is five years unless the loan term qualifies as a home loan for the purchase of a primary residence, in which case the term of the loan is not to exceed 10 years. These loans are secured by collateral which equals 110% of the outstanding loan balance and is held in the TIAA Traditional Annuity and bear fixed, reasonable rates of interest, as determined by the custodian. These funds are restricted with respect to withdrawals and transfers while the loan is outstanding. The loans themselves are not reported as separate assets of the Plan.

As of December 31, 2022, the rates of interest on outstanding loans ranged from 4.00% to 5.18% with various maturities through January 2026. The total loan balance outstanding against TIAA Plan assets was approximately \$12,000 and \$24,000 at December 31, 2022 and 2021, respectively.

University of Western States 403(b) Plan

Notes to Financial Statements

If a participant stops making payments as required under the terms of the agreement, the loan will go into default. The funds held in the TIAA Traditional Annuity account associated with the defaulted loan are credited with interest in an amount equivalent to the loan interest being accumulated on the defaulted loan. The total loan collateral included in the Plan assets was approximately \$13,000 and \$26,000 at December 31, 2022 and 2021, respectively. Defaulted loan collateral balances are segregated into the defaulted plan loan account and are no longer accessible by the participant. Upon the participant reaching a triggering event the collateral will be distributed and remitted to TIAA as a deemed distribution.

Notes receivable from participants – Participants may borrow from their TIAA accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed 10 years. Under the terms of the Plan agreement, loans will bear a reasonable rate of interest determined by TIAA. Principal and interest payments are made monthly or quarterly by the participants directly to TIAA. As of December 31, 2022, the rates of interest on outstanding notes receivable ranged from 4.25% to 8.00% with various maturities through November 2027.

Benefit payments – Subject to the terms of the individual agreements, participants (or their beneficiaries) may generally request payment of vested benefits upon severance of employment. For vested individual account balances of \$5,000 or less and unless otherwise elected, participants may receive a direct rollover into an individual retirement account. For vested balances that exceed \$5,000, and to the extent permitted by the individual agreements, participants may elect that their account be paid: 1) in a lump sum, 2) in a partial payment, 3) in installment payments over a period not to exceed the life expectancy of the participant or their designated beneficiary, or 4) be applied to the purchase of an annuity contract or converted to an income option.

Hardship withdrawals – Hardship withdrawals are permitted under the Plan in the event of an immediate and heavy financial need and may not exceed the amount necessary to meet that need. All hardship withdrawals shall be administered by the plan administrator in accordance with the Plan provisions.

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP), using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with U.S. GAAP requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at contract value and fair value. The Plan's custodians, TIAA, and CREF, certify the contract value of the fully benefit-responsive fixed annuity contracts and the fair market value of all other investments. If available, quoted market prices are used to value investments.

University of Western States 403(b) Plan

Notes to Financial Statements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Contract value is the relevant measurement for assets invested in fully benefit-responsive fixed annuity investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net depreciation in fair value of investments consists of both the realized gains and losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event, based on the terms of the Plan Agreement.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid directly by the University and are excluded from these financial statements. Administrative expenses paid by the Plan may include notes receivable and distribution fees charged to participants’ accounts, investment-related expenses, and administrative Plan fees.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan’s financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before financial statements are available to be issued. The Plan has evaluated subsequent events through May 9, 2023, which is the date the financial statements were available to be issued.

Note 3 – TIAA Traditional Annuity

The TIAA Traditional Annuity is a guaranteed fixed annuity contract available as an investment option to Plan participants that is fully and unconditionally guaranteed by TIAA. The TIAA Traditional Annuity is offered through a variety of contract types, including Group Retirement Annuities (GRA) and Group Supplemental Retirement Annuities (GSRA), which the Plan’s contracts are primarily invested with. The type of contract through which a participant invests in the TIAA Traditional Annuity determines the applicability of certain account features, such as the guaranteed minimum interest rate, additional interest declarations, the degree of liquidity of the participant’s account, and the options for receiving income upon retirement.

University of Western States 403(b) Plan

Notes to Financial Statements

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest, is guaranteed by TIAA's claims-paying ability. The guaranteed annual interest rate is 3.0% for all premiums remitted since 1979 under all accumulating contracts. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate.

The GRA and GSRA contracts provide for full participant-directed liquidity. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits. See Notes 4 and 5 for additional information regarding the Plan's investments in the GRA and GSRA portions of the TIAA Traditional Annuity, respectively.

Note 4 – Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation techniques used for assets measured at fair value. There have been no changes in the techniques used at December 31, 2022 and 2021.

University of Western States 403(b) Plan

Notes to Financial Statements

Registered investment companies (mutual funds) – Registered investment companies are shares of registered investment company funds (or mutual funds) that are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded or listed.

The College Retirement Equities Fund (CREF) Portfolios – The CREF Portfolios consist of eight investment portfolios: Stock, Global Equities, Growth, Equity Index, Bond Market, Inflation Linked Bond, Social Choice and Money Market Accounts. Units held in the CREF portfolios are valued using the NAV of the fund, based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The NAV of the portfolio is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund. The Plan may redeem units at NAV on any day the New York Stock Exchange is open for business. Participants cannot redeem units from CREF Accounts (with the exception of the Money Market Account) for 90 days if a purchase, sale and/or repurchase is made within that account within a 60-day period. The CREF variable annuity accounts are considered registered investment companies.

TIAA Real Estate Pooled Separate Account – The TIAA Real Estate Account, which is a pooled separate account (PSA), is a single account that invests primarily in real estate holdings. Real estate holdings are valued principally using external appraisals, which are estimates of property values based on a professional's opinion. Participants redeeming units from the TIAA Real Estate Account may only do so once per calendar quarter. Units of the PSA are valued using the NAV of the shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded. As a result, Plan management has determined that the fair market value is appropriately presented as a level 1 investment.

TIAA Access Annuity Separate Account – The TIAA Access Annuity Separate Account is a variable annuity that is funded through the TIAA Separate Account VA-3, which invests in proprietary and non-proprietary mutual funds through various sub-accounts reported as registered investment companies on the Schedule H, line 4(i) – Schedule of assets (held at end of year) as instructed by TIAA. Many of the underlying funds offered through the separate account are also available for direct purchase outside of the annuity option. Participants cannot redeem units from the TIAA Access Annuity Separate Account sub-accounts (with the exception of the Money Market Fund and the Short-Term Bond Fund) for 30 calendar days starting the day after the transfer. Restricted transfers do not include systematic transactions, death and hardship withdrawals, or certain transactions made within an employee benefit plan. Units held in the TIAA Access Annuity Separate Account are valued using the NAV practical expedient of the funds as reported by the fund managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the pooled separate account, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of the pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

University of Western States 403(b) Plan

Notes to Financial Statements

TIAA Traditional Group Retirement Annuity Contract – The TIAA Traditional Annuity contract (GRA) is non-fully benefit-responsive, is considered a fixed annuity contract, and is presented at estimated fair value on the statements of net assets available for benefits. The guaranteed interest rate at December 31, 2022 and 2021, was 3% plus declared dividends for the years then ended. The estimated fair value of the contract is based upon the fair value of the underlying investments in the insurance company general account as reported on the audited financial statements of TIAA.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables present information about the Plan's assets measured at fair value as of December 31, 2022 and 2021:

Assets at Fair Value as of December 31, 2022

The following table presents the Plan's Level 3 investments, the valuation techniques used to measure the fair value of those instruments as of December 31, 2022 and 2021, and the significant unobservable inputs and ranges of values for those inputs:

Name	Fair Value		Valuation Technique	Unobservable Inputs	Range of Input Values/ (Weighted Avg)
	12/31/2022	12/31/2021			
Non-fully benefit-responsive fixed annuity investment contracts	\$ 5,141,905	\$ 4,866,935	Discounted cash flows	Discount rate	Annual 3.0%

Note 5 – TIAA Traditional Group Supplemental Retirement Annuity Contract

The Plan holds a TIAA Traditional Annuity GSRA contract that is a fully benefit-responsive investment contract (FBRIC). TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 3.0%. The crediting rate is reviewed on an annual basis for resetting. The FBRIC does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the FBRIC criteria and therefore is reported at contract value. Contract value is the relevant measure for FBRICs because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations, which may be affected by future economic and regulatory developments.

University of Western States 403(b) Plan

Notes to Financial Statements

Note 6 – Tax Status

The Plan document is a volume submitter defined contribution plan that received a favorable opinion letter from the Internal Revenue Service on August 7, 2017, which stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since the date of the opinion letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7 – Information Certified by the Custodians

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, TIAA and CREF, custodians of the assets of the Plan, have certified to the completeness and accuracy of the following:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2022 and 2021.
- Net depreciation in fair value of investments, interest, dividends, and plan servicing credit income reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2022.
- Investments reflected on the supplemental schedule of assets (held at end of year).

Note 8 – Parties-in-Interest Transactions

Certain plan investments are registered investment companies, fixed annuity contracts, and pooled separate accounts managed by the custodians. Therefore, these transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan for TIAA and CREF transaction fees are netted against investment earnings and totaled approximately \$82,083 for the year ended December 31, 2022.

TIAA and CREF receive revenue from investment service providers for services they provide to the funds. This revenue is used to offset certain amounts owed to TIAA and CREF for its administrative services to the Plan. If the revenue received from such service providers exceeds the amount due to TIAA and CREF, they remit the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. The Plan received \$40,064 in servicing credit income during the year ended December 31, 2022.

Notes to Financial Statements

Note 9 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to risks, such as interest rate, market volatility, and credit risks. Market risks include global events which could impact the value of investments securities, such as a pandemic or international conflict. It is reasonably possible that, given the level of risk associated with investment securities, changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

Note 10 – Plan Termination

Although there is no current intent to do so, the University has the right to terminate the Plan subject to the provision of ERISA. In the event of a complete or partial termination of the Plan, or upon complete discontinuance of contributions, the entire interest of each of the affected participants will become fully vested.

Note 11 – Reconciliation to Form 5500

The Form 5500 has certain items that differ from amounts shown on the accompanying financial statements. These differences relate to classification only and have no effect upon net assets available for benefits for either period.
