Windsor Door, Inc. Pension Plan for Hourly Employees
New Albany, Ohio

INDEPENDENT AUDITOR'S REPORT

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Windsor Door Pension Plan for Hourly Employees, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021 and August 31, 2022, and the related statements of changes in net assets available for benefits for the eight months ended August 31, 2022 and the year ended December 31, 2021, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of Windsor Door Pension Plan for Hourly Employee's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of December 31, 2021 and August 31, 2022 and for the eight months ended August 31, 2022, stating that the certified investment information, as described in Note D to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Windsor Door Pension Plan for Hourly Employees and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Windsor Door Pension Plan for Hourly Employees' ability to continue as a going concern within one year after financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Windsor Door Pension Plan for Hourly Employees' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Windsor Door Pension Plan for Hourly Employees' ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

The supplemental schedule of Schedule H, Part IV, Line 4j – Schedule of Reportable Transactions, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion

- **The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.**
- **The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).**

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2022 and December 31, 2021

NOTE A - DESCRIPTION OF PLAN

The following description of the Windsor Door, Inc. Pension Plan for Hourly Employees (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

Plan Merger

During the period ended August 31, 2022, the Plan was merged into the Windsor Door, Inc. Retirement Plan for Salaried Employees.

General

The Plan, established January 1, 1998, is a noncontributory defined benefit pension plan covering the hourly employees, including those employees who are members of collective bargaining units that are eligible to participate in the Plan under the terms of a collective bargaining agreement, of Windsor Door, Inc. (the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective July 1, 1999, the Company amended the Plan to freeze future benefit allocations for the collective bargaining unit employees at the Company's Marysville, California plant.

Effective April 1, 2003 (the Freeze Date), the Company froze the portion of the Plan that benefits the Sheet Metal Workers' International Association Local 428 at the Little Rock, Arkansas plant. Effective on the Freeze Date, the Plan prohibits additional Local 428 Employees from becoming participants in the Plan and ceases benefit accruals to all Local 428 participants.

Eligibility and Vesting

Hourly employees covered under a collective bargaining agreement are eligible to participate in the Plan as of the dates set forth in each collective bargaining agreement.

Participants become 100% vested upon completion of five years of service, attainment of normal retirement age, or termination of the Plan. If a participant terminates employment before completing five years of service, he/she forfeits the right to receive the benefits accumulated.

Pension Benefits

At normal retirement (age 65), participants are entitled to monthly pension benefits based on years of service and specified multipliers, as defined by the Plan. A participant is entitled to reduced monthly pension benefits upon reaching his or her early retirement date, as defined in each collective bargaining agreement.

If the participant is married on the date the benefits are to begin the options are: joint and 50% survivor, joint and 75% survivor or life annuity (with notarized waiver from spouse), unless otherwise elected. If the participant is single on the date the benefits are to begin, the participant will automatically receive a life annuity.

Funding Policy

The Company contributes such annual amounts as are necessary to maintain the Plan on a sound actuarial basis. The Plan has met the minimum funding requirements of ERISA. The Company's present intention is to make annual contributions in amounts sufficient to fund the Plan's current year service cost and the initial past service cost plus interest.

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Plan Termination

The Company adopted an amendment to merge the Plan assets into the Windsor Door, Inc. Retirement Plan for Salaried Employees August 31, 2022 and terminate the plan effective on that date. The accrued benefits of the participants became fully vested.

Its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on the priority of those benefits, the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (the PBGC), and the sufficiency at that time of the Plan's net assets to fund those benefits. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty, while other benefits may not be provided at all.

Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on August 31, 2022.

Administrative Expenses

The Plan had administrative expenses of \$0 and \$(19) for the years ended August 31, 2022 and 2021, respectively.

Income Tax Status

The Plan obtained an opinion letter on November 24, 2015, in which the Internal Revenue Service (IRS) stated that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is exempt.

Wasting Trust

Due to the sale of the Plan Sponsor in 2003, the decision was made to freeze the Plan as there were other benefit options offered by the buyer. Participants are no longer accruing benefits, but the Plan will remain in existence as long as necessary to pay already accrued benefits.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed in the preparation of these financial statements. These policies conform to accounting principles generally accepted in the United States of America and have been applied on a consistent basis.

Method of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for disclosure of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Use of Estimates

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

Contributions to the Plan and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, employee compensation, and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term, and due to uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The Plan Administrator has evaluated all activity of the Plan through June 13, 2023, the date the financial statements were available to be issued and concluded that no subsequent events have occurred that would require recognition or disclosure in the financial statements or notes.

NOTE C - FAIR VALUE

FASB ASC 820 establishes a framework for measuring fair value, which provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described in the table below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

August 31, 2022 and December 31, 2021

NOTE C - FAIR VALUE (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2022 and December 31, 2021.

Money market: Valued at amortized cost, which approximates fair value and includes investments in high quality, short-term money market instruments, which are issued and payable in US dollars. (Level 1)

Mutual funds and exchange traded funds: Valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end. (Level 1)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables sets forth by level, within the fair value hierarchy, the Plan's assets at fair value:

August 31, 2022	Total	(Level 1)	(Level 2)	(Level 3)

NOTE D - INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has obtained certifications from Matrix Trust Company, the trustee, that the information provided to the plan administrator by the trustee is complete and accurate in accordance with 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. A summary of information included in the financial statements, which has been certified, is as follows as of and for the years ended December 31:

	<u>2022</u>	<u>2021</u>
Investments at fair value	\$ -	\$ 5,993,092
Net (depreciation) appreciation in fair value of investments	(109,101)	464,323
Interest and dividends	2,743	249,222

NOTE E - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered through the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries or employees who have died, and (c) present employees or their beneficiaries. The accumulated plan benefits are based on the monthly benefit amount designated by the Plan and in effect at the valuation date. Benefits payable under all circumstances - retirement, death, disability, and termination of employment - are included, to the extent they are deemed attributable to employee service rendered through the valuation date.

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to reflect the time value of money and the probability of payment between the valuation date and the expected date of payment, and was determined by an independent actuary. The significant actuarial assumptions and method underlying the actuarial computations as of January 1, 2022 and 2021 are as follows:

Actuarial cost method – Projected Unit Credit Actuarial Cost Method

Mortality – PRI-2012 Blue Collar Mortality Table with Scale MP-2021

Assumed rate of return – 7.5% compounded annually for 2021 and 2020

Retirement age – Between ages 60 and 65, according to a set of retirement rates for active members; age 65 for terminated members with vested rights

NOTE F - ACCUMULATED PLAN BENEFITS

The present value of accumulated plan benefits of the Plan is as follows as of:

	<u>August 31, 2022</u>	<u>January 1, 2022</u>
Vested benefits:		
Participants currently receiving payments	\$ -	\$ 2,746,908
Other participants	-	927,892
Total	<u>\$ -</u>	<u>\$ 3,674,800</u>

Changes in the present value of accumulated plan benefits are as follows:

Present value of accumulated plan benefits at January 1, 2022	\$ 3,674,800
Benefits paid	(261,670)
Transfers from the plan	(3,413,130)
Present value of accumulated plan benefits at August 31, 2022	<u>\$ -</u>

The accumulated plan benefit information presented as of January 1, 2022 includes the effects of the Plan amendment to freeze the Plan, which became effective April 1, 2003.

1. Interest Rates:

a. Funding/Target Liability

Minimum Required

IRS Segment rates as of the fourth month preceding the valuation date subject to the MAP-21 95% - 105% corridor as amended by ARPA-21:

- i. Tier 1 – Years 0-5
- ii. Tier 2 – Years 5-20
- iii. Tier 3 – Years 20+

4.75% per year.
5.18% per year.
5.92% per year.

Maximum Deductible

IRS Segment rates as of the fourth month preceding the valuation date:

- i. Tier 1 – Years 0-5
- ii. Tier 2 – Years 5-20
- iii. Tier 3 – Years 20+

1.07% per year.
2.68% per year.
3.36% per year.

2. Mortality Rates:

2022 Schedule SB, Part V – Statement of Actuarial Assumptions/Methods
Plan Name: Windsor Door, Inc. Pension Plan for Hourly Employees
EIN: 34-1536737
PN: 004

10. Asset Valuation Method:

Three-year Smoothed Market Value. Under this method, each year, an actuarial gain/(loss) is calculated by determining the difference between expected market value and actual market value. Expected market value is equal to the prior year's market value brought forward with actual contributions, expenses and distributions and an actuarially assumed rate-of-return.

Actuarial Value of Assets is equal to market value less 2/3 of the prior year's gain/(loss) less 1/3 of second prior year's gain/(loss). The final Actuarial Value of Assets will be adjusted to be no less than 95% or no more than 105% of market value of assets.

11. Fiscal Year:

January 1st to December 31st.

12. Rationale for Assumptions:

The IRS segment rates and mortality tables used to determine minimum funding and maximum deductible amounts are pursuant to IRS regulations. The discount rate for ASC 715-30 obligations is selected using the FTSE Pension Liability Index spot rates for the month including the prior year measurement date and the Plan's specific cash flow based on the actuarial assumptions disclosed here. The discount rate for ASC 960 obligations is assumed to be equal to the long term expected rate-of-return on the plan assets. The selection of other actuarial assumptions is based on the actuary's best estimate of future expectations based on an examination of historical results compared to expectations, periodic experience studies, Society of Actuaries mortality studies, and any reasonably certain information about future expected plan changes.

13. Changes Since Last Year:

The interest rates and mortality table used to determine the Target liability were updated pursuant to IRS regulations.
