REPORT OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS

Plan Administrator
Curry College Defined Contribution Retirement Plan

Scope and nature of the ERISA Section 103(a)(3)(C) audit for the 2022 financial statements

We were engaged to perform an audit of the financial statements of Curry College Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of August 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements ("2022 financial statements").

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2022 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of and for the year ended August 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Disclaimer of opinion on the 2022 financial statements

We do not express an opinion on the accompanying 2022 financial statements of the Plan. Because of the significance of the matters described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the 2022 financial statements.

Basis for disclaimer of opinion on the 2022 financial statements

As described in Note 2 to the financial statements, the Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to August 31, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the 2022 financial statements may have been affected by these conditions.

Responsibilities of management for the 2022 financial statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's responsibilities for the audit of the 2022 financial statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue an auditor's report. However, because of the matter described in the Basis for Disclaimer of Opinion on the 2022 Financial Statements section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits.

Other matters***2022 supplemental schedule required by ERISA***

The supplemental schedule assets (held at end of year) as of August 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the Basis for Disclaimer of Opinion section on the 2022 financial statements of our report, it is inappropriate to and we do not express an opinion on the 2022 supplemental schedule referred to above.

Auditor's report on the 2021 financial statements

We were engaged to audit the 2021 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated June 13, 2022,

we indicated that because of the significance of the information that we did not audit and because the Plan had not maintained sufficient accounting records and supporting documents relating to certain contracts and custodial accounts issued to current and former employees prior to August 31, 2009, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2021 financial statements.

Curry College Defined Contribution Retirement Plan

NOTES TO FINANCIAL STATEMENTS

August 31, 2022 and 2021

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Curry College Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a customized defined contribution 403(b) plan and covers all eligible employees of Curry College (the "College"). The College established the Plan to provide employees with a systematic means of savings and investing for the future. The College's Board of Trustees is responsible for oversight of the Plan. The Retirement Investment Committee comprises employees of the College and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's management. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Eligibility

Employees become eligible to participate in the plan for the employee deferral portion upon their date of hire with the College.

Contributions

Participants may contribute up to 100% of certain compensation, subject to limitations established by the Internal Revenue Code ("IRC") and other limitations specified by the Plan, into various investment options offered by the Plan. Participants may also make Roth elected deferrals into the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan was amended effective December 6, 2020 to make the matching contributions discretionary for employees not covered under the collective bargaining agreement. Participants are eligible to receive College matching contributions after having completed one year of eligible service and then 1,000 hours annually. Faculty employees receive matching contributions equal to 200% of their elected deferral amount up to 6% of eligible compensation (yielding a 12% maximum matching contribution); all other match eligible employees receive matching contributions equal to 100% of their elected deferral amount up to 3.5% of eligible compensation effective September 1, 2021, and through May 31, 2022. Effective June 1, 2022, this was increased to 200% of their elected deferral amount up to 3.5% of eligible compensation (yielding a 7% maximum matching contribution).

Participants are allowed to transfer or rollover funds into the Plan from other qualified plans.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the College's matching contributions and an allocation of plan earnings. Allocations are based on participant earnings, account balances, or specified participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions as well as the College's contributions plus actual earnings thereon.

Notes Receivable from Participants

Participants may borrow from their Voya Retirement Insurance and Annuity Company ("Voya") fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account

Curry College Defined Contribution Retirement Plan

balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 6.5%, which are commensurate with local prevailing rates as determined by the Plan administrator. Loan payments are repaid by participants directly to Voya.

Plan Loans

Prior to November 1, 2017, plan loans were issued as separate contracts by Teacher Insurance and Annuity Association ("TIAA") as contemplated under IRC Section 72(p)(5) and do not represent plan assets. Loans are collateralized using a participant's TIAA traditional account balance in an amount equal to 110% of the outstanding loan balance. Participants may borrow a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 45% of his or her TIAA Traditional account balance subject to the terms of the annuity contract and plan provisions. Loan terms range from one to five years in one-year increments (up to 15 years for the purchase of the participant's primary residence). Loans bear interest at ranges from 4% to 4.65% as of August 31, 2022. The loan is made by TIAA with the loan proceeds sourced from its general account. Loan payments are made directly to TIAA. As loan payments are received, TIAA releases the appropriate amount of collateral held in the TIAA Traditional Annuity. Plan loans at August 31, 2022 and 2021 were \$52,351 and \$74,445, respectively. As of November 1, 2017, plan loans were no longer allowed to be taken through TIAA.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive either a lump-sum amount equal to the value of the participant's interest in his or her account, in annual installments or in any form permitted under the annuity contract or custodial account agreement, as elected in writing by the participant or beneficiary. For termination of service for other reasons, a participant may elect to defer payment until normal retirement age, receive a lump-sum payment or a direct rollover to another qualified plan. Participants, while actively employed and under normal retirement age, may receive a benefit payment upon satisfying the hardship provisions as outlined within the Plan. Participants receive minimum required distributions in accordance with Internal Revenue Service ("IRS") regulations.

Administrative Expenses

Administrative expenses will be paid by the Plan, except for those expenses that the College, in its discretion, chooses to pay from time to time. Expenses that are paid directly by the College are excluded from these financial statements. Most investment-related expenses are included in net appreciation in fair value of investments. Fees related to the administration of notes receivable from participants and participant service fees are charged against the participant's account and are included in administrative expenses.

During 2018, the Plan entered into a revenue-sharing agreement with Voya, in which it collects excess revenue generated when investments pay revenue-sharing fees in excess of what is needed to administer the Plan and uses the monies to pay plan expenses or to allocate to plan participants. During the year ended August 31, 2022, the amount received by the Plan was \$50,221 and is included on the statement of changes in net assets available for benefits in interest and dividends. In addition, during the year ended August 31, 2022, total administrative expenses of \$51,679 were paid from the revenue credit funds. The balance in the revenue credit account was \$19,497 and \$20,955 as of August 31, 2022 and 2021, respectively.

Plan Termination

Although it has not expressed any intent to do so, the College has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. However, no such action may deprive any participant or beneficiary under the Plan of any vested right.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual method of accounting in accordance with generally accepted accounting principles in the United States of America ("US GAAP").

Prior Exemption from Audited Financial Statements

In November 2007, the Department of Labor ("DOL") issued amended regulations eliminating an exemption granted to 403(b) plans from the annual Form 5500 reporting, disclosure, and audit requirements under Part 1 of Subtitle B of Title I of ERISA. The Plan, however, was established in 1966, and historically, the Plan was viewed as a collection of individual contracts with which participants could engage in a range of actions with limited involvement, if any, by the Plan sponsor. Accordingly, various accounting and payroll records related to the Plan's 403(b) annuity contracts and custodial accounts issued to current and former employees prior to August 1, 2009, were not maintained by the Plan. Consequently, the financial statements have been prepared based on available records analyzed by plan management. As certain records were not available from the inception of the Plan, there can be no assurance as to the completeness or accuracy of the Plan's reported financial information.

Investment Valuation and Income Recognition

The Plan's investments, other than investments that are considered fully benefit-responsive investment contracts, are reported at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Fully benefit-responsive investment contracts are reported at contract value. Contract value is the relevant measurement attributed for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Certain TIAA Traditional Annuity and Voya fixed income contract types are considered fully benefit responsive. See Note 5 for discussion of insurance contracts.

Purchases and sales of investments are recorded on a trade-date basis, interest income is recorded on an accrual basis, and dividends are recorded on the ex-dividend date. Net depreciation in the fair value of investments includes the Plan's realized and unrealized gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make their loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. There is no allowance for credit losses during the year ended August 31, 2022.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS - CONTINUED

August 31, 2022 and 2021

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect assets and liabilities, changes within, and disclosures. Accordingly, actual results may differ from those estimates.

Subsequent Events

For purposes of determining the effects of subsequent events on these financial statements, management has evaluated subsequent events through June 14, 2023, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board Accounting Standards Codification ("ASC") 820 are described as follows:

Level 1 - Observable inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at August 31, 2022 and 2021.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Registered investment companies: These investments are stated at fair value based on quoted market prices available on the last day of the Plan year.

TIAA Real Estate Account (a pooled separate account): This investment is valued using independent pricing sources. Although the underlying assets of the fund cannot be quickly sold and converted to liquid assets, the TIAA general account provides the fund with a liquidity guarantee whereby TIAA ensures that the fund has funds available to meet participant redemption, transfer, or cash withdrawal requests. Redemptions are allowed daily not to exceed one per calendar quarter.

Traditional Annuity Contract - Non-Fully Benefit Responsive: The contract is reported at fair value. Fair value approximates contract value for non-fully benefit responsive versions. The fair value of the Traditional Annuity Contract - Non-Fully Benefit Responsive equals the sum of accumulated cash contributions, interest credited to the Plan's contract, the effects of transfers in or out and any withdrawals. The Traditional Annuity Contract is not available for sale or transfer on any securities exchange. Accordingly, transactions in similar investment instruments are not observable. While transactions involving the purchases/sales of individual Traditional Annuity Contracts are not observable in a public marketplace, contract value may provide a good approximation of fair value (See Note 5).

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the fair value of assets measured on a recurring basis:

NOTE 4 - INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIANS

The following is a summary of the Plan's asset information as of August 31, 2022 and 2021, included throughout the Plan's financial statements and supplementary schedule, that was prepared by or derived from information provided by TIAA, VRIAC, and Voya Institutional Trust Company ("VITC"), the custodians of the Plan. The Plan Administrator has obtained certifications from the custodians that information provided to the Plan Administrator related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplementary information related to the following assets.

- Investments, at fair value and contract value, and notes receivable from participants as shown in the statements of net assets available for benefits as of August 31, 2022 and 2021.
- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended August 31, 2022.
- Schedule H, Line 4i - schedule of assets (held at end of year) as of August 31, 2022.

NOTE 5 - INVESTMENTS IN INSURANCE CONTRACTS

As of August 31, 2022 and 2021, the Plan has a benefit-responsive investment contract with VRIAC. Voya maintains the contributions in a general account. The account is credited with earnings on the underlying

investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principle plus a specific interest rate that is guaranteed by the Plan. As described in Note 2, because the contract is fully benefit responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 1%. Such interest rates are reviewed on an annual basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring.

The contract does not permit Voya from terminating the agreement prior to contract expiration.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

As of August 31, 2022 and 2021, the Plan has entered into an annuity agreement with TIAA. Participants individually contract with TIAA to establish an account within the TIAA Traditional Annuity. The TIAA Traditional Annuity is offered through a variety of contracts including retirement annuities ("RA"), supplemental retirement annuities ("SRA") and group supplemental retirement annuities ("GSRA") as determined by the contract between TIAA and the participant. SRA and GSRA contracts are considered fully benefit-responsive because they are liquid contracts. RA contracts are considered non-benefit responsive due to certain illiquidity features discussed below. Participant contributions may be made to an RA, SRA, or GSRA contract as determined by the participant. Participant accumulations are available in lump-sum payments upon meeting certain triggering events under an SRA or GSRA contract. Due to the withdrawal characteristics, the crediting interest rates to SRA or GSRA contracts are typically lower than the crediting interest rates to RA contracts.

The TIAA Traditional Annuity is credited with contributions and charged for participant withdrawals and administrative expenses. The crediting rates are supported by the investment performance of the underlying investments and may be reset as frequently as monthly.

Contract value is the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive TIAA Traditional Annuity contracts (SRA and GSRA contracts). Contributions and interest credited to participants in all TIAA Traditional Annuity contracts are valued at no less than a participant's accumulation balance. With respect to payments made to a participant in the withdrawal stage, a participant receives no more than the participant's accumulation balance. Therefore, TIAA has determined that contract value for non-benefit responsive contracts (RA contracts) of the TIAA Traditional Annuity approximates its fair value. The non-benefit responsive portion of the TIAA Traditional Annuity is presented in the statements of net assets available for benefits at fair value, which is approximately equal to contract value in arriving at net assets available for benefits and the benefit

NOTES TO FINANCIAL STATEMENTS - CONTINUED

responsive portion is presented at contract value. The TIAA Traditional Annuity value, as reported to the Plan by TIAA represents contributions made under the contract plus earnings and transfers (if any), less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

When participants choose to allocate a portion of their retirement savings to the TIAA Traditional Annuity during the accumulation phase of the contract, their contributions purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. The participant's principal, plus a specified minimum rate of interest are guaranteed by TIAA's claims-paying ability. The TIAA Traditional Annuity also provides the potential for additional interest if declared by TIAA's Board of Trustees. Additional interest, when declared, remains in effect for the declaration year, which begins each March 1 for accumulating annuities, and January 1 for lifetime payout annuities. Additional interest is not guaranteed for future years. Together, the guaranteed minimum and additional amounts make up the crediting interest rate. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3%. Such interest rates are reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The GSRA contracts provide for fully participant-directed liquidity. Therefore, the GSRA contract is fully benefit-responsive. When a participant's accumulation in the TIAA Traditional Annuity is converted to a lifetime payout annuity, the present value of the stream of payments is equal to the accumulated balance, and the entire amount is recorded as a distribution in the statement of changes in net assets available for benefits. There are certain events, such as the premature termination of the contract by the Plan or the termination of the Plan itself, which could limit the Plan's ability to transact at contract value with the contract issuers. The Plan administrator believes the occurrence of such events that would limit the Plan's ability to transact at contract value with the Plan's participants is not probable.

NOTE 6 - TRANSACTIONS WITH PARTIES-IN-INTEREST

Under ERISA, parties-in-interest are defined to include the Plan sponsor, officers, directors and employees of the sponsor; direct and indirect owners of the sponsor and their relatives, if they have combined voting power of 50% or more; the Plan custodian or trustee and the Plan administrator; other parties with fiduciary responsibilities; and a person and their relatives or an organization that provides services to the Plan such as the Plan actuary, auditors, lawyers, investment advisors, etc. Certain plan investments are managed by TIAA and Voya, who are custodians as defined by the Plan and therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants and transactions within the revenue sharing account also qualify as party-in-interest transactions.

NOTE 7 - TAX STATUS

The Plan's terms have been drafted to conform with the sample language provided by the IRS in Revenue Procedure 2007-71. The Plan is required to operate in conformity with the IRC to maintain its tax exemption. The Plan operates under a volume submitter 403(b) Plan which received a favorable opinion letter dated March 31, 2017. Plan management believes the Plan is currently designed and operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

US GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
