AT HOME SOLUTIONS, LLC
EMPLOYEES PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020

1. Description of Plan

The following description of At Home Solutions, LLC, Employees Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

A. General

The Plan is a 401(k) plan covering all employees who have completed one year of service and choose to participate in the Plan. Employees who are covered by a collective bargaining agreement are excluded from employer non-elective contributions, employer matching contributions, and employee elective deferrals. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

B. Contributions

Participants may contribute up to 100% of their pre-tax annual compensation to the Plan, subject to annual individual deferral limitations under the Internal Revenue Code ("IRC"). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions, as defined by the IRC. Participants may also contribute amounts representing distributions from other qualified defined contribution plans as well as after-tax contributions from their current compensation.

There is no employee matching contribution for the Plan, and the employer did not make any discretionary contributions for the year ended December 31, 2020.

C. Participants' Accounts

Each participant establishes his or her own separate investment account within Capital Bank and Trust Company solely for that individual's contributions. Each participant's account is credited with the actual investment performance realized by the investments of his or her investment account.

1. Description of Plan - (Continued)

D. Vesting

Participants are immediately vested in prevailing wage, safe harbor, and their own contributions, plus actual earnings thereon. Vesting in the Company's matching and non-elective contributions portion of their accounts, plus actual earnings thereon, is determined under the following schedule:

Years of Service	Vested Percentages
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A Participant is also 100% vested under any of the following conditions:

- Death before retirement date;
- Disability before retirement date.

E. Forfeitures

Forfeitures of Employer matching contributions of terminated participants' non-vested accounts may be used to pay administrative expenses of the Plan or used to reduce Employer contributions.

F. Payment of Benefits

Upon termination of service due to death, disability, retirement, or any other reason, a participant or his or her beneficiaries may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount.

Distribution of benefits will also begin when a participant attains the age of 65.

G. Hardship Withdrawals

The Plan provides for hardship withdrawals, as set forth in accordance with applicable sections of the Internal Revenue Code, not to exceed a participant's actual contributions to the Plan, which must result from an immediate and heavy financial need of the participant as determined on a non-discriminatory basis by the Plan Administrator.

1. Description of Plan - (Continued)

H. Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The maximum term of a residence loan is 30 years.

2. Summary of Significant Accounting Policies

A. Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

B. Estimates and Assumptions

The preparation of financial statements in conformity with generally accepted accounting principles requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

C. Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

D. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the loan balance is reduced and a benefit payment is recorded based upon terms of the Plan document.

E. Payment of Benefits

Benefits are recorded when paid.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the assets or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2019 and 2018.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3. Fair Value Measurements – (Continued)

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following table sets forth by level, within the fair market value hierarchy, the Plan's assets at fair value as of December 2019 and 2018:

	Assets at Fair Value as of December 31, 2020			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 100,107	$ -	$ -	$ 100,107

	Assets at Fair Value as of December 31, 2019			
	Level 1	Level 2	Level 3	Total
Mutual Funds	$ 74,459	$ -	$ -	$ 74,459

4. Information Prepared and Certified by the Trustee

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by Capital Bank and Trust Company, the Trustee, except for comparing such information with the related information included in the accompanying financial statements and supplemental schedule. The Plan Administrator has obtained certifications from the Trustee stating that the information provided to the Plan Administrator by the Trustee is complete and accurate. Such information includes investments (mutual funds, collective trust funds, and self-directed brokerage accounts), notes receivable from participants, interest and dividend income, interest income on notes receivable from participants, net appreciation (depreciation) in fair value of investments, and investment transactions. In addition, Capital Bank and Trust Company is the custodian of the pooled separate accounts and stable value fund and certified the information related to those investments.

5. Plan Termination

Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

During 2021, the Plan Administrators voted to terminate the Plan and to distribute Plan assets as soon as administratively practicable after receipt of an IRS determination letter on the Plan's termination. All Plan assets were distributed by December 31, 2021.

6. Tax Status

The IRS has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that, more likely than not, would be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses

The Company pays administrative expenses associated with the management of and professional services for the Plan. Certain administrative fees are paid from forfeited account balances while others, including fees for hardship withdrawals, are paid by the participants.

8. Voluntary Fiduciary Correction Program

The Employer determined that it was likely certain remittances of employee deferrals and/or loan repayments for the year ended December 31, 2018 and 2019, were not made timely in accordance with DOL guidelines. The Plan Sponsor ultimately decided to categorize the remittances in question as prohibited transactions. The Plan sponsor has formally corrected some of these violations subsequent to December 31, 2020, through the DOL's Voluntary Fiduciary Correction Program ("VFCP"), listed under Contributions Pending Correction in VFCP. All remittances that the Plan Sponsor has corrected are included on the schedule of delinquent participant contributions in the supplementary schedules of the financial statements.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of the investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

The COVID-19 outbreak continues as of the date of this report. There are many uncertainties related to the COVID-19 global pandemic that could negatively affect the Plan's statement of net assets available for benefits and statement of changes in net assets available for benefits. The Plan's individual investments fluctuate in response to changing market conditions, therefore, the effect of the COVID-19 pandemic on its investment values in subsequent periods, if any, cannot be determined.

10. Subsequent Events

The Company has adopted ASC855 "Subsequent Events" and evaluated events and transactions that occurred through March 1, 2023, which is the date of the financial statements, for possible disclosure and recognition in the financial statements.

During 2021, the Plan Administrators voted to terminate the Plan and to distribute Plan assets as soon as administratively practicable after receipt of an IRS determination letter on the Plan's termination. All Plan assets were distributed by December 31, 2021.
