Independent Auditors' Report

The Plan Administrator and Plan Participants
The PepsiCo Savings Plan:

Opinion

We have audited the financial statements of The PepsiCo Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with U.S. generally accepted accounting principles.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of Schedule H, line 4a - Schedule of Delinquent Participant Contributions for the year ended December 31, 2022 and Schedule H, line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Note 1 – Description of the Plan

The following brief description of The PepsiCo Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

In general, the Plan provides a program under which eligible salaried and hourly employees (eligible employees) of PepsiCo, Inc. and certain of its subsidiaries (the Company) may accumulate funds for long-term retirement savings. All eligible employees who are paid in U.S. dollars from a U.S. payroll and classified as full time, and certain other employees as defined in the Plan document, are immediately eligible on their first day of service. Part-time eligible employees who are paid in U.S. dollars from a U.S. payroll who have completed 1,000 hours of service during a 12-month period are eligible to participate in the Plan. Certain employees who are part of a collective bargaining unit and certain other employees, as defined in the Plan document, are not eligible to participate in the Plan.

The Plan is a defined contribution plan with a cash or deferred arrangement and is intended to satisfy the qualification requirements under Sections 401(a) and 401(k) of the Internal Revenue Code of 1986, as amended (the Code). The Plan has an employee stock ownership plan component within its PepsiCo Common Stock Fund. The Plan also has a Roth 401(k) feature. The participant-directed accounts under the Plan are intended to meet the requirements of Section 404(c) of the Employee Retirement Income Security Act of 1974, as amended (ERISA). In addition, the Plan is subject to the provisions of ERISA.

In the first quarter of 2022, the Company completed the sale of Tropicana, Naked and other select juice brands to PAI Partners and retained a 39% noncontrolling interest in a newly formed joint venture, Tropicana Brands Group (TBG). As a result, $203 million of plan assets related to participants who became employees of TBG were transferred to TBG's defined contribution plan.

Administration

The Company maintains sponsorship of the Plan and has established the PepsiCo Investment Committee to oversee the Plan's investment structure. Overall responsibility for administering the Plan rests with the PepsiCo Administration Committee (the Plan Administrator). The trustee for the Plan is Fidelity Management Trust Company (the Trustee), and the recordkeeper for the Plan is Fidelity Workplace Services LLC.

Contributions

Each year, participants are allowed to contribute up to 50% of their earnings, in whole percentage increments, up to a maximum pre-tax amount under the Code ($20,500 for 2022). Participants may contribute to the Plan any portion of lump-sum distributions received from other qualified plans when the contributions qualify as a tax-free rollover.

Participants who are expected to reach or are over age 50 during a Plan year and are making the maximum contribution are eligible to make additional catch-up contributions (up to an additional 25% of their annual compensation for such Plan year). Under the Code, the maximum allowable catch-up contribution was $6,500 for 2022.

Participants may elect to have their contributions invested in one or more investment options. In general, participants may change their investment elections and transfer their investment amounts between funds on a daily basis, except for transfers from the stable value fund to the self-directed brokerage account; such transfers must be invested into another investment option for a 90-day waiting period. Initial transfers from other investment options to the self-directed brokerage account must be at least $1,000.

Salaried employees who are actively accruing benefits, or in a waiting period to actively accrue benefits, under a Company-sponsored defined benefit pension plan are currently not eligible for Company matching or non-matching contributions in the Plan. Benefits will be frozen for salaried employees who are actively accruing benefits under a Company-sponsored defined benefit pension plan effective December 31, 2025, and they will become eligible for Company matching and non-matching contributions as of January 1, 2026. In general, for other eligible employees, the Company matches 50% of employee contributions up to a limit ranging from 4% to 8% of eligible pay based on years of service, which is invested in accordance with employee elections. Company non-matching contributions are based on age and years of service regardless of employee contribution, up to a maximum of 9% of eligible employee pay. Company non-matching contributions are invested in accordance with the employee's investment elections; however, they may not be invested in the self-directed brokerage option or the PepsiCo Common Stock Fund. Effective January 1, 2023, certain eligible hourly employees who are participants in a Company-sponsored defined benefit plan will receive Company non-matching contributions ranging from 6% to 8% of eligible pay above a certain threshold depending on years of service. Eligible union employees may receive different Company matching and other Company contribution amounts.

The Plan has an automatic enrollment program for full-time and part-time hires. Under the program, eligible employees automatically make pre-tax contributions in the amount of 4% to 10% of earnings. Employees that are automatically enrolled have their contribution invested in a target date fund, based on a target date closest to the employee's 65th birthday. An employee may elect out of the automatic enrollment program at any time, as well as make changes to (or maintain) the level of contributions and may re-direct how those contributions are invested.

Participant Accounts

Each participant account is credited with participant contributions, Company contributions, if applicable, and allocations of investment earnings/losses and expenses. Investment earnings/losses and expenses are allocated based on average daily balances. Certain participant investment accounts are also charged with short-term trading and/or monthly investment service fees, depending on the participant's investment elections.

Vesting

Participants are immediately vested in their own contributions and associated investment earnings/losses. In general, participants are fully vested in the Company contributions and associated investment earnings/losses after three years of service. Forfeited non-vested amounts are used to reduce future Company contributions or pay plan administrative expenses. The forfeited non-vested amounts used to reduce Company contributions were $16.0 million in 2022. As of December 31, 2022 and 2021, remaining unused forfeited non-vested accounts totaled $1.8 million and $0.1 million, respectively.

Notes Receivable from Participants

In general, participants who have a vested balance of $2,000 or more in the Plan may borrow from the total of their investment accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 (subject to certain offsets for prior loans) or 50% of their vested balance. A participant may have two outstanding loans at a time only if one of them is a principal residence loan. Loan terms range from one to five years for personal loans and up to 15 years for loans related to the purchase of a primary residence. The loans are secured by the balance in the participant's account.

Loans issued before January 1, 2013 bear a fixed rate of interest at the prime lending rate plus 1% at the time the loans were issued. Loans issued on or after January 1, 2013 bear a fixed rate of interest at the prime lending rate plus 2% at the time the loans are issued. Loan repayments are made directly through

payroll deductions and are applied first to interest and then to principal according to a payment schedule. There were 37,878 and 37,457 loans outstanding at December 31, 2022 and 2021, respectively, with interest rates ranging from 3.3% to 10.5% with maturities through 2037.

Benefits Paid to Participants

In general, participants may elect to receive a distribution upon hardship, termination, disability, retirement or after the age of $59^{1}/_{2}$; however, loans and hardship withdrawals may not be taken from Company contribution balances. Hardship distributions are allowed for purchasing a primary residence or financing the higher education of the participant, the participant's spouse or dependent, as well as paying unreimbursed medical bills or alleviating certain other financial hardships. Upon termination, disability or retirement, participants may elect to receive benefits in a lump sum or rollover their account balances into other qualified plans. If a participant dies, the total account balance will be paid to the designated or default beneficiary or to his or her estate. Under certain circumstances, participants may also elect to take in-service distributions of any after-tax contributions, rollover contributions and vested matching contributions.

If only a portion of the account is distributed, the remaining balance will continue to be adjusted for any contributions and investment earnings/losses. Participants can elect to receive benefit payments in a lump sum or annual installments for a period no longer than the participant's life expectancy. However, vested account balances of $5,000 or less must be distributed in a lump sum. If the account balance is greater than $1,000 and less than or equal to $5,000, and if a distribution election is not made within the required time frame, that account will be rolled over into a Fidelity Rollover IRA and invested in the Fidelity Government Cash Reserves Fund. If a distribution election is not made within the required time frame for an account balance of $1,000 or less, the account will be distributed automatically.

Termination

Although it has not expressed any intent to do so, the Company may terminate the Plan in accordance with ERISA and the Code. In the event the Plan is terminated, participants would become 100% vested in any Company contributions and the Plan Administrator can direct that all accounts be distributed to the participants or continued in trust for his or her benefit.

Note 2 – Summary of Significant Accounting Policies

Basis of Presentation

The financial statements are prepared under the accrual basis of accounting. The preparation of the financial statements in conformity with U.S. generally accepted accounting principles requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets, liabilities, additions to net assets, deductions from net assets and disclosure of contingent assets and liabilities. Actual results could differ from those estimates and assumptions.

Investment Valuation and Income Recognition

The Plan retains a 100% interest in the PepsiCo, Inc. Defined Contribution Plans Master Trust (PepsiCo Master Trust), which holds investments in various securities, commingled trust funds and a stable value fund. These investments are recorded at fair value, except for the fully benefit-responsive investment contracts within the stable value fund. Within the stable value fund, the collective investment trust is recorded at fair value, while the synthetic investment contracts are recorded at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of securities are recognized on the trade date. Interest income is recorded as earned and dividend income is recorded as of the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Notes receivable from participants are deemed delinquent as of the end of the calendar quarter following the calendar quarter in which the loan repayment is due and unpaid. Delinquent notes receivable from participants are recorded as benefits paid to participants.

Payment of Benefits

The Plan accounts for benefits when paid.

Note 3 – PepsiCo Master Trust

Plan Interest

The Plan is the only investor in the PepsiCo Master Trust. The Plan's interest in the net assets of the PepsiCo Master Trust was 100% at December 31, 2022 and 2021.

The PepsiCo Master Trust net assets are detailed below by asset category.

Stable Value Fund

The PepsiCo Master Trust holds investments in a stable value fund, which consists of bond portfolios wrapped in fully benefit-responsive synthetic investment contracts. The majority of the portfolios are made up of government, corporate, mortgage-backed and asset-backed securities. The fully benefit-responsive investment contracts enable the fund to realize a specific known value for the assets if it needs to liquidate them for benefit payments.

The synthetic investment contracts are issued by five investment grade financial institutions and intend to preserve the value of the fund's investments by mitigating fluctuations in the market value of the associated bond portfolios. These synthetic investment contracts are benefit-responsive in that they allow for participant withdrawals at contract value. Contract value represents contributions made under the contract plus earnings, less participant withdrawals and administrative expenses. The contract value of these investments was $917.3 million as of December 31, 2022 and $930.6 million as of December 31, 2021.

The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than zero. Such interest rates are reviewed on a quarterly basis.

Certain events, such as layoffs or early retirement incentives, may limit the ability of participants to access their investments at contract value. The likelihood of such events limiting the ability of the Plan to transact at contract value is not probable. Consistent with industry practice, a contract provider can terminate its contract with, on average, 30 days' notice, provided a for-cause termination event has not occurred. The Plan's contractual right for a wind-down period allows the contract to remain in force, including maintaining benefit-responsive payments to participants, for a period required to converge the market and book values of the contract, which is expected to be, on average, two to three years.

Note 4 – Fair Value Measurements

The guidance on fair value measurements defines fair value, establishes a framework for measuring fair value and identifies required disclosures related to fair value measurements. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to value the assets and liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant judgment.

PepsiCo Master Trust assets measured at fair value as of December 31, 2022 and 2021 are categorized consistently by Level 1 (Quoted Prices in Active Markets for Identical Assets) and Level 2 (Significant Other Observable Inputs) in both years, with no assets categorized as Level 3 (Significant Unobservable Inputs), and are as follows:

	Fair Value Hierarchy Level	2022	2021
		(in thousands)	
Assets			
Cash and cash equivalents[a]	1	**$ 53,995**	$ 74,007
PepsiCo common stock[b]	1	**1,894,177**	1,909,194

(b) Based on quoted market prices in active markets.
(c) Based primarily on yields currently available on comparable securities with similar credit ratings and a compilation of primary observable market information.
(d) Based on the published price of the fund.
(e) Includes cash and cash equivalents held in self-directed brokerage accounts.

Note 5 – Administrative Expenses

In general, the Company pays most of the usual and reasonable direct expenses of the Plan and the Plan Administrator. Any direct expenses not borne by the Company are paid by the Trustee out of the PepsiCo Master Trust. If applicable, expenses related to short-term trading fees, monthly investment service fees and loan fees are charged to participants' investment balances and are reflected in the value of the participants' accounts. Any other indirect expenses, such as investment management fees, are reflected in the change in net asset value of the various funds.

Note 6 – Risks and Uncertainties

The Plan provides for investment options in various securities and funds that invest in equity and debt securities and other investments. Such investments are exposed to risks and uncertainties, such as interest rate risk, credit risk, economic changes, political unrest, regulatory changes and foreign currency risk. The Plan's exposure to a concentration of credit risk is dependent upon the investments selected by participants. These risks and uncertainties could impact the participants' account balances and the amounts reported in the financial statements. Approximately 16% and 13% of the Plan's net assets available for benefits were invested in common stock of the Company through the PepsiCo Master Trust at December 31, 2022 and December 31, 2021, respectively. The underlying value of the Company's stock is impacted by the performance of the Company, the market's evaluation of such performance and other factors.

Note 7 – Tax Status

The Plan's latest favorable determination letter, received from the Internal Revenue Service (IRS), is dated March 11, 2015. Although the Plan has been amended since receiving this determination letter, the Plan Administrator believes the Plan is designed and currently being operated in compliance with the

applicable requirements of the Code and, therefore, the Plan is qualified and the related master trust is tax exempt.

Certain 2019, 2020 and 2022 participant contributions, including loan repayments, transferred late to the Plan, listed on Schedule H, line 4a - Schedule of Delinquent Participant Contributions, are pending correction under the U.S. Department of Labor's Voluntary Fiduciary Correction Program (VFCP) as of December 31, 2022.

The Plan is subject to routine audits by taxing jurisdictions. There are currently no audits in progress for any tax periods. U.S. generally accepted accounting principles require the Plan's management to evaluate uncertain tax positions taken by the Plan. The Plan Administrator has concluded that as of December 31, 2022 and 2021, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements.

Note 8 – Related Party Transactions

Certain Plan investments in the PepsiCo Master Trust are shares of mutual funds managed by an affiliate of the Trustee. Additionally, the PepsiCo Master Trust holds investments in shares of the Company's common stock in the PepsiCo Common Stock Fund. The fair value of the PepsiCo Master Trust investments in the Company's common stock was approximately $1.9 billion at December 31, 2022 and 2021. There have been no known prohibited transactions with a party-in-interest.

Note 9 – Subsequent Events

The Plan Administrator has evaluated subsequent events through the date the financial statements were issued.
