INDEPENDENT AUDITOR'S REPORT

To Plan Participants and Plan Administrator
FMC Corporation Savings and Investment Plan

Opinion

We have audited the financial statements of the FMC Corporation Savings and Investment Plan (Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued.

Management is also responsible for maintaining a current plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audits.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

FMC CORPORATION
SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements
December 31, 2022 and 2021

Note 1 - Description of the Plan

The following description of the FMC Corporation Savings and Investment Plan (the Plan) provides only general information. A more complete description of the Plan's provisions may be found in the Plan Document.

a. General

The Plan is a qualified defined contribution plan under Section 401(k) of the Internal Revenue Code, which covers substantially all employees of FMC Corporation (FMC, the Company or the Plan Sponsor), other than employees who generally reside or work outside of the United States. Such employees are eligible to participate in the Plan immediately upon commencement of their employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA). The Plan is administered by the Employee Welfare Benefits Plan Committee of FMC Corporation.

b. Contributions

Participants may elect to defer no more than 50% of their eligible compensation, and contribute it to the Plan's trust on a pretax (i.e. traditional 401(k)) or after-tax (i.e. Roth 401(k)) basis up to the Internal Revenue Code Section 402(g) limit for 2022 of \$20,500. Participants who are aged 50 or older by the end of the plan year may elect to contribute pretax or after-tax catch up contributions, up to a maximum of \$6,500. Participants may also elect to make traditional after-tax contributions (all contributions not to exceed 50% of the total compensation in aggregate).

Employees will be automatically enrolled at a contribution rate of 5% of pre-tax eligible pay. Employees who do not want to be automatically enrolled may opt out by electing a 0% contribution rate.

For eligible employees participating in the Plan, the Company makes matching contributions of 80% of the portion of those contributions up to 5% of the employee's compensation (Basic Contribution). The Company matching contributions are paid in the form of cash and are allocated to participant accounts based upon the participant's investment elections. For the 2022 plan year, total annual contributions from all sources, other than catch-up contributions, were limited to the Internal Revenue Code Section 415(c) limit of the lesser of 100% of compensation or \$61,000.

In addition to the Basic Contribution, all newly hired and rehired salaried and nonunion hourly employees of the Company beginning July 1, 2007 receive an annual employer core contribution of 5% of the employee's eligible compensation. This amount is contributed to the employee's account after the end of each plan year. This change was instituted for these employees effective July 1, 2007, since these employees are not eligible for the Company's defined benefit plan. Also, effective February 1, 2013, existing and newly hired Middleport union employees, except for certain employees who were grandfathered in the defined benefit plan, are eligible for the annual employer core contribution. The 5% core contribution funds are not eligible for participant withdrawals and loans, but are subject to the same vesting requirements as discussed in Note 1(f). Additionally, the 5% core contribution funds are included in the 415(c) limit described above but not in the \$20,500 402(g) limit on pretax contributions also described above. The amount of these 5% core contributions included in the statements of changes in net assets available for benefits were approximately \$8,591,805 and \$7,449,989 for the years ended December 31, 2022 and 2021, respectively.

With the approval of the Plan Administrator, participants are allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans to the Plan.

c. Participant Account Activity

Each participant's account is credited with the participant's contributions, employer matching contributions, and allocations of plan earnings and losses, as determined by the Plan Document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

FMC CORPORATION
SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements—(Continued)
December 31, 2022 and 2021

As previously disclosed in FMC Corporation's Form 8-K filing on January 31, 2022, there was a blackout period in which Affected Participants, as defined below, and their beneficiaries temporarily were unable to obtain a loan or distribution or direct or diversify their Plan investments in the FMC Stock Fund under the Plan. In order to promote diversification and reduce risk for former employees whose holdings in the FMC Stock Fund exceeded 20% of their account balance as of March 4, 2022 ("Affected Participants"), the Plan administrator liquidated a portion of the Affected Participant's FMC Stock Fund holdings to reduce such holdings to not more than 20% of the Affected Participant's total Plan account balance. The proceeds of the sale were invested in the investment option designated by the Plan Administrator as the qualified default investment alternative. Affected Participants had the opportunity to reduce their FMC Stock Fund holdings in their Plan accounts to below the 20% cap before the deadline through voluntary self-directed transactions under the Plan. The blackout period began at 4:00 p.m. Eastern time on March 7, 2022 and ended during the week of March 13, 2022.

d. Trust

The Company established a trust (the Trust) at Fidelity Management Trust Company (the Trustee) for investment purposes as part of the Plan. The recordkeeper of the Plan, Fidelity Investments Institutional Operations Company, is an affiliate of the Trustee.

e. Investment Options

Upon enrollment in the Plan, a participant may direct his or her contributions in 1% increments to each investment option selected. Participants may also elect to have professionals at the Trustee help manage the investments under a program called Fidelity® Portfolio Advisory Services at Work. Certain investment options of the Plan qualify for Class K based on volume held by the Plan in these funds. Class K offers the Plan a lower expense ratio compared to similar retail classes. Investment options for both participant and trustee-directed investments are further described in Note 3.

f. Vesting

All matching contributions, core contributions, and any related earnings are immediately vested for active employees.

g. Payment of Benefits

Upon termination of service, death or disability, any participant or, if applicable, his or her beneficiary may elect to immediately receive a lump-sum distribution equal to the vested balance of his or her account. Upon attainment of age 59 1/2, participants who are employed by the Company can elect in-service distribution of all vested accounts. Participants or beneficiaries whose accounts were valued at not less than \$1,000 upon termination are able to elect to defer their lump-sum distribution, take distribution in the form of periodic payments or receive installments (annually, quarterly, or monthly) over a certain period that may not exceed the joint life expectancy of the participant and beneficiary.

h. Participant Withdrawals and Loans

The Plan allows participants to make hardship cash withdrawals (subject to income taxation and Internal Revenue Service penalties) from some or all of his or her vested account balances. Withdrawals from participants' after-tax and rollover accounts may be made at any time. Eligible participants may also receive money from the Plan in the form of loans. Loans are secured by participant accounts and repaid through payroll deductions. The minimum that may be borrowed is \$1,000. The maximum that may be borrowed is the lesser of \$50,000, less the balance of any outstanding loans, or 50% of the participant's vested account balance. The Plan limits participant loans to one outstanding loan at any time. Additionally, a 30-day waiting period is required before a participant can initiate a new loan from an employee plan account after the outstanding loan is paid in full. Loans must be repaid over a period not greater than 60 months with the exception of loans used for the purchase of a primary residence, which may be repaid over a maximum of 240 months with interest charged at the prime rate at loan inception. As of December 31, 2022, the interest rates on the participant loans ranged from 3.25% to 8.25%.

SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements—(Continued)
December 31, 2022 and 2021

i. Forfeited Accounts

Forfeitures by participants of non-vested matching contributions ("Forfeitures") are used to offset future employer matching contributions for other participants and to pay future plan expenses. In 2022, employer matching contributions were reduced from Forfeitures by \$200,000. In 2021, there were no forfeitures reducing employer matching contributions. Also, in 2022 and 2021, plan expenses of \$247,860 and \$157,779, respectively, were paid from Forfeitures. At December 31, 2022, there were \$231,351 in Forfeitures available to reduce future employer matching contributions and pay future plan expenses. At December 31, 2021, there were \$325,135 in Forfeitures available to reduce future employer matching contributions and pay future plan expenses.

j. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 2 - Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

a. Basis of Accounting

The Plan's financial statements have been prepared using the accrual basis of accounting.

b. Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or would be paid to transfer a liability in an orderly transaction between participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

c. Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent notes receivable from a participant are reclassified as distributions based upon the terms of the Plan document.

d. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

e. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities, in general, are exposed to various risks such as interest rate, credit risks and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

f. Payment of Benefits

Benefit payments are recorded when paid.

SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements—(Continued)
December 31, 2022 and 2021

g. Plan Expenses

The compensation and expenses of the Trustee are paid by participants and the Company. All other expenses of the Plan may be paid by the Trustee out of the assets of the Plan and constitute a charge upon the respective investment funds or upon the individual participants' accounts as provided for in the Plan.

Note 3 - Description of Investments

The objectives of the primary investments in which participants were invested in during 2022 are described below.

Common Stock:

FMC Stock - Funds are invested in the common stock of the Company.

Mutual Funds:

Large Cap Funds:

T. Rowe Price Large-Cap Value Fund I Class - The fund will normally invest at least 80% of its net assets (including any borrowings for investment purposes) in securities of large-cap companies that the portfolio manager regards as undervalued.

Vanguard Institutional Index Fund Institutional "Plus" Shares - The fund employs an indexing investment approach designed to track the performance of the Standard & Poor (S&P) 500 Index, a widely recognized benchmark of U.S. stock market performance that is dominated by the stocks of large U.S. companies.

Mid Cap Funds:

Fidelity® Low-Priced Stock K6 Fund - The fund is heavily invested in stocks considered to be undervalued by the fund manager, which can lead to investment in small and medium-sized companies. The fund invests primarily in low-priced common stocks, which are defined as those priced at or below \$35 per share or with an earnings yield at or above the median for the Russell 2000 Index.

Vanguard Extended Market Index Fund Institutional Shares - The fund employs an indexing investment approach designed to track the performance of S&P Completion Index, a broadly diversified index of stocks of small and mid-size U.S. companies.

Small Cap Funds:

Harbor Small Cap Growth Fund Retirement Class - The fund invests primarily in equity securities, principally common and preferred stocks of small cap companies. Under normal market conditions, the fund invests at least 80% of its net assets, plus borrowings for investment purposes, in securities of small cap companies.

Cardinal Small Cap Value Fund Institutional Class - Under normal circumstances, the fund invests at least 80% of its net assets (plus any borrowings for investment purposes) in securities of small capitalization companies. The securities in which the fund invests are primarily common stock and real estate investment trusts.

International Funds:

Fidelity® Diversified International K6 Fund - The fund invests primarily in non- U.S. securities and allocates investments across different countries and regions. It uses fundamental analysis of factors such as each issuer's financial condition and industry position, as well as market and economic conditions, to select investments.

Vanguard Total International Stock Index Fund Institutional Shares - The fund employs an indexing investment approach designed to track the performance of the FTSE Global All Cap ex US Index, a float-adjusted market capitalization-weighted index designed to measure equity market performance of companies located in developed and emerging markets, excluding the United States.

FMC CORPORATION
SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements—(Continued)
December 31, 2022 and 2021

Income Funds:

PIMCO Total Return Fund Institutional Class - The fund invests at least 65% in a diversified portfolio of fixed income instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. It may also invest in securities denominated in foreign currencies.

Vanguard Total Bond Market Index Fund Institutional Shares - The fund seeks the performance of Bloomberg U.S. Aggregate Float Adjusted Index, which represents a wide spectrum of public, investment-grade, taxable, fixed income securities in the United States - including government, corporate, and international dollar-denominated bonds, as well as mortgage-backed and asset-backed securities, all with maturities of more than one year. All of the fund's investments will be selected through the sampling process, and at least 80% of its assets will be invested in bonds held in the index.

Money Market Fund:

Government Money Market Fund - The fund is invested in short-term obligations of the U.S. government or its agencies.

Collective Investment Trusts:

Large Cap:

Fidelity Blue Chip Growth Commingled Pool - The portfolio normally invests at least 80% of assets in blue chip companies (companies whose stock is included in the S&P 500 Index or the Dow Jones Industrial Average, and companies with market capitalizations of at least \$1 billion if not included in either index). This generally includes a broad list of equity issues across several market categories, and includes foreign and domestic issuers.

Mid Cap:

AllSpring Discovery SMID Cap Growth CIT E2 - The portfolio invests in equity securities of small-and mid-capitalization companies where the investment advisor believes that growth is robust, sustainable, and not fully recognized by the market. The portfolio may also invest in equity securities of foreign issuers through American depositary receipts and similar investments.

Target Date:

Vanguard Target Retirement Trusts - A series of asset allocation funds: Vanguard Target Retirement Income Trust II, Vanguard Target Retirement 2020 Trust II, Vanguard Target Retirement 2025 Trust II, Vanguard Target Retirement 2030 Trust II, Vanguard Target Retirement 2035 Trust II, Vanguard Target Retirement 2040 Trust II, Vanguard Target Retirement 2045 Trust II, Vanguard Target Retirement 2050 Trust II, Vanguard Target Retirement 2055 Trust II, Vanguard Target Retirement 2060 Trust II, and Vanguard Target Retirement 2065 Trust II. The income fund invests in other Vanguard mutual funds according to an asset allocation strategy designed for investors currently in retirement. The 11 target date trusts are designed for investors who want a simple approach to investing for retirement by investing in a collection of other Vanguard mutual funds by targeting their retirement dates.

Stable Value:

Managed Income Portfolio II Class 2 - The portfolio invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions ("Contracts"), fixed income securities, and money market funds. Under the terms of the Contracts, the assets of the fund are invested in fixed income securities (which may include, but are not limited to, U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities) and shares of money market funds.

Note 4 - Fair Value Measurements

The Plan has categorized its assets that are recorded at fair value, based on the priority of the inputs to the valuation technique, into a three-level fair value hierarchy. The fair value hierarchy gives the highest level to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest level to unobservable inputs (Level 3). The three levels of the fair value hierarchy are as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs other than Level 1 that are observable, such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the asset or liability.

Level 3 - Inputs based on prices or valuation techniques that are both unobservable and significant to the overall fair value measurement. These unobservable inputs reflect the Plan's own assumptions about the assumptions a market participant would use in pricing the asset or liability. There were no Level 3 assets held as of December 31, 2022 and 2021.

If the inputs used to measure a financial asset or liability fall within different levels of the fair value hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 as compared to December 31, 2021.

Common Stock:

Valued at the closing price reported on the active exchange or market in which the individual asset is traded, and therefore, presented as Level 1.

Mutual Funds:

Fair value of the mutual funds, excluding the money market fund below, are based on net asset value ("NAV"), which are the funds' readily determinable fair value. The NAV of these mutual funds are quoted daily on an active market, and therefore, presented as Level 1.

Money Market Fund:

The Plan holds an investment in the Fidelity Government Money Market Fund. Fair value of the money market fund is based on NAV, which is the fund's readily determinable fair value. This investment is categorized as a Level 2 in the fair value hierarchy below. This portfolio represents a commingled fund with an investment objective to seek a high level of current income with the preservation of principal and liquidity. The fund normally invests assets in U.S. government securities and repurchase agreements for those securities.

Collective Investment Trusts:

Fidelity Blue Chip Growth Commingled Pool

The portfolio's investment philosophy is to capitalize on the strength of Fidelity's internal research by selecting stocks of well-known and established companies that the portfolio manager believes have above-average growth potential. The portfolio normally invests at least 80% of assets in blue chip companies (companies whose stock is included in the S&P 500 Index or the Dow Jones Industrial Average, and companies with market capitalization of at least \$1 billion if not included in either index). This generally includes a broad list of equity issues across several market categories, and includes foreign and domestic issuers. The trust is classified within Level 2 of the valuation hierarchy below.

FMC CORPORATION
SAVINGS AND INVESTMENT PLAN
Notes to Financial Statements—(Continued)
December 31, 2022 and 2021

AllSpring Discovery SMID Cap Growth CIT E2

The trust invests in equity securities of small-and mid-capitalization companies where the investment advisor believes that growth is robust, sustainable, and not fully recognized by the market. The investment option is a collective investment trust. It is managed by SEI Trust Company. The trust is classified within Level 2 of the valuation hierarchy below.

Vanguard Target Date Trusts:

The target date trusts are designed for investors expecting to retire around the year indicated in each trust name. The trusts are managed to gradually become more conservative over time as they approach their target date. The investment risk of each target date trust changes over time as its asset allocation changes. They are subject to the volatility of the financial markets, including that of equity and fixed income investments in the U.S. and abroad, and may be subject to risks associated with investing in small-cap, and foreign securities. The target date trusts are classified within Level 2 of the valuation hierarchy below.

Fidelity Managed Income Portfolio II Class 2

The plan holds an investment in the Fidelity Managed Income Portfolio II Class 2 Portfolio ("MIP II Portfolio"), a collective investment trust. The MIP II Portfolio is managed by the Fidelity Management Trust Company. The MIP II Portfolio primarily invests in fixed income securities, including U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, and asset-backed securities, bond funds and money market funds. The MIP II Portfolio may invest in derivative instruments, including futures contracts and swap agreements. Additionally, the MIP II Portfolio enters into wrap contracts with third-party issuers, such as financial institutions or insurance companies, normally rated in the top three long-term rating categories (A- or the equivalent and above). The wrap contracts are designed to allow the portfolio to maintain a constant net asset value and to protect the portfolio in extreme circumstances.

The MIP II Portfolio's investment objective is to seek preservation of capital while providing a competitive level of income over time and to maintain a stable net asset value of \$1 per unit. The beneficial interest of each participant is represented by units. Distribution to the trust's unit holders is declared daily from the net investment income and automatically reinvested in the trust on a monthly basis, when paid. The contract value, or NAV, of the MIP II Portfolio represents the readily determinable fair value. Certain events may limit the ability to transact at contract value with the issuer such as plan termination or bankruptcy but the occurrence of these events is not considered probable. The MIP II Portfolio is classified within Level 2 of the valuation hierarchy below.

Note 5 - Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by letter dated December 23, 2015 that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax and ERISA counsel believe that the Plan is designed and is currently being operated in compliance with the applicable provisions of the IRC, and therefore, believe that the Plan is qualified and the related trust is tax-exempt.

In accordance with U.S. GAAP, plan management analyzed the tax positions taken by the Plan and concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2019.

Note 6 - Related-Party Transactions

Certain plan investments are managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the Trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management and certain administrative services amounted to approximately \$590,000 and \$487,000 for the years ended December 31, 2022 and 2021, respectively.

Note 7 - Subsequent Events

Management evaluated subsequent events for the Plan through June 21, 2023, the date the financial statements were available to be issued. Such evaluation resulted in no adjustments to the accompanying financial statements.
