INDEPENDENT AUDITOR'S REPORT

To the Participants and Plan Administrator of
The Klein Company 401(k) Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the accompanying financial statements of The Klein Company 401(k) Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Plan management, having determined it is permissible in the circumstances, has elected to have the audits of The Klein Company 401(k) Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Plan management has obtained certifications from qualified institutions as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section:

- the amounts and disclosures in the financial statements referred to above, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the financial statements referred to above related to assets held by and certified to by qualified institutions agrees to, or is derived from, in all material respects, the information prepared and certified by institutions that Plan management determined meet the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of The Klein Company 401(k) Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Plan Management for the Financial Statements

Plan management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of

financial statements that are free from material misstatement, whether due to fraud or error. Plan management's election of the ERISA Section 103(a)(3)(C) audit does not affect Plan management's responsibility for the financial statements.

In preparing the financial statements, Plan management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about The Klein Company 401(k) Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Plan management is also responsible for maintaining a current Plan instrument, including all Plan amendments; administering the Plan; and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the *Scope and Nature of the ERISA Section 103(a)(3)(C) Audit* section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of The Klein Company 401(k) Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by Plan management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about The Klein Company 401(k) Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certifications, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

The supplemental Schedule H, Line 4(i) – Schedule of Assets (Held at End of Year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of Plan management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- the information in the supplemental schedule related to assets held by and certified to by qualified institutions agrees to or is derived from, in all material respects, the information prepared and certified by institutions that Plan management determined meet the requirements of ERISA Section 103(a)(3)(C).

The Klein Company 401(k) Plan
Notes to Financial Statements
As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

1. Description of Plan

The following description of The Klein Company 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of The Klein Company (the "Company") who are age twenty-one or older and have completed 1 year of service, except for leased employees, nonresident aliens, union employees and residents of Puerto Rico (see Note 10). After satisfaction of the age and service requirements, participants may enter the plan on the first day of next month. The Plan was originally effective January 1, 1988 and was most recently amended and restated effective April 13, 2022 (see Note 10). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute to the Plan a portion of their compensation, as defined in the Plan document, subject to Internal Revenue Code ("IRC") limitations. Contributions may be designated as pre-tax or Roth 401(k) contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers).

The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled into the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3 percent of eligible compensation and their contributions invested in a designated age appropriate target retirement date investment option until changed by the participant. The Plan also allows for deferral percentages for each active participant having automatic enrollment contributions made on his or her behalf to be increased by 1 percent after the second year of participation up to a maximum of 6 percent of eligible compensation.

The Company makes an annual safe harbor matching contribution equal to 100% of a participant's salary deferrals that do not exceed 1% of eligible compensation, plus 70% of a participant's salary deferrals that exceed 1% of eligible compensation but do not exceed 6% of eligible compensation.

Additional employer contributions may be contributed on a discretionary basis. Prior to April 13, 2022, to qualify for any additional employer contributions, the participant must complete at least 1,000 hours of service during the Plan year and be employed on the last day of the Plan year (see Note 10). The Company did not make any discretionary contributions to the Plan for the year ended December 31, 2022.

Participant Accounts

Participants may direct the investment of their contributions to selected investment options as made available and determined by the Plan administrator. The Plan offers a range of investment options for participants. Participants may change their investment options at any time throughout the year. Each participant's account is credited with the participant's contribution and safe harbor matching contribution and allocations of any Company discretionary contribution and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Upon termination of service, retirement, disability, or death, a participant may elect to receive a lump-sum amount equal to the participant's vested interest in his or her account, installments or partial withdrawals. The Plan provides for in-service distributions for those participants who have reached age 59½. If a participant's vested account in the Plan is below \$5,000 at the time of termination or retirement, the Plan may distribute the

The Klein Company 401(k) Plan
Notes to Financial Statements

entire balance to the participant. Hardship and in-service distributions are also permitted from participant accounts, subject to the terms of the Plan.

Vesting

Participants are immediately vested in all salary deferrals, Company discretionary contributions and rollover contributions plus actual earnings thereon. Vesting in the Company's safe harbor matching contribution portion of their accounts is based on years of continuous service. Such percentage shall equal the percentage determined according to the following schedule:

<u>Years of Vesting Service</u>	<u>Vesting Percentage</u>
0-1	0%
2	100%

Employees also become 100% vested upon death, disability or attainment of normal retirement age (60 or the date of the fifth anniversary of participation in the Plan, whichever is later and not to exceed age 65).

Forfeited Accounts

Forfeitures of the Company contributions may be used to restore previously forfeited participant accounts, to pay plan expenses or to offset future employer contributions. As of December 31, 2022 and 2021, forfeited nonvested accounts totaled \$1,449 and \$0, respectively. During 2022, the Company used \$1,401 of forfeitures to offset administrative expenses. No forfeitures were used to offset employer contributions.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance, whichever is less. Notes receivable, which are considered participant loans for Form 5500 reporting purposes, are secured by the balance in the participant's account and bear interest at rates commensurate with local prevailing rates as determined by the Plan administrator at origination. Interest rates currently in effect on outstanding loans are 4.25% to 6.50% as of December 31, 2022. Principal and interest payments are made ratably through payroll deductions. The repayment period is up to 60 months for a general-purpose loan and longer for a primary residence loan, if approved by the Plan administrator. A participant may only have two loans outstanding at any time.

The loan is considered to be in default if any scheduled loan repayment is not made by the end of the calendar quarter following the calendar quarter in which the missed payment was due. The Plan has authority to take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, a loan that is in default may be considered a distribution from the Plan and could be considered taxable income to a participant.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan have been prepared using the accrual basis of accounting.

Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because the contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The financial statements include the fully benefit-responsive investment contracts and their related activity on a contract value basis (see Note 5).

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results may differ from those estimates.

The Klein Company 401(k) Plan
Notes to Financial Statements
As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by the insurance company, custodians, trustees and investment advisors. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants (participant loans for Form 5500 reporting purposes) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payments of Benefits

Benefit payments are recorded when paid.

Administrative Expenses

All reasonable administrative expenses and fees necessary to operate and administer the Plan are paid by the Plan, unless otherwise paid by the Plan's sponsor. Expenses paid by the Plan's sponsor are excluded from these financial statements. Fees related to the administration of notes receivable and other participant-specific fees are charged directly to the participant's account and are included in administrative expenses. Certain investment related expenses are included in the net depreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through June 14, 2023, the date the financial statements were available to be issued.

3. Information Certified by Qualified Institutions

The Plan administrator having determined that it is permissible in the circumstances elected to have the audits of the Plan performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information included in the accompanying financial statements and ERISA-required supplemental schedule of assets (held at end of year) was obtained or derived from information obtained by the Plan administrator and certified as complete and accurate by Reliance Trust Company, trustee of the Plan and a qualified institution, and Transamerica Life Insurance Company, an insurance company and a qualified institution, in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

- Investments, at fair value, fully benefit-responsive investment contracts, at contract value, other receivables, and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2022 and 2021.
- Investment activity, including net depreciation in fair value of investments, interest income, dividend income, and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2022.
- The information for all mutual funds (registered investment companies), the guaranteed investment contract, and participant loans listed in the schedule of assets (held at end of year) as of December 31, 2022 as shown in the ERISA-required supplemental schedule.

As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used as of December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The shares of mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's fair value measurements as of December 31, 2022:

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Investments, at fair value:				
Mutual Funds	\$ 4,636,950	\$ 4,636,950	\$ -	\$ -

	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

Mutual Funds	\$ 6,451,381	\$ 6,451,381	\$ -	\$ -
Total	<u>\$ 6,451,381</u>	<u>\$ 6,451,381</u>	<u>\$ -</u>	<u>\$ -</u>

5. Fully Benefit-Responsive Investment Contracts

During 2022 and 2021, the Plan held the Transamerica Stable Value Strategy Option through a group annuity contract at Transamerica Life Insurance Company ("TLIC"). This traditional investment contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings less participant withdrawals, and administrative expenses. The contract value of the investment contracts were \$1,810,990 and \$705,029 at December 31, 2022 and 2021, respectively.

With a traditional investment contract, the Plan owns only the contract itself. Traditional investment contracts are designed to accrue interest based on crediting rates established by the contract issuers. Participants do not have contracts; instead, they have a beneficial interest in the group annuity contract of the Plan. There are not any specific securities in the general account that back the liabilities of these annuity contracts. The Plan owns a promise to pay interest at crediting rates that are announced in advance and guaranteed for a specific period of time as outlined in the group annuity contracts. The contract issuer is contractually obligated to repay the principal and interest at a specified rate that is guaranteed to the Plan.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments. In addition, certain events (including but not limited to the Plan ceasing to meet the requirements of the Internal Revenue Code; misrepresentation of material information; or the Plan providing for a similar investment vehicle offered by another insurance company or similar entity) allow the issuer to terminate the contract with the Plan and/or settle at an amount different from contract value. If a plan sponsor wishes to remove the fully benefit-responsive investment contract as an option from the plan, TLIC may impose a hold for up to a 270-day period on the fully benefit-responsive investment contract. Additionally, under limited circumstances that would materially adversely affect the financial condition of the fully benefit-responsive investment contract, TLIC may impose up to a 12-month delay period on all withdrawal requests from all plan sponsors at the Plan level.

The Transamerica Stable Value Strategy Option seeks to provide maximum return consistent with a guarantee of principal. The investment has a portfolio investment rate design in which all deposits are credited with the same interest rate, credited on a daily basis and there is no set maturity. The effective credited interest rate for the Transamerica Stable Value Strategy Option is set semi-annually. Contract charges may reduce this return. For the year ended December 31, 2022, the annual return was 1.73%. There are no reserves against the Transamerica Stable Value Strategy Option for credit risk of the contract issuer or otherwise.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Certain events (including but not limited to a 90-day equity wash provision where transfers are not allowed to a competing fund for 90 days) might limit the ability of the Plan to transact at contract value with the contract issuer. No events are probable of occurring that might limit the ability of the Plan to transact at

The Klein Company 401(k) Plan
Notes to Financial Statements
As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with participants.

6. Risks and Uncertainties

The Plan provides for various investment options to its participants. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Related Party and Party-in-Interest Transactions

Reliance Trust Company ("Reliance") is the trustee, and Transamerica Retirement Solutions LLC ("Transamerica") and/or its affiliates is the recordkeeper as defined by the Plan. Plan investments include shares of a mutual fund managed by an affiliate of Transamerica and a fully benefit-responsive investment contract with Transamerica Life Insurance Company. Therefore, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules of ERISA. Fees incurred by the Plan for investment management services are included in the net depreciation in fair value of investments. Fees paid directly from participant accounts, including those for the investment management services and for the administration of participant loans, are included in administrative expenses. Additionally, for participants who have elected to take a participant loan, the loans are secured by the respective participant's account balance. Direct fees paid by the Plan for services provided by Transamerica Retirement Solutions were \$26,389 for the year ended December 31, 2022.

8. Plan Termination

Although the Company has not expressed any intent to discontinue the Plan, the Company may do so at any time with consent of the trustee and subject to the provisions of ERISA. In the event of such discontinuance resulting in the termination of the Plan, participants would become 100 percent vested in their employer contributions and the net assets of the Plan would be distributed to Plan participants and beneficiaries in proportion to their respective account balances.

9. Tax Status

Effective April 13, 2022 (see Note 10), through the adoption of a Transamerica Retirement Solutions, LLC Pre-Approved Plan, the Plan was amended and restated. The IRS issued an opinion letter dated June 30, 2020, stating that the pre-approved defined contribution plan document was designed in accordance with applicable Internal Revenue Code ("IRC") requirements as of that date. Prior to the April 13, 2022 amendment and restatement of the Plan, the Plan had adopted a Transamerica Retirement Solutions, LLC Volume Submitter 401(k) Profit Sharing Plan, which received an advisory letter dated March 31, 2014, stating that the volume submitter profit sharing plan document as then designed was in accordance with applicable IRC requirements. Although the Plan has been amended since receiving the advisory and opinion letters, management of the Plan believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes the Plan, as amended, is qualified and the related trust is tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however,

The Klein Company 401(k) Plan
Notes to Financial Statements
As of December 31, 2022 and 2021 and for the Year Ended December 31, 2022

there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2019.

10. Plan Amendments

Effective April 13, 2022, the Plan was amended and restated in order to:

- Exclude residents of Puerto Rico from participation in the Plan;
- Update the provisions regarding discretionary employer matching contributions;
- Change the discretionary employer matching contribution, so that the requirement whereby participants must work 1,000 hours and be employed on the last day of the Plan year was removed; and
- Make other general administrative changes, including incorporating past amendments and adopting required amendments pursuant to statutory changes.
