Independent Auditors' Report

Plan Participants and Plan Administrator
Riverview Financial Corporation 401(k) Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Riverview Financial Corporation 401(k) Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of November 30, 2022 and December 31, 2021, and the related statement of changes in net assets available for benefits for the eleven months ended November 30, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Riverview Financial Corporation 401(k) Retirement Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of November 30, 2022 and December 31, 2021, and for the eleven months ended November 30, 2022, stating that the certified investment information, as described in Note 7 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the Financial Statements section

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Emphasis-of-Matter- Plan Merger

As discussed in Note 1 to the financial statements, Mid Penn Bancorp, Inc., the Plan's sponsor, merged the Plan with Mid Penn Bancorp, Inc.'s benefit plan on July 1, 2022 and the net assets of the Plan were transferred and the Plan ceased operations. Our opinion is not modified with respect to that matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are issued. As discussed above, the plan merged during 2022.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users made on the basis of these financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and

reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Riverview Financial Corporation 401(k) Retirement Plan
Notes to Financial Statements
Eleven months ended November 30, 2022
(With Comparative Information at December 31, 2021)

Note 1 – Description of Plan

Effective July 1, 2022, Mid Penn Bancorp, Inc., as the adopting employer and Mid Penn Bank the parent employer entered into a merger and transfer agreement in their capacity as the sponsors of Riverview Financial Corporation 401(k) Retirement Plan and the Mid Penn Bank Retirement Plan, respectively, to merge Riverview Financial Corporation 401(k) Retirement Plan into the Mid Penn Bank Retirement Plan. The final closing transaction occurred in November of 2022. Due to the Plan merger, participants became 100% vested in their employer contributions.

The following description of the Riverview Financial Corporation 401(k) Retirement Plan (the “Plan”) provides only general information. The Plan agreement and Summary Plan Description provide a more complete description of the Plan’s provisions.

General

The Plan was a defined contribution plan covering all employees of Riverview Financial Corporation’s (“Riverview” or “Company”) wholly-owned subsidiary, Riverview Bank, with the exception of certain nonresident aliens who have no earned income from sources within the United States and leased employees. Riverview was acquired by Mid Penn Bancorp, Inc. (“Mid Penn”) on November 30, 2021, and Mid Penn became the sponsor of the Plan. Pursuant to the merger agreement, shareholders of Riverview common stock received, for each share of Riverview common stock held at the effective time of the merger, 0.4833 shares of Mid Penn common stock as merger consideration with an acquisition date fair value of \$142,192,000 based on the closing stock price of Mid Penn’s common stock on November 30, 2021 of \$31.46. The Riverview Financial Corporation common stock in the Plan was converted to Mid Penn Bancorp, Inc. common stock.

Effective on November 30, 2021, the Plan was frozen not allowing new eligibility or contributions. Modifications were made to the Plan effective August 1, 2020. A summary of the material modifications made to the Plan include the following:

- **Plan Funding Medium**
All money that is contributed to the Plan is held in a Trust Fund. The Trustee is responsible for the safekeeping of the Trust Fund and must hold and invest Plan assets in a prudent manner and in the best interest of the participants and the beneficiaries of the participants. The Trust Fund is the funding medium used for the accumulation of assets from which benefits will be distributed. While all the Plan assets are held in a Trust Fund, the Administrator separately accounts for each participant's interest in the Plan.
- **Plan Trustee**
Reliance Trust Company became the successor trustee of the Riverview Financial Corporation Stock Fund.

Eligibility Conditions - All Contributions: Employees were eligible to participate in the Plan provided they satisfied the following eligibility conditions:

- Attainment of age 18.
- Completion of three consecutive months from the employee’s date of employment during which the employee must have completed 250 hours of service. This was modified from the completion of six consecutive months from the date of employment during which the employee must have completed 500 hours of service. If the employee did not complete 250 hours of service within their first three consecutive months of employment, then they would have satisfied the service requirement if they were credited with a year of service.

The age and service requirements were waived for former employees of Halifax National Bank and The First National Bank of Marysville who were employed on December 30, 2008. Such eligible employees entered the Plan on this date, which is considered their entry date.

Automatic Deferrals: The Plan included an automatic salary deferral feature until it was frozen. Riverview automatically withheld a portion of an employee’s compensation from their pay each payroll period and contribute that amount to the Plan as a pre-tax 401(k) deferral. The automatic deferral provisions applied to all Plan participants, except those who had a salary deferral agreement in effect on the automatic deferral provisions effective date.

(With Comparative Information at December 31, 2021)

The following provisions applied to these automatic deferrals:

- An employee must have completed a salary deferral agreement to elect an alternative deferral amount or elect not to defer under the Plan in accordance with the deferral procedures of the Plan. The election would generally remain in effect until the employee modified or terminated it.
- The amount automatically withheld from an employee's pay each payroll period equaled 4% of their compensation until the plan was frozen.
- While an employee continued to be a Plan participant, the automatic deferral amount increased by 1% of compensation up to a maximum of 8% of compensation. Such increase would be applied as of the second period that began after the period in which the initial deferral amount was withheld and occurred as of the beginning of each subsequent plan year.
- If an employee's salary deferrals were automatically suspended under the terms of the Plan, then the deferral agreement that was in place prior to the suspension continued to be in effect after the suspension.

Conditions for Distributions Upon Severance of Employment: If employment terminated for reasons other than death, disability or early or normal retirement, the employee was entitled to receive only the "vested percentage" of their account balance. An employee may have elected to have their vested account balance distributed to them as soon as administratively feasible following their termination of employment. However, if the value of the vested account balance does not exceed \$5,000, then a distribution will be made regardless of whether the employee consents to receive it.

Automatic IRA Rollover: If a mandatory distribution was made because the employee's vested interest in the Plan exceeded \$1,000 but did not exceed \$5,000, then the Plan will rollover the distribution to an IRA if no affirmative election to either receive or roll over the distribution was made by the employee. The IRA provider selected by the Plan invested the rollover funds in a type of investment designed to preserve principal and provide a reasonable rate of return and liquidity. Or the employee may transfer the IRA funds to any other IRA of their choice.

In-Service Distributions: Plan participants may have been entitled to receive an in-service distribution. This distribution was not in addition to the participant's other benefits and therefore reduced the value of the benefits that would have been distributed at retirement. This distribution was made at the election and was made in accordance with the forms of distributions available under the Plan.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Trustees were responsible for oversight of the Plan. The Benefits Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Trustees.

Contributions

Participants elected to defer a portion of their compensation as a contribution to their 401(k) accounts in an amount ranging from 0% to 80% of their compensation, as defined, on a pretax basis, after-tax basis, Roth basis, or a combination subject to Internal Revenue Service (IRS) limitations and the plan was frozen. Participants who were over the age of 50 were able to elect to make catch-up contributions, subject to Internal Revenue Code limitations. Additionally, participants may have contributed or rolled over amounts representing distributions from other qualified plans (rollover). Participants directed the investment of their contributions into various investment options offered by the Plan.

Riverview automatically withheld 4% of an employee's compensation from their pay each payroll period and contribute that amount to the Plan as a pre-tax 401(k) deferral until the Plan was frozen. The automatic deferral amount increased by 1% of compensation up to a maximum of 8% of compensation while the participant was still employed by the Company. Such an increase was applied as of the second period that began after the period in which the initial deferral was withheld and occurred as of the beginning of each subsequent Plan Year. The automatic deferral provision applied to all Plan participants, except those who had a salary deferral agreement in effect on the automatic deferral provisions effective date.

The Company made a safe harbor match contribution each payroll period in an amount equal to 100% of the amount contributed by the participant up to 4% until the Plan was frozen. Participant contributions in excess of 4% of their

compensation were not matched. Participants were eligible to receive this match only if they were making 401(k) contributions. The contributions are held in a safe harbor matching contribution account.

The Company also, at its discretion, could make an annual profit-sharing contribution based on the Company's financial performance. The allocation of the profit-sharing contribution was based on each eligible participant's compensation in proportion to the compensation received by all eligible participants during the plan year. The Company did not make a profit-sharing contribution for 2022.

Participant Accounts

Each participant's account was credited with the participant's contributions, the Company's safe-harbor match, as well as allocation of the Company's discretionary profit sharing, and transitional contributions (when applicable), and an allocation of Plan earnings or losses (including unrealized appreciation or depreciation of Plan assets). Participant accounts were charged with an allocation of administrative expenses that were paid by the Plan. Allocations were based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account.

Vesting

Participants were immediately vested in their contributions as well as the safe-harbor match contributions made by the Company and actual earnings thereon. Vesting in the Company profit sharing contributions were based on years of service. Under a graded vesting schedule, a participant is 100% vested after five years of credited service. Participants became 100% vested in their employer contributions and earnings when the Plan merged.

Notes Receivable from Participants

Participants could borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or one-half of their vested account balance. A participant could have only one loan at a time. Interest rates are established based on the prime rate plus 1%. All loans were collateralized by the participants' vested account balance in the Plan and were repaid through payroll deductions.

Notes receivable were measured at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants were reclassified as benefits paid to participants based upon terms of the Plan document. The notes receivable from participants were transferred to the new plan in the merger.

Administrative Costs

Certain expenses to maintain the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that were paid by the Company were excluded from these financial statements. Fees related to the administration of notes receivable from participants were charged directly to the participant's account and included in administrative expenses. Investment related expenses were included in net depreciation of fair value of investments.

Forfeited Accounts

As of November 30, 2022 and December 31, 2021, forfeited employer matching non-vested accounts amounted to \$0 and \$0 respectively. The forfeited balances of terminated participants' non-vested accounts from the profit-sharing account were able to be used to either reduce employer contributions, pay allowable plan expenses and/or reallocate to plan participants.

Payment of Benefits

Upon termination of service, a participant received a lump-sum amount if the total of their vested account balance did not exceed \$1,000. If the vested account balance exceeded \$1,000, the assets were generally held in the Plan until the participants' normal or early retirement date. However, terminated participants could elect to receive their vested account balance at any time. Upon death, permanent disability, or retirement, a participant or beneficiary could elect to receive a lump-sum payment.

Note 2 - Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Trustees of the Plan determined the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 3 for discussion of fair value measurements.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes Plan's gains and losses on investments bought and sold as well as held during the year.

Investment Fees

Net investment returns reflect certain fees paid by the investment funds to their affiliated investment advisors, transfer agents, and others as further described in each fund prospectus or other published documents. These fees are deducted prior to allocation of the Plan's investment earnings activity and are not separately identifiable as an expense.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of November 30, 2022 or December 31, 2021.

Payment of Benefits

Benefit payments to participants were recorded when paid.

Note 3 - Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Riverview Financial Corporation 401(k) Retirement Plan

Notes to Financial Statements

Eleven months ended November 30, 2022

(With Comparative Information at December 31, 2021)

- Level 2 Inputs to the valuation methodology include; quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs which are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used during the eleven months ended November 30, 2022 and year ended December 31, 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Stock: The fair market value of the stock is the average of the highest and lowest trading prices for the stock on the applicable date or, if no trade of stock occurred on that day, the fair market value shall be determined by reference to such prices on the next preceding day on which such prices were quoted.

Common collective trust: The Plan uses net asset value of the shares held in the common collective trust as a practical expedient for determining fair value. The NAV is based on the fair value of the underlying investments held by the fund less liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notice requirement and no unfunded commitments. Participants are generally able to change investment options on a daily basis without restrictions.

Money market: The Plan's fair value for the money market fund is valued at the quoted NAV of shares held by the Plan at year end. The money market fund invests in short term U.S government securities and in repurchase agreements collateralized by U.S. government securities.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of November 30, 2022 there were no Plan assets. The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2021:

Description	Assets at fair value as of December 31, 2021			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 19,893,360	\$ —	\$ —	\$ 19,893,360
Common stock	868,311	—	—	868,311
Money market	90	—	—	90
Common collective trusts measured at net asset value (1)	—	—	—	2,308,129
Investments at fair value	\$ 20,761,761	\$ —	\$ —	\$ 23,069,890

- (1) An investment measured at fair value using the net asset value per share practical expedient has not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

Gains and losses included in changes in net assets available for benefits for the eleven months ended November 30, 2022, are reported in net depreciation in fair value of investments.

Note 4 - Related Party Transactions and Party in Interest Transactions

At November 30, 2022, the Plan held no investments in the common stock of Mid Penn Bancorp, Inc. At December 31, 2021, the Plan held investments totaling \$868,311 in 27,357 shares of common stock of Mid Penn Bancorp, Inc. These transactions qualify as party-in-interest transactions.

Shares held in Mid Penn Bancorp, Inc. common stock could be sold at any time at the participant's discretion at the current market price of the Mid Penn Bancorp, Inc. common stock listed under the symbol "MPB" on the Nasdaq Global Market.

Certain Plan investments were managed by Reliance Trust Company, the trustee and Pentegra Services, Inc. ("Pentegra"), the recordkeeper for the Plan, and, therefore, these transactions qualified as party in interest transactions. Pentegra provided certain administrative services to the Plan pursuant to a Fiduciary Services Agreement ("FSA") between the Company and Pentegra. Pentegra received revenue from mutual fund service providers for services Pentegra provides to the funds. This revenue was used to offset certain amounts owed to Pentegra for its administrative services to the Plan.

Certain administrative functions of the plan were performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

Note 5 - Tax Status

The Plan was operating under a determination letter from the IRS dated March 31, 2014, stating that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan was amended since receiving the determination letter, the Plan administrator believed that the Plan was designed, and was being operated, in compliance with the applicable requirements of the IRC and, therefore, believed that the Plan qualified, and the related trust was tax-exempt.

U.S. GAAP require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan was subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Risks and Uncertainties

The Plan invested in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it was at least reasonably possible that changes in the values of investment securities would occur in the near term and that such changes could have materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits

Note 7 - Information certified by the custodian

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at December 31, 2021, and net depreciation in fair value of investments, interest and dividends and interest income on notes receivable from participants for the eleven months ended November 30, 2022, was obtained by management and agreed to or derived from information certified as complete and accurate by Reliance Trust Company (the custodian of the Plan).

Note 8- Subsequent Events

The Plan evaluated the effects of events that have occurred subsequent to June 21, 2023, the date these financial statements were available to be issued and there have been no material events that would require recognition in the financial statements or disclosures to the financial statements.
