Markel Corporation Retirement Savings Plan

Opinion on the 2022 Financial Statements

We have audited the financial statements of Markel Corporation Retirement Savings Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statement of assets available for benefits as of December 31, 2022, and the related statement of changes in assets available for benefits for the year then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the assets available for benefits of the Plan as of December 31, 2022, and the changes in its assets available for benefits for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion on the 2022 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the 2022 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the 2022 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the 2022 Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Auditor's Report on the 2021 Financial Statements

The 2021 financial statements of the Plan were audited by predecessor auditors whose report dated June 16, 2022 expressed an unmodified opinion on those financial statements.

MARKEL CORPORATION RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. Summary of Significant Accounting Policies

a) Basis of Presentation. The accompanying financial statements, which present the assets of the Markel Corporation Retirement Savings Plan (the Plan) and changes in those assets, have been prepared in conformity with United States (U.S.) generally accepted accounting principles (GAAP). The Plan is administered by an administrative committee, appointed by Markel Group Inc. (the Plan Administrator), formerly Markel Corporation, which is also the issuer of certain securities held pursuant to the Plan. Effective May 26, 2023, Markel Corporation changed its name to Markel Group Inc. (Markel Group).

b) Use of Estimates. The preparation of financial statements in accordance with U.S. GAAP may require the Plan Administrator to make estimates and assumptions. Actual results may differ from the estimates and assumptions used in preparing the financial statements.

c) Investments. The Plan's investments are held by a trustee-administered trust fund and are stated at fair value. Investments in shares of mutual funds are valued according to the quoted net asset values of the funds based on the fair values of the underlying assets and liabilities thereof. The fair value of Markel Group common stock is based upon the quoted market price of the stock as of the end of each year.

The change in the fair value of investments held at the beginning and end of each year, adjusted for realized gains or losses on investments sold during the year, is reflected in the Statements of Changes in Assets Available for Benefits as net appreciation or depreciation in fair value of investments.

The cost of investments sold is determined on the basis of average cost. Purchases and sales of investments are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on an accrual basis.

d) Notes Receivable from Participants. Notes receivable from participants represent loans to participants made against their vested balances as permitted by the Plan. Notes receivable from participants are valued at the principal amount outstanding plus any accrued but unpaid interest. Interest income is recorded on an accrual basis.

e) Income Taxes. The Plan is in receipt of a favorable determination letter from the Internal Revenue Service (IRS). The IRS determined that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC) and, therefore, the trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Except for contributions that are designated as Roth deferrals, participants have not been taxed on their salary reduction contributions, or investment earnings related to these contributions, when received by the trustee under the Plan. Ordinarily, participants are subject to tax on these amounts when they receive distributions or make withdrawals from the Plan. Roth deferrals represent after-tax contributions to the Plan. Ordinarily, participants are not subject to tax on Roth distributions.

U.S. GAAP requires management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2022 and 2021 there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to audits by taxing jurisdictions; however, there are currently no such audits in progress.

f) Payment of Benefits. Plan benefits and withdrawals are recorded when paid.

g) Risks and Uncertainties. The Plan invests in a variety of investment securities. Investment securities are exposed to various risks, such as interest rate, equity price and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that those changes could materially affect the amounts reported in the Statements of Assets Available for Benefits.

2. Summary of Significant Provisions of the Plan

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a complete description of the Plan's provisions.

a) General. The Plan is a defined contribution plan covering eligible employees of Markel Group and its participating subsidiaries (the Company). Employees of the Company, age 18 or older, are eligible for participation in the Plan upon date of employment, with matching Company contributions commencing after one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). An administrative committee, appointed by the Plan Administrator, is responsible for administering the Plan and overseeing the Plan record keeper who carries out the day-to-day operations of the Plan. The assets of the Plan are held in trust under an agreement with Fidelity Management Trust Company (the Trustee), with administrative services provided by a division of Fidelity Investments Institutional Operations Company, Inc. (Fidelity Investments).

b) Contributions. The Company currently contributes to the Plan each year, subject to service requirements, an amount equal to 6% of each participant's eligible compensation. The Company also currently contributes under the matching provision of the Plan an amount equal to 100% of the first 2% and 50% of the next 2% of compensation contributed by a participant, not to exceed 3% of the participant's eligible compensation for any such year. Participants may contribute, in whole percentage increments, up to 50% of their annual compensation on a pre-tax basis up to a limit of \$20,500 and \$19,500 in 2022 and 2021, respectively. In addition, participants that reach age 50 before the close of the plan year can elect to make a "catch-up contribution" to the Plan for the plan year. The amount of the catch-up contribution was limited to \$6,500 in 2022 and 2021. One-third of the employer's contributions currently are allocated to Markel Group common stock; however, once the funds are invested in Markel Group common stock, participants can redirect these funds at their discretion. The allocation of participant contributions and the remaining two-thirds of the employer contributions to the various funds is based upon the individual participant's election. Participants may designate all or some of their contributions, including catch-up contributions, as Roth deferrals, which represent after-tax contributions to the Plan.

Newly hired employees are automatically enrolled in the Plan at a contribution rate of 4% of eligible compensation. Employees are also subject to a 1% annual increase in these contributions, up to a maximum contribution rate of 10%. Employees receive notice regarding these deemed elections before the automatic contributions begin and may opt out of the automatic contributions by either electing a different contribution percentage or electing not to contribute. Once a year, all active and eligible participants with a 0% deferral election are automatically enrolled at a new contribution rate of 4% of compensation, provided they have not made a 0% deferral election within the preceding six months. If the employee does not direct their contributions, amounts will be invested in a Fidelity Freedom K Fund based on the employee's age and deemed target retirement date.

Rollover contributions, as shown in the accompanying Statements of Changes in Assets Available for Benefits, represent participant account balances rolled over into the Plan from other qualified plans.

c) Participant Accounts. Each participant's account is credited with both the participant's and the Company's contributions to the Plan and earnings thereon. The posting of earnings is made on a daily basis.

d) Vesting and Plan Termination. Participants are immediately vested in their own contributions plus earnings thereon. Vesting in the Company's contributions plus earnings thereon is based on years of service as follows:

Years of Vesting Service	Vested Percentage
Less than two years of service	0 %
Two years of service	20 %
Three years of service	50 %
Four or more years of service	100 %

In accordance with the provisions of the Plan, any portion of the Company's contributions that have not vested at the time of a participant's withdrawal will be forfeited by the participant and applied to reduce future Company contributions or pay administrative expenses of the Plan. For the years ended December 31, 2022 and 2021, forfeited amounts totaled \$791,090 and \$983,507, respectively. Forfeitures of \$806,193 and \$1,003,021 were used to reduce employer contributions in 2022 and 2021, respectively. Unused forfeitures were \$105,607 at December 31, 2022, which will be primarily utilized to reduce employer contributions in 2023.

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their respective portion of the Company's contributions plus earnings thereon.

e) Payment of Benefits. The Plan provides for benefits to be paid upon retirement, disability, death, or separation other than retirement, as defined by the Summary Plan Description. Benefit payments for the value of the participant's vested account are generally made in a lump sum. Participants may apply to withdraw all or part of their vested balance subject to specific hardship and in-service withdrawal provisions of the Plan.

f) Plan Expenses. Administrative expenses of the Plan are either charged to participants and paid out of Plan assets or paid directly by the Company. Administrative expenses charged to participants, which primarily relate to providing personalized planning and advice and loan maintenance services, are included in deduction from assets attributed to participant distributions and withdrawals in the Statements of Changes in Assets Available for Benefits. Other administrative expenses, such as audit, legal and trustee fees, are paid directly by the Company and are therefore excluded from these financial statements.

Investment management fees and any other investment-related expenses for each mutual fund are charged to the operations of the respective mutual fund and are included in net appreciation (depreciation) in fair value of investments in the Statements of Changes in Assets Available for Benefits.

g) Participant Loans. Plan participants may apply to the administrative committee for loans from their vested account balances, subject to terms, conditions, procedures and rules established by the administrative committee. Under the terms of the Plan, participants generally may borrow from their accounts a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of the vested value of the participant's account. Loans bear interest at a market rate in effect at the time of the loan and are repayable in accordance with terms established by the Plan. Loans not repaid within the timeframe specified by the administrative committee are considered to be in default and treated as a distribution to the participant.

h) Investment Options. The Plan offers 27 investment options - Markel Group common stock and 26 mutual funds. Participants can change investment options daily, except for Markel Group common stock for which participants may change investment options on a real-time basis.

3. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a three-level hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the assets or liabilities fall within different levels of the hierarchy, the classification is based on the lowest level input that is significant to the fair value measurement of the asset or liability.

Classification of assets and liabilities within the hierarchy considers the markets in which the assets and liabilities are traded and the reliability and transparency of the assumptions used to determine fair value. The hierarchy requires the use of observable market data when available. The levels of the hierarchy are defined as follows:

- Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) for identical assets or liabilities traded in active markets.
- Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active, inputs other than quoted prices that are observable for the asset or liability and market-corroborated inputs.
- Level 3 - Inputs to the valuation methodology are unobservable for the asset or liability and are significant to the fair value measurement.

In accordance with ASC 820, the Plan determines fair value based on the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. The Plan uses valuation techniques that maximize the use of observable inputs and minimize the use of unobservable inputs. The following section describes the valuation methodologies used by the Plan to measure assets at fair value, including an indication of the level within the fair value hierarchy in which each asset is generally classified.

Mutual funds. All of the mutual funds are registered with the Securities and Exchange Commission. These mutual funds publish their daily net asset value and transact at that price on the open market. Mutual funds are recorded at the quoted net asset values of shares held by the Plan at year end. The mutual funds held by the Plan are deemed to be actively traded and categorized as Level 1.

Markel Group common stock. Markel Group common stock is recorded at the closing price of shares held by the Plan on the New York Stock Exchange at year end. This stock is actively traded and categorized as Level 1.

There were no assets classified as Level 2 or Level 3 at both December 31, 2022 and 2021.

4. Related Party Transactions

As of December 31, 2022, the Plan owned 126,149 shares of Markel Group common stock, which had a cost basis of \$84,454,431 and a fair value of \$166,203,382. During 2022, 11,726 shares of Markel Group common stock were purchased at a total cost of \$15,069,837 and 12,014 shares, with a cost basis of \$8,630,346, were sold for \$15,449,326.

As of December 31, 2021, the Plan owned 126,437 shares of Markel Group common stock, which had a cost basis of \$78,014,940 and a fair value of \$156,024,499. During 2021, 13,884 shares of Markel Group common stock were purchased at a total cost of \$16,367,036 and 18,567 shares, with a cost basis of \$13,881,997, were sold for \$21,909,283.

Of the mutual funds held by the Plan, 24 are managed by Fidelity Investments, an affiliate of the Trustee, who is a party-in-interest.

Loans to Plan participants, which are considered parties-in-interest, were granted throughout 2022 and 2021 as part of normal Plan operations.

5. Subsequent Events

The Company has evaluated subsequent events through June 16, 2023, the date the financial statements were available to be issued, and has determined there are no subsequent events to be reported in the accompanying financial statements.
