Independent Auditor's Report

Plan Administrator
Highland Homes
Employee Stock Ownership Plan
Plano, Texas

Opinion

We have audited the financial statements of Highland Homes Employee Stock Ownership Plan (Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining

sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by the Employee Retirement Income Security Act of 1974

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule listed in the table of contents is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain

additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Highland Homes Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2022 and 2021

Note 1: Description of the Plan

The following description of the Highland Homes Employee Stock Ownership Plan (Plan) provides only general information. Participants should refer to the Plan document and Summary Plan Description for a more complete description of the Plan's provisions, which are available from the Plan administrator, Highland Homes Holdings, Inc. (Company).

General

The Company established the Plan effective January 1, 2015. The Plan operates as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC) of 1986 (Code), as amended and is subject to the applicable provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan is administered by an ESOP committee comprised of the general counsel and vice president of human resources. Argent Trust Company (Trustee) is the Plan's trustee.

Unallocated and Allocated Shares

The borrowing is collateralized by the unallocated shares of common stock and is guaranteed by the Company. The lender has no rights against shares once they are allocated to participants in accordance with the terms of the ESOP. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

(A) The accounts of employees with vested rights in allocated common stock (allocated).

(B) Common stock not yet allocated to employees (unallocated).

Eligibility

Employees of the Company and its participating subsidiaries are generally eligible to participate in the Plan after one year of service providing, they worked at least 1,000 hours during such Plan year and are over the age of 21. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last working day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Vesting

Participants become 20% vested after two years of credited service and earn an additional 20% with each credited year of service thereafter. After six years of credited service, a participant is 100% vested. The six-year vesting schedule is as follows:

Years of Service	Vested Percentage of Account Balance
Less than two	0%
Two but less than three	20%
Three but less than four	40%
Four but less than five	60%
Five but less than six	80%
Six or more	100%

The Plan also provides for 100% vesting for participants upon death, permanent disability, or reaching the normal retirement age (65).

Employer Contributions

The Company is obligated to make contributions in cash to the Plan, which when aggregated with the Plan's dividends and interest earnings, of an amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its long-term debt, if any.

Participant Accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of shares of the Company's common stock released by the Trustee from the unallocated account and forfeitures of terminated participants' nonvested accounts. Only those participants who are eligible employees of the Company as of the last day of the Plan year will receive an allocation. Allocations are based on a participant's account based upon the relation of the participant's allocated points to total points for the Plan year. Employer contributions are allocated to each participant's account based upon the relation of the participant's allocated points to total points for the Plan year. A participant shall be awarded 50 points for each year of service and one point for each full $200 of compensation received during the applicable year. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

Put Option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market or is subject to trading limitations includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the current appraised value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure the participant has the ability to ultimately obtain cash.

Payment of Benefits

No distributions from the Plan will be made until a participant retires, dies (in which case, payment shall be made to the participant's beneficiary or, if none, their legal representatives), becomes permanently disabled, or otherwise terminates employment with the Company and its participating subsidiaries. For participants terminating employment before reaching retirement age for any reason other than death or disability, distributions will begin no later than one year after the close of the fifth year following the year in which the termination occurs and are made in five equal annual installments. For participants terminating employment by reason of death or disability or on or after reaching retirement age, distributions will begin no later than one year after the close of the Plan year in which termination occurs and are made in five equal annual installments.

For participants who have terminated employment and the value of the account is greater than $5,000, the participant may elect to postpone payment until they reach retirement age.

For participants who have reached age 55 and have completed 10 years of participation in the Plan, the participant may elect to diversify a portion of their account balance by transferring amounts from the Plan to another tax-qualified plan in accordance with the Plan document.

Voting Rights

Each participant is entitled to exercise voting rights attributable to the shares allocated to his or her account and is notified by the Trustee prior to the time that such rights are to be exercised. The Trustee is not permitted to vote any allocated share for which a participant has not given instructions. The Trustee is required, however, to vote any unallocated shares on behalf of the collective best interest of Plan participants and beneficiaries.

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company common stock into investments, which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the value of his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%.

Forfeitures

Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation for the Plan year. Forfeitures of terminated nonvested account balances allocated to remaining participants during the years ended December 31, 2022 and 2021, totaled $414,736 and $276,902, respectively.

Plan Termination

The Company reserves the right to terminate the Plan at any time, subject to Plan provisions. Upon such termination of the Plan, the interest of each participant in the trust fund will be distributed to such participant or the participant's beneficiary at the time prescribed by the Plan terms and the Code. Upon termination of the Plan, the employee benefits administration committee shall direct the Trustee to pay all liabilities and expenses of the trust fund and to sell shares of financed stock held in the loan suspense account to the extent it determines such sale to be necessary to repay the loan.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets and changes in net assets and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The common shares of the Company are valued at estimated fair value. Fair value is determined by annual independent appraisals.

Dividend income, if any, is recorded when declared. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Allocations

The financial statements of the Plan present separately the assets and liabilities and changes therein pertaining to: (a) the accounts of employees with rights in allocated stock (allocated) and (b) stock not yet allocated to employees (unallocated), including shares that are committed to be released. Shares are released from collateral and become allocated generally in the period in which debt service is actually paid.

Administrative Expenses

Administrative expenses may be paid by the Company or the Plan, at the Company's discretion. The Company has historically paid the operating expenses of the Plan.

Note 3: Administration of Plan Assets

The Trustee of the Plan holds the Plan's assets, which consists of the Company's common stock and money market funds.

Company contributions are held and managed by the Trustee, which invests cash received, interest, dividend income, and makes distributions to participants. The Trustee also administers the payment of interest and principal on the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers or employees of the Company or its subsidiaries. No such officer or employee receives compensation from the Plan. Administrative expenses for the Trustee's fees are paid directly by the Company.

Note 4: Investments

The Plan's investments at December 31, 2022 and 2021, are presented in the following table:

	2022		2021	
	Allocated	**Unallocated**	**Allocated**	**Unallocated**

Note 5: Disclosures About Fair Value of Plan Assets and Liabilities

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair-value measurement must maximize the use of observable inputs and minimize the use of unobservable inputs. There is a hierarchy of three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 Unobservable inputs supported by little or no market activity and are significant to the fair value of the assets or liabilities.

Recurring Measurements

The following table presents the fair value measurements of assets and liabilities recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2022 and 2021:

	Fair Value	Markets for Identical Assets (Level 1)	Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
December 31, 2022				
Highland Homes Holdings, Inc. – common stock	$ 519,553,223	$ -	$ -	$ 519,553,223
Money market fund	77,026	77,026	-	-
	$ 519,630,249	$ 77,026	$ -	$ 519,553,223
December 31, 2021				
Highland Homes Holdings, Inc. – common stock	$ 679,858,280	$ -	$ -	$ 679,858,280
Money market fund	72,121	72,121	-	-
	$ 679,930,401	$ 72,121	$ -	$ 679,858,280

Following is a description of the valuation methodologies and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the year ended December 31, 2022. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis. For assets classified within Level 3 of the fair value hierarchy, the process used to develop the reported fair value is described below.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy. The fair value of Company common stock is estimated based upon an independent appraisal. The Plan sponsor challenges the reasonableness of the assumptions used and reviews the methodology to ensure the estimated fair value complies with accounting principles generally accepted in the United States of America.

Note 6: Note Payable

The Plan entered into a $25,000,000 term loan agreement with the Company. The proceeds of the loan were used to purchase Company's common stock. Unallocated shares are collateral for the loan. Shares are released from collateral and allocated to participants as payments of principal and interest are made. The number of shares released in any year is the number of shares held as collateral times the ratio of the current year payments divided by the total of this year's payments, plus all future years' principal and interest payments. This resulted in 14,543 and 14,542 shares being released and allocated for the Plan years ended December 31, 2022 and 2021, respectively.

The agreement provides for the loan to be repaid over 50 years. The fair value of the note payable as of December 31, 2022 and 2021, was approximately $23,041,986 and $23,331,300, respectively, determined by using interest rates currently available for issuance of debt with similar terms, maturity dates, and nonperformance risk. The loan bears interest at 2.62%.

The scheduled amortization of the loan for the next five years and thereafter is as follows:

2023	$ 282,008
2024	302,649
2025	312,212
2026	320,392
2027	328,786
Thereafter	21,495,939
	$ 23,041,986

Note 7: Significant Estimates and Concentrations

Accounting principles generally accepted in the United States of America require disclosure of certain significant estimates and current vulnerabilities due to certain concentrations. This matter includes the following:

Valuation of Highland Homes Holdings, Inc. Common Stock

The common stock of the Company owned by the Plan is valued at its estimated fair value as determined by annual independent appraisal. The actual fair value of the common stock can only be determined based on an ultimate sale of the Company.

Note 8: Risks and Uncertainties

The Plan primarily invests in Company common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and/or other such techniques. Due to the level of risk associated with such investment securities and the level of uncertainty related to changes in the value of such investments, it is at least reasonably possible that changes in risk in the near term could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Note 9: Tax Status

The Plan has received a determination letter from the IRS dated June 21, 2017, stating that the Plan, as then designed, was in compliance with the applicable requirements of the Code and, therefore, not subject to tax.

Note 10: Related-Party and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

The Company provides certain administrative services at no cost to the Plan.

Note 11: Subsequent Events

Subsequent events have been evaluated through June 16, 2023, which is the date the financial statements were available to be issued.
