The Plan Administrator
Cargill, Incorporated and Associated Companies
Salaried Employees' Pension Plan 2:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statements

We have performed an audit of the financial statements of Cargill, Incorporated and Associated Companies Salaried Employees' Pension Plan 2 (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2021, and the related statement of changes in net assets available for benefits for the year then ended, and the statement of accumulated plan benefits as of December 31, 2020, and the related statement of changes in accumulated plan benefits for the year then ended, and the related notes to the financial statements (2021 Financial Statements).

Management, having determined it is permissible in the circumstances, has elected to have the audit of the Plan's 2021 financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained a certification from a qualified institution as of and for the year ended December 31, 2021, stating that the certified investment information, as described in Note Five to the financial statements, is complete and accurate.

Opinion on the 2021 Financial Statements

In our opinion, based on our audit and on the procedures performed as described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section:

- The amounts and disclosures in the accompanying 2021 financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.
- The information in the accompanying 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

KPMG LLP, a Delaware limited liability partnership and a member firm of the KPMG global organization of independent member firms affiliated with KPMG International Limited, a private English company limited by guarantee.

Basis for Opinion on the 2021 Financial Statements

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the 2021 Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the 2021 Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with U.S. generally accepted accounting principles, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the 2021 Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit of the 2021 Financial Statement section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the 2021 financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of U.S. generally accepted accounting principles.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with U.S. generally accepted accounting principles.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

2021 Supplemental Schedules Required by ERISA

The supplemental schedules of (1) Schedule H, Line 4i-Schedule of Assets (Held at End of Year) and (2) Schedule H, Line 4j – Schedule of Reportable Transactions as of and for the year ended December 31, 2021 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditors' Report on the 2020 Financial Statements

We were engaged to audit the 2020 financial statements of the Plan. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform and we did not perform any auditing procedures with respect to the information certified by a qualified institution. In our report dated August 30, 2021, we indicated that (a) because of the significance of the information that we did not audit, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, we did not express an opinion on the 2020 financial statements, and (b) the form and content of the information included in the 2020 financial statements other than that derived from the certified information were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

(1) Description of Plan

Plan Description

The following is a brief description of the Cargill, Incorporated and Associated Companies Salaried Employees' Pension Plan 2 (the Plan). Participants should refer to the Plan document for more complete information.

(a) General

The Plan is a defined-benefit pension plan designed to provide benefits to eligible employees. The Plan sponsor is Cargill, Incorporated (the Company) and the Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan covers certain employees whose benefit was spun off from the Cargill, Incorporated and Associated Companies Salaried Employees' Pension Plan. Any participant with five years of continuous service is entitled to a vested benefit.

The Plan is administered by the Company. The Cargill, Incorporated People Team has overall responsibility for plan design and operations except to the extent it has delegated such responsibilities. Plan investment oversight is provided by the Cargill, Incorporated Pension Investment Committee (the Committee), which has responsibility for establishing investment strategy and monitoring investment performance. Both Cargill, Incorporated People Team and Cargill, Incorporated Pension Investment Committee report to the Cargill, Incorporated Board of Directors. Bank of New York Mellon serves as the trustee of the Plan (the Plan Trustee). Transactions are executed by the Plan Trustee, as directed by the Committee in its capacity as Plan Administrator.

(b) Funding Policy

The funded status of the Plan is continually monitored by the Company. The Company makes contributions to the Plan sufficient to provide the Plan with assets with which to fund pension benefits to Plan participants. Contributions to the Plan are determined by the actuary using the Unit Credit method. The Company's contributions for 2021 and 2020 equaled or exceeded the minimum funding requirements of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Company made no contributions in 2021 and 2020.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

(c) Pension Benefits

For service prior to January 1, 1992, retirement benefits are calculated at 1.5% of the Final Average Salary (highest consecutive five-year average salary within the last 10 years of employment), less 1.25% of annual Social Security benefits, all multiplied by the pre-1992 years of service (not to exceed 40). These benefits are indexed for future salary increases using an index factor equal to the Final Average Salary at termination divided by the Final Average Salary at December 31, 1991. For service after December 31, 1991, retirement benefits are calculated at 0.80% of the Final Average Salary plus 0.35% of the Final Average Salary in excess of Covered Compensation, as defined in the Plan

(Continued)

document, all multiplied by the post-1991 years of service. For certain employees, the base percentage is 1.10% rather than 0.80%. Years of service are limited to a total of 40 years for the base benefit and 35 years for the excess benefit.

Effective December 31, 2018, the Plan ceased benefit accruals for all active participants and all participants ceased earning benefits.

(d) Death and Disability Benefits

If a participant becomes disabled under the Plan, the Plan will increase the participants' eligible compensation by 80% of the annual actuarial assumed growth in employee salaries.

If an employee dies and has a surviving spouse or domestic partner (of at least one continuous year), the benefit is payable to the surviving spouse or domestic partner as an annuity for his or her lifetime. The surviving spouse benefit is payable at the employee's earliest retirement date which is age 55 if the employee had 15 or more years of service). The benefit is payable to a domestic partner beginning the year following employee's death or as a lump sum if the employee is at least age 50 at date of death. The present value of the benefit of a vested participant who dies without a spouse or registered domestic partner will be paid in a lump sum to the participant's estate.

(2) Summary of Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

(b) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements and changes therein. Actual amounts could differ from those estimates.

(c) Risks and Uncertainties

The Plan has investments across a range of investment strategies. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in these estimates and the assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

(d) Investments and Income Recognition

The Company established, effective September 3, 1985, a master trust fund (the Master Trust). The purpose of the Master Trust is to pool investment transactions and achieve uniform rates of return on comparable funds under each plan in the Master Trust. Each plan deposits investable funds in the Master Trust and each owns an undivided interest in the net assets of the Master Trust. The Plan's investment in the Master Trust represents its pro rata interest in the net assets of the Master Trust. The unaudited financial statements of the Master Trust are separately filed with the Department of Labor (See note 6).

Transactions and assets of the Master Trust are accounted for separately from those of the Plan. Securities transactions are recognized on the date the order to buy or sell is executed. Net appreciation and depreciation of investments include realized and unrealized gains and losses.

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Pension Investment Committee determines the Plan's valuation policies utilizing information provided by its investment advisers, custodians, and insurance company. See note 7 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

(e) Derivatives

Derivative financial instruments are used by the Master Trust's investment managers primarily to

rebalance the fixed income and equity allocation of the Master Trust's portfolio. The derivatives most commonly used by the investment managers are highly liquid exchange-traded equity and fixed-income futures. The fair value of the derivative instruments, none of which are accounted for as hedge instruments under Financial Accounting Standards Board (FASB) Accounting Standards Codification Topic 815, *Derivatives and Hedging*, is included in the Master Trust's statement of assets under plan interest in investment income/(loss) of the Master Trust. The use of derivative instruments is not believed to materially increase the credit or market risk of the Master Trust's investments.

(f) Payments to Participants

Payment of benefits to participants is recorded upon distribution.

(g) Administrative Expenses

Some expenses are paid out of the Master Trust by the Plan Trustee. Any expenses that are directly incurred such as Pension Benefit Guaranty Corporation (PBGC) insurance premiums, and actuarial, audit, and benefits administration fees, are allocated to the plans based on actual costs. These expenses totaled $1,392,578 and $1,411,802 for the years ended December 31, 2021 and 2020, respectively. Expenses incurred by the Master Trust, such as the Plan Trustee and investment management costs, are allocated to the individual plans based upon beginning of month balances invested in the Master Trust. These expenses totaled $8,559,008 and $2,016,801 for the years ended December 31, 2021 and 2020, respectively. Certain plan administration costs are absorbed by the plan administrator.

(3) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable, under the Plan's provisions, to service rendered by employees. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided through annuity contracts have been reduced from plan assets and removed from the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated plan benefits, including both vested (benefits to which participants are entitled, regardless of future service with the Company) and nonvested benefits, is determined as of the beginning of the plan year by the independent actuarial firm Mercer and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and probability of payment (by means of decrements for death, disability, termination, or retirement) between the valuation date and expected dates of payment.

Significant assumptions used in the valuation of the Plan's actuarial present value of accumulated plan benefits include (a) withdrawal and disability rates based upon past experience, (b) assumed mortality rates based upon published statistical data using the PRI-2012 table projected using Scale MMP-2021 for preretirement and the MILES (Mercer Industry Longevity Experience Study) for the Consumer Goods, Food & Drink industry group projected using Scale MMP-2021 for postretirement; (c) assumed retirement age varies from 55 to 65, (d) assumed rate of return of 5.70% for 2021 and 5.88% for 2020, respectively.

(4) Plan Termination

While the Company has not expressed any intent to terminate the Plan or to discontinue contributions, it is free to do so at any time, subject to the provisions set forth in the ERISA. Should the Plan be terminated at some future time, all participants become 100% vested in benefits earned as of the termination date.

In the event the Plan terminates, the benefit of any Highly Compensated Employee (and any Highly Compensated Former Employee), as defined in the Plan, is limited to a benefit that is nondiscriminatory under Section 401(a)(4) of the Internal Revenue Code (IRC).

If the termination is the result of the bankruptcy or near bankruptcy of the Company and the Plan's assets are not adequate to pay all benefits vested prior to the termination, the PBGC will take over the Plan and will pay those benefits that it guarantees. In this case, some participants may receive a smaller benefit than if the Plan had continued. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits (as described in the Plan document) and the level of benefits guaranteed by the PBGC at that time.

If, however, the Plan is terminated for any reason other than the bankruptcy or near bankruptcy of the Company and the Plan has insufficient assets, the Company will be required to pay to the Plan an amount that, together with the plan assets, will satisfy all benefits accumulated to the date of the plan termination.

(Continued)

(5) Information Certified by the Plan Trustee

The Plan Trustee holds the Plan's investment assets, executes transactions therein pursuant to discretionary authority granted to the Plan Trustee concerning purchases and sales of investments in the Master Trust, and collects the related investment income.

The Plan Trustee has provided the plan administrator with certifications as to the completeness and accuracy of investment assets and investment income of the Plan and Master Trust as of and for the years ended December 31, 2021 and 2020 as outlined in the following table:

	2021	2020
Plan Interest in Cargill Master Trust:		
Investments at fair value	$ 865,038,254	857,496,544
Investment income	84,894,268	139,226,354
The Boston Company, Inc. Pooled Employee Funds Daily Liquidity Fund:		
Investments at fair value	24,038,883	262,815
Investment income	174	1,193
Cargill Master Trust:		
Investments at fair value	3,600,119,576	3,493,573,009
Investment income	360,939,084	565,510,010

Such amounts are included in the accompanying financial statements, notes thereto, and supplemental schedules of the Plan based on such certifications from the Plan Trustee.

(6) Interest in Master Trust

Most of the Plan's investments are in the Master Trust, which was established for the investment of assets of the Plan and several other Cargill sponsored retirement plans. Each participating retirement plan has an undivided interest in the Master Trust. The assets of the Master Trust are held by the Plan Trustee. The value of the Plan's interest in the Master Trust is based on the beginning of year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income, including realized and unrealized gains and losses, less actual distributions, and allocated administrative expenses. As of December 31, 2021 and 2020, the Plan's interest in the net assets, including realized and unrealized gains and losses, of the Master Trust was approximately 24.0% and 24.5%, respectively. Investment income/(loss) related to the Master Trust is allocated to the individual plans based upon beginning of the month balances invested in the Plan.

Fair values of investments, prior to consideration of accrued administrative expenses, for the Master Trust are as follows:

	Plan's Interest in Master Trust December 31		Total Master Trust Assets December 31	
	2021	2020	2021	2020

The Master Trust has $741,969,840 of investments in alternative investment funds as of December 31, 2021, which are reported at NAV. The NAV is used as a practical expedient to estimate the fair value of the investment. Such investments are redeemable with the fund at NAV under the original terms of the

partnership agreements and/or subscription agreements and operations of the underlying funds. However, it is possible that these redemption rights may be restricted or eliminated by the funds in the future in accordance with the underlying fund agreements. Due to the nature of the investments held by the funds, changes in market conditions and the economic environment may significantly impact the NAV of the funds and, consequently, the fair value of the Master Trust's interests in the funds.

The following table summarizes the redemption terms for Master Trust alternative investments, which were measured at fair value using the NAV as a practical expedient as of December 31, 2021.

	Fair value	Unfunded commitments	Objective	Redemption terms and restrictions
Real estate	$ 334,828,863	48,190,438	Portfolio diversification, yield enhancement, and inflation protection	Redemption not permitted For the investments, the Master Trust receives distributions through liquidation of underlying assets over their remaining life of up to 10 years.
Private equity	312,783,044	29,257,790	Return enhancement and portfolio diversification	Redemption not permitted For the investments, the Master Trust receives distributions through liquidation of underlying assets over their remaining life of up to 10 years.
Hedge funds	94,346,912	—	Portfolio diversification	Redemption is permitted. Frequency ranges from monthly to every three years with 30-90 days' notice.
Public equities	11,021	—	Return enhancement	Redemption is permitted on the first business day of the following month.
Total	$ 741,969,840	77,448,228

(7) Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below.

Basis for fair value measurement:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

(Continued)

Level 2 Inputs to the valuation methodology include:

- Quoted prices of similar or identical assets in markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following tables present the level within the fair value hierarchy at which the Master Trust investment assets are measured on a recurring basis as of December 31, 2021 and 2020.

	December 31, 2021			
	Level 1	Level 2	Level 3	Total
Equity securities:[1]

The Plan directly invests $24,038,883 in The Boston Company, Inc. Pooled Employee Funds Daily Liquidity Fund which is a short-term investment fund classified as Level 1.

	December 31, 2020			
	Level 1	Level 2	Level 3	Total
Equity securities:[1]				
United States	$ 107,219,170	225,377,671	—	332,596,841
Non-United States	70,307,855	501,506,285	—	571,814,140
Debt securities[2]	—	1,458,868,883	—	1,458,868,883
Short-term investment funds[3]	—	147,509,764	—	147,509,764
Total assets in the fair value hierarchy	$ 177,527,025	2,333,262,603	—	2,510,789,628
Investments measured at NAV[4]				982,783,381
Total				$ 3,493,573,009

(1) Individual securities held directly whose values are based on quoted prices in active markets in which they trade (level 1), and individual securities held through Collective Investment Trusts where the securities are valued based on quoted prices but the Trust is not actively traded (level 2).

(2) Individual securities whose value is based on quoted NAV and corporate bonds with significant inputs which are observable in the market. As such, they are classified as Level 2 within the fair value hierarchy.

(3) Short-term investment funds are valued using the NAV provided by the fund administrator to participants in the fund only. As such, they are classified as Level 2 within the fair value hierarchy.

(4) As a result of the application of ASU 2015-07, certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. It consists of limited partnership interests that invest in real estate, private equity, hedge funds, and public equities. Real estate includes debt and equity investments in U.S. and non-U.S. securities. Private equity includes debt and equity investments in U.S. and non-U.S. securities across buyouts, growth capital, distressed debt, mezzanine debt, and venture capital. Real estate and private equity valuations require significant management judgment due to the absence of quoted market prices. Hedge fund investments are diversified by manager, geography, and strategy. Hedge funds are valued based on quoted NAV as determined by the fund administrator. Public equities are managed by an investment management fund in domestic and international markets and are highly illiquid.

The Plan did not significantly change valuation techniques from the prior period.

(8) Tax Status

The Plan has not yet obtained a tax determination letter from the Internal Revenue Service. The Plan mirrors the Cargill, Incorporated and Associated Companies Salaried Employees' Pension Plan which obtained its latest tax determination letter dated February 11, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, qualified under Section 401(a) of the IRC and the Trust created thereunder was exempt from federal income taxes under Section 501(a). The Plan has been amended since this determination letter. However, the Company believes the Plan, as amended, continues to meet the requirements of Section 401(a) of the Code and the related Trust is exempt from income tax under Section 501(a) of the Code. Therefore, no provisions for income taxes have been made.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

(9) Party-in-Interest Transactions

Transactions resulting in plan assets being transferred to or used by a related party are prohibited under ERISA unless a specific exemption applies. The Plan Trustee is a party in interest as defined by ERISA as a result of its investing plan assets in certain of their funds. The Master Trust, a master trust established by the plan administrator, is a party-in-interest, as defined by ERISA, as a result of the Plan purchasing participation units of the Master Trust. The transactions described above are exempt under Section 408(b)(8) and are not prohibited by ERISA.

(10) Subsequent Events

The Plan has evaluated subsequent events from the statement of net assets available for benefits date through September 16, 2022, the date at which the financial statements were available to be issued, and determined there are no other items to disclose.

Expenses	$1,400,000 added to current year normal cost	

Rationale for Economic Assumptions

- **Discount rate –** Prescribed by the IRS and based on the company's current elections.
- **Inflation –** Based on the long term expected inflation rate from the Mercer Investment Consulting Capital Markets Outlook.
- **Expected investment return –** The 2021 assumption is equal to the long-term rate of return on assets assumption used to determine the ASC 715 expense for the fiscal year beginning June 1, 2021 limited to the stabilized third segment discount rate. This assumption was confirmed for reasonableness, i.e., not higher than the 65th percentile result from Mercer's Portfolio Return Calculator for January 2021, based on the plan's target asset mix provided by Cargill.
- **Expenses –** Based on the actual administrative expenses from the prior year (excluding the PBGC premiums paid in the prior year) plus expected PBGC premiums for the current year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for Demographic Assumptions

- **Mortality –** Prescribed by the IRS.
- **Withdrawal –** Withdrawal rates are based on an experience study undertaken in 2019 using data from 2013-2017 and the expectation that the future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- **Disability incidence –** Based on plan's historical experience, an assumption of no disability incidence has historically been used for the plan. This assumption is reviewed annually and has not produced significant gains or losses.
- **Retirement age –** Retirement rates are based on an experience study undertaken in 2019 using data from 2013-2017 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Spouse Age Difference** – Based on a plan experience study completed in 2019; it is expected that future spouse age difference will not differ significantly from the period studied.
- **Percentage Married –** Based on a plan experience study completed in 2019; it is expected that future married percentage will not differ significantly from the period studied.
- **Form of payment –** Based on a plan experience study completed in 2019; it is expected that future form of payment elections will not differ significantly from the period studied.

Actuarial methods for funding

Asset methods- Effective 1, 2009

The asset valuation method is an average of the adjusted market value for each year during the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods- Effective January 1, 2008

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Insurance contracts**: The plan does not have any insurance contracts.

Minimum funding methods- Effective January 1, 2008

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Summary of major plan provisions

Effective date and plan year	**Cargill Salaried** Original plan: January 1, 1965 Restated plan: January 1, 2019 and adopted December 17, 2019. Plan year: January 1 to December 31	**Cerester Salaried** Original plan: July 1, 2001 Amended and rest: Effective January 1, 2010 and adopted December 22, 2010 Plan year: January 1 to December 31
Most recent amendment	Amendment adopted December 21, 2020	
Status of the plan	The plan is closed to new entrants. Effective December 31, 2018, credited service and benefits were frozen.	Effective June 30, 2002, eligibility, credited service and benefits were frozen.
Significant events that occurred during the year	None	
Definitions	**Cargill Salaried**	**Cerestar salaried**
• Covered employees	The Plan covers all full time salaried employees who were hired by January 1, 2007 and have attained age 21 and completed one year of service. The plan does not cover rehires or transfers after January 1, 2007. Covered participants are broken into three groups: a. Grandfathered (or Legacy or Group A) Participants – Age 50 or 20 years of service as of December 31, 2006. b. ERA (or Frozen) Participants – Less than age 40 and less than 5 years of service as of December 31, 2006. c. Transition (Group A+B) Participants- All other participants.	Prior to July 1, 2002, all salaried and certain hourly production employees were eligible to participate.
• Accredited Service	The period of a Participant's employment considered in determining the amount of benefit payable to or on behalf of a Participant. The following groups have frozen accredited service: a. Mosaic – December 31, 2004;	Prior to January 1, 2000, one year of service for each plan year in which the employee works 12 months. Excludes service prior to age 25 if before January 1, 1985; prior to age 21 thereafter. Excludes service prior to November 28, 1984 at the Dimmitt location. Excludes service while the

Schedule SB, Part V — Summary of Plan Provisions

	b. ERA Participants – December 31, 2006; and	plan was contributory, if the Participant waived participation.
	c. Waycrosse – December 31 , 2007	Accredited service on and after January 1, 2000 and before July 1, 2002 is one year of service for each 12 full months of employment. Service less than a full year will be prorated (one twelfth for each month with at least one hour worked).
	Effective December 31, 2018, benefits under the Plan were frozen, i.e., there are no additional accruals for salary or service increases after this date.	
• Final Average Salary	Final Average Salary is the average salary for the highest 60 consecutive months within the last 120 months prior to determination.	Average Monthly Earnings is the average of the three consecutive completed calendar years of service which produce the highest average within the 10-year period preceding retirement, termination or July 1, 2002, if earlier. Compensation for a partial calendar year after December 31, 1998, will be used as a full calendar year only if this inclusion will increase average monthly earnings.
	Effective December 31, 2018, benefits under the Plan were frozen, i.e., there are no additional accruals for salary or service increases after this date.	
• Covered Compensation	The average of the Social Security Taxable Wage Bases for the 35 calendar years ending with the year the employee attains Social Security Retirement Age. The Wage Base for years after the determination date is assumed to be the same as the Wage Base as of the determination date.	
Normal retirement	**Cargill Salaried**	**Cerestar Salaried**
• Eligibility	The first day of the month of the Participant's 65th birthday.	The first day of the calendar month coincident with or next following normal retirement age (age 65).
• Benefit		

Schedule SB, Part V — Summary of Plan Provisions

	1) Old formula accrued benefit as of December 31, 1991 indexed for future salary increases. The old formula is 1.50% of Final Average Salary less 1.25% of Social Security all times years of service (not to exceed 40). The index factor is Final Average Salary at termination divided by Final Average Salary at December 31, 1991. 2) New formula benefit for service after December 31, 1991. For employees eligible for the ESOP, the new formula is 0.80% of Final Average Salary plus 0.35% of Final Average Salary in excess of Covered Compensation all times years of service. For employees not eligible for the ESOP, the base percentage is 1.10% rather than 0.80%. Years of service are based on service after December 31, 1991 and are limited to: – 40 years less service as of December 31, 1991 for the base benefit, and – 35 years less service as of December 31, 1991 for the excess benefit.	0.9% of Average Monthly Earnings times credited service, plus 0.45% of Average Monthly Earnings in excess of Covered Compensation times credited service not in excess of 35 years. Minimum benefit equal to $35 times years of credited service. In no event shall the normal retirement benefit be less than: a) the participant's accrued benefit under the Cerestar USA, Inc. Retirement Plan (the CUSA Plan) as of December 31, 1999 recognizing increases in average monthly earnings and covered compensation up through December 31, 2004 but credited service as of December 31, 1999 (average monthly earnings is the 60 highest consecutive months), plus; b) the benefit under the EBSA plan accrued after December 31, 1999.
Early retirement		
Cargill Salaried		
• Requirements	Early Retirement is available after attainment of age 55 and completion of fifteen years of service. For transactions occurring on or after March 27, 2017, Participants who are terminated as a result of a sale or other divestiture of a business shall be eligible for an Early Retirement benefit if, as of the date of termination, they are within two years of their Early Retirement Date.	
Grandfathered Benefit; and Non-Grandfathered Benefit for Service as of December 31, 2006	The amount of benefit is determined under the Normal Retirement formula, but is based on compensation at the Early Retirement date and service as of: (i) the Early Retirement date for Grandfathered participants; or (ii) December 31, 2006 for non-Grandfathered participants. The benefit amount is payable without reduction if benefit payments start on or after age 60 with	

Schedule SB, Part V — Summary of Plan Provisions

fifteen years of service or at the Normal Retirement Date (without regard to length of service). Otherwise the benefit amount is reduced a certain percentage per year for each year that the payments start prior to the date when unreduced status would have been obtained as follows:

Year of Service	Per Year Reduction Percentage
35 or more	3%
30-34	4%
25-29	5%
20-24	6%
15-19	7%

Non-Grandfathered Benefit for Service after December 31, 2006	The amount of benefit is determined under the Normal Retirement formula, but is based on compensation at the Early Retirement date and service between December 31, 2006 and the Early Retirement date. The benefit amount is reduced 5% per year for each year that the payments start prior to 65 with a floor of age 51 and an additional 2% reduction to age 50.
• Benefit Supplement	In addition to the regular Early Retirement benefit described above, a monthly supplemental benefit is payable to age 62. The amount of this supplement is $15 times years of service (service is frozen as of December 31, 2006 for non-Grandfathered participants).
Cerestar Salaried	
• Eligibility	Age 55 and completion of ten years of vesting service.
• Benefit	Accrued benefit reduced by 4.8% per year for the first two years that retirement precedes age 62 and 6% per year thereafter. For employees participating prior to 2000, certain early retirement benefits have been grandfathered.

Deferred vested	**Cargill Salaried**	**Cerestar Salaried**
• Eligibility	Any participant with five years of service or who has attained age 60 is entitled to a vested benefit. For participants terminating on or after January 1, 2007, eligible for early commencement after attainment of age 50 and completion of five years of service. For participants terminating prior to January 1, 2007, eligible for early commencement after attainment of age 55 and completion of fifteen years of service.	Five years of vesting service or the date the Participant attains age 65, if earlier.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	The Normal Retirement formula benefit reduced for commencement prior to age 65. For participants terminating on or after January 1, 2007, the benefit amount is reduced 5% per year for each year that the payments start prior to 65 with a floor of age 51 and an additional 2% reduction to age 50. For participants terminating prior to January 1, 2007, the benefit amount is reduced 7% between ages 60 and 65 and 4% between ages 55 and 60.	Accrued benefit is payable at the normal retirement date. May commence early if completed the age and service requirements for early retirement with an actuarial equivalent of the accrued benefit.
Pre-retirement death	**Cargill Salaried**	**Cerestar Salaried**
• Eligibility	A vested Participant who dies before benefit commencement and who has a surviving spouse.	The Participant and spouse had been married at the date of the Participant's death and the Participant had become eligible for vested benefits.
• Benefit	The spouse is entitled to the benefit that would be payable if the Participant had separated from service on the date of death, survived to the earliest commencement date, commenced benefits on a 100% Joint and Survivor benefit, and then died one day after the earliest commencement date. Prior to January 1, 2007, vested employees, upon attaining age 55, could elect 100% Joint and Survivor coverage rather than an automatic 50% coverage. This additional coverage, if elected, is paid for by the Participant by reducing the Accrued Benefit (but no charge after December 31, 2005).	The surviving spouse receives the 50% continuation portion of the 50% Joint and Survivor annuity, payable at the Participant's earliest retirement date or at the date of death, if later.
Form of benefits	**Cargill Salaried**	**Cerestar Salaried**
• Automatic form for unmarried participants	Single Life	10-year Certain and Life
• Automatic form for married participants	100% Joint and Survivor	50% Joint and Survivor for married participants; effective January 1, 2013, equal to the actuarial equivalent of the normal form (i.e.,

• Optional forms	Single Life, 50% and 100% Joint and Survivor, Modified 50% Joint and Survivor and 10-Year Certain and Life; lump sum up to $25,000. Lump sums under $5,000 are mandatory cashouts.	Single Life, 50%, 75% and 100% Joint and Survivor and 10-Year Certain and Life; lump sum up to $25,000. Lump sums under $5,000 are mandatory cashouts.
• Optional form conversion factors	Optional annuity forms of benefit are the actuarial equivalence of the normal form; effective January 1, 2013, actuarial equivalence is based on the RP-2000 mortality table (blended 50% males and 50% females, projected to 2020 using Scale AA) and on interest rate of 5% (optional form cannot be less than accrued benefit as of December 31, 2012 based on prior factors; lump sums based on applicable 417(e) mortality and interest rates (fourth month preceding the plan year)	Optional annuity forms of benefit are the actuarial equivalent of the normal form; effective January 1, 2013, actuarial equivalence is based on the RP-2000 mortality table (blended 50% males and 50% females, projected to 2020 using Scale AA) and an interest rate of 7% (optional form benefit cannot be less than the accrued benefit as of December 31, 2012 based on the prior factors); lump sums based on applicable 417(e) mortality and interest rates (fourth month preceding the plan year)
Miscellaneous		
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually.	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2021, the limit is $230,000	

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through December 21, 2020, are included in this valuation.

- **Most recent plan amendments included:** Amendment adopted December 21, 2020.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
  - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. Current active employees over age 65 are valued including accruals after age 65. This valuation does not include increases for current participants over age 70.

  - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase to age 75.

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.

- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan provisions specific to funding

Additional benefits included or excluded

- **IRC Section 436 benefit restrictions:**

  - *Unpredictable contingent event benefits:* See Below.

  - *Plan amendments:* See above.

  - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.

- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation

Maximum benefit amounts under IRS rules were updated from 2020 to 2021.

Schedule SB, line 24 — Change in Actuarial Assumptions

Actuarial assumption changes since prior valuation

- Interest discounts and mortality rates were updated from 2020 to 2021 in accordance with PPA and the plan sponsor elections. Stabilized segment rates are based on the funding relief included in the American Rescue Plan Act of 2021, signed into law on March 11, 2021. Cargill, Incorporated elected to adopt the interest rate relief for the 2021 plan year.
- The expense component of normal cost was changed from $1,700,000 to $1,400,000 to reflect expectations for the current plan year.
