Independent Auditor's Report

To the Board of Trustees and Plan Administrator
Western New England University Defined Contribution Retirement Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We were engaged to perform audits of the financial statements of Western New England University Defined Contribution Retirement Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) ("ERISA Section 103(a)(3)(C) audit"). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan ("investment information") by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained certifications from a qualified institution as of and for the years ended December 31, 2022 and 2021, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Disclaimer of Opinion

We do not express an opinion on the accompanying financial statements of the Plan. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on the financial statements.

Basis for Disclaimer of Opinion

The Plan has not maintained sufficient accounting records and supporting documents relating to certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009. Accordingly, we were unable to apply auditing procedures sufficient to determine the extent to which the accompanying financial statements may have been affected by these conditions.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment (loss) income and distributions related to such accounts have also been excluded in the accompanying statements of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income (loss) and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and related (loss) income and distributions be included in the accompanying financial statements.

Further, as described in Note 2 to the financial statements, the Plan has excluded from investments in the accompanying statements of net assets available for benefits certain annuity contracts and custodial accounts issued to current and former employees prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment (loss) income and distributions related to such accounts have also been excluded in the accompanying statements of changes in net assets available for benefits. The amount of these excluded annuity contracts and custodial accounts and the related income (loss) and distributions are not reasonably determinable. Accounting principles generally accepted in the United States of America require that these accounts and related (loss) income and distributions be included in the accompanying financial statements.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current Plan instrument, including all Plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our responsibility is to conduct an audit of the Plan's financial statements in accordance with auditing standards generally accepted in the United States of America and to issue our auditor's report. However, because of the matters described in the *Basis for Disclaimer of Opinion* section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

We are required to be independent of the Plan, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits.

Other Matter - Supplemental Schedule Required by ERISA

The supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Because of the significance of the matters described in the *Basis for Disclaimer of Opinion* section of our report, it is inappropriate to and we do not express an opinion on this supplemental schedule.

Note 1 - Description of Plan

The following description of the Western New England University Defined Contribution Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan document, and any amendments thereto, for a more complete description of the Plan's provisions.

General

The Plan is a contributory Internal Revenue Code (the "Code") Section 403(b) defined contribution retirement plan covering all eligible employees of Western New England University (the "University"). Eligible employees can begin to make salary deferral contributions to the Plan as soon as administratively feasible following their date of hire. In addition, eligible employees hired after July 1, 2008 must, as a condition of employment, make a mandatory 3% salary deferral contribution to the Plan beginning the first day of the month immediately following the month in which the employee attains the age of 25 and completes one year of service. Students are excluded from participation in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and the Code. The Audit and Compliance Committee of the University's Board of Trustees is responsible for oversight of the Plan. The University's Defined Contribution Retirement Plan Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Audit and Compliance Committee.

Contributions

Each year, participants may make salary deferral contributions to the Plan equal to a percentage of their pre-tax annual compensation, as defined by the Plan, up to Code limits. Participants may designate all or a portion of their contributions as Roth deferral contributions. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan has elected to allow participants to make qualified organization catch-up contributions provided they have completed at least 15 years of service, as defined. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

Teachers Insurance and Annuity Association of America ("TIAA") and College Retirement Equities Fund ("CREF") are the insurance entities holding certain investments of the Plan and also the recordkeeper as agent for TIAA, FSB, the custodian of other investments of the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers a variety of CREF variable annuity contracts, TIAA fixed annuity contracts, referred to as the TIAA Traditional Annuity Account, a TIAA pooled separate account, referred to as the TIAA Real Estate Account, and a variety of mutual funds and a self-directed brokerage account offered through TIAA, FSB as investment options for participants.

The University may make discretionary matching contributions and nonelective contributions to the Plan on behalf of each eligible participant. Participants are eligible for employer matching contributions and nonelective contributions on the first day of the month following the month in which the participant completes one year of service. An employee must complete 1,000 hours of service during the relevant eligibility period to receive credit for one year of service. For the years ended December 31, 2022 and 2021, the University elected to make matching contributions to the Plan equal to 2% of each participant's salary deferral contributions, as defined by the Plan. For the years ended December 31, 2022 and 2021, the University elected to not make any discretionary nonelective contributions to the Plan. Participants also direct the investment of all University

matching and nonelective contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limits.

Participant accounts

Each participant's account is credited with the participant's contributions and the University's matching contributions, as well as allocations of any University nonelective contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes receivable from participants

Participants may borrow from certain portions of their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at the time of the loan using the prime rate as published in *The Wall Street Journal* plus 1%. Principal and interest payments are made by participants directly to TIAA and CREF.

Vesting

Participants are immediately vested in all contributions to their account plus actual earnings thereon.

Payment of benefits

Upon termination of service for any reason, a participant with an account balance of \$1,000 or less may receive a lump-sum distribution without the consent of the participant. If the participant's account balance is greater than \$1,000, but less than \$5,000, the Plan administrator will roll the amount into an individual retirement account established by the Plan administrator, unless the participant elects to receive a lump-sum distribution. Participants with an account balance greater than or equal to \$5,000 may elect to receive a single lump-sum amount, installment payments for a specified term, purchase an annuity contract equal to the value of the participant's interest in his or her account, or defer payment of benefits until a later time.

Withdrawals from the elective deferral (excluding certain earnings), Roth elective deferral, and mandatory pre-tax contribution portion of a participant's account, may be made in the event of a financial hardship in accordance with the provisions specified in the Plan. Withdrawals from a participant's rollover account may also be made at any time in accordance with the provisions specified in the Plan. Additionally, in-service withdrawals are allowed from the elective deferral, Roth elective deferral and mandatory pre-tax contribution portion of a participant's account, in accordance with the provisions specified in the Plan, for participants who have attained age 59½ or become disabled.

Note 2 - Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in two types of fixed annuity contracts, of which one is considered fully benefit-responsive.

Excluded contracts

The Plan administrator has elected to exclude from investments certain annuity and custodial accounts that may have been issued to current and former employees without the Plan administrator's knowledge prior to January 1, 2009, as permitted by the Department of Labor's Field Assistance Bulletin No. 2009-02, *Annual Reporting Requirements for 403(b) Plans*. The investment (loss) income and distributions related to such accounts have also been excluded from the statements of changes in net assets available for benefits. Accounting principles generally accepted in the United States of America ("GAAP") require that these accounts and the related (loss) income and distributions be included in the accompanying financial statements. The Plan administrator is not able to determine the amount of these excluded annuity and custodial accounts and the related (loss) income and distributions because records relating to these are not available or do not exist.

Investment valuation and income recognition

Investments are reported at fair value, except for the fully benefit-responsive investment contracts, which are reported at contract value (see Note 5). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The University's Defined Contribution Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by TIAA and CREF. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net (depreciation) appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held during the years ended December 31, 2022 and 2021.

Payment of benefits

Benefits are recorded when paid.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021.

**Western New England University
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022 and 2021**

Expenses

Certain expenses of maintaining the Plan are paid directly by the Plan, unless otherwise paid by the University. Expenses that are paid by the University are excluded from these financial statements. Certain professional fees, investment advisory fees and loan origination and maintenance fees are paid directly by the Plan and are included in administrative expenses. Other indirect investment related expenses are included in the net (depreciation) appreciation in fair value of investments.

Use of estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from these estimates.

Subsequent events

The Plan has evaluated subsequent events through June 21, 2023, the date the financial statements were available to be issued.

Note 3 - Certified investments

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Investments and notes receivable from participants held at December 31, 2022 and 2021, and investment (loss) income and interest income on notes receivable from participants for the years then ended, that are disclosed in the accompanying financial statements and supplemental Schedule of Assets (Held at End of Year) (Schedule H, Line 4i), were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by TIAA and CREF.

Note 4 - Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets ("Level 1") and the lowest priority to unobservable inputs ("Level 3"). The three levels of the fair value hierarchy under FASB Accounting Standards Codification 820, *Fair Value Measurement*, are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

**Western New England University
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022 and 2021**

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Variable annuity contracts: Valued at the unit value as reported by the account. The unit values are listed on the National Association of Securities Dealers Automated Quotations ("NASDAQ") website and updated overnight for each day that the NASDAQ is open. The accounts held by the Plan are deemed to be actively traded.

Non-fully benefit-responsive fixed annuity contracts: Valued based on the accumulated cash contributions and interest credited to the Plan's contracts, less withdrawals. Crediting rates are a combination of a guaranteed rate and an annually established discretionary rate. These annuity contracts are not available for sale or transfer on any securities exchange. Withdrawals under the retirement annuity contracts may be made in the form of a life annuity or in 10 annual installments. The fully benefit-responsive fixed annuity contracts are valued as described in Note 5.

Mutual funds: Valued at the daily closing price as reported by the funds. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Self-directed brokerage accounts: Contain investments in mutual funds and a money market fund. The mutual funds and money market fund are valued at net asset value in the same manner as described in the previous paragraph.

Pooled separate account: Valued at the unit value reported by the account. The unit value is listed on the NASDAQ website and updated overnight for each day that the NASDAQ is open. The pooled separate account held by the Plan is deemed to be actively traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2022 and 2021. Classification within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements.

Assets at fair value as of December 31, 2022

For the years ended December 31, 2022 and 2021, there were \$7,250,375 and \$10,485,659, respectively, of purchases of Level 3 assets. There were no significant transfers between Levels 1 and 2 and no transfers into or out of Level 3.

Quantitative information about significant unobservable inputs used in Level 3 fair value measurements

The following tables represent the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs:

Note 5 - Investment contracts with insurance company

The Plan has entered into fully benefit-responsive fixed annuity contracts with Teachers Insurance and Annuity Association of America ("TIAA"), an insurance company, referred to as the TIAA Traditional Annuity Account. Participants who choose to invest in these contracts make contributions that purchase a specific amount of lifetime income based on the contractual rate schedule in effect at the time the premium is paid. TIAA maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The fixed annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Additional amounts above the guaranteed minimum interest rate may be declared at the discretion of the TIAA Board of Trustees on a year-by-year basis.

As described in Note 2, because the investment contracts are fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value, as reported to the Plan by TIAA, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based on a formula agreed upon with the issuer and ranges between 1% and 3% and has the potential for additional interest if declared by TIAA.

The Plan's ability to receive amounts due in accordance with fully benefit-responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the ability of the Plan to transact at contract value with the contract issuer. Such events include: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA or (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers, and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include: (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation or (4) a material amendment to the agreement without the consent of the issuer.

The fixed annuity contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

**Western New England University
Defined Contribution Retirement Plan**

**Notes to Financial Statements
December 31, 2022 and 2021**

Note 6 - Plan termination

Although it has not expressed any intent to do so, the University has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

Note 7 - Plan loans

In addition to the notes receivable from participants (see Note 1), participants may also borrow from TIAA using certain assets in the participant's account as collateral. Under this arrangement, TIAA has the right to collect the collateral in the event of a default. Principal and interest payments are made directly by participants to TIAA. As of December 31, 2022 and 2021, Plan loans totaling \$75,067 and \$114,245, respectively, were outstanding under this arrangement. There were no Plan loans in default as of December 31, 2022 and 2021.

Note 8 - Tax status

The Plan uses a volume submitter 403(b) plan document designed by The ANGELL Pension Group, Inc., the Plan's third-party administrator. The IRS has informed The ANGELL Pension Group, Inc. by an advisory letter dated March 31, 2017, that the volume submitter 403(b) plan document is designed in accordance with applicable sections of the Code. Although the Plan has been amended since receiving the advisory letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Code and, therefore, the Plan is deemed to be tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 - Related party and party-in-interest transactions

Certain Plan investments are proprietary investments managed by TIAA and CREF. TIAA and CREF are the insurance entities who hold certain investments and also the recordkeeper as agent for TIAA, FSB, the custodian holding other investments of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Indirect fees incurred by the Plan for certain investment management services are included in the net (depreciation) appreciation in fair value of investments. Direct fees of \$54,045 and \$12,502 for certain administrative expenses were paid to TIAA and CREF and charged directly to participant accounts for the years ended December 31, 2022 and 2021, respectively. The Plan received fee leveling credits from TIAA and CREF in the amount of \$152,045 and \$38,138 for the years ended December 31, 2022 and 2021, respectively, which is included in other income in the accompanying financial statements. The University pays directly any other fees related to the Plan's operations. The Plan allows participants to take loans against certain portions of their account balance, which are also considered party-in-interest transactions.

**Notes to Financial Statements
December 31, 2022 and 2021**

As of December 31, 2022 and 2021, the Plan's revenue sharing account totaled \$38,587 and \$136,808, respectively. This account is used to pay Plan expenses and any excess amounts may be re-allocated to participant accounts. The Plan received revenue sharing credits from TIAA in the amount of \$80,523 and \$219,969 for the years ended December 31, 2022 and 2021, respectively, which is included in other income in the accompanying financial statements. The Plan made direct payments that were covered by revenue sharing credits of \$69,356 and \$63,180 for professional fees for the years ended December 31, 2022 and 2021, respectively, which are included in administrative expenses in the accompanying financial statements. In addition, approximately \$114,000 and \$300,000 of revenue sharing credits were re-allocated to participant accounts for the years ended December 31, 2022 and 2021, respectively.

Note 10 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near-term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
