INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of Pacific Life Insurance Company Retirement Incentive Savings Plan:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of Pacific Life Insurance Company Retirement Incentive Savings Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 4 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether

due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter — Supplemental Schedule Required by ERISA

The supplemental schedule of assets (held at the end of the year) is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and

Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Pacific Life Insurance Company Retirement Incentive Savings Plan

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Pacific Life Insurance Company Retirement Incentive Savings Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

GENERAL

The sponsor and administrator of the Plan is Pacific Life Insurance Company (Pacific Life or the Company), a stock life insurance company domiciled in the State of Nebraska. The trustee of the Plan is Principal Trust Company (the Trustee). Several entities affiliated with the Company are adopting employers of the Plan, and their agents or employees meeting the eligibility requirements listed below, also participate in the Plan. Effective January 1, 2018, the Company amended the Plan to add provisions required to make the Plan a multiple employer plan with any non-affiliated participating employers who elect to participate in the Plan. As of December 31, 2022, there were no non-affiliated employers participating in the Plan.

The Plan is a defined contribution plan under which the Company and employees of the Company make contributions. The Plan is designed to qualify under Section 401(a) and 501(a) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

ELIGIBILITY

Effective May 1, 2017, generally, employees (collectively, the participants) shall be eligible to participate in the Plan immediately or as soon as administratively practical. Terminated and retired employees have the option to leave vested account balances in the Plan unless the vested account balance is \$1,000 or less, in which case an automatic payment will be made following 90 days of the termination date.

CONTRIBUTIONS

Participants may contribute 1% to 75% of their before-tax or after-tax qualifying compensation in each pay period. Each participant's contribution must be in cash and is nonforfeitable. For the year ended December 31, 2022, a participant's total calendar year contributions cannot exceed \$27,000 (\$20,500 plus \$6,500 catch-up contributions for employees age 50 and over). Each participant shall be allocated a Company-matching contribution at least equal to 75% of the participant's before-tax or after-tax contributions which are not in excess of 6% of the participant's qualifying compensation for each pay period. Company-matching contributions are made in cash. Plan participants are also credited cash contributions funded by the Company, which vary based upon attained years of service as of January 1, 2007 and qualified compensation. The Plan also allows for rollover contributions from other qualified retirement plans.

AUTOMATIC ENROLLMENT

All new employees are automatically enrolled in the Plan if the employee does not file with the Company an election to decline enrollment in the Plan. Any eligible employee who is automatically enrolled is deemed to have elected before tax contributions equal to 6% of their qualifying compensation. The 6% contribution rate will increase 1% in April of each year following the year the participant was enrolled until the contribution rate equals 15% of the participant's compensation. The contribution rate will automatically increase each year if the employee does not make a different election. The employee can change or stop this automatic increase at any time. These contributions will be invested in the Vanguard Target Retirement Trust most appropriate for the participant's retirement age, unless the participant elects otherwise. At enrollment, participants have the ability to direct investment allocations.

PARTICIPANT DIRECTED INVESTMENTS

The Plan's investments are participant directed and consist of mutual funds, common collective trusts, and a stable value fund managed by an unrelated third-party (Note 6). If more than one investment option is selected, the allocation must be in whole percentages.

PARTICIPANT ACCOUNTS

Individual accounts are maintained for each participant. Each participant's account is credited with the participant's contributions and withdrawals, as applicable, and allocations of: (a) Company contributions and (b) Plan earnings, and charged with withdrawals and allocations of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

VESTING

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. The vesting period is three years and is graded, which means Company contributions will vest one-third after each year of service until participants are fully vested after three years of service.

NOTES RECEIVABLE FROM PARTICIPANTS

The Plan permits participants who are current employees to borrow certain amounts against their vested account balances. The minimum loan is \$1,000 and the maximum loan is \$50,000 or 50% of their account balance at the origination of the loan, whichever is less. Such notes bear interest at the prime rate at loan inception, plus 1%, and are repaid to the participant's account in equal semimonthly installments over a period of up to 54 months. Interest rates, on these notes outstanding as of December 31, 2022, ranged from 4.25% to 8.50%. As of December 31, 2022, remaining maturities of outstanding notes range from January 2023 through June 2027. The notes are collateralized by the participant's vested balance in the Plan.

PAYMENT OF BENEFITS

On termination of service due to death, complete and total disability, extreme hardship, or the attainment of the normal retirement age, participants with vested interest of \$1,000 or less are subject to mandatory single disbursement. Participants with vested interest exceeding \$1,000 may elect the method of distribution of their vested interests in Plan assets from the following alternatives:

- a. Purchase of an annuity under a group annuity contract
- b. Payment of a single distribution
- c. Combination of lump-sum payment and annuity purchase
- d. Transfer of the taxable portion to an IRA or other eligible employer plan

FORFEITED ACCOUNTS

Any amount of a participant's account attributable to Company contributions not vested at termination of employment is forfeited if the participant does not resume employment with the Company prior to incurring five consecutive one-year breaks in service. Forfeited nonvested accounts may be used to restore Company contribution accounts and Company retirement contributions of rehired participants, reduce Company contributions and company retirement contributions, or pay reasonable expenses for the administration of the Plan. Administrative expenses paid by the Company were reduced by \$295,873 from forfeited nonvested accounts in 2022. Company contributions and Company retirement contributions paid by the Company were reduced by \$506,728 from forfeited nonvested accounts in 2022. Certain administrative expenses of the Plan are paid by the Company; others are paid by the Plan. Accumulated forfeited nonvested accounts totaled \$68,690 and \$82,434 at December 31, 2022 and 2021, respectively.

2. SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Plan management has evaluated events subsequent to December 31, 2022 through the date the financial statements were available to be issued and has concluded that no events have occurred that require adjustments to these financial statements. Economic and capital market uncertainties have arisen as a result of COVID-19. The impact of COVID-19 on the Plan is constantly evolving and its future effects are uncertain and cannot be reasonably estimated as of the date of this report. There were no material impacts to the Plan's financial statements as a result of COVID-19. The Plan continues to actively monitor direct and indirect impacts of the pandemic on its financial statements.

In June 2023, the Company determined to make changes to the company contribution structure of the Plan. Effective January 1, 2024, the Company matching contribution will be updated to 100% of the participant's before-tax or after-tax contributions which are not in excess of 5% of the participant's qualifying compensation for each pay period. Additionally, the cash contributions credited to plan participants by the Company which vary based on year of service and qualified compensation, will be updated to 5% across all plan participants.

INVESTMENT VALUATION

The Plan's investments are stated at fair value and contract value. Shares of mutual funds are valued at quoted market prices, which represent the net asset value (NAV) of shares held by the Plan at year end.

Common collective trusts are valued at the NAV of units of a bank collective trust. The NAV as provided by the Trustee is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The Plan has investments in synthetic guaranteed investment contracts, separate account guaranteed investment contracts and common collective trusts invested in by the stable value fund. Synthetic guaranteed investment contracts and separate account guaranteed investment contracts are considered fully benefit-responsive investment contracts (FBRICs) and thus are valued at contract value in accordance with the Financial Accounting Standards Board's (FASB) Accounting Standards Codification's (Codification) Plan Accounting - Defined Contribution Pension Plans Topic. Contract value represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses.

The common collective trusts invested in by the stable value fund are valued using the NAV of units of a bank collective trust. See Note 6.

Purchases and sales of securities are reflected on a trade date basis. Interest income is recorded as earned on an accrual basis and dividend income is recorded on the ex-dividend date.

Included in the statement of changes in net assets available for benefits is the net appreciation or depreciation in the fair value or contract value of the Plan's investments, which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

USE OF ESTIMATES

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

RISKS AND UNCERTAINTIES

The Plan provides for investment in any combination of mutual funds, common collective trusts, and a stable value fund. These investment securities are exposed to various risks, such as interest rate, equity, market, and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits as of December 31, 2022 and 2021, and the statement of changes in net assets available for benefits for the year ended December 31, 2022.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are carried at the aggregate unpaid principal balance of notes outstanding plus any accrued but unpaid interest, and are collateralized by the participants' vested account balances.

BENEFITS PAYABLE

Benefit payments to participants are recorded upon distribution. Amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid were zero as of December 31, 2022 and 2021.

3. FAIR VALUE OF FINANCIAL INSTRUMENTS

The Codification's Fair Value Measurements and Disclosures Topic establishes a hierarchy that prioritizes the inputs of valuation methods used to measure fair value for investments that are carried at fair value. The determination of fair value requires the use of observable market data when available. The hierarchy consists of the following three levels that are prioritized based on observable and unobservable inputs.

Level 1 Unadjusted quoted prices for identical instruments in active markets. Level 1 investments include securities that are traded in an active exchange market.

Level 2 Observable inputs other than Level 1 prices, such as quoted prices for similar instruments in active markets; quoted prices for identical or similar instruments in inactive markets; and model-derived valuations for which all significant inputs are observable market data.

Level 3 Valuations derived from valuation techniques in which one or more significant inputs are not market observable.

The following tables present, by fair value hierarchy level, the Plan's investments that are carried at fair value as of December 31, 2022 and 2021. Discussion on determining fair value of the Plan's investments is included in Note 2.

<u>December 31, 2022:</u>	Level 1	Level 2	Level 3	Total
Mutual funds	\$149,037,734			\$149,037,734

<u>December 31, 2021:</u>	Level 1	Level 2	Level 3	Total
Mutual funds	\$575,340,454			\$575,340,454
Investments measured at NAV ⁽¹⁾				775,973,300
Total	\$575,340,454	\$—	\$—	\$1,351,313,754

⁽¹⁾ In accordance with the Codification's Fair Value Measurement Topic 820-10, certain investments that do not have a readily determinable fair value are measured using the NAV per share (or its equivalent) as a practical expedient and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The table below presents a summary of the investments in which the fair value is determined using a NAV per share:

All investment balances and investment information are certified by the Trustee, excluding the classification and fair value hierarchy level of investments as presented in Note 3.

5. INCOME TAX STATUS

The Internal Revenue Service (IRS) determined and informed the Company by letter, dated October 31, 2017, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the IRS determination letter. These amendments did not have a significant effect on the Plan's net assets or tax status.

The Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax exempt. As a qualified tax exempt entity, the Plan's financial statements do not include a provision for income taxes.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax asset or liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. As of December 31, 2022, there were no uncertain tax positions taken or expected to be taken that would require recognition of an asset or liability, or require additional disclosure in the financial statements.

6. STABLE VALUE FUND

The stable value fund is managed by an unrelated third-party and is primarily comprised of investment contracts issued by financial institutions and cash equivalents. The types of investment contracts in which the stable value fund invests include common collective trusts, synthetic guaranteed investment contracts and a separate account guaranteed investment contract.

The stable value fund's investment in common collective trusts, measured at fair value using the NAV per share, was valued at \$15,164,710 and \$13,532,539 as of December 31, 2022 and 2021, respectively.

The Plan's investment in synthetic guaranteed investment contracts, and separate account guaranteed investment contracts, or FBRICs, are included in the financial statements at contract value as reported to the Plan by the Trustee, in accordance with the Codification's Plan Accounting - Defined Contribution Pension Plans Topic. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants when they initiate permitted transactions under the terms of the Plan. The following represents the disaggregation of contract value between types of investment contracts held by the Plan.

	December 31,	
	2022	2021
Separate account guaranteed investment contracts	\$74,269,367	\$71,197,937
Synthetic guaranteed investment contracts	216,815,900	207,375,881
Total	<u>\$291,085,267</u>	<u>\$278,573,818</u>

Separate account guaranteed investment contracts and synthetic guaranteed investment contracts are issued by insurance companies or other financial institutions, backed by a portfolio of bonds. The bond portfolio may be structured as a fixed income separate account or collective fund. The bond portfolio is either owned by the contract issuer and segregated in a separate account for the benefit of the Plan (separate account guaranteed investment contract) or owned directly by the Plan (synthetic guaranteed investment contract). The synthetic guaranteed investment contracts are comprised of two components: 1) a book value wrap contract issued by a financial institution and 2) an underlying investment grade quality portfolio of fixed income securities backing the contract whose market prices fluctuate. The wrap contract is the vehicle which allows participants to transact at book value (principal plus accrued interest) without experiencing the price fluctuations of the underlying securities. The issuer guarantees that all qualified participant withdrawals will be at contract value and that the crediting rate applied will not be less than 0%. Crediting rates are typically reset quarterly to account for the difference between the contract value and the fair value of the underlying portfolio.

If the Plan defaults in its obligations under the contract (including the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA), and such default is not corrected within the time permitted by the contract, then the contract may be terminated by the issuer and the Plan will receive the fair value as of the date of termination. Each contract recognizes certain "events of default" which can invalidate the contracts' coverage. Among these are investments outside of the range of instruments which are permitted under the investment guidelines contained in the investment contract, fraudulent or other material misrepresentations made to the issuer, changes of control of the investment adviser not approved by the contract issuer, changes in certain key regulatory requirements, or failure of the Plan to be tax qualified.

The contracts also generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events may include, but not be limited to, the following:

- material amendments to the Plan's structure or administration;
- complete or partial termination of the Plan, including a merger with another plan;
- the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA;
- the redemption of all or a portion of the interests in the Plan at the direction of the plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of the plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan;
- any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Plan;
- changes to competing investment options;
- the delivery of any communication to plan participants designed to influence a participant not to invest in the stable value option.

At this time, the occurrence of any such market value adjustment event is not probable.

7. RELATED-PARTY TRANSACTIONS

The Plan invests in the Principal Global Investors U.S. REIT fund which is advised by Principal Global Investors, an affiliate of the Trustee.

The Plan permits participants who are current employees to borrow certain amounts against their vested account balances. See 13 Note 1.

These transactions qualify as exempt party-in-interest transactions and therefore are not considered to be prohibited transactions under ERISA.

8. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, participants would become 100% vested in their accounts.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The reconciliation of net assets available for benefits and changes in net assets available for benefits per the financial statements to the Form 5500 as of December 31, 2022 and 2021, and for the year ended December 31, 2022, are as follows:
