Independent Auditor's Report

Nutrien North American Pension Committee,
Plan Administrator, and Management of the
Nutrien 401(k) Retirement Plan
Loveland, Colorado

Opinion

We have audited the financial statements of Nutrien 401(k) Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Nutrien 401(k) Retirement Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Nutrien 401(k) Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Nutrien 401(k) Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Nutrien 401(k) Retirement Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Nutrien 401(k) Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i-schedule of assets held at end of year as of December 31, 2022, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its' form and content, is presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

NUTRIEN 401(k) RETIREMENT PLAN
Notes to the Financial Statements
December 31, 2022 and 2021
(US dollars)

1. PLAN DESCRIPTION

The following description of the Nutrien 401(k) Retirement Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan sponsor, Nutrien US LLC (formerly Agrium U.S. Inc.) (the "Company") is a wholly owned subsidiary of Nutrien Ltd. ("Nutrien"). The Plan is a defined contribution plan established for the benefit of eligible employees of the Company; Nutrien Ag Solutions, Inc. ("NAS"); PCS Administration (USA), Inc. ("PCS"); PCS Phosphate Company, Inc.; PCS Sales (USA), Inc.; certain employees of White Springs Agricultural Chemicals, Inc.; and certain employees of PCS Nitrogen, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The trustee of the Plan is Fidelity Management Trust Company ("Trustee"). The recordkeeper of the Plan is Fidelity Investments Institutional Operations Company, Inc., an affiliate of the Trustee. The Plan is administered by a committee of three or more persons (the "Plan Committee") appointed by Nutrien's Board of Directors. The Plan Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

All of the Plan's investment assets are held in a trust account at the Trustee and consist of an interest in an investment account of the Nutrien 401(k) Retirement Plan Master Trust (the "Master Trust"), a master trust established by an affiliate of the Company on behalf of the Company and administered by the Trustee.

Participant eligibility and plan entry

All full-time and part-time employees of the Company are immediately eligible to participate in the Plan and may do so as soon as practical upon date of hire or status change. All employees designated as seasonal or temporary require 12 months of employment for participation and may enter the Plan as soon as administratively feasible following completion of service eligibility.

Contributions

Participants may contribute up to 75 percent of eligible compensation each year, as defined in the Plan, subject to certain Internal Revenue Code of 1986, as amended ("IRC"), limitations. These contributions may be pre-tax contributions and/or ROTH after-tax contributions. Participants who are age 50 and over may also make "catch-up" contributions. The Plan has an automatic enrollment provision, under which new participants make a 3 percent pre-tax contribution, unless they formally waive participation or elect a different participation level. The Plan has an automatic increase provision, under which new participants are automatically enrolled to have an automatic increase of 1 percent per year up to a maximum of 10 percent, unless they formally waive participation.

The Company matches 150 percent of the first 6 percent of eligible compensation that participants contribute for a maximum match of 9 percent of eligible compensation. Catch-up contributions are eligible for the Company match. Participants may also rollover amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions), which are not eligible for the Company match.

After the end of each plan year, the Company may make an additional "true-up" matching contribution to the participant account if the aggregate matching contribution allocation for the plan year is less than the amount the participant would otherwise have received as matching contributions had the participant contributed at least 6 percent of eligible compensation for each pay period throughout the plan year. The amount of the true-up contribution will be the difference between the amount of matching contributions allocated to the participant account during the plan year and the amount that would have been allocated for the plan year had the participant contributed at least 6 percent of eligible compensation throughout the year.

Vesting

Participants are immediately vested in their employee and employer contributions deposited after January 1, 2020 in their account balances.

Prior to January 1, 2020 all discretionary additional NAS company contributions and earnings thereon vest to the participants based upon their years of service as follows:

Years of Service	Vesting Percentage
Less than three	50%
Three or more	100%

Prior to January 1, 2020, NAS participants are 100 percent vested upon reaching age 65, death, or upon plan termination, regardless of the participant's years of service. Terminated participants forfeit non-vested amounts. Forfeitures are accumulated during the Plan year and may be used to reduce NAS company contributions or pay Plan administrative expenses. During 2022, there was \$7,922 forfeitures applied to NAS company contributions. The balance of forfeited non-vested accounts was \$202,211 at December 31, 2022 (2021 - \$115,796). Refer to the Plan document for vesting provisions related to acquired plan account balances.

Participant accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company matching contributions, (b) Plan earnings and losses, and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined in the Plan document. The benefit a participant is entitled to is the benefit that can be provided from the participant's vested account.

Distributions

Distributions from the Plan may be made to a participant upon death, total disability, retirement, financial hardship, or termination of employment. In-service withdrawals are also permitted after a participant attains age 59½. Company contributions, if any, are subject to certain forfeiture provisions.

Upon termination of employment, a participant whose vested account balance is greater than \$5,000 may elect to receive a distribution of his or her account balance, leave the vested account balance in the Plan until a date not to exceed April 1 of the year following the year in which the participant reaches age 70½ or request a direct rollover. A participant with a vested account balance between \$1,000 and \$5,000 (including the value of the Participant's Rollover Account) which has not elected to have such distribution paid directly to an eligible retirement plan specified by the participant in a direct rollover or to receive the distribution directly in accordance with Article 11, will automatically have the distribution directly rollover to the individual retirement account designated by the Committee. If the participant's vested account balance is \$1,000 or less (including the value of the Participant's Rollover Account), the Committee may direct that the amount be automatically distributed.

For all participant-driven distributions, any portion of a participant's account that is invested in Nutrien common stock may be distributed in cash or in common shares of Nutrien, at the election of the participant.

Participants may make withdrawals, not to exceed their pre-tax contributions, to satisfy one of the immediate and heavy financial needs as described in the Plan document.

The designated beneficiary is entitled to a death benefit distribution equal to the participant's vested account balance.

Notes receivable from participants

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of \$50,000 or 50 percent of their vested account balance. Loan terms range from one to five years or up to 20 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account. Loans bear interest based on the prevailing terms when the loan was made. Interest rate is established at the inception of the loan and is set at one percentage point higher than the prime lending rate as posted in Reuters as of the first business day of the calendar month in which the loan is made. The interest rate is fixed and does not change for the duration of the loan. Principal and interest are paid ratably through payroll deductions. A participant may generally have no more than one outstanding loan at any one time. As of December 31, 2022, participant loans have maturities through 2042 at interest rates ranging from 4.3 percent to 9.3 percent.

Investment options

Participants direct the investment of their account balances and contributions into various investment options offered by the Plan. The Plan currently offers Nutrien common stock, a selection of mutual and common collective trust funds, short-term funds and one pooled investment stable value fund. Dividends distributed by a participant's investment in Nutrien common stock are reinvested in Nutrien common stock. The Nutrien common stock purchase account is a money market fund that is used in the recordkeeping of the purchases and sales of fractional shares of Nutrien common stock and is not available as a participant-directed investment option.

Participants who are enrolled in the Plan under the automatic enrollment provision and who have not otherwise made an investment election, will have their contributions and the Company contributions invested in the Plan's "default fund," which has been designated as State Street Target Retirement date funds based on the retirement date closest to the year that the participant might retire, based on the participant's current age and assuming a normal retirement age of 65.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Distributions

Distributions are recorded when paid. There were no amounts allocated to accounts of participants who had elected to withdraw from the Plan but had not yet been paid at December 31, 2022 and 2021.

Valuation of investments and income (loss) recognition

As of December 31, 2022 and 2021, the Plan's investments, including the investment in the Master Trust, are reported at fair value. The fair value of the Master Trust has been determined based on the fair value of the underlying investments of the Master Trust. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date.

A three-level hierarchy is used to disclose assets and liabilities measured at fair value. Assets and liabilities are classified in their entirety based on the lowest level of input significant to the fair value measurement.

The three levels are defined as follows:

- Level 1 – Observable inputs based on quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 – Observable inputs based on quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in inactive markets, inputs other than quoted prices that are observable for the asset or liability, or inputs derived from or corroborated by observable market data by correlation or other means.
- Level 3 – Unobservable inputs that reflect an entity's own assumptions about what inputs a market participant would use in pricing the asset or liability based on the best information available in the circumstances.

The following describes the valuation methods and assumptions used by the Plan to estimate the fair values of the investments held by the Plan. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Common Stock:

Nutrien common stock is valued at the closing price reported on the active market on which the individual securities are traded.

Common Collective Trust:

As a practical expedient, the fair value of the trust is based on the net asset value ("NAV") of units held by the Plan on the last business day of the year, as determined by the issuer of the trust based on the fair value of the underlying investments. This trust shares the common goal of growth and preservation of principal. It indirectly invests in a mix of US and international common stocks, and fixed income securities through holdings in various mutual funds. There are currently no redemption restrictions or unfunded commitments on these investments. Redemption is permitted daily with no restrictions or notice periods and there are no unfunded commitments.

Stable Value Fund — The Goldman Sachs Collective Trust (the "Collective Trust") is stated at contract value, as the investment contract in this fund is fully benefit-responsive. Contract value of the stable value fund is the value at which participants ordinarily transact and is the sum of participant and Company contributions, plus accrued interest thereon less withdrawals. As a practical expedient, the fair value of participation units in the stable value fund is based upon the NAV of such fund as reported, in the audited financial statements of the stable value fund. NAV is determined to be contract value, the value at which participants ordinarily transact. Redemption is permitted daily with no restrictions or notice periods and there are no unfunded commitments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net realized and unrealized appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the common collective trusts, mutual funds and pooled investment stable value fund are deducted from income earned on a daily basis and are not separately charged to an expense. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan document.

Administrative expenses

The Plan's expenses are paid by either the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net asset available for benefits. In addition, certain investment related expenses are included in net depreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

3. TAX STATUS

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated June 30, 2015, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan has since been amended. However, the Company and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC, and the Plan and related trust continue to be tax-exempt. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, there are currently no audits for any tax periods in progress.

4. PLAN TERMINATION

Although the Company has not expressed any intent to terminate the Plan, it retains the right under the Plan to terminate it subject to the provisions of ERISA. The Plan provides that, upon termination, the net assets should be allocated among the Plan's participants and beneficiaries in accordance with the provisions of the Plan. Participants would become 100 percent vested in the employer contribution portion of their accounts.

5. PLAN INTEREST IN MASTER TRUST

All of the Plan's investments are held in the Master Trust, which was established for the investment of assets of the Plan and two other retirement plans sponsored by the Plan Sponsor. Each participating retirement plan has an interest in the Master Trust. Use of the Master Trust permits the commingling of Plan assets with the assets of the participating plans for investment and administrative purposes. Although assets of the plans are commingled in the Master Trust, the Trustees maintain supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans.

The net assets and investments of the Master Trust at December 31, 2022 and 2021, are summarized as follows:

	2022		2021	
	Master Trust	Plan's Share	Master Trust	Plan's Share
Investments, at fair value	1,703,652,433	1,396,304,755	1,970,106,531	1,595,651,313

¹ In accordance with GAAP, investments measured at NAV as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented are intended to permit reconciliation to the amount presented in the statements of net assets available for benefits.

Change in fair values levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for plan benefits. For the years ended December 31, 2022 and 2021, there were no significant transfers in or out of levels 1, 2, or 3.

The classification of investment earnings reported in the statement of changes in net assets may differ from the classification of earnings on Form 5500 due to different reporting requirements on Form 5500.

7. STABLE VALUE FUND

The Goldman Sachs Stable Value Collective Trust Institutional Series Class 1 is a stable value fund (the "Fund") that is a separate investment trust within the Collective Trust. The Fund is invested in stable value investment contracts and in fixed income instruments which underlie stable value contracts as well as in money market instruments. Investments underlying stable value contracts may be purchased directly or accessed via commingled vehicles and accounts that invest in such instruments. The objective of the Fund is to earn a high level of return that is consistent with providing the stability of principal and maintaining a stable value of one dollar per unit.

Certain events limit the ability of the Plan to transact at contract value with the Collective Trust issuer. Such events include the following: (a) a material amendment to the Collective Trust or Fund documents or administration that would have a material adverse effect on the provider; (b) amendments to a participating trust's plan documents or plan administration that would have a material adverse impact on the provider; (c) additions of competing Investment options or changes to the participating trust's competing investment options or equity wash provisions or restrictions; (d) complete or partial termination of a participating trust's plan or merger of a plan with another plan or the participating trust ceases to be an eligible trust; (e) a redemption resulting from an event initiated or directed by a participating trust's plan sponsor ("employer-initiated event") such as the removal of a group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), or the closing or sale of a subsidiary, employing unit or affiliate or the bankruptcy or insolvency of the plan sponsor; (f) changes in law or regulation applicable to the Fund, the participating trust or plan or account or contract issuer; (g) the delivery of any communication to plan participants designed to influence a participant not to invest in the account; and (h) other events or circumstances provided for in the contract. The Plan administrator does not believe the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with participants, is probable.

Stable value contracts also define certain termination events that permit the provider to terminate the contract at market value and the Fund will receive the market value of the covered assets as of the date of termination. Thus, if the market value of the covered assets is less than the contract value on the termination date, the contract does not require the issuer to pay any excess of contract value over market value. As a result, this type of termination will result in a market value adjustment, which could cause the Fund to be unable to maintain a stable NAV of one dollar per unit. Issuer termination events vary by contract and typically may include some or all of the following: (a) the Fund or the Collective Trust is fully or partially terminated or fails to be exempt from federal income taxation; (b) the Fund merges with another fund or entity; (c) a security is sold or subject to a lien other than as permitted under the contract; (d) the termination or replacement or "change in control" as defined in the contract of the Trustee or investment adviser without the issuer's consent; (e) there is a material change in law, regulation, ruling, or accounting requirement applicable to the Fund or the contract issuer; (f) the bankruptcy of the Fund; (g) the amendment of the Declaration of Trust or change in the investment objectives or administration of the Fund without the issuer's consent; (h) the level of "impaired securities" as defined in the contract exceeds an agreed upon amount of the Fund assets; and (i) other events or circumstances provided for in the contract. In addition, if the Fund defaults in its contractual obligations or representations under the contract (including non-compliance with investment guidelines) and such default is not cured within any applicable cure period, then the contract may be terminated by the issuer and the Fund will receive the market value as of the date of termination.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment in the Collective Trust at contract value. The average crediting interest rate was 1.67 percent (2021 - 1.31 percent) for the year ended December 31, 2022, which was based on the interest rates of the underlying portfolio of assets. The average yield for the year ended December 31, 2022 was 3.82 percent (2021 - 1.39 percent). The participants in the Plan are able to redeem from the Collective Trust immediately. The Collective Trust has no redemption restrictions and there is no redemption notice period required for participants.

8. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of common trust funds managed by the Trustee, as well as common shares of Nutrien. Related transactions qualify as exempt party-in-interest transactions. These investments are disclosed in the supplemental schedule of assets held. Fees paid by the Plan for investment management services to the Trustee were included as a reduction of the return earned on each fund. Included in the statement of changes in net assets available for benefits are fees paid by the Plan for loan, recordkeeping and administrative expenses.

At December 31, 2022, the Plan held 1,004,483 shares of Nutrien common stock (2021 - 1,086,495) with a fair value of \$73,357,386 (2021 - \$81,704,397). During the year ended December 31, 2022, the Plan recorded dividend income of \$1,975,581.

9. RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments, including mutual funds, a pooled investment stable value fund, a common collective trust, short term funds and common stock. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements. As of December 31, 2022, there was a significant concentration of participant-directed investments in three target retirement collective investment trust funds (34 percent).

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the financial statements as of December 31, 2022 and 2021 to the Form 5500:

	2022	2021
Statements of net assets available for benefits:		
Net assets available for benefits per the financial statements	1,418,012,640	1,619,155,170
Adjustment from contract value to fair value for fully benefit-responsive stable value fund	(6,182,592)	306,826
Net assets per the Form 5500	1,411,830,048	1,619,461,996
Statement of changes in net assets available for benefits:		
Decrease in net assets per the financial statements	(201,142,530)	
Net change in adjustment from contract value to fair value	(6,489,418)	
Net loss and transfers per the Form 5500	(207,631,948)	

11. SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events through June 21, 2023, the date the financial statements were available to be issued, to ensure that the financial statements include appropriate disclosure or recognition of events that occurred subsequent to December 31, 2022. No items requiring disclosure or recognition were noted.
