Report of Independent Auditors

To the Administrator of the IBM 401(k) Plus Plan

Opinion

We have audited the accompanying financial statements of the IBM 401(k) Plus Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, including the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the year ended December 31, 2022, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules of loans or fixed income obligations in default or classified as uncollectible at December 31, 2022 and of assets (held at end of year) at December 31, 2022 are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates

directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with US GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

**IBM 401(k) PLUS PLAN
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the IBM 401(k) Plus Plan (the “Plan”) provides only general information. Participants should refer to the Plan prospectus (Summary Plan Description) and applicable Summaries of Material Modification (SMM) for a complete description of the Plan’s provisions.

General

The Plan was established by resolution of International Business Machines Corporation’s Retirement Plans Committee (the “Committee”) effective July 1, 1983 and Plan assets are held in trust for the benefit of its participants. The Plan offers all eligible active, full-time and part-time regular and long-term supplemental United States (U.S.) employees of International Business Machines Corporation (“IBM”) and certain of its domestic related companies and partnerships an opportunity to defer from one to eighty percent of their eligible compensation for before-tax 401(k) and/or Roth 401(k) contributions to any of 34 primary investment funds and about 160 mutual funds in an “Expanded Choice - Mutual Funds tier.” In addition, participants are able to contribute up to ten percent of their eligible compensation on an after-tax basis. Annual contributions are subject to the legal limits permitted by Internal Revenue Service (“IRS”) regulations.

Participants have the choice to enroll in Managed Accounts, an account management service provided by Edelman Financial Engines for a fee which is deducted from the participant’s account.

At December 31, 2022 and 2021, the number of participants with an account balance in the Plan was 162,870 and 166,735 respectively.

Participants are provided the choice to enroll in a “disability protection program” under which a portion of the participant’s account is used to pay premiums to purchase term insurance (underwritten by Metropolitan Life Insurance Company), which will pay the amount of their before-tax 401(k) contributions, matching contributions, automatic contributions and/or Special Savings Awards into their accounts in the event the participant becomes disabled while insured.

The Plan is dual qualified under Section 401(a) of the Internal Revenue Code of 1986, as amended, and Section 1081.01(a) of the Puerto Rico Internal Revenue Code, as amended (the “PRIRC”). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Administration

The Plan is administered by the Committee, which appointed certain officials of IBM to assist in administering the Plan. The Committee appointed State Street Bank and Trust Company (“SSBT”), as Trustee, to safeguard the assets of the funds and State Street Global Advisors (“SSGA”), the institutional investment management affiliate of SSBT, The Vanguard Group and other investment managers to direct investments in the various funds. Fidelity Workplace Services LLC (“Fidelity”) is the provider of record keeping and participant services, operator of the IBM Benefits Center – Provided by Fidelity for the Plan, in Raleigh, North Carolina as well as the provider of administrative services related to the Expanded Choice - Mutual Funds tier. Communication services are provided by Fidelity as well as The Vanguard Group.

Contributions

Generally, IBM employer contributions are based upon the IBM pension formula for which the employee was eligible on December 31, 2007, or on hire date on or after January 1, 2005. If a participant’s IBM Personal Pension Plan eligibility as of December 31, 2007 was (1) the Pension Credit Formula, the participant is eligible to receive a 6 percent matching contribution and a 4 percent automatic contribution; or (2) the Personal Pension Account, the participant is eligible to receive a 6 percent matching contribution and a 2 percent automatic contribution. Generally, if the participant was hired or rehired on or after January 1, 2005, and is not in one of the job families described below, then the participant is eligible for a 5 percent employer matching contribution and a 1 percent automatic contribution. If a participant is in any one of the following categories: (1) IBM Consulting Application Development Specialist Job Family hired or rehired on or after April 15, 2013; (2) Multi Vendor Service Representative hired or rehired on or after April 1, 2015; (3) Infrastructure Services

Representative hired or rehired on or after November 1, 2015; or (4) is in one of the following job families in Infrastructure Services on or after January 1, 2016 (a) IT Specialist; (b) Technical Services; (c) Project Management (excluding Project Executives and Delivery Project Executives); (d) Enterprise Operations; and (e) Product Services, then the participant is eligible for a 2 percent matching contribution and a 1 percent automatic contribution. A contribution equal to 5 percent of eligible compensation (referred to as a “Special Savings Award”) will be added to the accounts of participants who are non-exempt employees at each year-end, determinable on December 15, who participated in the Pension Credit Formula as of December 31, 2007 and have been continuously employed by IBM since that date. The Special Savings Award will be contributed to eligible participants on the last business day of the year.

Newly hired employees are automatically enrolled at 5 percent of eligible salary and performance pay after approximately 30 days of employment with IBM, unless they elect otherwise. New hires become eligible for the IBM automatic contribution and the IBM matching contribution after completing the applicable service requirement, which generally is one year. IBM Consulting Application Development Specialist Job Family hires, Multi Vendor Service Representative hires on or after April 1, 2015 and Systems Services Representative hires on or after November 1, 2015 have a service requirement of two years. IBM Consulting Entry Professional Hires on or after April 1, 2015 shall become eligible for these employer contributions only upon promotion.

In plan year 2022, matching and automatic contributions were made once annually at the end of the year. In order to receive such IBM employer contributions each year, a participant must be employed on December 15 of the Plan year, and meet all eligibility requirements. However, if a participant separates from service prior to December 15:

- after completing certain service and/or age requirements;
- due to a business transaction (including a divestiture, outsourcing or similar transaction) and the participant accepts employment with the buyer; or
- due to death;

then the participant will be eligible to receive matching and automatic contributions for which they are eligible, following separation from service.

Eligible compensation under the Plan includes regular salary, commissions, overtime, shift premium and similar additional compensation payments for nonscheduled workdays, recurring payments under an employee variable compensation plan, regular IBM Short-Term Disability Income Plan payments, holiday pay and vacation pay, and payments made under any executive incentive compensation plan. Non-recurring compensation, such as awards, deal team payments and significant signing bonuses are not eligible compensation and cannot be deferred under the Plan.

Participants are able to choose to have their contributions invested entirely in one of, or in any combination of, the 34 primary funds and about 160 mutual funds in the Expanded Choice - Mutual Funds tier, in multiples of one percent. If participants do not make an investment election, then contributions will be invested in the default Target Retirement fund that most closely corresponds to the year in which they will reach age 60.

Participants may change their deferral percentage and investment selection for future contributions at any time. The changes will take effect for the next eligible pay cycle if the request is completed before the applicable cutoff date. Also, participants may transfer part or all of existing account balances among funds in the Plan once daily, subject to the Plan restrictions on trading.

The Committee is committed to preserving the integrity of the Plan as a long-term savings vehicle for its employees. Frequent, short-term trading that is intended to take advantage of pricing lags in funds can harm long-term investors, or increase trading expenses in general. Therefore, the Plan has implemented frequent trading transaction restrictions and reserves the right to take other appropriate action to curb short-term transactions (buying/selling).

Participant Accounts

The Plan record keeper maintains an account in the name of each participant to which each participant's contributions and share of the net earnings, losses and expenses, if any, of the various investment funds are recorded. The earnings on the assets held in each of the funds and all proceeds from the sale of such assets are held and reinvested in the respective funds.

Participants may transfer rollover contributions of before-tax and Roth 401(k) amounts from other qualified savings plans or Individual Retirement Accounts into their Plan account. Rollovers must be made in cash within the time limits specified by the IRS; stock or in-kind rollovers are not accepted. These rollovers are limited to active employees on the payroll of IBM (or affiliated companies) who have existing accounts in the Plan. Retirees are not eligible for such rollovers, except that a retiree or separated employee who has an existing account in the Plan may roll over a lump-sum distribution from an IBM-sponsored qualified retirement plan, including the IBM Personal Pension Plan. After-tax amounts may also be directly rolled over into the Plan from another qualified savings plan.

On each valuation date, the unit/share value of each fund is determined by dividing the current investment value of the assets in that fund on that date by the number of units/shares in the fund. The participant's investment value of assets equals the market value of assets for all funds except the Interest Income Fund for which the participant's investment value of assets equals the contract value of assets. In determining the unit/share value, new contributions that are to be allocated as of the valuation date are excluded from the calculation. On the next day, the cash related to new contributions is transferred into the fund and the number of additional units to be credited to a participant's account for each fund, due to new contributions, is equal to the amount of the participant's new contributions to the fund divided by the prior night's unit value.

Contributions (with the exception of after-tax contributions and Roth 401(k) contributions) made to the Plan, as well as interest, dividends, or other earnings of the Plan are generally not included in the taxable income of the participant until withdrawal, at which time all earnings and contributions withdrawn generally are taxed as ordinary income to the participant. Additionally, withdrawals of pre-tax contributions by the participant before attaining age 59 1/2 are subject to a penalty tax of 10 percent unless an exception applies (e.g. at least 55 years of age when the participant terminates from IBM). After-tax contributions made to the Plan are not tax deferred, but are taxable income prior to the participant making the contribution. Any interest, dividends or other earnings on the after-tax contributions are generally not included in the taxable income of the participant until withdrawal, at which time all earnings withdrawn are generally taxed as ordinary income to the participant. Any distribution of earnings on after-tax contributions that are withdrawn by the participant before attaining age 59 1/2 are subject to a penalty tax of 10 percent unless an exception applies. Roth 401(k) contributions are not tax deferred, but are taxable income prior to the participant making the contribution. Interest, dividends or other earnings on Roth 401(k) contributions may not be taxable at withdrawal provided the participant has met the applicable rules.

Consistent with provisions established by the IRS, the Plan's 2022 limit on employee salary and performance pay deferrals was \$20,500. Participants who were age 50 or older during 2022 could take advantage of a higher 401(k) contribution limit of \$27,000. The 2022 maximum annual deferral amount for employees residing in Puerto Rico was limited by local government regulations to \$20,000. Puerto Rico participants who were age 50 or older in 2022 could take advantage of a higher contribution limit of \$21,500.

Vesting

Participants in the Plan are at all times fully vested in their account balance, including employee contributions, employer contributions and earnings thereon, if any.

Distributions

Participants who have terminated employment or are eligible for in-service distributions (e.g. have reached age 59 1/2) may request ad hoc distributions (\$500 minimum) or a full distribution.

In addition, participants may also elect to receive the balance of their account in semi-monthly, monthly, quarterly, semi-annual or annual installments. Eligible participants may request installments over a fixed period of time or at a flat dollar amount (\$500 minimum per period for a flat dollar election). Distributions are subject to the required minimum distribution rules for participants who have reached age 72.

Withdrawals for financial hardship are permitted provided they are for an immediate and significant financial need, and the distribution is necessary to satisfy that need. Employees must submit evidence of hardship to the record keeper who will determine whether the situation qualifies for a hardship withdrawal based on guidance from the Plan administrator. A hardship withdrawal is taxed as ordinary income to the employee and may be subject to the 10 percent additional tax on early distributions.

If the participant dies and is married at the time of death, the participant's spouse must be the beneficiary of the participant's Plan account, unless the participant's spouse has previously given written, notarized consent to designate another person as beneficiary. If the participant marries or remarries, any prior beneficiary designation is canceled and the spouse automatically becomes the beneficiary. If the participant is single, the beneficiary may be anyone previously designated by the participant under the Plan. In the absence of an effective designation under the Plan at the time of death, the proceeds normally will be paid in the following order: the participant's spouse, the participant's children in equal shares, or to surviving parents equally. If no spouse, child, or parent is living, payments will be made to the executors or administrators of the participant's estate.

After the death of a participant, an account will be established for the participant's beneficiary. If the beneficiary is a spouse or domestic partner, the beneficiary's account may be maintained in the Plan, subject to IRS required minimum distributions. If the beneficiary is neither a spouse nor a domestic partner, the account will be paid to the beneficiary in a lump sum. Beneficiaries may roll over distributions from the Plan.

Participant Loans

Participants may borrow up to one-half of the value of their account balance, not to exceed \$50,000, within a twelve month period. Loans will be granted in \$1 increments subject to a minimum loan amount of \$500. Participants are limited to two simultaneous outstanding Plan loans. Repayment of a loan is made through semi-monthly payroll deductions. Loans originated under the Plan have a repayment term of one to four years for a general purpose loan or one to ten years for a primary residence loan. There are a limited number of outstanding loans originated under acquired company plans that were merged into the Plan having repayment terms greater than 10 years and up to a maximum term of 30 years. The loans originated under the Plan bear a fixed rate of interest, set quarterly, for the term of the loan, determined by the Plan administrator to be 1.25 points above the prime rate. The interest is credited to the participant's account as the semi-monthly repayments of principal and interest are made. Interest rates on outstanding loans at December 31, 2022 and 2021 ranged from 3.25 percent to 10.75 percent.

Participants may prepay all or portion of the entire remaining loan principal at any time. Employees on an approved leave of absence may elect to make scheduled loan payments directly to the Plan. Participants may continue to contribute to the Plan while having an outstanding loan. A loan default is a taxable event to the participant and will be reported as such in the year of the loan default.

Participants who retire or separate from IBM and have outstanding Plan loans may make loan repayments via Automated Clearing House (ACH) deductions to continue monthly loan repayments according to their original amortization schedule.

Termination of Service

If the value of a participant's account is \$1,000 or less, it will be distributed to the participant in a lump-sum payment following the termination of the participant's employment with IBM. If the account balance is greater than \$1,000 at the time of separation, the participant may defer distribution of the account until age 72.

Termination of the Plan

IBM reserves the right to terminate this Plan at any time by action of the Board of Directors of IBM. In that event, each participant or beneficiary receiving or entitled to receive payments under the Plan would receive the balance of the account at such time and in accordance with applicable law and regulations. In the event of a full or partial termination of the Plan, or upon complete discontinuance of contributions under the Plan, the rights of all affected participants in the value of their accounts would be non-forfeitable.

Risks and Uncertainties

Investment securities are exposed to various risks, such as interest rate and foreign currency movements, credit quality changes and overall market volatility. Interest rate risk is the risk of change in the market value of the assets due to a change in interest rates. Foreign currency risk is the risk of a change in market value due to the change in foreign currency exchange rates. Credit risk is the risk of change in the market value of assets due to the change in creditworthiness of the underlying issuer. Market risk is the possibility of losses due to factors that affect the overall performance of the financial markets. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits. The Plan provides for various investment options in the form of mutual funds, commingled funds or separately-managed funds. These funds invest in equities, fixed income securities, synthetic guaranteed investment contracts ("synthetic GICs"), a separate account guaranteed investment contract ("separate account GIC") and derivative contracts. The Plan is potentially exposed to credit loss in the event of non-performance by the companies with whom the Plan entered into the synthetic GICs and a separate account GIC. However, the Committee does not anticipate non-performance by these companies.

Securities Lending

The Plan implemented a securities lending program with the Trustee, for the Plan's separately managed accounts, in mid-August 2020. The program allows the Trustee to loan securities, which are assets of the Plan, to approved brokers/dealers (the "Borrowers"). Funds not included in this program are the IBM Stock Fund and Interest Income Fund.

The Trustee requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan in an amount that is at least equal to 102 percent of the fair value of the securities loaned. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrowers bear the risk of loss related to the decrease in the fair value of the non-cash collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by any of the Borrowers, the Trustee shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, to the extent that such replacement securities are available on the open market and if to the extent that such proceeds are insufficient or the collateral is unavailable, the purchase of replacement securities shall be made at Trustee's expense or, if replacement securities are not able to be purchased, the Trustee shall credit the Plan for the market value of the unreturned securities. In each case, the Trustee would apply the proceeds from the collateral for such a loan to make the Plan whole.

Loans are collateralized as either cash or non-cash, in an amount equal to 102 percent to 105 percent of the fair value of the loan. Cash collateral is invested in a U.S. government money market account. Non-cash collateral accepted in the program are securities issued or guaranteed by the U.S. government or its agencies. On December 31, 2022, the Plan had \$248 million of open loans backed by \$215 million of cash collateral and \$44 million of non-cash collateral (104 percent collateral). Securities lending may be permitted in certain commingled funds and in funds within the Expanded Choice – Mutual Funds tier. The prospectus for each fund will disclose if lending is permitted and the risks involved.

Kyndryl

On November 3, 2021 the spin off of Kyndryl Holdings, Inc., from IBM created the Kyndryl Stock Fund from the IBM Stock Fund - which was a fund closed to new investments. Gallagher Fiduciary Advisor LLC was hired as an independent fiduciary with respect to the management of the Kyndryl Stock Fund, and they have liquidate the fund effective August 15, 2022.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements are prepared under the accrual basis of accounting, except distributions, which are recorded when paid. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets

available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Within the financial statements and tables presented, certain columns and rows may not add due to the use of rounded numbers for disclosure purposes. Percentages presented are calculated from the underlying whole-dollar amounts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Valuation of Investments

Investments are stated at fair value except for fully benefit-responsive investment contracts, which are stated at contract value. Accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Under this guidance, the Plan is required to classify certain assets and liabilities based on the following fair value hierarchy:

- Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that can be accessed at the measurement date;
- Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and
- Level 3 — Unobservable inputs for the asset or liability.

The guidance requires the use of observable market data if such data is available without undue cost and effort.

Assets are classified within the fair value hierarchy according to the lowest level input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs. The valuation methodology is applied consistently from period to period.

Certain investments are measured at fair value using the net asset value (NAV) per share (or its equivalent) as a practical expedient. These investments include commingled funds which may include 103-12 investments, common collective trusts and pooled separate accounts which are typically valued using the NAV provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus liabilities and divided by the number of shares or units outstanding. In accordance with accounting guidance, these investments have not been classified in the fair value hierarchy. Generally, mutual funds have a quoted market price in an active market and are classified as Level 1.

Common stocks, certain mutual funds and financial derivative instruments, such as futures contracts or options contracts that are traded on a national securities exchange, are stated at the last reported sale or settlement price on the day of valuation. Valuation adjustments may be applied to certain securities that are solely traded on a foreign exchange to account for the market movement between the close of the foreign market and the close of the New York Stock Exchange. These securities are valued using pricing service providers that consider the correlation of the trading patterns of the foreign security to the intraday trading in the U.S. markets for investments.

Fixed income investments are valued on the basis of valuations furnished by Trustee-approved independent pricing services. These services determine valuations for normal institutional-size trading units of such securities using models or matrix pricing, which incorporates yield and/or price with respect to bonds that are considered comparable in characteristics such as rating, interest rate and maturity date and quotations from bond dealers to determine current value. If these valuations are deemed to be either not reliable or not readily available, the fair value will be determined in good faith by the Trustee.

Over-the-counter derivatives are typically valued using proprietary pricing models that use readily observable market parameters that are actively quoted and can be validated to external sources, including industry pricing services. Depending on the types and contractual terms of derivatives, fair value can be modeled using a series of techniques, such as the Black-Scholes option pricing model, simulation models or a combination of various models, which are consistently applied. Where derivative products have been established for some time, the Plan uses models that are widely accepted in the financial services industry. These models reflect the contractual terms of the derivatives, including the period to maturity, and market-based parameters such as interest rates, volatility and the credit quality of the counterparty. Further, many of these models do not contain a high level of subjectivity, as the methodologies used in the models do not require significant judgment, and inputs to the model are readily observable from actively quoted markets, as is the case for “plain vanilla” interest rate swaps, option contracts and credit default swaps. Short-term interest bearing cash securities are valued at amortized cost, which includes cost and accrued interest and approximates fair value. Short-term investments represent securities with original maturities of one year or less. These assets are classified as Level 1 or Level 2.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Security Transactions and Related Investment Income

Security transactions are accounted for as of the trade date. Realized gains/losses on investment transactions are determined using the specific identification method. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis.

The Plan presents in the statement of changes in net assets available for benefits the net change in the fair value of its investments, which consists of realized gains and losses and the unrealized appreciation and depreciation on those investments.

Administrative Expenses and Investment Management Fees

Participants pay for the administrative expenses of the Plan which are included in each fund’s expense ratio. These costs include: (a) investment management, custody and benefit responsive investment contract fees which are charged to the applicable funds, and, (b) operational expenses required for administration of the Plan including trustee and recordkeeping which are charged against the funds’ assets on a pro rata basis throughout the year. Operational expenses related to balances in the Expanded Choice - Mutual Funds Tier are deducted from participant account balances. Brokerage fees and commissions are included in the cost of investments and in determining net proceeds on sales of investments. Investment management, custodial and administrative fees for commingled trusts and mutual funds are charged based on a percentage of net asset value and are paid from the assets of the respective funds.

Revenue Sharing

Certain fund families may pass a portion of their fees to Fidelity as provider of recordkeeping services for the Plan. In addition, Fidelity attributes a certain portion of Fidelity mutual fund expenses to recordkeeping. Participants invested in mutual funds that have such arrangements (currently Dodge & Cox and Fidelity) will receive a credit based on their investment in those funds, if the participant has an account balance in the Plan when the credit is calculated. Following each quarter-end (currently within 30 days of quarter-end), a pro rata share of the fees received from the mutual fund will be allocated to the participant’s account, based on the participant’s investment in the mutual fund. The amount allocated will be used to purchase additional shares of the mutual fund to which the credit relates. Any revenue sharing that is attributable to a participant who no longer has an account in the Plan will be used to reduce future Plan expenses.

As the recordkeeper to the Plan, Fidelity receives compensation from Edelman Financial Engines to administer the Managed Accounts program, and a portion of such compensation may be credited to the Plan and used to reduce future administrative plan expenses.

NOTE 3 — INVESTMENTS

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31, 2022 and 2021.

Investments at Fair Value as of December 31, 2022

Total investments at fair value	\$ 17,833,797	\$ 13,737,929	\$ 705	\$ 57,104,104

(1) Investments measured at fair value using the net asset value (NAV) per share (or its equivalent) as a practical expedient include commingled funds. Commingled funds may include 103-12 investments, common collective trusts, and pooled separate accounts.

There were no material purchases, sales or transfers into or out of Level 3 for the period ending December 31, 2021.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on net asset value per share at December 31, 2022 and 2021, respectively:

Investments at fair value:	2022	2021
	(Dollars in thousands)	
Commingled Equity funds	\$ 10,830,963	\$ 23,090,255
Other funds	1,153,372	1,480,116
Short-term Investment funds	812,237	961,301
Total investments measured at net asset value using the NAV practical expedient	\$ 12,796,572	\$ 25,531,672

Generally, under ordinary market conditions, investments in the funds included in the table above provide daily market liquidity to Plan participants and the Plan, facilitating daily participant transactions (issuances and redemptions). Investment in some of these funds may be subject to redemption restrictions at the fund's discretion in limited situations including, but not limited to, a major market event, closure of a market on which any significant portion of the assets of the fund are invested, a situation deemed to be an emergency by the fund, and a situation in which price or value of the assets cannot be promptly and accurately ascertained. At December 31, 2022 and 2021, no funds were subject to redemption restrictions.

NOTE 4 — DERIVATIVES

In accordance with the investment strategy of the separately-managed funds, investment managers execute transactions in various derivative instruments. These derivative instruments include swaps, options, bond and equity futures and forward contracts. The fund uses derivatives to obtain synthetic exposure and for risk management purposes, which involves risks such as credit risk.

Derivative instruments are carried at fair value. The net fair value of derivative financial instruments reported in investments, at fair value within the statement of net assets available for benefits was an asset of \$4.8 million and an asset of \$6.7 million as of December 31, 2022 and 2021, respectively. The gross notional amount of the derivative financial instruments was \$2.0 billion and \$1.8 billion as of December 31, 2022 and 2021, respectively.

NOTE 5 — INVESTMENT CONTRACTS

The Plan entered into benefit-responsive synthetic GICs and a separate account GIC (together, the “Investment Contracts”) for the Interest Income Fund (the “Fund”), with various third parties, i.e., insurance companies and banks.

A synthetic GIC provides for a fixed return on principal over a specified period of time, e.g., a quarterly crediting rate. Third parties issue these investment contracts, which are backed by underlying assets owned by the Plan. A separate account GIC also provides for a fixed return on principal and these investment contracts are funded by contributions, which are held in separate accounts at the third party established for the sole benefit of the Fund participants. Both types of investment contracts are meant to be fully benefit-responsive. Participants transact at contract value, which represents contributions plus interest earned based on a formula called the “crediting rate.” The crediting rate formula smooths and decreases differences over time between the market value of the covered assets and the contract value. The crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by changes in general level of interest rates, administrative expenses and cash flows into or out of the contract. The difference between the contract value and the market value of the covered assets is amortized over time as determined by the terms of the contract, typically the Investment Contracts’ actual or benchmark duration. A change in duration of the covered assets or benchmark from reset period to reset period can affect the timing with which any difference is amortized. Crediting rates are reset quarterly or more often if deemed appropriate. The Investment Contracts provide a guarantee that the crediting rate will not fall below zero percent.

The Investment Contracts’ crediting rate, and hence the Fund’s return, may be affected by many factors, including purchases and redemptions by participants. The precise impact on the Investment Contracts depends on whether the market value of the covered assets is higher or lower than the contract value of those assets. If the market value of the covered assets is higher than the contract value, the crediting rate will ordinarily be higher than the yield of the covered assets. Under these circumstances, cash from new investors will tend to lower the crediting rate and the Fund’s return, and redemptions by existing participants will tend to increase the crediting rate and the Fund’s return. If the market value of the covered assets is less than the contract value, the crediting rate will ordinarily be lower than the yield of the covered assets. Under these circumstances, cash from new investors will tend to increase the crediting rate and the Fund’s return, and redemptions by existing participants will tend to decrease the crediting rate and the Fund’s return. If the Investment Contracts experience significant redemptions when the market value is below the contract value, the Investment Contracts’ crediting rate may be reduced significantly, to a level that may not be competitive with other investment options. If redemptions continued, the crediting rate could be reduced to zero. If the Investment Contracts have insufficient covered assets to meet redemption requests, the Fund would require payments from the Investment Contracts’ issuer to pay further participant redemptions.

The Fund and the Investment Contracts purchased for the Fund are designed to pay all participant-initiated transactions at contract value. Participant-initiated transactions are those transactions allowed by the provisions of the Plan (typically this would include withdrawals for benefits, loans, or transfers to non-competing funds within the Plan). However, the Investment Contracts may limit the ability of the Fund to transact at contract value upon the occurrence of certain events. At this time, the occurrence of any of these events is not probable. These events include:

- The Plan's failure to qualify under Section 401(a) or Section 401(k) of the Internal Revenue Code.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Any substantive modification of the Plan or the administration of the Plan that is not consented to by the investment contract issuer.
- Complete or partial termination of the Plan.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the Fund's cash flow.
- Merger or consolidation of the Plan with another plan, the transfer of plan assets to another plan, or the sale, spin-off or merger of a subsidiary or division of the Plan sponsor.
- Any communication given to participants by the Plan sponsor or any other plan fiduciary that is designed to induce or influence participants not to invest in the Fund or to transfer assets out of the Fund.
- Exclusion of a group of previously eligible employees from eligibility in the Plan.
- Any significant retirement program, group termination, group layoff, facility closing or similar program.
- Any transfer of assets from the Fund directly to a competing option, if such transfers are prohibited.
- Bankruptcy of the plan sponsor or other plan sponsor events which cause a significant withdrawal from the Plan.

An investment contract issuer may terminate a contract at any time. In the event that the market value of the covered assets is below the contract value at the time of such termination, the Plan may elect to keep a contract in place to allow for the convergence of the market value and the contract value. An investment contract issuer may also terminate a contract if certain terms of the Investment Contract fail to be met.

Investment Contracts generally impose conditions on both the Plan and the issuer. If an event of default occurs and is not remediated, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default: a breach of material obligation under the contract; a material misrepresentation; or a material amendment to the Plan agreement. The issuer may be in default if it breaches a material obligation under the investment contract; makes a material misrepresentation; is acquired or reorganized. If, in the event of default of an issuer, the Fund was unable to obtain a replacement investment contract, the Fund may experience losses if the market value of the Plan's assets no longer covered by the contract is below contract value. The Fund may seek to add additional issuers over time to diversify the Fund's exposure to such risk, but there is no assurance the Fund will be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Fund unable to maintain contract value. The terms of an Investment Contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro-rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates when the market value equals zero, the issuer will pay the excess of contract value over market value to the Plan to the extent necessary for the Plan to satisfy

outstanding contract value withdrawal requests. Contract termination also may occur by either party upon election and notice as agreed to under the terms of the contract.

The following table provides the disaggregation of contract value between types of Investment Contracts held by the Plan.

Investment Contracts at December 31.	2022	2021
	(Dollars in thousands)

Total Investment Contracts	<u>\$ 9,123,312</u>	<u>\$ 9,104,455</u>

NOTE 6 - TAX STATUS

The Trust established under the Plan is qualified under Section 401(a) of the Internal Revenue Code of 1986 and Section 1081.01 of the Puerto Rico Internal Revenue Code (2011), and the Trustee intends for the Trust to remain dual-qualified in this manner. The Plan received a favorable determination letter from the IRS on February 17, 2017, and received a favorable determination letter from the Hacienda (Puerto Rico) in July 2017 dated August 29, 2016.

Subsequent to the periods covered by the determination letters from the IRS and the Hacienda, the Plan was amended. The Plan administrator and Counsel continue to believe the Plan is designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code and the Puerto Rico Internal Revenue Code (2011).

U.S. GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements and does not believe this position will change in the next twelve months. The Plan is subject to routine audits by taxing jurisdictions.

NOTE 8 - RELATED-PARTY TRANSACTIONS

At December 31, 2022, a significant portion of the Plan's assets were managed by SSGA, an affiliate of SSBT. SSBT also acts as the Trustee for the Plan and, therefore, these investments in addition to participant loans qualify as party-in-interest transactions. The Plan also pays a fee to the Trustee. These transactions qualify as party-in-interest transactions as well.

In addition, Fidelity is the provider of administrative services related to the Expanded Choice - Mutual funds tier as well as an affiliate of the investment manager of Fidelity funds within the Expanded Choice - Mutual funds tier. Fidelity is also the provider of record keeping and participant services, and the operator of the IBM Employee Services Center for the IBM 401(k) Plus Plan.

At December 31, 2022 and 2021, the Plan held 6,943,084 and 7,111,756 shares of IBM common stock valued at \$978 million and \$951 million, respectively. During the year ended December 31, 2022, purchases of IBM common stock by the Plan totaled \$97 million and sales of IBM common stock by the Plan totaled \$123 million.
