Report of Independent Auditors

To the Plan Participants and the Plan Administrator of Textron Savings Plan

Opinion

We have audited the financial statements of Textron Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance

but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2022, and delinquent participant contributions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Textron Savings Plan
Notes to Financial Statements
December 31, 2022

1. Description of Plan

General

The Textron Savings Plan (the Plan) covers all eligible employees of Textron Inc. (Textron or the Company), as defined in the Plan. This Plan description includes provisions covering the majority of Plan participants. Participants should refer to the plan document for a more complete description of the Plan's provisions, copies of which may be obtained from the Company. Certain business and bargaining units have other provisions. The Plan invests in the Textron Stock Fund along with Separate Account Contracts, Synthetic Guaranteed Investment Contracts and Common Collective Trust Funds. The Plan also offers a brokerage feature. The portion that invests in the Textron Stock Fund is an employee stock ownership plan. The remainder of the Plan is a profit-sharing and 401(k) plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was amended and restated effective January 1, 2019 to reflect recent statutory, regulatory and other plan changes. The Plan was restated in 2020 to incorporate the Coronavirus Aid, Relief, and Economic Security (CARES) Act relief that was passed on March 27, 2020. The CARES Act expands the availability of loans and distributions for certain participants who are affected by COVID-19.

The Plan is currently administered under the terms of a Trust Agreement, dated December 1, 2004 and amended from time to time, with Fidelity Management Trust Company (the Trustee or Fidelity). Fidelity also serves as the Plan's recordkeeper.

On December 29, 2022, the SECURE 2.0 Act (Act) was signed into law by President Biden as part of the Consolidated Appropriations Act of 2023. The Company is evaluating the impact of the Act on the Plan.

Investment Options

Participants may elect to direct their employee contributions to the following funds: Fidelity® Diversified International Commingled Pool, Wellington Core Bond, JPMCB U.S. Active Core Equity Fund CF-C, Wellington SMID Cap Research Equity Portfolio, Vanguard Institutional 500 Index Trust, Vanguard Institutional Small/Mid Cap Index Trust, Vanguard Institutional Total Bond Market Index Trust, Vanguard Institutional Total International Stock Market Index Trust, Textron Stock Fund, Textron Managed Income Fund, State Street Real Asset Non-Lending Series Fund Class C, and Vanguard Target Retirement Trust Plus (with various targeted retirement dates). Participants who are automatically enrolled have their contributions invested in the applicable Vanguard Target Retirement Trust funds based on their age until they change their election.

Also, the Plan offers a self-directed brokerage feature, called Fidelity BrokerageLink, which gives participants expanded investment choices by enabling them to select from numerous investment and individual securities that are not otherwise available under the Plan. The values of investments

purchased through the Fidelity BrokerageLink were $237,807,135 and $310,539,643 as of December 31, 2022 and 2021, respectively.

Contributions

Participants of the Plan are entitled to elect to contribute up to 40% of their eligible compensation, within the limits prescribed by Section 401(k) of the Internal Revenue Code (the Code). Certain participants may also contribute amounts representing distributions from other qualified employer retirement plans (participant rollovers). Participants' pre-tax, after-tax, and Roth contributions, which are matched 50% on the first 10% of contributions to a maximum of 5% of eligible compensation by Textron, subject to certain ERISA restrictions and plan limits, are recorded when Textron makes payroll deductions from participants' wages.

Eligible employees are subject to automatic enrollment on the 60th day after their date of hire, if they have not specifically elected to be excluded from the Plan. The automatic enrollment is for 3% of eligible compensation per pay period. An employee who is automatically enrolled may elect to change or suspend his/her enrollment in the Plan at any time.

Since 2009, Textron has closed most of its defined benefit pension plans to new participants. When new hires join Textron locations that were formerly defined benefit pension eligible locations, these employees are eligible to receive an additional retirement cash contribution to their Plan account of 2% to 4% (depending on employee status) of their eligible compensation. These discretionary contributions vest in accordance with the vesting schedule below. The contributions are deposited in the participant account by the end of the first quarter of the following plan year. The amount of the discretionary funding paid in 2023 for the 2022 plan year was $54,662,031 and the amount paid in 2022 for the 2021 plan year was $46,948,135. The discretionary contribution is in addition to the matching contribution of 50% on the first 10% up to a maximum of 5%. These contributions are not considered part of the vested balance eligible for participant loans.

Participants who are at least age 50 or who will reach age 50 during the year are allowed to make additional employee pre-tax contributions (catch-up contributions), above the otherwise applicable limits. In accordance with limits under the federal tax laws, catch-up contributions cannot exceed $6,500 in 2022 and 2021. After that, the limit may be adjusted from time to time by the U.S. Internal Revenue Service to reflect inflation. Catch-up contributions are not eligible for Company matching contributions.

Each payroll period, Textron makes contributions to the Plan based on actual contribution levels. All forfeitures arising out of a participant's termination of employment for reasons other than retirement, disability or death are used to reduce future Textron contributions. At December 31, 2022 and 2021, forfeitures totaled $884,870 and $394,308, respectively. Forfeitures used during the years ended

December 31, 2022 and 2021 to offset the Company match were $7,717,459 and $8,138,985, respectively.

Company matching contributions are made in the form of Textron Stock and invested in the Textron Stock Fund. Employees have the ability to subsequently reallocate matching contributions among any of the investment options offered in the Plan with no restrictions.

Benefits

In the event a participant ceases to be an employee or becomes totally disabled while employed, all of his or her account, to the extent then vested, shall become distributable. Distributions are in the form of cash, unless Textron stock is requested. An account will be distributed in a single payment if the value of the account is less than $5,000 when the account first becomes distributable. If the value of the account is $5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring immediate and heavy financial need, as defined by the plan. A participant is always vested in the portions of his or her account attributable to his or her own contributions and compensation deferrals. The Plan provides for full vesting of a participant's account in the event of his or her termination of employment, other than for cause, within two years after a change in control of Textron.

Vesting

Textron's contributions vest based on the length of service in the Plan, as follows:

Months of Service	Vested Percentage
24 months but less than 36 months	25%
36 months but less than 48 months	50%
48 months but less than 60 months	75%
60 months or more	100%

Participant Accounts

A separate account is maintained for each participant and is increased by (a) the participant's contributions and compensation deferrals, (b) Textron's matching contribution, and any additional discretionary contributions made by Textron, including any retirement supplement contributions and (c) plan income (loss) based on elected investment options, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The participant is entitled to the vested amount in the account.

Notes Receivable from Participants

Active participants, not including directors or executive officers as determined by the plan administrator, are permitted to take up to two loans at a time and may borrow a minimum of $1,000 up to a maximum of the lesser of one-half of their vested balance or $50,000, less the participant's highest outstanding loan balance during the 12-month period preceding the new loan request. The loans are secured by the balance in the participant's account. Interest is charged at a rate of Reuters Prime Rate plus 1%, as of the first business day of the month. A fee is charged to the participant to cover the cost of administration. The loan terms may range from one to five years and are repaid primarily through automatic payroll deductions.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Fair Values of Assets

In accordance with the provisions of ASC 820, Fair Value Measurement, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the "inputs") are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect Plan estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances.

The Textron Stock Fund consists of cash held for stock purchase, in the amount of $9,627 as of December 31st, 2022, and Textron stock. Textron stock, is valued at its quoted market price, and is considered a Level 1 investment. BrokerageLink contains both Level 1 and Level 2 investments. Level 1 investments include common stock, mutual funds, and cash valued at each company's quoted market price. Level 2 investments are certificates of deposit, which are valued by a third-party vendor based on several factors including recent trade activity, size, timing, and yields of comparable bonds.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The fair value of these investments are published at the net asset value per share at each valuation date and they are considered Level 1 investments. Participant transactions (purchases and sales) may occur daily without restrictions.

The CCT investments have the following objectives for investees:

(a) Blended debt and equity – This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. In general, these funds are age-based and allocate investments between equities and fixed income based on target retirement date. The investment funds provide daily liquidity.

(b) Domestic and international equity – This category includes diversified portfolios invested primarily in the common stock of U.S. and international companies. The objective is to provide capital appreciation and long-term return. The investment funds provide daily liquidity.

(c) Debt Securities – This category includes diversified portfolios invested primarily in U.S. investment grade bonds. The objective is to provide long-term total return. The investment funds provide daily liquidity.

(d) Domestic debt, held in the Textron Managed Income Fund – This category includes investments in diversified fixed income securities designed to provide capital preservation and income. These securities have an associated wrap contract. The Managed Income Fund includes an equity wash restriction on movement to competing funds for 90 days.

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Separate Account Contracts, and Synthetic Guaranteed Investment Contracts in the Managed Income Fund

The Textron Managed Income Fund (the Fund) invests in a variety of stable value products, including Separate Account Guaranteed Investment Contracts (ISA GICs) and Security-backed Investment Contracts (synthetic GICs) in addition to CCTs. The ISA GICs and Synthetic GICs represent fully benefit-responsive investments and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest at the crediting rate payable under such contract less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuers guarantee

that all qualified participant withdrawals will be at contract value (principal, plus accrued interest). There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with an issuer. In addition to certain Synthetic GIC termination provisions discussed below, such contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal, as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events include the following: material amendments to the Fund's structure or administration; changes to the participating plans' competing investment options including the elimination of equity wash provisions; complete or partial termination of the Fund, including a merger with another fund; the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans; the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

In addition, Synthetic GICs and ISA GICs typically provide for an adjustment to contract value if a security that is part of the underlying assets defaults or otherwise becomes impaired as defined in the wrap contract. In the event of an impairment, generally contract value is decreased by the amortized cost of the impaired security and, if such security is subsequently sold, contract value is increased by the amount of such sales proceeds.

Synthetic GICs generally are evergreen contracts that contain termination provisions. The termination provisions of Synthetic GICs permit the fund's investment manager or issuer to terminate upon notice at any time at market value and provide for automatic termination of the Synthetic GIC if the contract value or market value of the contract equals zero. The issuer is not excused from paying the excess contract value when the market value equals zero. Synthetic GICs that permit the issuer to terminate at market value generally provide that the fund may elect to convert such termination to an Amortization Election, as described below. In addition, if the fund defaults in its obligations or representations under the agreement (including non-compliance with investment guidelines governing the underlying assets, or the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA) and such default is not cured within any applicable cure period, then the Synthetic GIC may be terminated by the issuer and the fund will receive the

market value as of the date of termination. Also, generally, Synthetic GICs permit the issuer or investment manager to elect at any time to convert the wrapped portfolio to a declining duration strategy, whereby the contract would terminate at a date which corresponds to the duration of the underlying fixed income portfolio on the date of the Amortization Election. After the effective date of an amortization election, the fixed income portfolio must conform to the guidelines agreed upon by the wrap issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date. Synthetic GICs and ISA GICs also define certain other termination events that permit the issuer to terminate the contract at market value.

Termination events typically include the following:

(i) termination or replacement of the investment adviser without the issuer's consent, (ii) the Plan or its trust is fully or partially terminated or fails to be exempt from federal income taxation, (iii) the plan merges with another plan, (iv) if a security is sold or subject to a lien other than as permitted under the contract, (v) the contract holder engages in fraud or other action that materially and adversely affects the risk profile of the contract, (vi) if there is any change in law, regulation, ruling, or accounting requirement applicable to the Plan or Fund that could cause substantial withdrawals from the Fund, (vii) performance of the issuer's obligations under the contract becomes illegal, (viii) the bankruptcy of the Fund, Textron Savings Plan Trust or investment advisor, or (ix) the level of impaired securities as defined in the contract exceeds an agreed upon amount of the portfolio.

Total contract value of each type of investment contract is as follows:

	December 31,	
(In thousands)	**2022**	2021
Separate Account Contracts	**99,124**	92,348
Security-backed investment contracts (synthetic GICs)	**286,223**	266,087

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded upon payment**.**

Administrative Expenses

Administrative and other fees paid by the Plan are allocated as follows:

- Fees associated with in-service withdrawals, distributions and loans are charged directly to the associated participant account.
- Fees with respect to each investment fund are charged against the investment returns of those investment funds and allocated on a pro-rata basis to participants who invest in those investment funds.
- Expenses associated with qualified domestic relations orders are charged directly to the related participant account.
- Expenses associated with operating the Plan, such as recordkeeping fees, legal fees, consulting fees, transfer fees, annuity fees, annual reporting fees, claims processing fees, cost of supplies and similar fees, are charged directly or allocated on a pro rata basis to the participant accounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

3. Related Party and Party in Interest Transactions

The Plan holds shares of a fund managed by Fidelity Management Trust Company, the trustee of the plan. At December 31, 2022 and 2021, 8,425,633 shares and 8,882,751 shares, respectively, of the Fidelity Fund were held by the Plan, with a fair value of $125,541,934 and $172,680,684, respectively. The Plan also invests in shares of Textron's common stock. At December 31, 2022 and 2021, 16,282,011 shares and 16,400,331 shares, respectively, of Textron's common stock were held by the Plan, with a fair value of $1,152,766,369 and $1,266,105,551, respectively. Dividend income recorded by the Plan for Textron's common stock for the years ended December 31, 2022 and 2021 was $1,303,768 and $1,388,693, respectively. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated November 8, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Report of Independent Auditors

To the Plan Participants and the Plan Administrator of Textron Savings Plan

Opinion

We have audited the financial statements of Textron Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance

but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2022, and delinquent participant contributions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Textron Savings Plan
Notes to Financial Statements
December 31, 2022

1. Description of Plan

General

The Textron Savings Plan (the Plan) covers all eligible employees of Textron Inc. (Textron or the Company), as defined in the Plan. This Plan description includes provisions covering the majority of Plan participants. Participants should refer to the plan document for a more complete description of the Plan's provisions, copies of which may be obtained from the Company. Certain business and bargaining units have other provisions. The Plan invests in the Textron Stock Fund along with Separate Account Contracts, Synthetic Guaranteed Investment Contracts and Common Collective Trust Funds. The Plan also offers a brokerage feature. The portion that invests in the Textron Stock Fund is an employee stock ownership plan. The remainder of the Plan is a profit-sharing and 401(k) plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was amended and restated effective January 1, 2019 to reflect recent statutory, regulatory and other plan changes. The Plan was restated in 2020 to incorporate the Coronavirus Aid, Relief, and Economic Security (CARES) Act relief that was passed on March 27, 2020. The CARES Act expands the availability of loans and distributions for certain participants who are affected by COVID-19.

The Plan is currently administered under the terms of a Trust Agreement, dated December 1, 2004 and amended from time to time, with Fidelity Management Trust Company (the Trustee or Fidelity). Fidelity also serves as the Plan's recordkeeper.

On December 29, 2022, the SECURE 2.0 Act (Act) was signed into law by President Biden as part of the Consolidated Appropriations Act of 2023. The Company is evaluating the impact of the Act on the Plan.

Investment Options

Participants may elect to direct their employee contributions to the following funds: Fidelity® Diversified International Commingled Pool, Wellington Core Bond, JPMCB U.S. Active Core Equity Fund CF-C, Wellington SMID Cap Research Equity Portfolio, Vanguard Institutional 500 Index Trust, Vanguard Institutional Small/Mid Cap Index Trust, Vanguard Institutional Total Bond Market Index Trust, Vanguard Institutional Total International Stock Market Index Trust, Textron Stock Fund, Textron Managed Income Fund, State Street Real Asset Non-Lending Series Fund Class C, and Vanguard Target Retirement Trust Plus (with various targeted retirement dates). Participants who are automatically enrolled have their contributions invested in the applicable Vanguard Target Retirement Trust funds based on their age until they change their election.

Also, the Plan offers a self-directed brokerage feature, called Fidelity BrokerageLink, which gives participants expanded investment choices by enabling them to select from numerous investment and individual securities that are not otherwise available under the Plan. The values of investments

purchased through the Fidelity BrokerageLink were $237,807,135 and $310,539,643 as of December 31, 2022 and 2021, respectively.

Contributions

Participants of the Plan are entitled to elect to contribute up to 40% of their eligible compensation, within the limits prescribed by Section 401(k) of the Internal Revenue Code (the Code). Certain participants may also contribute amounts representing distributions from other qualified employer retirement plans (participant rollovers). Participants' pre-tax, after-tax, and Roth contributions, which are matched 50% on the first 10% of contributions to a maximum of 5% of eligible compensation by Textron, subject to certain ERISA restrictions and plan limits, are recorded when Textron makes payroll deductions from participants' wages.

Eligible employees are subject to automatic enrollment on the 60th day after their date of hire, if they have not specifically elected to be excluded from the Plan. The automatic enrollment is for 3% of eligible compensation per pay period. An employee who is automatically enrolled may elect to change or suspend his/her enrollment in the Plan at any time.

Since 2009, Textron has closed most of its defined benefit pension plans to new participants. When new hires join Textron locations that were formerly defined benefit pension eligible locations, these employees are eligible to receive an additional retirement cash contribution to their Plan account of 2% to 4% (depending on employee status) of their eligible compensation. These discretionary contributions vest in accordance with the vesting schedule below. The contributions are deposited in the participant account by the end of the first quarter of the following plan year. The amount of the discretionary funding paid in 2023 for the 2022 plan year was $54,662,031 and the amount paid in 2022 for the 2021 plan year was $46,948,135. The discretionary contribution is in addition to the matching contribution of 50% on the first 10% up to a maximum of 5%. These contributions are not considered part of the vested balance eligible for participant loans.

Participants who are at least age 50 or who will reach age 50 during the year are allowed to make additional employee pre-tax contributions (catch-up contributions), above the otherwise applicable limits. In accordance with limits under the federal tax laws, catch-up contributions cannot exceed $6,500 in 2022 and 2021. After that, the limit may be adjusted from time to time by the U.S. Internal Revenue Service to reflect inflation. Catch-up contributions are not eligible for Company matching contributions.

Each payroll period, Textron makes contributions to the Plan based on actual contribution levels. All forfeitures arising out of a participant's termination of employment for reasons other than retirement, disability or death are used to reduce future Textron contributions. At December 31, 2022 and 2021, forfeitures totaled $884,870 and $394,308, respectively. Forfeitures used during the years ended

December 31, 2022 and 2021 to offset the Company match were $7,717,459 and $8,138,985, respectively.

Company matching contributions are made in the form of Textron Stock and invested in the Textron Stock Fund. Employees have the ability to subsequently reallocate matching contributions among any of the investment options offered in the Plan with no restrictions.

Benefits

In the event a participant ceases to be an employee or becomes totally disabled while employed, all of his or her account, to the extent then vested, shall become distributable. Distributions are in the form of cash, unless Textron stock is requested. An account will be distributed in a single payment if the value of the account is less than $5,000 when the account first becomes distributable. If the value of the account is $5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring immediate and heavy financial need, as defined by the plan. A participant is always vested in the portions of his or her account attributable to his or her own contributions and compensation deferrals. The Plan provides for full vesting of a participant's account in the event of his or her termination of employment, other than for cause, within two years after a change in control of Textron.

Vesting

Textron's contributions vest based on the length of service in the Plan, as follows:

Months of Service	Vested Percentage
24 months but less than 36 months	25%
36 months but less than 48 months	50%
48 months but less than 60 months	75%
60 months or more	100%

Participant Accounts

A separate account is maintained for each participant and is increased by (a) the participant's contributions and compensation deferrals, (b) Textron's matching contribution, and any additional discretionary contributions made by Textron, including any retirement supplement contributions and (c) plan income (loss) based on elected investment options, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The participant is entitled to the vested amount in the account.

Notes Receivable from Participants

Active participants, not including directors or executive officers as determined by the plan administrator, are permitted to take up to two loans at a time and may borrow a minimum of $1,000 up to a maximum of the lesser of one-half of their vested balance or $50,000, less the participant's highest outstanding loan balance during the 12-month period preceding the new loan request. The loans are secured by the balance in the participant's account. Interest is charged at a rate of Reuters Prime Rate plus 1%, as of the first business day of the month. A fee is charged to the participant to cover the cost of administration. The loan terms may range from one to five years and are repaid primarily through automatic payroll deductions.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Fair Values of Assets

In accordance with the provisions of ASC 820, Fair Value Measurement, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the "inputs") are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect Plan estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances.

The Textron Stock Fund consists of cash held for stock purchase, in the amount of $9,627 as of December 31st, 2022, and Textron stock. Textron stock, is valued at its quoted market price, and is considered a Level 1 investment. BrokerageLink contains both Level 1 and Level 2 investments. Level 1 investments include common stock, mutual funds, and cash valued at each company's quoted market price. Level 2 investments are certificates of deposit, which are valued by a third-party vendor based on several factors including recent trade activity, size, timing, and yields of comparable bonds.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The fair value of these investments are published at the net asset value per share at each valuation date and they are considered Level 1 investments. Participant transactions (purchases and sales) may occur daily without restrictions.

The CCT investments have the following objectives for investees:

(a) Blended debt and equity – This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. In general, these funds are age-based and allocate investments between equities and fixed income based on target retirement date. The investment funds provide daily liquidity.

(b) Domestic and international equity – This category includes diversified portfolios invested primarily in the common stock of U.S. and international companies. The objective is to provide capital appreciation and long-term return. The investment funds provide daily liquidity.

(c) Debt Securities – This category includes diversified portfolios invested primarily in U.S. investment grade bonds. The objective is to provide long-term total return. The investment funds provide daily liquidity.

(d) Domestic debt, held in the Textron Managed Income Fund – This category includes investments in diversified fixed income securities designed to provide capital preservation and income. These securities have an associated wrap contract. The Managed Income Fund includes an equity wash restriction on movement to competing funds for 90 days.

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Separate Account Contracts, and Synthetic Guaranteed Investment Contracts in the Managed Income Fund

The Textron Managed Income Fund (the Fund) invests in a variety of stable value products, including Separate Account Guaranteed Investment Contracts (ISA GICs) and Security-backed Investment Contracts (synthetic GICs) in addition to CCTs. The ISA GICs and Synthetic GICs represent fully benefit-responsive investments and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest at the crediting rate payable under such contract less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuers guarantee

that all qualified participant withdrawals will be at contract value (principal, plus accrued interest). There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with an issuer. In addition to certain Synthetic GIC termination provisions discussed below, such contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal, as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events include the following: material amendments to the Fund's structure or administration; changes to the participating plans' competing investment options including the elimination of equity wash provisions; complete or partial termination of the Fund, including a merger with another fund; the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans; the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

In addition, Synthetic GICs and ISA GICs typically provide for an adjustment to contract value if a security that is part of the underlying assets defaults or otherwise becomes impaired as defined in the wrap contract. In the event of an impairment, generally contract value is decreased by the amortized cost of the impaired security and, if such security is subsequently sold, contract value is increased by the amount of such sales proceeds.

Synthetic GICs generally are evergreen contracts that contain termination provisions. The termination provisions of Synthetic GICs permit the fund's investment manager or issuer to terminate upon notice at any time at market value and provide for automatic termination of the Synthetic GIC if the contract value or market value of the contract equals zero. The issuer is not excused from paying the excess contract value when the market value equals zero. Synthetic GICs that permit the issuer to terminate at market value generally provide that the fund may elect to convert such termination to an Amortization Election, as described below. In addition, if the fund defaults in its obligations or representations under the agreement (including non-compliance with investment guidelines governing the underlying assets, or the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA) and such default is not cured within any applicable cure period, then the Synthetic GIC may be terminated by the issuer and the fund will receive the

market value as of the date of termination. Also, generally, Synthetic GICs permit the issuer or investment manager to elect at any time to convert the wrapped portfolio to a declining duration strategy, whereby the contract would terminate at a date which corresponds to the duration of the underlying fixed income portfolio on the date of the Amortization Election. After the effective date of an amortization election, the fixed income portfolio must conform to the guidelines agreed upon by the wrap issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date. Synthetic GICs and ISA GICs also define certain other termination events that permit the issuer to terminate the contract at market value.

Termination events typically include the following:

(i) termination or replacement of the investment adviser without the issuer's consent, (ii) the Plan or its trust is fully or partially terminated or fails to be exempt from federal income taxation, (iii) the plan merges with another plan, (iv) if a security is sold or subject to a lien other than as permitted under the contract, (v) the contract holder engages in fraud or other action that materially and adversely affects the risk profile of the contract, (vi) if there is any change in law, regulation, ruling, or accounting requirement applicable to the Plan or Fund that could cause substantial withdrawals from the Fund, (vii) performance of the issuer's obligations under the contract becomes illegal, (viii) the bankruptcy of the Fund, Textron Savings Plan Trust or investment advisor, or (ix) the level of impaired securities as defined in the contract exceeds an agreed upon amount of the portfolio.

Total contract value of each type of investment contract is as follows:

	December 31,	
(In thousands)	**2022**	2021
Separate Account Contracts	**99,124**	92,348
Security-backed investment contracts (synthetic GICs)	**286,223**	266,087
	$ 385,347	$ 358,435

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded upon payment**.**

Administrative Expenses

Administrative and other fees paid by the Plan are allocated as follows:

- Fees associated with in-service withdrawals, distributions and loans are charged directly to the associated participant account.
- Fees with respect to each investment fund are charged against the investment returns of those investment funds and allocated on a pro-rata basis to participants who invest in those investment funds.
- Expenses associated with qualified domestic relations orders are charged directly to the related participant account.
- Expenses associated with operating the Plan, such as recordkeeping fees, legal fees, consulting fees, transfer fees, annuity fees, annual reporting fees, claims processing fees, cost of supplies and similar fees, are charged directly or allocated on a pro rata basis to the participant accounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

3. Related Party and Party in Interest Transactions

The Plan holds shares of a fund managed by Fidelity Management Trust Company, the trustee of the plan. At December 31, 2022 and 2021, 8,425,633 shares and 8,882,751 shares, respectively, of the Fidelity Fund were held by the Plan, with a fair value of $125,541,934 and $172,680,684, respectively. The Plan also invests in shares of Textron's common stock. At December 31, 2022 and 2021, 16,282,011 shares and 16,400,331 shares, respectively, of Textron's common stock were held by the Plan, with a fair value of $1,152,766,369 and $1,266,105,551, respectively. Dividend income recorded by the Plan for Textron's common stock for the years ended December 31, 2022 and 2021 was $1,303,768 and $1,388,693, respectively. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated November 8, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Report of Independent Auditors

To the Plan Participants and the Plan Administrator of Textron Savings Plan

Opinion

We have audited the financial statements of Textron Savings Plan (the Plan), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes (collectively referred to as the "financial statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance

but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedules Required by ERISA

Our audits were conducted for the purpose of forming an opinion of the financial statements as a whole. The supplemental schedules of assets (held at end of year) as of December 31, 2022, and delinquent participant contributions for the year then ended (referred to as the "supplemental schedules"), are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the supplemental schedules is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Textron Savings Plan
Notes to Financial Statements
December 31, 2022

1. Description of Plan

General

The Textron Savings Plan (the Plan) covers all eligible employees of Textron Inc. (Textron or the Company), as defined in the Plan. This Plan description includes provisions covering the majority of Plan participants. Participants should refer to the plan document for a more complete description of the Plan's provisions, copies of which may be obtained from the Company. Certain business and bargaining units have other provisions. The Plan invests in the Textron Stock Fund along with Separate Account Contracts, Synthetic Guaranteed Investment Contracts and Common Collective Trust Funds. The Plan also offers a brokerage feature. The portion that invests in the Textron Stock Fund is an employee stock ownership plan. The remainder of the Plan is a profit-sharing and 401(k) plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and was amended and restated effective January 1, 2019 to reflect recent statutory, regulatory and other plan changes. The Plan was restated in 2020 to incorporate the Coronavirus Aid, Relief, and Economic Security (CARES) Act relief that was passed on March 27, 2020. The CARES Act expands the availability of loans and distributions for certain participants who are affected by COVID-19.

The Plan is currently administered under the terms of a Trust Agreement, dated December 1, 2004 and amended from time to time, with Fidelity Management Trust Company (the Trustee or Fidelity). Fidelity also serves as the Plan's recordkeeper.

On December 29, 2022, the SECURE 2.0 Act (Act) was signed into law by President Biden as part of the Consolidated Appropriations Act of 2023. The Company is evaluating the impact of the Act on the Plan.

Investment Options

Participants may elect to direct their employee contributions to the following funds: Fidelity® Diversified International Commingled Pool, Wellington Core Bond, JPMCB U.S. Active Core Equity Fund CF-C, Wellington SMID Cap Research Equity Portfolio, Vanguard Institutional 500 Index Trust, Vanguard Institutional Small/Mid Cap Index Trust, Vanguard Institutional Total Bond Market Index Trust, Vanguard Institutional Total International Stock Market Index Trust, Textron Stock Fund, Textron Managed Income Fund, State Street Real Asset Non-Lending Series Fund Class C, and Vanguard Target Retirement Trust Plus (with various targeted retirement dates). Participants who are automatically enrolled have their contributions invested in the applicable Vanguard Target Retirement Trust funds based on their age until they change their election.

Also, the Plan offers a self-directed brokerage feature, called Fidelity BrokerageLink, which gives participants expanded investment choices by enabling them to select from numerous investment and individual securities that are not otherwise available under the Plan. The values of investments

purchased through the Fidelity BrokerageLink were $237,807,135 and $310,539,643 as of December 31, 2022 and 2021, respectively.

Contributions

Participants of the Plan are entitled to elect to contribute up to 40% of their eligible compensation, within the limits prescribed by Section 401(k) of the Internal Revenue Code (the Code). Certain participants may also contribute amounts representing distributions from other qualified employer retirement plans (participant rollovers). Participants' pre-tax, after-tax, and Roth contributions, which are matched 50% on the first 10% of contributions to a maximum of 5% of eligible compensation by Textron, subject to certain ERISA restrictions and plan limits, are recorded when Textron makes payroll deductions from participants' wages.

Eligible employees are subject to automatic enrollment on the 60th day after their date of hire, if they have not specifically elected to be excluded from the Plan. The automatic enrollment is for 3% of eligible compensation per pay period. An employee who is automatically enrolled may elect to change or suspend his/her enrollment in the Plan at any time.

Since 2009, Textron has closed most of its defined benefit pension plans to new participants. When new hires join Textron locations that were formerly defined benefit pension eligible locations, these employees are eligible to receive an additional retirement cash contribution to their Plan account of 2% to 4% (depending on employee status) of their eligible compensation. These discretionary contributions vest in accordance with the vesting schedule below. The contributions are deposited in the participant account by the end of the first quarter of the following plan year. The amount of the discretionary funding paid in 2023 for the 2022 plan year was $54,662,031 and the amount paid in 2022 for the 2021 plan year was $46,948,135. The discretionary contribution is in addition to the matching contribution of 50% on the first 10% up to a maximum of 5%. These contributions are not considered part of the vested balance eligible for participant loans.

Participants who are at least age 50 or who will reach age 50 during the year are allowed to make additional employee pre-tax contributions (catch-up contributions), above the otherwise applicable limits. In accordance with limits under the federal tax laws, catch-up contributions cannot exceed $6,500 in 2022 and 2021. After that, the limit may be adjusted from time to time by the U.S. Internal Revenue Service to reflect inflation. Catch-up contributions are not eligible for Company matching contributions.

Each payroll period, Textron makes contributions to the Plan based on actual contribution levels. All forfeitures arising out of a participant's termination of employment for reasons other than retirement, disability or death are used to reduce future Textron contributions. At December 31, 2022 and 2021, forfeitures totaled $884,870 and $394,308, respectively. Forfeitures used during the years ended

December 31, 2022 and 2021 to offset the Company match were $7,717,459 and $8,138,985, respectively.

Company matching contributions are made in the form of Textron Stock and invested in the Textron Stock Fund. Employees have the ability to subsequently reallocate matching contributions among any of the investment options offered in the Plan with no restrictions.

Benefits

In the event a participant ceases to be an employee or becomes totally disabled while employed, all of his or her account, to the extent then vested, shall become distributable. Distributions are in the form of cash, unless Textron stock is requested. An account will be distributed in a single payment if the value of the account is less than $5,000 when the account first becomes distributable. If the value of the account is $5,000 or more when the account first becomes distributable, a participant is not required to take a distribution immediately. In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring immediate and heavy financial need, as defined by the plan. A participant is always vested in the portions of his or her account attributable to his or her own contributions and compensation deferrals. The Plan provides for full vesting of a participant's account in the event of his or her termination of employment, other than for cause, within two years after a change in control of Textron.

Vesting

Textron's contributions vest based on the length of service in the Plan, as follows:

Months of Service	Vested Percentage
24 months but less than 36 months	25%
36 months but less than 48 months	50%
48 months but less than 60 months	75%
60 months or more	100%

Participant Accounts

A separate account is maintained for each participant and is increased by (a) the participant's contributions and compensation deferrals, (b) Textron's matching contribution, and any additional discretionary contributions made by Textron, including any retirement supplement contributions and (c) plan income (loss) based on elected investment options, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The participant is entitled to the vested amount in the account.

Notes Receivable from Participants

Active participants, not including directors or executive officers as determined by the plan administrator, are permitted to take up to two loans at a time and may borrow a minimum of $1,000 up to a maximum of the lesser of one-half of their vested balance or $50,000, less the participant's highest outstanding loan balance during the 12-month period preceding the new loan request. The loans are secured by the balance in the participant's account. Interest is charged at a rate of Reuters Prime Rate plus 1%, as of the first business day of the month. A fee is charged to the participant to cover the cost of administration. The loan terms may range from one to five years and are repaid primarily through automatic payroll deductions.

Plan Termination

Textron has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Textron has not expressed any intent to terminate the Plan. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Significant Accounting Policies

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Fair Values of Assets

In accordance with the provisions of ASC 820, Fair Value Measurement, fair value is measured at the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Assumptions that market participants would use in pricing the asset or liability (the "inputs") are prioritized into a three-tier fair value hierarchy. This fair value hierarchy gives the highest priority (Level 1) to quoted prices in active markets for identical assets or liabilities and the lowest priority (Level 3) to unobservable inputs in which little or no market data exists, requiring companies to develop their own assumptions.

Observable inputs that do not meet the criteria of Level 1, which include quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets and liabilities in markets that are not active, are categorized as Level 2. Level 3 inputs are those that reflect Plan estimates about the assumptions market participants would use in pricing the asset or liability, based on the best information available in the circumstances.

The Textron Stock Fund consists of cash held for stock purchase, in the amount of $9,627 as of December 31st, 2022, and Textron stock. Textron stock, is valued at its quoted market price, and is considered a Level 1 investment. BrokerageLink contains both Level 1 and Level 2 investments. Level 1 investments include common stock, mutual funds, and cash valued at each company's quoted market price. Level 2 investments are certificates of deposit, which are valued by a third-party vendor based on several factors including recent trade activity, size, timing, and yields of comparable bonds.

The Common Collective Trust Funds (CCTs) are groups of investments similar to mutual funds in that they provide diversification by holding various equity and debt securities. The fair value of these investments are published at the net asset value per share at each valuation date and they are considered Level 1 investments. Participant transactions (purchases and sales) may occur daily without restrictions.

The CCT investments have the following objectives for investees:

(a) Blended debt and equity – This category includes securities in a diversified mix of stocks, bonds and short-term investments within one investment option. In general, these funds are age-based and allocate investments between equities and fixed income based on target retirement date. The investment funds provide daily liquidity.

(b) Domestic and international equity – This category includes diversified portfolios invested primarily in the common stock of U.S. and international companies. The objective is to provide capital appreciation and long-term return. The investment funds provide daily liquidity.

(c) Debt Securities – This category includes diversified portfolios invested primarily in U.S. investment grade bonds. The objective is to provide long-term total return. The investment funds provide daily liquidity.

(d) Domestic debt, held in the Textron Managed Income Fund – This category includes investments in diversified fixed income securities designed to provide capital preservation and income. These securities have an associated wrap contract. The Managed Income Fund includes an equity wash restriction on movement to competing funds for 90 days.

Investment Valuation and Income Recognition

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Separate Account Contracts, and Synthetic Guaranteed Investment Contracts in the Managed Income Fund

The Textron Managed Income Fund (the Fund) invests in a variety of stable value products, including Separate Account Guaranteed Investment Contracts (ISA GICs) and Security-backed Investment Contracts (synthetic GICs) in addition to CCTs. The ISA GICs and Synthetic GICs represent fully benefit-responsive investments and, therefore, are reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts, because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus interest at the crediting rate payable under such contract less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The issuers guarantee

that all qualified participant withdrawals will be at contract value (principal, plus accrued interest). There are currently no reserves against contract values for credit risk of the contract issuers or otherwise.

Certain events limit the ability of the Plan to transact at contract value with an issuer. In addition to certain Synthetic GIC termination provisions discussed below, such contracts generally provide for withdrawals associated with certain events which are not in the ordinary course of Plan operations. These withdrawals are paid with a market value adjustment applied to the withdrawal, as defined in the investment contract. Each contract issuer specifies the events which may trigger a market value adjustment; however, such events include the following: material amendments to the Fund's structure or administration; changes to the participating plans' competing investment options including the elimination of equity wash provisions; complete or partial termination of the Fund, including a merger with another fund; the failure of the Fund to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA; the redemption of all or a portion of the interests in the Fund held by a participating plan at the direction of the participating plan sponsor, including withdrawals due to the removal of a specifically identifiable group of employees from coverage under the participating plan (such as a group layoff or early retirement incentive program), the closing or sale of a subsidiary, employing unit, or affiliate, the bankruptcy or insolvency of a plan sponsor, the merger of the plan with another plan, or the plan sponsor's establishment of another tax qualified defined contribution plan; any change in law, regulation, ruling, administrative or judicial position, or accounting requirement, applicable to the Fund or participating plans; the delivery of any communication to plan participants designed to influence a participant not to invest in the Fund.

At this time, the Fund does not believe that the occurrence of any such market value event, which would limit the Fund's ability to transact at contract value with participants, is probable.

In addition, Synthetic GICs and ISA GICs typically provide for an adjustment to contract value if a security that is part of the underlying assets defaults or otherwise becomes impaired as defined in the wrap contract. In the event of an impairment, generally contract value is decreased by the amortized cost of the impaired security and, if such security is subsequently sold, contract value is increased by the amount of such sales proceeds.

Synthetic GICs generally are evergreen contracts that contain termination provisions. The termination provisions of Synthetic GICs permit the fund's investment manager or issuer to terminate upon notice at any time at market value and provide for automatic termination of the Synthetic GIC if the contract value or market value of the contract equals zero. The issuer is not excused from paying the excess contract value when the market value equals zero. Synthetic GICs that permit the issuer to terminate at market value generally provide that the fund may elect to convert such termination to an Amortization Election, as described below. In addition, if the fund defaults in its obligations or representations under the agreement (including non-compliance with investment guidelines governing the underlying assets, or the issuer's determination that the agreement constitutes a nonexempt prohibited transaction as defined under ERISA) and such default is not cured within any applicable cure period, then the Synthetic GIC may be terminated by the issuer and the fund will receive the

market value as of the date of termination. Also, generally, Synthetic GICs permit the issuer or investment manager to elect at any time to convert the wrapped portfolio to a declining duration strategy, whereby the contract would terminate at a date which corresponds to the duration of the underlying fixed income portfolio on the date of the Amortization Election. After the effective date of an amortization election, the fixed income portfolio must conform to the guidelines agreed upon by the wrap issuer and the investment manager for the Amortization Election period. Such guidelines are intended to result in contract value equaling market value of the wrapped portfolio by such termination date. Synthetic GICs and ISA GICs also define certain other termination events that permit the issuer to terminate the contract at market value.

Termination events typically include the following:

(i) termination or replacement of the investment adviser without the issuer's consent, (ii) the Plan or its trust is fully or partially terminated or fails to be exempt from federal income taxation, (iii) the plan merges with another plan, (iv) if a security is sold or subject to a lien other than as permitted under the contract, (v) the contract holder engages in fraud or other action that materially and adversely affects the risk profile of the contract, (vi) if there is any change in law, regulation, ruling, or accounting requirement applicable to the Plan or Fund that could cause substantial withdrawals from the Fund, (vii) performance of the issuer's obligations under the contract becomes illegal, (viii) the bankruptcy of the Fund, Textron Savings Plan Trust or investment advisor, or (ix) the level of impaired securities as defined in the contract exceeds an agreed upon amount of the portfolio.

Total contract value of each type of investment contract is as follows:

	December 31,	
(In thousands)	**2022**	2021
Separate Account Contracts	**99,124**	92,348
Security-backed investment contracts (synthetic GICs)	**286,223**	266,087
	$ 385,347	$ 358,435

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Benefit Payments

Benefit payments are recorded upon payment**.**

Administrative Expenses

Administrative and other fees paid by the Plan are allocated as follows:

- Fees associated with in-service withdrawals, distributions and loans are charged directly to the associated participant account.
- Fees with respect to each investment fund are charged against the investment returns of those investment funds and allocated on a pro-rata basis to participants who invest in those investment funds.
- Expenses associated with qualified domestic relations orders are charged directly to the related participant account.
- Expenses associated with operating the Plan, such as recordkeeping fees, legal fees, consulting fees, transfer fees, annuity fees, annual reporting fees, claims processing fees, cost of supplies and similar fees, are charged directly or allocated on a pro rata basis to the participant accounts.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

3. Related Party and Party in Interest Transactions

The Plan holds shares of a fund managed by Fidelity Management Trust Company, the trustee of the plan. At December 31, 2022 and 2021, 8,425,633 shares and 8,882,751 shares, respectively, of the Fidelity Fund were held by the Plan, with a fair value of $125,541,934 and $172,680,684, respectively. The Plan also invests in shares of Textron's common stock. At December 31, 2022 and 2021, 16,282,011 shares and 16,400,331 shares, respectively, of Textron's common stock were held by the Plan, with a fair value of $1,152,766,369 and $1,266,105,551, respectively. Dividend income recorded by the Plan for Textron's common stock for the years ended December 31, 2022 and 2021 was $1,303,768 and $1,388,693, respectively. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

4. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated November 8, 2021, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator has indicated that it will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement impact of a tax position is recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that, as of December 31, 2022 and 2021, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
