VAA, LLC Profit Sharing Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the VAA, LLC Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees (who are not leased, union, nonresident aliens, or interns) of VAA, LLC (the "Company") who have one month of service and are age 18 or older. Participants must also have completed 1,000 hours of service in the Plan year and be employed at December 31 of the Plan year to receive discretionary Company contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan has adopted certain provisions of the Coronavirus Aid, Relief, and Economic Security (CARES) Act that was signed into law on March 27, 2020, which were immediately available, for coronavirus-related distributions and waiver of required minimum distributions that were due during 2020. The Plan intends to formally execute the required Plan amendments for these provisions at a later date in accordance with applicable laws and IRS guidance.

Contributions

Each year, participants may contribute annual pretax and after-tax compensation, as defined by the Plan, up to the annual maximum allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may contribute discretionary matching and discretionary profit sharing contributions. The discretionary profit sharing contribution, net of forfeiture, was \$2,683,245 for the year ended December 31, 2022. No discretionary matching contribution was made in 2022. Contributions are subject to certain IRS limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company discretionary matching contributions, and allocations of (a) the Company's discretionary profit sharing contribution and (b) Plan earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Note 1: Description of Plan (Continued)

Vesting

Participants are vested immediately in their voluntary contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. Participants vest at a rate of 20% per year beginning with one year of service. Participants become fully vested after five years of service.

Notes Receivable From Participants

Participants may borrow from their fund accounts a maximum of one note with a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 6.50%, which is the *Wall Street Journal* prime rate plus 1%. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Upon termination of services for any reason, a participant will receive a mandatory distribution as a lump sum equal to the value of the participant's vested interest in their account if the balance is less than or equal to \$1,000. If the account balance is greater than \$1,000, but less than \$5,000, a mandatory distribution would be subject to direct rollover. If the account balance is greater than \$5,000, a participant can elect to receive a lump-sum amount equal to the value of the participant's vested interest in their account. The Plan also allows for in-service distributions upon attaining age 59 1/2 and five years of participation.

Forfeitures

At December 31, 2022 and 2021, forfeited nonvested accounts totaled \$68,202 and \$46,194, respectively. These accounts may be used to restore forfeited account balances of rehired participants who are eligible for a restoration of forfeitures, used to pay administrative expenses, or reduce discretionary Company contributions in accordance with the plan document. During the year ended December 31, 2022, discretionary Company contributions were reduced by \$60,493 from forfeited nonvested accounts. In addition, forfeitures in the amount of \$23,000 were used to pay Plan expenses during the year ended December 31, 2022.

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (GAAP).

Use of Estimates

The preparation of financial statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 and 2021. Delinquent participant notes receivable are recorded as benefit payments on the basis of the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Investment advisory, record keeping, audit, and management fees are allocated proportionately to plan participants based on their respective account balances. Distribution fees and fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses.

Note 2: Summary of Significant Accounting Policies (Continued)

Subsequent Events

The Plan has evaluated subsequent events through July 13, 2023, which is the date the financial statements were available to be issued.

Note 3: Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs that are unobservable inputs for the asset or liability.

Note 3: Fair Value Measurements (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2022 and 2021.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Represents the Key Guaranteed Portfolio Fund (the "Fund"), which is a general account product primarily invested in high-quality, fixed-income bonds. These securities are at fair value when computing the unit value of the Fund using a discounted cash flow valuation methodology where the interest rate for this portfolio investment contract is reset quarterly.

Collective trust funds: Fair value is estimated using NAV as a practical expedient. NAV is determined by using the estimated fair values of the underlying assets held in the Fund at year-end. The funds primarily invest in investment contracts issued or sponsored by various insurance companies, commercial banks, and investment funds. The use of NAV as fair value is deemed appropriate since the collective trust funds do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets at fair value as of December 31, 2022 and 2021. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:
