Independent Auditor's Report

To the Plan Administrator of the Retirement Plan for Hourly Paid Employees of Specialty Granules LLC:

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed an audit of the financial statements of the Retirement Plan for Hourly Paid Employees of Specialty Granules LLC ("the Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 ("ERISA"), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statement of net assets available for benefits as of December 31, 2022, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audit of the financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audit need not extend to any statements or information related to assets held for investment of the plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA ("qualified institution").

Management has obtained a certification from a qualified institution as of December 31, 2022, and for the year then ended, stating that the certified investment information, as described in Note G to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audit and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report:

- the amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America ("GAAP").
- the information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America ("GAAS"). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with GAAP, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that the financial statements are issued or available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audit did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of GAAP.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with GAAP.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Supplemental Schedules Required by ERISA

The supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2022 and the Schedule H, Line 4(j) - Schedule of Reportable Transactions for the year ended December 31, 2022, are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- the form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.
- the certified information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Auditor's Report on the 2021 Financial Statements

Predecessor auditors performed an audit of the 2021 financial statements of the Plan. In accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the prior year audit did not extend to any statements or information related to assets held for investment of the plan that were certified by a qualified institution. Their report, dated July 12, 2022, indicated that (a) the amounts and disclosures in the 2021 financial statements, other than those agreed to or derived from the certified investment information, were presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America, and (b) the information in the 2021 financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C). Their report also indicated that the form and content of the 2021 supplemental schedules, other than the information in the 2021 supplemental schedules that agreed to or is derived from the certified investment information, were presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA; and the information in the 2021 supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determines meets the requirements of ERISA Section 103(a)(3)(C).

RETIREMENT PLAN FOR HOURLY PAID EMPLOYEES OF SPECIALTY GRANULES LLC
NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN:

The following description of the Retirement Plan for Hourly Paid Employees of Specialty Granules LLC (the "Plan") provides only general information. Participants should refer to the plan document for a complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering substantially all hourly employees of Specialty Granules LLC and participating affiliates (collectively the "Company") who have completed one hour of service, as defined under the Plan. The Plan was established January 1, 2011 as part of a spin off from a previous plan and was most recently amended and restated January 1, 2015. Benefits under the former plan were frozen as of January 1, 1994. No new entrants were eligible after that date or earlier date based on specific locations. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Contributions and Funding Policy

The Company's funding policy is to contribute such amounts as are deemed necessary on an actuarial basis to fund the benefits expected to be paid by the Plan in accordance with the funding requirements of ERISA. The company met the minimum funding requirements of ERISA as of December 31, 2022 and 2021.

Benefits

Normal retirement benefits are based upon a formula taking into account a participant's credited years of service and applicable dollar multiplier based on location and applicable period of service. If a participant elects early retirement, benefits may be actuarially reduced by a monthly factor as defined in the plan document based on the number of months between the normal retirement age and a participant's age at early retirement.

For unmarried participants, the normal form of a benefit payment is an annual benefit, payable in monthly amounts, for life. For married participants, the form of payment will be as an actuarially equivalent qualified joint and survivor annuity as defined under the plan for each location. Additional actuarially equivalent optional forms of payment available are as follows:

- Life annuity
- Life annuity with period certain 5, 10, 15 or 20 years
- 50% or 100% joint and survivor
- Social Security equalization

Lump sum settlement options are not available other than for small cash out benefits of less than \$1,000.

All Plan benefits are subject to the limitations prescribed by the IRC which includes provisions that limit the amount of retirement income which may be paid to an individual participant.

RETIREMENT PLAN FOR HOURLY PAID EMPLOYEES OF SPECIALTY GRANULES LLC
NOTES TO FINANCIAL STATEMENTS

Retirement Dates

An employee's normal retirement date is the date the employee reaches age 65. Generally, the Plan permits early retirement at age 55 provided the participant has been credited with 10 or more years of service. There is no mandatory retirement age.

Vesting

Participants are vested in their benefits upon completion of 5 years of service.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Administrative Expenses

The Plan's expenses are paid either by the Plan or the Company. Investment management fees, PBGC premiums and actuarial services fees are typically paid with plan assets. Expenses that are paid by the Company are excluded from these financial statements. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

NOTES TO FINANCIAL STATEMENTS

Reclassification

Certain 2021 amounts have been reclassified to conform with the presentation in the 2022 financial statements.

C. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used by the Plan. There have been no changes in the methodologies used at December 31, 2022 and 2021.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Exchange traded funds – Valued at the closing price reported on the active market on which the individual securities are traded.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

<u>Description</u>	<u>2022</u>			
	<u>Total</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>

D. ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS:

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are attributable, under the Plan's provisions, to the service employees have rendered and include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Vested benefits are benefits to which members are entitled regardless of future service with the Company. Nonvested benefits are dependent upon future services

The actuarial present value of accumulated plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The more significant assumptions underlying the actuarial computations used in the valuation as of December 31, 2021 are as follows:

Assumed discount rate	- 6.00%
Mortality basis	- Pri-2012 Blue Collar Mortality Tables and projected with the Buck MP-2021 scale, updated from MP-2020.
Retirement	- Assumed retirement at age 55

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computation of the actuarial present value of accumulated plan benefits was made as of January 1, 2022. Had the valuation been performed as of December 31, there would be no material difference.

At December 31, 2021, the actuarial present value of accumulated plan benefits was as follows:

Vested benefits:	
Participants currently receiving payments	\$ 1,786,568
Other participants	<u>3,656,404</u>
Total vested benefits	5,442,972
Nonvested benefits	<u>17,128</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 5,460,100</u>

RETIREMENT PLAN FOR HOURLY PAID EMPLOYEES OF SPECIALTY GRANULES LLC
NOTES TO FINANCIAL STATEMENTS

During the year ended December 31, 2021, the changes accumulated plan benefits were as follows:

Actuarial present value of accumulated plan benefits at beginning of year	\$ 5,689,587
Increase (decrease) during the year attributable to:	
Benefits accumulated, including (gains) and losses	(149,416)
Interest	329,274
Benefits paid	<u>(409,345)</u>
Net decrease in actuarial present value of accumulated plan benefits	<u>(229,487)</u>
Actuarial present value of accumulated plan benefits at end of year	<u><u>\$ 5,460,100</u></u>

E. PARTIES-IN-INTEREST:

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan or an employer whose employees are covered by the Plan. Accordingly, expenses paid to the third party administrator or the trustee and the management of investments held by the trustee are considered party-in-interest transactions.

F. TAX STATUS:

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated January 4, 2017 that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

G. CERTIFIED INVESTMENTS:

Certain information related to investments disclosed in the accompanying financial statements and ERISA-required supplemental schedules, including investments held at December 31, 2022 and 2021, and net appreciation (depreciation) in fair value of investments and interest and dividends for the years then ended, was obtained by management and agreed to or derived from information certified as complete and accurate by Wilmington Trust, the trustee of the Plan.

RETIREMENT PLAN FOR HOURLY PAID EMPLOYEES OF SPECIALTY GRANULES LLC
NOTES TO FINANCIAL STATEMENTS

H. PLAN TERMINATION:

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, if any, taking into account those paid out before termination.
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations (discussed below).
- d. All other vested benefits (that is, vested benefits not insured by the PBGC).
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC upon termination of the Plan. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivors' pensions. However, the PBGC does not guarantee all types of benefits under the plan and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

I. RISKS AND UNCERTAINTIES:

The plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Market risks include global events which could impact the value of investment securities. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

RETIREMENT PLAN FOR HOURLY PAID EMPLOYEES OF SPECIALTY GRANULES LLC
NOTES TO FINANCIAL STATEMENTS

J. SUBSEQUENT EVENTS:

The Company has evaluated subsequent events through July 21, 2023, the date these financial statements were available for issuance.

Subsequent to year end, the Company decided to terminate the Plan and thereafter distribute benefits in the form of annuity contracts, or for certain participants, lump sum payments. As of the date these financials were available to be issued such action has not been taken.

* Used for minimum funding and benefit restriction purposes.

**Used for maximum tax-deduction ERISA 4010 reporting purposes.

The interest rates used for funding purposes are the Segment Rates with 4-month lookback, constrained in accordance with relevant legislation.

Mortality

Mortality tables for non-disabled participants mandated by applicable law and regulation as specified in IRS Regulation 1.430(h)(3)-1, as amended in IRS Notice 2020-85, applied on a static basis. For disabled participants, the mortality rates specified in Revenue Ruling 96-7 were assumed.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA. The demographic assumptions have been set based on observed plan experience. The plan's experience is too small to form the basis of a reliable assumption; however, the assumption remains appropriate given historic gain and loss experience of the plan.

Expenses

An allowance of \$106,000 for administrative expense has been included in the Target Normal cost, reflecting actual administrative expenses paid for the Plan's trust during the previous year rounded to the nearest \$1,000.

Frequency of optional payment forms

100% of participants are assumed to elect the Single Life Annuity form of benefit at retirement.

Marital percentage

80% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirement is equal to the Adjusted Market Value of Assets.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Use of Models

Actuarial Standard of Practice No. 56 ("ASOP 56") provides guidance to actuaries when performing actuarial services with respect to designing, developing, selecting, modifying, using, reviewing, or evaluating models. Buck uses third-party software in the performance of annual actuarial valuations and projections. The model is intended to calculate the liabilities associated with the provisions of the plan using data and assumptions as of the measurement date under the funding rules specified in this report. Further, the model applies those funding rules to the liabilities derived and other inputs, such as plan assets and contributions, to generate many of the exhibits found in this report. Buck has an extensive review process whereby the results of the liability calculations are checked using detailed sample output, changes from year to year are summarized by source, and significant deviations from expectations are investigated. Other funding outputs are similarly reviewed in detail and at a high level for accuracy, reasonability and consistency with prior results. Buck also reviews the model when significant changes are made to the software. The review is performed by experts within the company who are familiar with applicable funding rules as well as the manner in which the model generates its output.

Non-Prescribed Funding Assumptions and Methods (continued)

Reasonable Assumptions

Actuarial standards of practice (“ASOPs”) 27 and 35 ask the actuary to disclose the information and analysis used to support the actuary’s determination that prescribed assumptions do not significantly conflict with what, in the actuary’s professional judgment, are reasonable for the purpose of the measurement.

In the case of the sponsor’s / plan administrator’s selection of expected return on assets (“EROA”), the signing actuary has used economic information and tools provided by Buck’s Financial Risk Management (“FRM”) practice. A spreadsheet tool created by the FRM team converts averages, standard deviations, and correlations from Buck’s Capital Markets Assumptions (“CMA”) that are used for stochastic forecasting into approximate percentile ranges for the arithmetic and geometric average returns. Percentiles are based on standard matrix multiplication and normal approximations. This simplified model (disclosed here under ASOP 56) ignores inter-period dependence and the skewed nature of single year returns. As such it is intended to suggest possible reasonable ranges for EROA without attempting to predict or select a specific best estimate rate of return. However, it does take into account the duration (horizon) of investment and the approximate allocation of assets in the portfolio to various asset classes with different expected returns, standard deviations, and correlations to other asset classes. Under current calibrations, the EROA tool will tend to show higher expected returns for longer durations and will show a greater divergence between arithmetic and geometric average returns the higher the standard deviation of portfolio return.

Based on the actuary’s analysis, including consistency with other assumptions used in the valuation and the percentiles generated by the spreadsheet described above, the actuary believes the EROA is reasonable for the purpose of the measurement.

Summary of Changes from the January 1, 2021 Valuation

- The mortality tables were updated to the rates applicable to the current plan year in accordance with 1.430(h)(3)-1(f)(2).
- The interest rates were updated to the segment rates applicable to the current plan year in accordance with PPA as amended by MAP-21, HATFA, and ARPA.
- The expected plan-related expenses added to the Target Normal cost were changed from \$111,000 to \$106,000 to better reflect plan experience.
- The change in assumptions listed above increased the Funding Target by approximately \$0.1 million.

Note to Column 2: The Expected Active Headcount for each age includes persons who are eligible to retire and persons who are not eligible to retire at each age.

Note to Column 3: At each age, these retirement rates are a weighted average of the rates shown in Attachment to Part V for active participants eligible to retire at the age and zero for all other active participants.

General note: The table presents values rounded to fewer significant digits than used in the calculation.

Retirement Plan for Hourly Paid Employees of Specialty Granules LLC

EIN/PN: 22-3807370/ 003

Schedule SB, Part V – Summary of Plan Provisions

Effective Date

January 1, 2011

Membership Eligibility

All hourly-paid employees employed by the Company, except leased employees, and employees who are active participants of other qualified retirement plans sponsored by the Company. New employees may not participate. See the notes following the Current Plan Provisions by Location.

Credited Service

One month of service is credited for each 133 hours worked during the Plan Year, not to exceed 12 months of Credited Service in any Plan Year.

Vesting Service

A year of Vesting Service is earned for each Plan Year in which a participant completes 1,000 hours of service.

Employee Contribution

None. Plan is funded entirely by employer contributions.

Normal Retirement

Eligibility

Age 65

Benefit

A monthly benefit for each year of Credited Service equal to a dollar multiplier effective as of the participant's termination date, times the participant's Credited Service at termination. See the Current Plan Provisions by Location for dollar multipliers for each location. This amount is offset by an annuity purchase benefit issued by John Hancock Mutual Life Insurance Company.

Benefits are frozen for all participants.

Deferred Retirement

Eligibility

5 years of Vesting Service.

Benefit

Calculated in the same manner as described in Normal Retirement above.

Early Retirement

Eligibility

See the Current Plan Provisions by Location for early retirement eligibility provisions.

Benefit

Same as for Normal Retirement but reduced for early commencement. See the Current Plan Provisions by Location for early retirement reductions.

Retirement Plan for Hourly Paid Employees of Specialty Granules LLC

EIN/PN: 22-3807370/ 003

Schedule SB, Part V – Summary of Plan Provisions (continued)

Disability Retirement

Eligibility

See the Current Plan Provisions by Location for disability eligibility provisions.

Benefit

An immediate benefit equal to the normal retirement benefit, reduced as shown in the Current Plan Provisions by Location.

Vested Termination

Eligibility

5 years of Vesting Service.

Benefit

A benefit amount deferred to age 65, equal to the vested accrued benefit and reduced as in early retirement if paid prior to age 65.

Pre-Retirement Surviving Spouse Coverage

Eligibility

5 years of Vesting Service, or age 65.

Benefit

Upon the death of an active or terminated participant who was eligible for early retirement, 100% of the benefit he would have received had he retired with a Qualified Joint and Survivor Annuity the day preceding his death.

Upon the death of an active or terminated participant with vested rights who was not yet eligible for early retirement, 100% of the benefit he would have received had he terminated the day preceding his death, lived to early retirement age, and retired with a Qualified Joint and Survivor Annuity.

Normal Form of Benefit

Life annuity for unmarried participants; actuarially reduced Qualified 100% Joint and Survivor Annuity for married participants (unless the participant and spouse elect otherwise).

Optional Forms of Benefits

A participant may elect an optional form of benefit if the value of the vested benefit is not eligible to be paid as a single lump sum¹.

- (1) Life annuity
- (2) Life annuity with period certain of 5, 10, 15, or 20 years
- (3) Social Security equalization
- (4) 50% or 100% joint and survivor
- (5) Optional lump sum if value between \$1,000 and \$5,000

Maximum Benefit

The maximum benefit used to determine Plan benefits is limited as required by IRC Section 415(b). The limit for 2022 is \$245,000.

¹ If the lump sum value does not exceed \$1,000 (\$5,000 with respect to a distribution to a beneficiary) the actuarial equivalent of the monthly benefit shall be paid in a single sum.
