Note 1. Description of the Plan

The following description of the Cabinetworks Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: Effective November 1, 2012, ACProducts, Inc. (the Plan Sponsor or Employer) established the Plan. The Plan is a defined contribution plan covering all eligible employees of ACProducts, Inc. and certain subsidiaries. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Refer to the Plan document for a complete listing of affiliated companies.

Plan merger: Effective March 16, 2020, the Plan was amended, changing the Plan name to Cabinetworks Group 401(k) Plan, formerly ACProducts 401(k) plan. In addition, this amendment granted eligibility to Masco Corporation employees. There were no impacts to net assts either individually or in the aggregate as a result of this amendment. Effective March 20, 2020, the Plan was amended to approve the transfer of the Masco Corporation Hourly 401(k) Plan and Masco Corporation 401(k) Plan into the Plan. The Plan assumed legal control of assets transferred totaling $185,761,346 on the effective date.

Eligibility: All employees not covered by a collective bargaining agreement become eligible for participation immediately upon hire. All employees not covered by a collective bargaining agreement are automatically enrolled in the Plan subject to a 35-day opt-out period. Employees covered by a collective bargaining agreement are eligible for enrollment after a 90-day probationary period and must affirmatively elect to enroll in the Plan. Employees excluded from participation in the Plan include residents of Puerto Rico, nonresident aliens with no income from a U.S. source, individuals who are a signatory to a contract, letter of agreement, or other documents that acknowledges their status as an independent contractor, and leased employees.

Contributions: Each year participants may make salary deferral contributions up to 75% of their pretax annual compensation, as defined in the Plan, subject to certain maximum limitations imposed by the IRC. Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions, subject to the maximum limitations imposed by the IRC. The Plan Sponsor may, at its discretion, make matching contributions to the Plan in an amount equal to a percentage of employee salary deferral contributions. For nonunion participants, the Plan Sponsor made discretionary matching contributions of 50% of employee salary deferrals up to 6% of the employee's eligible compensation during the year ended December 31, 2020. For ACPI Wood Products (AWP) employees covered by the collective bargaining agreement, the Plan Sponsor made discretionary matching contributions of $0.75 for each dollar of employee salary deferrals up to 4% of the employee's eligible compensation during the year ended December 31, 2020.

The Plan Sponsor may, at its discretion, also make nonelective contributions in an amount to be determined by the Plan Sponsor's Board of Directors for each Plan year. During 2020, the Plan Sponsor made a discretionary contribution of $0.75 per hour physically worked for those employees covered under the ACProducts Inc. (ACPI) and AWP collective bargaining agreement (CBA). The discretionary contribution was the result of a CBA dated December 12, 2013 and June 9, 2014 respectively. The CBA's were entered into by the Plan Sponsor and the employees covered by the collective bargaining agreement.

Note 1. Description of the Plan (Continued)

Vesting: Participants are immediately 100% vested in their participant contributions and rollovers plus actual earnings thereon. Vesting in the Plan Sponsor's discretionary matching contributions, plus actual earnings thereon, is based on the years of service, counted from the participant's date of hire as follows:

Years of Service	Vesting Percentage
Less than 1 year	0%
1 year or more but less than 2 years	50%
2 years or more but less than 3 years	75%
3 years or more	100%

Vesting in Plan Sponsor's nonelective discretionary contributions of $0.75 per hour physically worked, for those employees covered under collective bargaining agreements, plus actual earnings thereon, is based on years of service, counted from the participant's date of hire as follows:

Years of Service	Vesting Percentage
Less than 3 years	0%
3 years or more	100%

Participant accounts: Each participant's account is credited with the participant's contributions and allocations of: (a) the Plan Sponsor's discretionary matching and nonelective contributions and (b) the Plan's investment results and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific transactions, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Investment options: Participants direct their contributions to selected investments as made available and determined by the Plan Administrator. Participants may change their investment options at any time throughout the year via internet or direct phone access to Fidelity Management Trust Company (Fidelity), the trustee of the Plan.

Forfeitures: Forfeitures occurring during the Plan year are applied to first pay Plan administrative expenses, as directed by the Plan Administrator. Any remaining amounts are used to fund future employer contributions. On December 31, 2020 there were $283,000 unused forfeited nonvested employer contributions. On December 31, 2019 there were $12,000. Amounts forfeited during 2020 were approximately $518,000. During the year ended December 31, 2020, the Plan Sponsor used approximately $247,000 of forfeited amounts to pay Plan administrative expenses and fund employer contributions.

Note 1. Description of the Plan (Continued)

Benefits paid to participants: On termination of service, participants may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount or periodic installments. If a participant's vested balance is $1,000 or less, the participant will receive a single lump distribution of their entire vested account balance. In the event of a distribution that is greater than $1,000 but less than $5,000, if the participant does not elect to have such distribution paid directly to an eligible retirement plan in a direct rollover or to receive the distribution, then the Plan Administrator will make the distribution in a direct rollover to an IRA designated by the Plan Administrator. In-service distributions are permitted for participants that attain age 59 ½, or in situations of hardship or disability, subject to certain limitations as defined.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of the lower of 50% of their vested account balance or $50,000. Notes receivable are secured by the balance in the participant's account and bear interest at rates comparable to rates offered by commercial lending institutions. Interest rates on outstanding notes receivable ranged from 3.25% to 8.25% as of December 31, 2020. Principal and interest must be repaid in level payments through after-tax payroll deductions on at least a quarterly basis over a period that may not exceed five years unless it is for the purchase of the participant's principal residence, in which case the loan repayment period is 10 years. In certain limited circumstances the loan may exceed 10 years from the date of the loan. A participant may have one loan outstanding at a time. Notes outstanding on December 31, 2020 mature at varying dates through November 2033.

Administrative expenses: Administrative expenses are paid by the Plan Sponsor or the Plan. Certain Plan expenses, such as transaction fees from receiving a loan, withdrawal or distribution from the Plan, are deducted from individual participants' accounts.

Plan Administrator: The Plan is administered by the Retirement Committee as appointed by the Plan Sponsor. The Plan's investment funds are held by Fidelity as trustee for the Plan.

Certain administrative functions are performed by officers or employees of the Plan Sponsor. However, such employees receive no compensation from the Plan. The Plan Sponsor and the Plan share in the Plan expenses. Additionally, certain expenses, such as transaction fees from receiving a loan, withdrawal, or distribution from the Plan, are deducted from participants' accounts.

Coronavirus Aid, Relief, and Economic Security Act (CARES Act): The Plan has implemented certain requirements allowed by the CARES Act and the Setting Every Community Up for Retirement Enhancement Act of 2019 (the SECURE Act), which allows certain eligible individuals to receive coronavirus-related relief to suspend required minimum distributions and also includes a delay of the commencement date for required minimum distributions. The features within these acts were implemented during the year ended December 31, 2020, as required by the Internal Revenue Service (IRS). Written amendments to the Plan to reflect these operational changes will be adopted at a later date in accordance with applicable law and IRS guidance.

Note 2. Significant Accounting Policies

Basis of accounting: The accompanying financial statements of the Plan are presented on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein and the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year. Capital gain distributions from mutual funds that are reinvested are included with dividends on the Statement of Changes in Net Assets Available for Benefits. The Plan's Retirement Committee determines the Plan's valuation policies utilizing information provided by the trustee.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2020 or 2019. Delinquent loans are treated as an asset on the statements of net assets available for benefits and continue to accrue interest until they are considered to be in default. Loans are considered to be in default and cancelled according to the terms of the loan policy. Loans in default are classified as distributions on the statement of changes in net assets available for benefits.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule Schedule H, Line 4i – Schedule of Assets (held at end of year).

Benefits paid to participants: Benefits paid to participants are recorded when paid.

Risks and uncertainties: The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2. Significant Accounting Policies (Continued)

Recent accounting pronouncements: In August 2018, the Financial Accounting Standards Board FASB) issued Accounting Standards Update (ASU) 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement*. The ASU modifies the disclosure requirements for fair value measurements by removing, modifying or adding certain disclosures.

The following disclosure requirements were removed from Topic 820:

1. The amount of and reason for transfers between Level 1 and Level 2 of the fair value hierarchy.

2. The policy for timing of transfers between levels.

3. The valuation process for Level 3 fair value measurements.

4. For nonpublic entities, the changes in unrealized gains and losses for the period included in earnings for reoccurring Level 3 fair value measurements held at the end of the reporting period.

The following disclosure requirements were modified in Topic 820:

1. In lieu of roll forward for Level 3 fair value measurements, a nonpublic entity is required to disclose transfers into and out of Level 3 of the fair value hierarchy and purchases and issues of Level 3 assets and liabilities.

2. For investments in certain entities that calculate NAV, an entity is required to disclose the timing of liquidation of an investee's assets and the date when restrictions from redemption might lapse only if the investee has communicated the timing to the entity or announced the timing publicly.

3. The amendments clarify that the measurement uncertainty disclosure is to communicate information about the uncertainty in measurements as of the reporting date.

ASU 2018-13 is effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. The effect of adopting this standard resulted in the removal or modification of certain fair value measurement disclosures presented in the financial statements.

In July 2018, the FASB issued Accounting Standards Update (ASU) 2018-09, Codification Improvements. The ASU amends the fair value disclosure such that a certain type of investment should not always be eligible to use the net asset value per share practical expedient. Also, it specifies that the Plan Sponsor should evaluate whether a readily determinable fair value exists or whether its investments qualify for the net asset per share practical expedient in accordance with ASC 820, Fair Value Measurement. ASU 2018-23 is effective for the Plan as of January 1, 2020 and did not have a material impact to the financial statements.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosures through January 20, 2022, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Fidelity Management Trust Company (Fidelity)

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by Fidelity, the trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedule. The following table presents the value of the Plan's assets as certified by the trustee at December 31, 2020 and 2019.

	2020	2019
Investments, at fair value:		
Mutual funds	$ 276,091,043	$ 47,805,929
Common collective trust fund	14,454,590	857,920
Self-directed brokerage account	3,576,759	-
Notes receivable from participants	9,590,209	945,023
	$ 303,712,601	$ 49,608,872

Fidelity also certified to the completeness and accuracy of $82,947,329 of net appreciation in fair value of investments, $8,777,897 of interest and dividends from investments related to the aforementioned assets, and $388,377 of interest on notes receivable from participants, for the year ended December 31, 2020.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under the FASB Accounting Standards Codification (ASC) 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investments measured at fair value. There have been no changes in the methodologies used at December 31, 2020 and 2019.

Mutual funds: Valued based upon quoted market prices in the active market in which they are traded, and are classified as Level 1 of the valuation hierarchy.

Collective investment trusts: The Fidelity Managed Income Portfolio Class 1 and the Fidelity Managed Income Portfolio II Class 3, which together comprise the collective investment trusts, are valued based on the net asset value of units held by the Plan based on the fair value of its underlying investments as determined by Fidelity. Net asset value is utilized as a practical expedient.

Self-directed brokerage accounts: Brokerage accounts include investments in mutual funds, cash, and common stocks. The fair value of mutual funds held in brokerage accounts is determined as described above. Common stocks are valued at the closing price reported on the active market of which the individual shares are traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2020 and 2019.

	Level 1	Level 2	Level 3	Total

Note 4. Fair Value Measurements (Continued)

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient. Redemptions made in order to accommodate a participant-directed exchange to another investment option may be made on any business day, provided that the exchange is not directed into a competing fund (money market fund or certain other types of fixed income funds). Transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur. Withdrawals directed by the Plan Sponsor must be preceded by 12 months of written notice to Fidelity.

Investment	Fair Value as of December 31, 2020	Fair Value as of December 31, 2019	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Collective investment trusts	$ 14,454,590	$ 857,920	$ -	See above	See above

Note 5. Party-In-Interest Transactions

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering services to the Plan, the employer, and certain others. As such, transactions conducted with Fidelity and the Plan Sponsor qualify as party-in-interest transactions.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their employer contributions.

Note 7. Tax Status

The Plan has adopted a volume submitter profit sharing plan sponsored by Fidelity Management & Research Company. The volume submitter plan has received an advisory letter dated March 31, 2014 from the Internal Revenue Service as to the volume submitter plan's qualified status. The volume submitter plan advisory letter has been relied upon by the Plan. The Plan has been amended subsequent to the version of the volume submitter profit sharing plan receiving the advisory letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state or local tax authorities for the years before 2017.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Prohibited Transactions

During 2020, the Plan Sponsor was incorrectly calculating the profit-sharing contribution for all of 2020 and therefore failed to deposit $105,712 of employer profit sharing contributions within the required timeframe as stated by the United States Department of Labor regulations. The Plan Sponsor has deposited these contributions in August 2021 and the calculated lost earnings to correct the failure of the late contributions.

In addition, the Plan Sponsor did not remit $524,963 of employee deferrals timely. The Plan Sponsor is working with the Fidelity Management Trust Company, the trustee, to calculate lost earnings on these late employee deferrals.

The Plan Sponsor intends to file Form 5330 and pay applicable excise tax during the Plan year ending December 31, 2022. The correction and any excise tax, if applicable, will be made from the Plan Sponsor's assets and not from the Plan's assets.
