RECOVERY UNPLUGGED 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS (COMPILED WITH RESPECT TO 2019)

NOTE 1. DESCRIPTION OF THE PLAN

The following description of the Recovery Unplugged 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan Sponsor is Recovery Unplugged, LLC (the "Company" or "Sponsor").

General

The Plan is a defined contribution plan generally covering all employees of the Company, who have at least one year of service and are over age eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Beginning in April 2020, the Plan enacted several provisions from the CARES Act, specifically, allowing CARES Act distributions and loan deferments throughout the remainder of 2020. The CARES Act distribution allowed Plan participants to withdraw up to \$100,000 due to adverse financial consequences from COVID-19. CARES Act loan deferments allowed impacted participants to freeze their 401(k) loan repayments through the remainder of 2020, with loans being re-amortized, and loan repayments restarting in 2021. Finally, the processing of minimum required distributions was suspended for 2020.

Contributions

Each year, participants may contribute up to 100% of pretax or after-tax annual compensation, as defined in the Plan, up to the statutory maximum. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company makes matching contributions equal to 25% of the first 4% of compensation that a non-highly compensated participant contributes to the Plan. Additionally, the Company may make discretionary contributions in an amount determined annually. The Company made no discretionary contribution during 2020.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of the Sponsor's contribution and earnings from participant directed investments, net of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions is based on years of continuous service. A participant is fully vested after five years of continuous service.

Forfeitures

At December 31, 2020 and 2019 the forfeited non-vested accounts totaled \$5,439 and \$1,873, respectively. These accounts will be used to pay Plan expenses or reduce future employer contributions. During the 2020 Plan Year, \$1,863 of forfeitures were used to reduce employer contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct the investment of their contributions to various investment options offered by the Plan. Participants may change their investment options daily.

Notes Receivable from Participants

A participant may borrow from their fund account a minimum of \$1,000 up to a maximum equal to the lesser of 50% of a participant's vested account balance or \$50,000. Participants may only have one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at the prevailing market rate for commercial loans, based on the loan application date. Principal and interest are paid ratably through payroll deductions. At December 31, 2020 and 2019, the interest rate on participant loans was 5.00%.

Plan Administration

The Plan is administered by the Company. The Plan assets are maintained by its custodian, Principal Trust Company ("Principal").

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or monthly, quarterly or annual installments over a period not to exceed the participant's estimated life expectancy. If the participant's vested account balance is greater than \$1,000, but such balance is \$5,000 or less at the date of death, disability, retirement or termination of employment, and the participant has failed to make a distribution election, the participant's vested interest in his or her account will be automatically rolled over into an IRA. For termination of services for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

NOTE 1. DESCRIPTION OF THE PLAN (Continued)

Plan Termination

Although it has not expressed any intent to do so, the Sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their allocation of employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

All of the Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Shares of mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year-end. The Plan's investments in units of pooled separate accounts are stated at the net asset value as a practical expedient to estimate fair value. The net asset value is based on the fair value of the underlying investments less its liabilities. Security transactions are recorded on a trade date basis, which is the date the order to buy or sell is executed. Interest income is accrued on a daily basis. Dividend income is recorded on the ex-dividend date.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefit Payments

Benefits are recorded when paid.

Plan Expenses

Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the Plan. Certain administrative expenses, such as professional fees, are paid directly by the Company. Plan expenses are recorded when incurred.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Party-In-Interest Transactions

Certain Plan investments are managed by Principal Life Insurance Company, an affiliate of the Plan's custodian, as defined by the Plan, and therefore, these transactions qualify as party-in-interest. The Plan also has notes receivable from participants that qualify as party-in-interest transactions.

Risk and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.

In March 2020, the COVID-19 outbreak was declared a pandemic by the World Health Organization. The COVID-19 pandemic has led to extreme volatility in financial markets and has affected, and may continue to affect Plan assets. While the potential economic impact brought by, and the duration of, COVID-19 may be difficult to assess or predict, a widespread pandemic could result in significant disruption of global financial markets. The extent to which COVID-19 impacts the financial markets will depend on future developments that are highly uncertain and cannot be predicted.

Concentrations

All of the Plan's investment assets were held by the custodian, Principal, located in Des Moines, Iowa.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements, in conformity with accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 3. INFORMATION PREPARED AND CERTIFIED BY THE CUSTODIAN (UNAUDITED)

The following information included in the accompanying 2020 financial statements and supplemental information was obtained from unaudited data that has been prepared by and certified to as complete and accurate by the custodian, Principal.

	2020	2019
Investments	\$ 1,205,411	\$ 857,662

During 2020, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the Plan year) appreciated in value by \$152,614. In addition, dividends relating to these investments amounted to \$13,265. Interest on notes receivable from participants amounted to \$362 during the year ended December 31, 2020.

NOTE 4. FAIR VALUE MEASUREMENT

Generally accepted accounting principles require the Plan to report its investments at estimated fair value on a recurring basis. Fair value is measured by a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A description of the valuation methodologies the Plan uses for assets measured at fair value is included in Note 2.

NOTE 4. FAIR VALUE MEASUREMENT (Continued)

The methodologies may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents information about the Plan's assets measured at fair value as of December 31, 2020 and 2019:

ASSETS, at fair value as of December 31, 2020	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	\$ 1,084,027	\$ -	\$ -	\$ 1,084,027

Total investments measured at fair value				<u>\$ 1,199,052</u>

ASSETS, at fair value as of December 31, 2019	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total

Pooled separate accounts, measured at NAV (a)				<u>52,015</u>
Total investments measured at fair value				<u>\$ 851,335</u>

- (a) In accordance with ASU 2015-07, certain investments that are measured at fair value using NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

The investments in the pooled separate accounts are direct filing entities. There are no unfunded commitments related to these investments and participants may redeem their investment either daily or once per month.

NOTE 4. FAIR VALUE MEASUREMENT (Continued)

The following table presents information about the Plan's assets measured at fair value based on net asset value per share as of December 31, 2020 and 2019:

NOTE 5. INCOME TAX STATUS

The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan assesses its tax positions in accordance with “*Accounting for Uncertainties in Income Taxes*” as prescribed by the Accounting Standards Codification, which provides guidance for financial statement recognition and measurement of uncertain tax positions taken or expected to be taken in a tax return for open tax years (generally a period of three years from the later of each return’s due date or the date filed) that remain subject to examination by the Plan’s major tax jurisdictions.

The Plan assesses its tax positions and determines whether it has any material unrecognized liabilities for uncertain tax positions. The Plan records these liabilities to the extent it deems them more likely than not to be incurred. Interest and penalties related to uncertain tax positions, if any, would be classified as a component of income tax expense.

The Plan believes that it does not have any significant uncertain tax positions requiring recognition or measurement in the accompanying financial statements.

NOTE 6. GUARANTEED INVESTMENT CONTRACTS

Fixed Income Guaranteed Option

The Plan has a fully benefit-responsive guaranteed investment contract (“GIC”) with Principal Life Insurance Company. Principal Life Insurance Company maintains the contributions in a general account. The GIC does not have specific underlying assets assigned, thus is considered a traditional investment contract. The GIC issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The GIC is included in the financial statements at contract value which approximates fair value. Contract value, as reported to the Plan by Principal Life Insurance Company, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The GIC does have a surrender charge of 5% that may be charged if the Plan terminates its interest in the contract. The Fixed Income Guaranteed Option is a single group annuity contract with a fixed rate of interest. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. As of December 31, 2020 and 2019, the yield earned and net crediting interest rate was 1.60% and 1.90%, respectively, after deduction of plan administrative expenses.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the guaranteed investment contract at December 31, 2020 and 2019 was \$6,359 and \$6,327, respectively. Under the terms of the existing contract, the crediting interest rate is based on a formula agreed upon with the Issuer. The crediting rate is currently reset on a semiannual basis and will not be less than the guaranteed minimum interest rate. In no case will the guaranteed minimum interest rate be less than 1% or greater than 3%.

Certain events limit the ability of the Plan to transact at contract value with Principal Life Insurance Company. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another Plan), (2) changes to the Plan’s prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan’s ability to transact at contract value with participants, is probable.

The Guaranteed Investment Contract does not permit Principal Life Insurance Company to terminate the agreement prior to the scheduled maturity dates without additional termination charges.

NOTE 7. EXCESS CONTRIBUTION PAYABLE

The Plan failed the discrimination test for the year ended December 31, 2020, resulting in excess contributions amounting to \$12,232. The aggregate excess contributions were reimbursed to participants during 2023. As a result of the delay in reimbursement, the Plan submitted a QNEC to the Plan in the same amount, which comprises Other Receivable in the accompanying Statement of Net Assets Available for Benefits. The Plan remitted the associated excise tax on the reimbursements, which was considered immaterial to these financial statements.
