INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator of Saks Fifth Avenue Pension Plan

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of the Saks Fifth Avenue Pension Plan (the "Plan"), an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statement of changes in net assets available for benefits for the year ended December 31, 2022, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from a qualified institution as of December 31, 2022 and 2021, and for the year ended December 31, 2022, stating that the certified investment information, as described in Note 5 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter—Supplemental Schedules Required by ERISA

The supplemental schedule of assets (held at end of year) as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedule, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedule that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, other than the information agreed to or derived from the certified investment information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedule, other than the information in the supplemental schedule that agreed to or is derived from the certified investment information, is presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedule related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

1. Description of the Plan

The following description of the Saks Fifth Avenue Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General
The Plan is a non-contributory defined benefit cash balance pension plan covering certain employees of Saks & Company, a wholly-owned subsidiary of Saks Incorporated (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Plan Administrator and Trustee
The Plan is sponsored and administered by the Pension Committee of Saks & Company. Russell Investments Trust Company (the "Trustee") serves as the Plan's trustee.

Participation
Eligible employees became participants of the Plan when they attained age 21 and completed one year of eligibility service, which is defined by the Plan to be a plan year in which an employee completes 1,000 hours of service. Employees hired on or after May 1, 2002 are excluded from participation in the Plan. All employees of Saks & Company employed prior to May 1, 2002 are considered eligible for participation except for: (1) non-resident aliens with no U.S. source of income; (2) employees covered by a collective bargaining agreement that does not provide for participation in the Plan; (3) "leased" employees, unless participation of such employees is necessary for the Plan to remain qualified under the Internal Revenue Code (the "Code"); and (4) employees participating in another defined benefit plan maintained by the Company.

Pension Benefits
The Plan maintains hypothetical accounts for each Plan participant to which the following are allocated: (1) their opening balance, equal to the present value of a participant's accrued benefit as of December 31, 1997; (2) annual benefit credits equal to a percentage of a participant's eligible compensation for that plan year; and (3) annual interest credits. For plan years 1998 through 2001, the percentage used to determine the annual benefit credit is based on years of vesting service, as defined by the Plan. Effective May 1, 2002, for plan year 2002 and after, the annual benefit credit is equal to 2.00% of eligible compensation for that plan year. For purposes of calculating the annual benefit credit, eligible compensation is limited in accordance with the Code. The annual interest credit is determined based on the 3-year Treasury rate as of the last day of the preceding plan year, subject to a minimum rate of 4.75% per year, applied to the participant's account balance as of the first day of the plan year.

Effective January 1, 2007, the accrued benefits for all participants, except certain participants who as of December 31, 2006 had attained age 55, completed 10 years of vesting service, as defined by the Plan, and who were not considered to be highly compensated employees ("Grandfathered Participants"), were frozen, and no further benefit credits accrue under the Plan. Effective March 13, 2009, the accrued benefits for Grandfathered Participants were frozen. No further benefit credits accrue for any participants of the Plan after March 13, 2009. All participants continue to accrue interest credits.

Vesting and Payment of Benefits
Participants in the Plan become fully vested in their benefits under the Plan upon attainment of normal retirement age, as defined by the Plan, or upon completion of three years of vesting service. Prior to January 1, 2008, participants became fully vested in their benefits upon completion of five years of vesting service. For the purposes of vesting, a year of service is defined by the Plan to be a plan year during which the participant completed at least 1,000 hours of service. Normal retirement age is defined by the Plan to be the later of: (a) age 65, or (b) the earlier of the date on which five years of

vesting service is completed or the fifth anniversary of the date the employee becomes a participant in the Plan.

Participants may elect early retirement at the earlier of: (a) the date the participant reaches age 55 if they have completed ten years of vesting service, or (b) the age at which their age combined with their years of vesting service is at least 65, provided they have completed at least three years of vesting service. Participants who work beyond the normal retirement age are eligible for a late retirement benefit. A late retirement benefit is adjusted accordingly based on the later termination date.

Benefits are normally paid monthly in the form of a single-life annuity or, for married participants, in the form of a joint and 50% survivor annuity. Other forms of payment available to participants, subject to spousal consent in the case of married participants, include a joint and 75% survivor annuity, or a life and 10-year certain annuity. Effective January 1, 1998, upon conversion of the Plan to a cash-balance formula, participants who have a cash-balance benefit are also eligible to elect to receive their benefits as a single, lump-sum distribution, subject to spousal consent in the case of married participants.

Forfeitures
Participants who terminate employment, but have not become fully vested, forfeit their unvested benefits. In accordance with the Plan document, forfeitures are used to reduce the cost of the Plan to the Company.

Administrative Expenses
Administrative expenses of $1,201,370 were incurred by the Plan for the year ended December 31, 2022. Expenses incurred with respect to the administration of the Plan are paid from the assets of the Plan to the extent allowed under ERISA. To the extent such expenses are not paid by the Plan, they are paid by the Company. The Plan sponsor provides accounting and other administrative services to the Plan at no charge.

Subsequent Events
Management has evaluated subsequent events for potential disclosure in or adjustment to the financial statements through July 18, 2023, the date the accompanying financial statements were available to be issued. Based on such evaluation, no events have occurred that in the opinion of management warrant disclosure or adjustment to the financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting and in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with U.S. GAAP requires management to make significant estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair value. See Note 6 *Fair Value Measurements*, for further discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividend income is recorded on the ex-dividend date.

The Plan presents in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments.

The Plan's investment strategy is to maintain a diversified portfolio of asset classes with the primary goal of ensuring that funds are available to meet the Plan's benefit obligations as they become due. The Plan employs a liability-driven investment strategy, which is designed to reduce the volatility of the Plan's funded status by more closely aligning the duration of the assets with the duration of the liabilities. Common/collective trust funds have various procedures regarding liquidity, which may include advance notification requirements and specific periodic dates for providing such liquidity. None of the common/collective trust funds in which the Plan invests have restrictions on redemption frequency, nor do they have advance notification requirements. There were no unfunded commitments as of December 31, 2022 and 2021.

Payment of Benefits
Benefit payments to participants are recorded upon distribution.

Actuarial Present Value of Accumulated Plan Benefits
Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated participants or their beneficiaries; (b) beneficiaries of participants who have died; and (c) present participants or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included, to the extent they are deemed attributable to participant service rendered to the valuation date.

The actuarial present value of accumulated plan benefits (see Note 4) is determined by the Plan's independent actuary, and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts of interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial methods and assumptions used in the valuations as of December 31, 2022 and 2021 are as follows:

Actuarial cost method	Traditional Unit Credit method.
Discount rate	5.10% for December 31, 2022 and 3.70% for December 31, 2021.
Interest accumulation rate for cash balance accounts	4.75% per annum at December 31, 2022 and 2021.
Life expectancy of participants	For December 31, 2022: Pri-2012 employee and retiree tables, no collar, with generational projection based on scale MSS-2022. For December 31, 2021: Pri-2012 employee and retiree tables, no collar, with generational projection based on scale MSS-2021.
Conversions between lump-sum and annuity payments	The interest rates and mortality table for conversions between lump sums and annuities were updated to those required under PPA for lump sum payments in 2022 and 2021, respectively. For lump sum payments after 2022, mortality improvement was incorporated based on the MP-2022 improvement scale. For lump sum payments after 2021, mortality improvement was incorporated based on the MP-2021 improvement scale.

Retirement age	Employees were assumed to retire in accordance with the following assumptions in the December 31, 2022 and December 31, 2021 plan year valuations:

Age	Rate of Retirement
55-58	8%
59-61	9%
62	12%
63-64	10%
65	25%
66-74	15%
75	100%

80% of future vested deferred plan participants and retirees are assumed to start receiving benefit payments immediately while 20% defer to age 62. Current vested deferred plan participants are assumed to start receiving benefit payments immediately at age 62, or current age if later.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

3. Funding Policy

The Plan is funded solely through contributions by the Company. The Company makes contributions, which are determined on an actuarial basis, as necessary to provide the Plan with sufficient assets to provide for benefits to be paid to participants. The Company contributes amounts at least sufficient to satisfy the minimum funding requirements of ERISA and Section 430 of the Code. For ERISA funding purposes, the actuarial cost method employed is the traditional unit credit method.

The Company's contributions for 2021 and 2022 comply with the minimum funding requirements of ERISA. To date, there have been no contributions for the plan year ended 2022.

4. Actuarial Present Value of Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits as of January 1, 2023 and 2022 (the benefit information dates utilized for the plan years ended December 31, 2022 and 2021, respectively) are as follows:

	2022	2021
Vested benefits:		
Participants currently receiving benefits	$ 31,906,144	$ 36,793,367
Other vested participants	41,067,700	46,672,558
Total vested benefits	72,973,844	83,465,925
Non-vested benefits	-	-
Actuarial present value of accumulated plan benefits	$ 72,973,844	$ 83,465,925

The changes in the actuarial present value of the Plan's accumulated benefits for the year ended December 31, 2022 are as follows:

Actuarial present value of accumulated plan benefits at January 1, 2022	$ 83,465,925
Increase (decrease) during the year attributable to:	
Benefits accumulated and gains	799,317
Benefits paid to participants	(6,444,792)
Increase for interest due to decrease in discount period	2,969,011
Change in actuarial assumptions	(7,815,617)
Actuarial present value of accumulated plan benefits at January 1, 2023	$ 72,973,844

The actuarial present value of accumulated plan benefits at December 31, 2022 and 2021 were developed using actuarial valuations as of January 1, 2023 and 2022, respectively (the benefit information dates). The differences between the December 31, 2022 and 2021 and January 1, 2023 and 2022 valuations were not considered material. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

5. Certified Investment Information

The following is a summary of the information regarding the Plan as of December 31, 2022 and 2021, and for the year ended December 31, 2022, included in the Plan's financial statements and supplemental schedule, which was prepared by or derived from information prepared by Russell Investments Trust Company, the trustee of the Plan, and furnished to the Company. The Company has obtained certifications from Russell Trust Company, as trustee, that such information is complete and accurate.

Supplemental schedule: All investment balances and information included in the supplemental schedule of assets (held at end of year).

Note: All investment information in Note 6, Fair Value Measurement.

6. Fair Value Measurements

ASC 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value, as follows: Level 1, which refers to securities valued using unadjusted quoted prices from active markets for identical assets; Level 2, which refers to securities not traded on an active market but for which observable market inputs are readily available; and Level 3, which refers to securities valued based on significant unobservable inputs. Assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Asset Valuation Techniques — Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. Investments in common/collective trust funds are valued at the net asset value per unit ("NAV"), as determined by the Trustee on each valuation date, without further adjustment. The NAV is used as a practical expedient to estimate the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. There have been no changes in the methodologies used at December 31, 2022 and 2021.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another.

We evaluate the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2022, there were no transfers between the levels.

As of December 31, 2022 and 2021, the Plan's financial assets were all measured using NAV as the practical expedient. In accordance with ASC 820, disclosure of the fair value hierarchy is not required.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rates, market, and credit risks. The Plan limits its exposure to credit risk by diversifying its investments and monitoring the credit ratings of such investments. Market risks include global events which could impact the value of investment securities, such as a pandemic or international conflict. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the financial statements.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could be material to the financial statements.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Benefits attributable to employee contributions, taking into account those paid out before the termination.
2. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
3. Other vested benefits insured by the Pension Benefit Guaranty Corporation (“PBGC”) (a U.S. government agency) up to the applicable limitations (discussed below).
4. All other vested benefits (that is, vested benefits not insured by the PBGC).
5. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor’s pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan’s termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual’s monthly benefit that the PBGC guarantees. For plan terminations occurring during 2022 and 2021, the statutory ceiling was $6,204 and $6,034 per month, respectively. The ceiling applies to those participants who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Benefit improvements may not be fully granted even though the total benefit entitlements fall below the aforementioned ceilings.

Whether all participants receive their benefits, should the Plan terminate at some future time, will depend on the sufficiency, at that time, of the Plan’s net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Company, the priority of those

benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

9. Federal Income Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated December 17, 2020 that the Plan and related trust, as then designed, were in compliance with the applicable sections of the Code and is qualified as tax-exempt. The Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been recorded in the Plan's financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions. There are currently no other audits for any tax periods in progress.

10. Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan (i.e., parties-in-interest). Russell Investments Trust Company serves as the trustee of the Plan and is considered a party-in-interest with respect to the Plan. The Plan invests in common/collective trust funds that are managed by Russell Investments Trust Company. Transactions in these funds qualify as party-in-interest transactions which are exempt from the prohibited transaction rules under ERISA. For the year ended December 31, 2022, administrative expenses incurred for services rendered by Russell Trust Company totaled $366,483. Fees payable to Russell Trust Company as of December 31, 2022 and 2021 were $82,411 and $104,368, respectively.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Rationale for Economic Assumptions

- **Cash balance interest accumulation rate –** This assumption is based on the current crediting rate used by the plan.
- **Expected investment return –** This assumption is based on the median simulated investment return using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current asset mix. The expected return on assets assumption is net of an adjustment of 13 bps for expenses to be paid from plan assets.
- **Expenses –** The assumption is based on prior year experience, and adjusted if necessary, for significant changes in anticipated PBGC premiums for the current year**.**

Rationale for Demographic Assumptions

- Withdrawal rates, retirement rates and benefit commencement age assumptions were updated based on an experience study for the 2010 to 2014 plan years and the expectation that future patterns will be similar to the period studied.
- Form of payment assumption was analyzed and found to be in line with the current assumption based on an experience study for the 2010 to 2014 plan years and the expectation that future patterns will be similar to the period studied.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial methods for funding

Asset methods

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the prior valuation date.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts**: The plan does not have any insurance contracts.

Minimum funding methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Summary of major plan provisions

Effective date and plan year	Original plan: July 2, 1990. Restated plan: January 1, 2020. Last amended: N/A Plan year: January 1.
Status of the plan	All pension benefits, accruals, credits, compensation, and service are frozen at December 31, 2006 for non-grandfathered participants. For grandfathered participants, the freeze date is March 13, 2009.
Significant events that occurred during the year	None.
Definitions	
• Covered employees and Participation	An "employee" becomes a member following attainment of age 21 and completion of 12 months of employment during which 1000 hours is worked. An "employee" includes all employees of Saks Fifth Avenue except for (1) any nonresident alien with no U.S. source income, (2) any person covered by a collective bargaining agreement which does not provide for participation in the plan and (3) any leased employee. Notwithstanding the above, employees hired after April 30, 2002 are not eligible for the plan.
• Vesting service	Each year of service in which a participant completes 1000 hours of service.
• Compensation	Earnings are wages used for purposes of income tax withholding plus pre-tax contributions under IRC Sections 401(k) and 125 minus allowances, reimbursements, bonuses and incentive payments. Compensation shall not exceed the specified annual amount under IRC Section 401(a)(17).
• Accrued benefit	The accrued benefit is the benefit earned based on compensation and service through the date of termination.
Normal retirement	
• Eligibility	Normal retirement age is the later of age 65 and the earlier of date on which 5 years of service are completed or the fifth anniversary of the date a person becomes a participant. However, if an employee was a participant in the BATUS Retail Group Pension Plan with at least 3 years of service as of January 1, 1989 and was employed by Saks Fifth Avenue on July 2, 1990, normal retirement age is 65.
• Benefit	A cash balance design with the following key provisions: Opening Account Balance: Based on accrued benefit as of December 31, 1997. Benefit Credits: Beginning in 1998, benefit credits were provided for each year of vesting service through 2001, based on the following schedule.

Year of Vesting Service	Benefit Credit
1 - 2	2.0%
3 - 6	2.5
7 – 10	3.0
11 – 15	4.0
16 – 20	5.0
21 and over	6.0

Schedule SB, Part V — Summary of Plan Provisions

	Effective for participants terminating employment on or after May 1, 2002, the benefit credit is 2.0% beginning with the 2002 plan year. Effective December 31, 2006, only those participants who are grandfathered will continue to accrue benefit credits after 2006. A grandfathered participant is an active participant who has attained age 55 and completed 10 years of service as of January 1, 2007 and is a non-highly compensated employee. Effective March 13, 2009, grandfathered participants no longer accrue benefits for periods after March 13, 2009. Interest Credits: Based on 3-year treasury rates for the month of December preceding the Plan year but not less than 4.75%. Minimum Benefit: The benefit accrued as of March 31, 1998 under the prior plan design.
Early retirement	
• Eligibility	Early retirement age is the earlier of (1) age 55 with 10 years of service and (2) the age at which age plus service equals 65 with at least 5 years of service. Early retirement benefits cannot commence before age 55.
• Benefit	The benefit provided by the cash balance account or the minimum benefit, if greater. The minimum benefit is the accrued benefit as of March 31, 1998 educed 1/2 of 1% for each of the first 60 months and 1/4 of 1% for each of the next 60 months that early retirement precedes age 65.
Late retirement	
• Eligibility	Termination of employment after normal retirement.
• Benefit	A member receives an immediate annual benefit equal to the accrued benefit as of late retirement date.
Deferred vested	
• Eligibility	After 5 years of vesting service; effective January 1, 2008 after 3 years of vesting service.
• Benefit	Accrued benefit.
Pre-retirement death	The vested balance of the cash balance account is payable to the beneficiary.
Unpredictable contingent event benefits	None
Form of benefits	
• Automatic form for unmarried participants	Life annuity.
• Automatic form for married participants	A reduced qualified joint and 50% survivor annuity.
• Optional forms	Options available to members who retire under the plan include: • Life with 120 months guaranteed • Joint and 50% survivor • Joint and 75% survivor • Lump sum (not available to those participants who only have a minimum benefit).

Schedule SB, Part V — Summary of Plan Provisions

• Optional form conversion factors	For conversions from a cash balance account to a life annuity and for conversion to optional monthly forms of payment, the mortality table described in Revenue Ruling 2001-62 and the 30 year Treasury rate in effect for November preceding the plan year in which payment is made are used. For conversion of the March 31, 1998 accrued benefit to a lump sum, PPA required unisex mortality table and interest rates equal to the 3-tiered segment rates for the month of November immediately preceding the first day of the Plan Year during which the lump sum occurs.
Miscellaneous	
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415.

Benefits included or excluded

Unless noted below, all benefits provided by the plan, as restated and amended through January 1, 2020, are included in this valuation:

- **Most recent plan amendments included:** See above
- **Plan amendments excluded:** None**.**
- **IRC Section 436 benefit restrictions:** None.
- **Late retirement increases:**
  - *Active participants:* The plan continues to apply interest credits to the cash balance account for all participants who defer retirement beyond their normal retirement date and this valuation includes those increases. Participants with frozen accrued benefits as of March 31, 1998, are assumed to have received a Suspension of Benefits Notice and therefore are valued including a late retirement increase from age 70½ only. Notwithstanding the above, for participants who did not receive a Suspension of Benefits Notice between January 1, 2007 and October 13, 2011, a late retirement increase was applied for such period.
  - *Deferred vested participants:* Current deferred vested participants over normal retirement age continue to accrue interest credits on their cash balance accounts. Participants with a frozen accrued benefit as of March 31, 1998, are valued including a late retirement increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Schedule SB, Part V — Summary of Plan Provisions

- **IRC Section 436 benefit restrictions:**
  - *Unpredictable contingent event benefits:* None.
  - *Plan amendments:* See above.
  - *Prohibited payments:* None.
  - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan provision changes since prior valuation
