Garmin Retirement Plan Committee and Plan Participants
Garmin International, Inc. Retirement Plan
Olathe, Kansas

Opinion

We have audited the financial statements of Garmin International, Inc. Retirement Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the net assets available for benefits of Garmin International, Inc. Retirement Plan, as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis For Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditors' Responsibilities For The Audit Of The Financial Statements section of our report. We are required to be independent of Garmin International, Inc. Retirement Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities Of Management For The Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Garmin International, Inc. Retirement Plan's ability to continue as a going concern for one year after the date that the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditors' Responsibilities For The Audit Of The Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in the United States of America will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with auditing standards generally accepted in the United States of America, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Garmin International, Inc. Retirement Plan's internal control. Accordingly, no such opinion is expressed.

- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Garmin International, Inc. Retirement Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control related matters that we identified during the audit.

Supplemental Schedule Required By ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplementary information of Schedule H, Line 4i - Schedule of Assets Held at End of Year as of December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America.

In forming our opinion on the supplementary information, we evaluated whether the supplementary information, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying supplementary information is fairly stated, in all material respects, in relation to the financial statements as a whole, and the form and content are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The Garmin International, Inc. Retirement Plan (the Plan or Garmin Plan) is a contributory defined contribution plan available to employees of Garmin International, Inc. (the Company or Plan Sponsor), a wholly owned subsidiary of Garmin Ltd. The adopting employers of the Plan are Garmin AT, Inc., Garmin USA, Inc., Navionics, Inc., AeroData, Inc., and AeroNavData, Inc. (Employers). Garmin Ltd. and international subsidiary employees are excluded from participating in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan is administered by the Garmin International, Inc. Retirement Plan Committee (the Committee). The Committee has overall responsibility for the operation and administration of the Plan. The Committee determines the Plan's investment offerings, monitors investment performance and reports annually to the Compensation Committee of the Board of Directors of Garmin Ltd.

There are no age or service requirements to participate in the Plan. Employees may make deferral contributions and receive the Company match and base contributions on the first day of the payroll period that follows their hire date. Associates in the internship program are excluded from participating in the Plan.

Eligible employees may contribute up to 50% of their annual compensation subject to Internal Revenue Service (IRS) maximum limitations. Participants are allowed to designate contributions as traditional (pre-tax) or Roth (after-tax) contributions. The Company matches 75% of each participant's contributions up to 10% of the employee's eligible compensation per payroll period. Additional discretionary contributions may be made to all eligible employees of the Company.

Participants become fully vested in Company matching contributions after five years of continuous service. The vesting percentages are as follows: 0% through one year of service, 20% after one year, 40% after two years, 60% after three years, 80% after four years, and 100% after five years of continuous service. In addition, participants will have a 100% vested interest in their account upon reaching normal retirement age, upon death while still a participant in the Plan, or upon suffering a qualifying disability while still a participant in the Plan.

For the years ended December 31, 2022 and 2021, the non-safe harbor discretionary base contribution was equal to 2% of each participant's eligible compensation. Participants become fully vested in non-safe harbor discretionary base contributions and any other discretionary profit-sharing contributions after five years of continuous service. The vesting percentages are as follows: 0% through one year of service, 20% after one year, 40% after two years, 60% after three years, 80% after four years, and 100% after five years of continuous service.

1. Description of the Plan (continued)

The Employers made additional discretionary contributions (Safe Harbor base contributions) to the Plan during the 2022 and 2021 Plan years. For any Plan year in which the Employers elect to make this type of contribution it will be equal to at least 3% of each eligible participant's compensation and will be 100% vested at all times. Participants will be notified before the beginning of each Plan year that this type of contribution will be made. Eligible employees will receive Safe Harbor base contributions on the first day of the payroll period that coincides with or next follows the date of employment. Participants do not need to be enrolled in the Plan to receive safe harbor and non-safe harbor discretionary base contributions. Any other discretionary Company contributions to the Plan would be at the sole discretion of the Company.

The nonvested balance of terminated participants' account balances is forfeited, and such forfeitures serve to reduce future Company contributions and pay Plan administrative fees. The Plan used \$1,204,184 and \$1,021,027 in forfeiture funds to reduce Company contributions in 2022 and 2021, respectively. The Plan did not use any forfeitures to pay Plan administrative fees in 2022 or 2021. The Plan retained \$23,959 and \$19,943 in forfeitures as of December 31, 2022 and 2021, respectively, which is available for future use.

Each participant's account is credited with the participant's contributions, the Company's contributions, and the earnings (losses) of their account, and charged with an allocation of administrative expenses. Allocation of administrative expenses are on a per capita basis. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Under provisions of the Plan, participants direct the investment of their contributions into one or more of the investment accounts available.

Participants may borrow from the Plan in the form of a participant note receivable, which is limited to the amount the participant may borrow without being treated as a taxable distribution. The note receivable and any outstanding balance may not exceed 50% of the participant's vested account balance, not including discretionary profit-sharing contributions or merged Garmin International, Inc. base contribution balances, or \$50,000, whichever is less. The Plan's Loan Policy establishes the interest rate on Plan loans as the Prime rate plus 0.5%. Principal and interest are paid ratably each pay period through deductions from the participant's payroll. The vested account balance provides the security for the note receivable, and the participant's account may not be used as security for a note receivable outside of the Plan. Additionally, notes receivable must be repaid with interest within five years from the inception date unless the note receivable is used to acquire the participant's principal residence. The note receivable may be repaid before it is due.

Upon termination of employment with the Company, participants have various distribution options for receiving their benefits. If the participant's balance is greater than \$5,000 the participant may choose between a lump sum distribution or to receive payment in installments (monthly, quarterly, semi-annual or annual payments). If the participant's balance is less than \$5,000 a lump sum distribution is required. A lump sum distribution may be made in the form of a rollover IRA or cash. If the participant's balance is less than \$1,000 the lump sum distribution must be in cash.

1. Description of the Plan (continued)

On March 16, 2021 the Kruger Optical, Inc. 401(k) Profit Sharing Plan and Trust was merged into the Plan and assets were transferred into the Plan.

Although the Company has not expressed any intent to do so, it has the right under the Plan provisions to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their benefits. Additional information about the Plan and its vesting and withdrawal provisions is contained in the Summary Plan Description, Garmin International, Inc. Retirement Plan and the Plan document.

2. Summary of Significant Accounting Policies

The following is a summary of significant accounting policies of the Plan.

Basis of Accounting

The financial statements are prepared using the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 3 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2022 or 2021. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Administrative Expenses

Expenses not related to investment management and Plan administration are paid by the Company and are not included in the statements of changes in net assets available for benefits. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Certain investment management and administration expenses paid to T. Rowe Price, the trustee and third-party administrator as defined by the Plan, are included as a reduction of the net appreciation (depreciation) in fair value of investments.

Subsequent Events

Management of the Plan has evaluated subsequent events through the date which the financial statements were available for issue, which is the date of the Independent Auditor's Report.

3. Fair Value Measurements

FASB ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |

3. Fair Value Measurements (continued)

Level 3 One or more inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Plan's investments are stated at fair value. Following is a description of the valuation methodologies used:

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value per share (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Garmin Ltd. common stock: Valued at the closing price reported on the active market on which the individual securities are traded.

Self-directed brokerage accounts: Valued at either closing price reported on the active market on which the individual securities are traded or using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Common/collective trusts: Valued at the NAV of units of a bank collective trust or its equivalent. The NAV, as provided by T. Rowe Price, is used as a practical expedient to estimating fair value. The NAV is based on the fair value of the underlying investments held by the respective trust less its liabilities. This practical expedient is not used when it is determined to be probable that the Plan will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily, with no redemption restrictions or unfunded commitments. Were the Plan to initiate a full redemption of a common/collective trust, the investment advisor generally reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner. All of the common/collective trusts held by the Plan file an annual report on Form 5500 as a direct filing entity.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

3. Fair Value Measurements (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2022 and 2021:

	Investments at Fair Value as of December 31, 2022			
	Level 1	Level 2	Level 3	Total

Common/collective trusts measured at net asset value {a}:				<u>1,407,990,228</u>
Total investments at fair value				<u><u>\$1,627,956,751</u></u>

- {a} Certain investments that are measured at fair value using the net asset value per share/unit (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

There have been no changes in the valuation methodologies used at December 31, 2022 or 2021.

4. Income Tax Status

The underlying volume submitter plan has received an opinion letter from the IRS dated August 1, 2017, stating that the form of the volume submitter plan is qualified under Section 401 of the Internal Revenue Code (Code), and therefore, the related trust is tax-exempt. In accordance with Revenue Procedure 2015-6 and Announcement 2011-49, Garmin International, Inc. has determined that it is eligible to and has chosen to rely on the current IRS volume submitter plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code. As such, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

The Plan believes it has maintained its tax status and has not identified any tax positions which are considered to be uncertain. The Plan is subject to routine audits by taxing jurisdictions; however there are currently no audits for any tax period in progress. The Plan files income tax returns in the U.S. federal jurisdiction and is no longer subject to income tax examinations by tax authorities for years before 2019.

5. Related Party Transactions and Party-in-interest Transactions

Certain Plan investments are shares of mutual funds and common/collective trusts managed by T. Rowe Price. Investment management and shareholder servicing fees paid on these funds and all other funds to T. Rowe Price are recorded as a reduction of net appreciation (depreciation) in fair value of investments. The Plan also maintains an administration expense account that is funded by fees paid by participants. At December 31, 2022 and 2021, the Plan had balances available in the amount of \$86,825 and \$127,926 to pay future administrative expenses. The Plan made direct payments to T. Rowe Price as its third-party administrator of \$388,082 and \$338,658 for the years ended December 31, 2022 and 2021, respectively. The Company pays directly any other fees related to the Plan's operations.

Certain Plan investments are shares of Garmin Ltd. common stock. Garmin International, Inc. is the Plan Sponsor; therefore, these transactions are considered related party and party-in-interest transactions. Certain receivables are loans to participants, and therefore these transactions are considered party-in-interest transactions.

The above transactions qualify as allowable party-in-interest transactions.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

7. Reconciliation of Financial Statements to Schedule H of Form 5500

The following is a reconciliation of net assets available for benefits as reflected in the financial statements to the Form 5500:

	December 31,
