Independent Auditor's Report

The Employee Stock Ownership Plan Committee
Excel Machinery Employee Stock Ownership Plan
Amarillo, Texas

Opinion

We have audited the accompanying financial statements of Excel Machinery Employee Stock Ownership Plan, an employee benefit plan subject to the Employee Retirement Income Security Act of 1974 (ERISA), which comprise the statements of net assets available for benefits as of December 31, 2022 and 2021, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Excel Machinery Employee Stock Ownership Plan as of December 31, 2022 and 2021, and the changes in its net assets available for benefits for the years then ended, in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of Excel Machinery Employee Stock Ownership Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about Excel Machinery Employee Stock Ownership Plan's ability to continue as a going concern for one year after the date the financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the plan, and determining that the plan's transactions that are presented and disclosed in the financial statements are in conformity with the plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud many involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Excel Machinery Employee Stock Ownership Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about Excel Machinery Employee Stock Ownership Plan's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Supplemental Schedule Required by ERISA

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held for investment purposes at December 31, 2022 is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with generally accepted auditing standards.

In forming our opinion on the supplemental schedule, we evaluated whether the supplemental schedule, including its form and content, is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion, the information in the accompanying schedule is fairly statement, in all material respects, in relation to the financial statements as a whole, and the form and content is presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Excel Machinery
Employee Stock Ownership Plan

Notes to Financial Statements

December 31, 2022 and 2021

1. Description of plan

West Amatex, Inc. (the "Company") established the Excel Machinery Employee Stock Ownership Plan (the "Plan") effective as of January 1, 2009. The Plan was amended and restated effective as of January 1, 2014, and most recently effective as January 1, 2017. The Plan is a stock bonus plan and is intended to satisfy the applicable requirements of Section 401(a) of the Internal Revenue Code of 1986, as amended ("Code"), Section 4957(e)(7) and regulations thereunder. The Plan is administered by the West Amatex, Inc. Employee Stock Ownership Plan Board of Directors. The trustee of the Plan as of December 31, 2022 and 2021, is Neil Brozen, Ventura ESOP Fiduciary Services.

Although not yet formally amended, the Plan sponsor applied requirements for the Setting Every Community up for Retirement Enhancement (SECURE) Act of 2020 and the Coronavirus Aid, Relief, and Economic Security (CARES) Act at the respective effective dates.

In December 2009, the Plan purchased 500,000.00 of Company common shares using the proceeds of a new stock acquisition loan (Note 8). The borrowing is to be repaid over a period of twenty years by fully deductible Company contributions to the Plan. As the Plan makes each payment of principal, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulations under the Code.

The borrowing is collateralized by the unallocated shares of stock. The lender has no rights against shares once they are allocated under the Plan. Accordingly, the financial statements of the Plan as of December 31, 2022 and 2021, and for the years then ended present separately the assets and liabilities and changes therein pertaining to:

1. the accounts of employees with vested rights in allocated stock (Allocated) and
2. stock not yet allocated to employees (Unallocated).

Eligibility

All employees of the Company are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during each Plan year and are 21 years of age or older. Participants who do not have at least 1,000 hours of service during such Plan year or are not employed on the last day of a Plan year are generally not eligible for an allocation of Company contributions for such year.

Payment of benefits

The Plan is designed to encourage participants to stay with the Company until retirement. Thus, payment of benefits under the Plan is available upon death, disability, or retirement. Retired participants begin receiving distributions by the end of the year following the year of retirement. If, however, a participant who reaches retirement also has reached the 10th anniversary of the year in which participation commenced, distributions begin by the 60th day of the year following the year of retirement. If employment terminates for reasons other than death, disability, or retirement, participants are entitled to receive only the vested percentage of their account balance. Furthermore, participants terminated for reasons other than death, disability or retirement may elect to receive their vested benefit in substantially equal periodic installments over a period of five years commencing not later than one year after the close of the Plan year which is the fifth Plan year following the Plan year in which such termination occurs, subject to certain restrictions.

Under the provisions of the Plan, the Company is obligated to repurchase participant shares if the shares are not publicly traded or if subject to a trading limitation when distributed.

1. Description of plan, continued

Payment of benefits, continued

During the year ending December 31, 2022, the Plan made cash payments to separated participants for 4,109.6537 shares of stock at prices determined from the independent appraisal as of December 31, 2021.

During the year ending December 31, 2021, the Plan made cash payments to separated participants for 4,469.19 shares of stock at prices determined from the independent appraisal as of December 31, 2020.

Voting rights

Each participant or beneficiary is entitled to cast one vote on an issue and the Trustee shall vote the shares held by the Plan in proportion to the votes cast on the issue by the participants and beneficiaries. The Trustee is not permitted to vote any Company stock for which instructions have not been given by a participant or beneficiary.

Termination

The Company has the right to terminate the Plan at any time subject to Plan provisions. Upon any full or partial termination, all amounts credited to the participants' accounts will become 100% vested, and the Company shall direct the distribution of the assets of the Trust Fund as prescribed by the Plan terms and the Internal Revenue Code.

Participant accounts

The Plan is a defined contribution plan under which a separate individual account is established for each participant. Each participant's account is credited as of the last day of each Plan year with an allocation of employer contribution of cash, Company stock, or other property and forfeitures of terminated employees. Only those participants who are eligible employees as of the last day of the Plan year will receive an allocation. Allocations of such contributions are made to each participant's account in the same proportion that each such participant's compensation for the year bears to the total compensation of all participants for such year.

Vesting

If a participant's employment with the Company ends for any reason other than retirement, permanent disability or death, the participant will vest in the balances in his or her account based on total years of service with the Company. Participants who have at least one year of service vest 20% per year of service beginning with the second year of service and are 100% vested after six years of service.

Put option

Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Company can pay for the purchase with interest over a period of five years. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

1. Description of plan, continued

Diversification

Diversification is offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify receive a cash distribution and/or Company stock.

Allocations and forfeitures

Employer contributions and Plan forfeitures are allocated to each participant's account based upon the relation of the participant's compensation to total compensation of all participants for the Plan year. Forfeitures of terminated non-vested account balances allocated to remaining participants at December 31, 2022 and 2021, totaled $36,388 and $15,665, respectively. Plan earnings are allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances.

2. Summary of accounting policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Cash and cash equivalents

The Plan does not consider certificates of deposit or cash equivalent funds held in its investment portfolio to be cash equivalents.

Investment valuation and income recognition

The common shares of the Company are valued at fair value on December 31, 2022 and 2021. Fair value of Company stock is determined by an annual independent appraisal. Other stocks are valued at quoted market values.

Dividend income is accrued on the ex-dividend date.

Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported on the average cost method.

Operating expenses

All expenses of administering the Plan are being paid by the Company. Trust management fees are paid by the Plan.

2. Summary of accounting policies, continued

Payment of benefits

Benefits are recorded when paid.

3. Tax status

The Internal Revenue Service has determined and informed the Company by a letter dated March 4, 2016, that the Plan is qualified and the trust established under the Plan is tax exempt, under the appropriate sections of the Internal Revenue Code. Although the Plan has been amended since receiving the most recent letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

4. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

5. Administration of plan assets

The Plan's assets, which consist primarily of West Amatex, Inc. common stock, are held by the Trustee of the Plan. Other Plan assets include cash, cash equivalents, and mutual funds. Company contributions are held and managed by the Trustee, which invests cash received, interest, and dividend income and makes distributions to participants. The Trustee also administers the payment of interest and principal of the loan, which is reimbursed to the Trustee through contributions as determined by the Company.

Certain administrative functions are performed by officers of West Amatex, Inc. No such officer receives compensation from the Plan. Administrative expense for the Trustee's fees are paid directly by the Company.

6. Investments

The following table presents investments of the Plan.

	2022	2021
Investments in West Amatex, Inc.:		
Common stock - 357,989.3582 allocated shares, 142,010.6418		
unallocated shares (2021 - 334,801.9608 allocated shares,		
165,198.0392 unallocated shares)	$ 24,180,000	$ 24,460,000
Mutual funds and cash	2,355,427	2,550,054
	$ 26,535,427	$ 27,010,054

7. Employer contributions

The Company is obligated to make contributions in cash to the Plan, which, when aggregated with the Plan's dividends and interest earnings, equal the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. Employer contributions for each Plan year are determined by the employer. Contributions in the amounts of $826,069 and $858,293 were made for the year ended December 31, 2022 and 2021, respectively.

8. Loan payable

The Plan borrowed $1,875,000 from the Company on December 31, 2009, in order to repurchase 500,000.00 shares of stock directly from the individual stockholders. Unallocated shares are collateral for the loan and the loan, including interest at 4.17%, is due to be repaid over twenty years. The scheduled amortization of the loan for the next five years is as follows: 2023 through 2029 - $93,750 annually.

9. Related party and party in interest transactions

The Plan Sponsor is a 95% owner of Excel Machinery, Ltd., the operating entity under West Amatex, Inc. The Plan Sponsor is also a 95% owner of Crony Properties, Ltd., the property holding company under West Amatex, Inc. The Plan Sponsor is a 100% owner of Amar Management, Inc., the General Partner and 5% owner of both Excel Machinery, Ltd. and Crony Properties, Ltd.

The Plan invests in West Amatex, Inc. common stock and has indebtedness through December 2029 guaranteed by the Company. These are related party and party in interest transactions. The Plan has a number of service providers. Such providers are parties in interest under ERISA.

10. Fair value of financial instruments

The following methods and assumptions were used by the Plan in estimating its fair value for financial instruments:

Stock of closely-held corporation - The fair value of the common stock of the Company is based upon an annual valuation performed by independent certified appraisers.

Investments - The fair values of investments are based on quoted market prices.

Loan payable – The carrying amount approximates fair value since the interest rate is a fixed rate that is comparable to current rates for similar loans.

The framework for measuring fair value produces a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

11. Fair value of financial instruments, continued

Level 2: Inputs to the valuation methodology include:

-quoted prices for identical or similar assets or liabilities in active markets;

-quoted prices for identical or similar assets or liabilities in inactive markets;

-quoted inputs other than quoted prices that are observable for the asset or liability;

-inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at recurring fair value as of December 31:

	Assets at fair value as of December 31, 2022		
	(Level 1)	(Level 3)	Total
Investments at fair value:			
West Amatex, Inc. common stock	$ -	$ 24,180,000	$ 24,180,000
Mutual funds and cash	2,355,427	-	2,355,427
Total assets at fair value	$ 2,355,427	$ 24,180,000	$ 26,535,427

	Assets at fair value as of December 31, 2021		
	(Level 1)	(Level 3)	Total
Investments at fair value:			
West Amatex, Inc. common stock	$ -	$ 24,460,000	$ 24,460,000
Mutual funds and cash	2,550,054	-	2,550,054
Total assets at fair value	$ 2,550,054	$ 24,460,000	$ 27,010,054

The Plan's policy is to recognize transfers into and out of Level 3 as of the date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2022 and 2021, there were no significant transfers into or out of Level 3.

Following is a description of the valuation methodologies used for the level 3 assets measured at fair value. There have been no changes in methodologies used at December 31, 2022.

The Company common stock held by the Plan is reported at fair value based upon an annual independent appraisal. This appraisal was based upon an income valuation technique consistent with prior years. Some of the unobservable inputs include EBITDA, net income, debt-free cash flows, weighted-average cost of capital, and discount rate, among other relevant inputs.

11. Fair value of financial instruments, continued

The valuation process involves the selection of an independent appraiser. Plan management accumulated the data for the appraiser from historical and projected financial information of the Company. The appraiser prepares a report of estimated per share value that a participant will receive upon distribution. Plan management reviews and approves the appraisal report on an annual basis.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodolgies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

12. Reconciliation of financial statements to Form 5500

The following table is a reconciliation of the financial statements at December 31, to Form 5500:

	2022	2021
Net changes in assets available for benefits per financial statements	$ (380,877)	$ (910,425)
Classification difference of dividends	-	(2,261)
Classification difference of net unrealized appreciation (depreciation) of investments - common stock	-	2,261
Total per Form 5500	$ (380,877)	$ (910,425)

13. Subsequent events

Subsequent events were evaluated through July 25, 2023, the date these financial statements were available to be issued.
